

05 –ENACA PETITION – AIM OF CHRIST COUNCILS – GREAT DIVINE DIRECTOR 20TH JULY 2019.

Beloved and Esteemed Members of this Alliance, Dear Human Brothers and Sisters, Jewels of the Crown, I Aspire to Give you My Encouragement, My Strength and Energy today to Electrify you all into the Full Feeling of the Immensity of the Work which you are now moving very quickly into.

Oh, Beloved Ones of the Light, you have heard so often why there is the need of your Call to the Mighty 'I AM' Presence in Order to Give Us the Privilege of Releasing the Power and Amplifying your earnest and sincere efforts to go forth and do the Work required in the World, the outer as well as the mental and feeling world of mankind. Your Calls are showing Their Activity throughout the Earth, and now it begins its Expansion into the Outer Worlds far beyond anything you could ever imagine.

Although this is very admirable and one should not curb the Purity of such Intentions, it is also very wise, to not take action that has not been Fully Qualified on All Levels of Existence. For unless this is done, and all potentialities are considered, then one could fall into the trap of that which Beloved Lord Metatron has recently brought to your awareness'. He said in His last Discourse; *'Organismal, Community and Ecological Study -Structural Living Light Integrity – Lord Metatron 8th July 2019'*.

"Before I begin, I do need to give you something to think about, that will hopefully help you avoid the pitfalls of human consciousness, as it would, try to find a cognizant way of putting all these activities into any Circle of Synthesis that expands beyond any single Expression of a Living Organism.

"It is True that any human being upon the conscious Path of Ascension does not seek knowledge, either by study or meditation, simply for the sake of knowing. He or she realizes their place in the Whole, and strives forward one-pointedly, seeking only that knowledge which concerns itself with their own particular Field of Service. They seek only that which they can put into immediate use. This takes a lot of discernment and discrimination and often sacrifice, for there are many who read and study everything they can get their hands on with no clear purpose as to what they are doing and why.

"Needless to say, if a one-pointed focus is followed then it will cut out of one's life much in the way of non-essentials. Intuitive Recognition then must also have become a part of the Seeker's equipment, for it is extremely important in right interpretation. Any Truth, regardless of the Purity of its Source, is coloured by the State of Consciousness through which it passes; therefore the Seeker must first see to his or her

own mental, emotional and physical aura. What type and quality of Thought-form does he or she usually entertain? What does he or she consider as being Absolute Truth? What habit patterns of thought tend to distort Truth as it passes through them?

“Masters, could you but realize that all Truth is Simple? The mental body of most persons is so filled with complex patterns of thought that Truth, to reach the brain consciousness, loses its meaning as it passes through the maze of the individual’s thinking processes.

“All Truth loses some of Itself when clothed in words, but if properly understood as an Abstraction, before being clothed in Concrete Mind Substance, its reality will underlie the form. The form will be seen to contain depth, and the inner meaning will be intuited from within that depth. In order to accomplish facility in bringing down a concept or idea from Abstract Levels to Concrete Levels, one must first rightly interpret the Abstraction. One must understand it in its Abstract Sense, and this depends upon Right Alignment.” End Excerpt

The Greatest Privilege that is being offered here within such Councils of Light is the opportunities given, to look at all situations, all circumstances, all positive and negative potentials and how the consequences of any action, no matter how Pure the Intentions, would play out! This is the aim of any Christ Council Formation to come together to discuss and deliberate upon the subject matters that need such course of action. So this is why We are so inspired, stimulated and fervently Focused upon this Elemental Grace Alliance Council. For from its inauguration nothing has been activated unless the Full ramifications, understandings and potentialities have been first Evaluated Appraised and Agreed upon within a High Council of Unity Consciousness of Symbiosis or a Group Synthesis.

For this We are very Grateful!

