

## 12 – ENACA PETITION – GUEST SPEAKER – JACOBA – AT THE BEHEST OF MOTHER MARY 6TH AUGUST 2019

04 - Protecting The Future - The Elemental Grace Alliance Council – Archimus, Rosa And Jacoba  
- Galactic High Council Of The Pleiades For Earth And Human Affairs 7th July 2015

I Am/We Are Archimus and Rosa and We have stepped forward at this time to share our perspectives to this most enlightening blending of Earth, Humanity and Prime Creator Energies. It is a Joy to remember aspects of Our Evolution that We give very little energy to at all within these times of Our lives, for We live in total Harmony, Peace and Balance in every respect. Our homes and those family, friends and colleagues around Us are magnificent and delightful visions and beings that promote happiness every moment that fills the very Core of Our Heart Radiance.

Yet Our Evolution has not come from such a dense gravity of experiences, and We have not known of this Ascension Process as it is being described here. We see many similarities that keep Us very much aligned in human consciousness. However, it is very difficult at times for Us to relate to the profound magnitude of the seriousness of human history when it comes to the personal experiences, both individually and as a human race. Our Star Systems have not suffered in the same way as the Planet Earth and so