So for all the wonderful expressions to find an agreement to look at this removal of all Radio Activity of the many forms it shall take, I wish today to place a focus here that has yet to be acknowledged, that of the Need for Radiation within the Human Evolutionary Divine Plan. For while Nuclear Radiation is frowned upon in many ways, due to its misuse and misaligned intentions, it does have a positive part to play herein.

Atomic Energy constitutes an Order or a level, however you would define it, of Devic Life. All Devic Life is under the direction of God Consciousness. The bodies, for instance, of all those who have taken the Fifth Initiation and above, are Atomic in

Nature. The effects of Atomic Radiation upon the Human Race, while in many instances will appear to be of a derogatory or harmful nature, nevertheless, are producing changes in the form aspect of itself, and in this sense this activity constitutes part of the Divine Plan for humanity. Unfortunately, it is working out through misuse in today's manufacturing and industrialized applications.

From a Galactic perspective, Stars are not the only source of Elements beyond Atomic Structure. Stellar Radiation and Cosmic Ray bombardment produce chemical and physical reactions. These Radiations may affect Members of any Planetary Family by generating Complex Organic Molecules from simple inorganic substances, giving rise to a vast variety of Intelligences. In cases where Earth Life has Evolved sufficiently, Radiation is necessary for the process of photosynthesis, from which All Higher Forms of physical life derive their Energy.

It is at this point that Life Intelligence must decide if it has the ability to become Identified with a Higher Evolutionary Star Seed Intelligence, such as the Adam/Lilith Kadmon Human Race within any neighbouring Star Systems and join in Co-Participation as a New Member of a Galactic Family. If it does this, it proceeds from its Parent Star, in this case the Great Central Sun of Alpha and Omega, to a Secondary Star, Our Solar Sun, Helios and Vesta, and into a Pluralistic Form of Galactic Creation of many Suns within this Milky Way System of Worlds; if it does not mutate into multidimensional Star Directions, its Evolutionary Path simply is dissolved.

This Integration of such Atomic Radiation, that are called photons, allows for an electromagnetic null zone that permits a new Genetic Mapping to take place. Simultaneously, this entire Re-Organization of a Human Race takes place through many combinations of Energy Waves of Light and Sound. As these Waves of Photonic Light Patterns and Harmonics are converted into the next wavelengths, the next Ordering of Evolution is sustained by Electromagnetic Radiation allowing molecular and cellular change to occur through transformation, transmutation and metamorphosis. Thus, in the interfacing of two Evolutionary Structures the 'capstone' of Higher Intelligence (*which contains the thought program*) interfacing with the 'cornerstone' (*where the activity is centred*) of a given Star Intelligence (*Adam/Lilith Kadmon Blueprint*) being reprogrammed, allowing for a space-time overlap (*i.e. the contractions of Time to revert from the Earth's Artificial Time Zone back to its Natural Time Zone as Metatron explains it*), so New Life changes can occur on the most basic atomic and molecular levels of humanity.

When atomic and molecular structures have been aligned in the same direction of spin and in parallel planes, a small part of the outer levels of the energy particle components spontaneously expand into overlapping orbital motions, that engulf whole Crystalline Grid Structures in their orbital growth. Thus, a New Threshold of Life is Created. This Key Principle gives the Macro and Micro Models interpenetrating themselves simultaneously!

In this transformation within mankind, human beings must sacrifice their 'I' of individuality for the collective 'I AM' to Ascend into God's Kingdom and surrender to the work of the Father first, above all else. Thus, your Luminous Consciousness, your 'I AM' Presence, attaches Itself to the Higher Intelligence. This Projected Focus of Light is the Pillar of Light of the Antahkarana, which connects your life, with the Life of the Masters, Higher Intelligences, Angelic Host, and Intergalactic Emissaries of the Light.

The Antahkarana is a Sanctifying Light Governing and Protecting the Actions of Spiritual Decision under the most Crucial Circumstances such as this very important focus of attention herein with the nuclear and chemical clean-ups. When one becomes totally aligned with their 'I AM' Presence, there is less need to have such discussions, for those within such Realms of Dimensionality never Create anything less than Perfection. And that is why We give so much attention to those Whom understand these Procedural Processes while holding all thoughts, words and actions within the Circumference of the Pillar of Light, Antahkarana or indeed we could also say Merkabah Forcefield.

Speaking of decision making, this seems a very good place to add an additional reference to Ashramic Life! I wish to discuss with you very briefly any Sphere of Influence, and the effect within that Sphere of Influence which is created as those within the Sphere wields the Energy of decision. Usually when one thinks in terms of their Own Sphere of Influence, they think in terms of those individuals with whom they come in daily contact, at least those with whom they do come in contact frequently.

This perspective is in fact very short sighted, indeed, for any Sphere of Influence includes not only all those individuals whose consciousness is within the same State of Growth as their own, but it includes also all of those individuals with whom they are related, both those who are below that Sphere of Consciousness (*apparently, so far as Evolutionary Development is concerned*) and those who are above their Sphere of

Consciousness (*so far as Evolutionary Development is concerned*) with whom they are related via the Ray Energies. This exercise is a very clear example of the latter!

I would have everyone who reads or listens to this to ponder this more deeply. Any Sphere of Influence includes their Ashramic Group Life, the Ray Group with which they are affiliated on Soul Levels. It includes all those individuals within the Body of Humanity who function on the same Personality Ray as does the Sphere. Those within the Sphere of Influence affects all those individuals with whom they are related via the Ray Energies. As the Group makes a decision, every action is the result of wielding the Energy of Decision, whether that action is a contemplated, premeditated act or whether it is a reaction which has been established within the response mechanism by a previous intent or a previous decision, so that the activity into which you enter in thought, in feeling, in word, and in deed, is a result of the Energy of Decision which that Group wields, and has its effect upon all of those within the entire Sphere of Influence.

The Disciple or Initiate learns to make a decision, or to wield the Energy of Decision, in accordance with the Greatest Good for the Greatest number, that is, considering the effect of this Energy upon all those who lie within that Sphere of Influence. Remember that the Greatest Good for the Greatest number always includes every individual concerned. It does not include the greatest number to the exclusion of a few, but it includes the Greatest Good of EVERY individual concerned. People will need to Learn then, to make their decisions from this perspective, from this point of view, taking into consideration the Effect of the Energy of Decision upon ALL of those lives which will be affected by it.

This is one of the techniques used by the Probationer Disciple as he or she is gaining acceptance within the Ashramic Group Life, one of the techniques which he or she applies as he or she Initiates him or herself into the Life and Affairs of the Ashramic Group Life; that every decision that is made must be the decision of the Whole. This will not be used by humanity as the whole until there is a Greater Understanding, a Greater Identification with the One Life. Even non-action is a result of wielding the Energy of Decision, for that Group has decided not to act.

I would have everyone realize one factor involved in the making of decisions to be carried out in the physical plane of affairs. A Master sees from a certain perspective which gives Him or Her an advantage in the making of decisions over the Disciple or Initiate insofar as the subjective is concerned. But there are many times when the Disciple or the Initiate is able to make a decision with greater advantage than the

Master, insofar as the physical plane of affairs is concerned. That is why, in decisions regarding the actual movement of Intelligent Activity in the Life and Affairs, the Master must always refrain from making the decision or unduly influencing it. As We have All seen here in this practical example just a few days ago, where The Maha Chohan was inspired by that of a Disciple/Initiate!

So Dear Hearts, with all this in mind above, with all the Grants and Dispensations that the Elemental Grace Alliance has received to date, and because it is working together as a Group Living Organism which is Over Lighted by all Seven Spheres or Rays, ANY Decision you make effects the Whole of Humanity, Indeed All Star Nations that are represented here! Under these conditions this is a First in the History of Mankind!

Now all this has been explained here, one can see how important all the little Step by Step Activations that the Elemental Grace Alliance have taken to date has achieved this, and why so many other groups upon the planet today, continue to flounder within the consciousness of old paradigm beliefs and programming!

Moving on..... to the 'I AM' Activity Students, I said this, and it applies equally to this Group Effort;

"The need of mankind today is so great, every possible effort Life can permit, is being made; and I know many of you have sufficient Release of Light, to understand the Import of My Words, and that which I shall do for you now! Remember, in all which is done, except in a few Activities of the Currents of Energy, you may, if you so determine, undo it; because you are the Authority as to how the Currents of Energy will Act. In the Service which has been rendered in Previous Classes in preparation for This, a few have determined not to give obedience!"

"They have made it impossible for Us to give them the Blessing, but that cannot be helped. It is the choice of the individual; but you, today, who are understanding sufficiently to know something of the Meaning of My Words, 'I AM' sure will not fail to give the Obedience to Life; which enables This Mighty Work to go on in Its Blessing, Its Perfecting Activity; for the Release of your America and the World from going thru the destruction which would destroy its people."

"That is why We have brought about such Powerful Means of reaching mankind; I want you to realize THIS is not an ordinary thing. It is a Mighty Activity of your own Life; Calling as the 'Call to Light,' indicates to you, for Its Freedom, not only Calling, but Demanding It and then putting it into Love and Service Into Action! How is it that Life can Demand certain things now, when It never has before?"

“Because of the Cosmic Dispensation which has been given. The Source of all Life to this planet has said, the Light must expand within the people on this planet! Since This Group of people has been chosen as the ‘Cup of Light,’ the Heart Focus for the Earth; you who are ready to give Attention and Obedience to Life, must be those thru whom This Light, First Expands! Its Radiance pouring forth in your Calls, touches the feeling world and activity of others of mankind.

“It would be almost incredible, if I were to state to you mathematically, the Power with which this ‘I AM’ Instruction does reach mankind. I mean by that, the Power of the Momentum which you have gained within this Class, especially. When you set ponderous machinery into action, for instance, in your electric plants for generating the power, for heating, lighting and all electrical activity, you must have things in order. If something is out of order, then the entire activity is held in abeyance; until it is put into order, so the whole may go forth in BALANCED ACTIVITY.” End Excerpt

One of the most important things right now is that Individuals do not accept that any condition, any outer appearance of a personal thing is Real; if they could Realize this, they could find their Mighty Freedom sooner than they could believe.

It does not matter what the condition of the appearance world is! It is not a matter of individuals or personalities! It is but a force acting through them, of which either they are unaware; or they have something in their feeling world, which makes them an easy instrument for its use!

The Simplicity of this, the very Simple Requirement of it, to allow the ‘I AM’ Presence to Act, is the reason why so many people fail to quickly grasp It. The human always tries to make things complicated, because of its lack of understanding. When the Individual Self Realizes there is only ONE SIMPLE THING NECESSARY, and that is to allow the Pure Energy to Flow forth to fill his or her mind, body, world and activity, then his or her Calls are fulfilled quickly. Then, each one will know to Call the ‘I AM’ Presence into Action and make the Conscious Effort to Control the Feeling, will enable this to be quickly done, to produce the Perfection he or she requires.

As long as ‘*The mental body of most persons is so filled with complex patterns of thought, that Truth, to reach the brain consciousness, loses its meaning as it passes through the maze of the individual’s thinking processes*’, the Heart of the Essence that allows one to work with Divine Will, will always be overridden by the ego personality.

As long as people listen to discordant things and destructive experiences, they will have them in their worlds. We have been holding this clarified intention repeatedly

for the Disciples and Initiates and Students alike, upon these more Simple Requirements; so they get the Full Understanding of their own Individual Requirements. It is necessary for ALL to do this; if they are to have the Perfection which the '*Presence*' wants to pour forth. Please remember, Dear Ones, your Higher Mental Body knows absolutely everything you require. It will produce it for you; because It has the Full Power of the Mighty 'I AM' Presence and does Wield the Full Power to produce any Requirement in your world; but It cannot and does not produce any destructive quality that may upset or create any further imbalances out of Its use!

This is the Foundation of this Discourse, so that All are aware that just removing something, may not be the entire story and indeed there may be facets of these things that are benevolent for the continued and fast tracked Evolution for Humanity here and ultimately for All other Star Nations involved within this Divine Creation.

As you enter the Conscious Pathway, the Higher Mental Body will not release Energy at any time to the Transmitter, who has come into the Knowledge of the 'I AM', to produce any destructive quality; or which It sees in Its All-knowing Power, would be used for destruction! When someone asks Me; How do people continue to do things which are destructive? I reply; because of the energy already called forth which is anchored in their worlds, and with which their feeling world is charged. When that energy is exhausted or removed, they cannot and do not go farther in their destructive activities. When they are exhausted or dissolved, if they do not know the 'I AM' Presence, they do not know how to replenish that energy. That is the lesson of mortality over Eternal Freedom!

To summarize, I wish to say that through this Alliance before any Clean-up work that has not yet been given the Official Authority to do so, must first determine what remains beneficial to humanity and that which remains detrimental to the Evolving Beyond the Evolution of the Human Race here into the New Adam/Lilith Kadmon Man and Woman.

To close I wish to offer to all Dear Souls who wish to accept this Gift with Open Hand and Heart!

I wish to place within the emotional bodies of Each Disciple, Initiate and Student alike, a Violet Disc of Light the size of a small dinner plate that shall rotate at varying speeds, drawing any discord held within the feeling world into it. This Disc shall act in the same way as the Violet Transmuting Fire and will automatically transmute such imbalances.

This will continue to spin Self-Sustained by the 'I AM' Presence, until the Full Embodiment of the Christed Self is Achieved or the 'I AM' Presence's own Discretion is to withdraw it due to anyone who may choose '*not to give their Obedience*'!

This will take place immediately for every sincere and dedicated person who gives their 'I AM' Presence their Obedience, and who will provide the necessary opportunities to Amplify and Magnify the Transitions now upon them for the next Levels of Their Higher God Life!

I Will also, at My Own Discretion, when his or her Resonance and Light Quotient has expanded beyond a certain Level, Envelop each one with a Fortified Threefold Flame, which I shall place around them, slightly larger than their physical bodies that will offer them the recognition, acknowledgment, respect and identification of what it feels like to Stand within such a Magnificence of the Three Fold Flame of their Own Christed Self, or Etheric Double, as some may call it! This will provide a much easier Reality to Visualize and Work in Alignment Be Coming One with It!

As the Manu of the 7th Root Race this is also within my Authority to Activate in the Divine Plan to set up All Actions that will bring about the Redemption and complete Purification of the Earth, setting all of mankind free, thereby providing a place for My Root Race to Embody and Complete Their Evolution.

You shall remember Peter, what I told you in My Discourse with you on the 19th July 2016. '*Elemental Grace Alliance – The Great Divine Director – The New Gatherings and the New Narayana Joy Akasha Sanctuaries and Temples (Pyramids) of Light 19th July 2016*'.

"I Am The Manu of the Seventh Root Race awaiting soon to enter the Earth within the Area you call South America. May I say here that the work of the Elemental Grace Alliance is imperative for Me to be a success, for without the Work Planned here, I will have to postpone the Entry of the 7th Root Race. So Dear Soul, I Am fully Engaged with All Aspects of this Alliance for ITS Success, no matter what!" End Excerpt

These are My Anniversary Contributions if you like, for as you have kept True to Your Word in All Your Efforts, so too 'I AM'!

Rendering The Reality of Greater Service, I Thank All of You Who have Stepped Forward to Honour your 'I AM' Presence.

'I AM' Master Rakoczy At Your Service.
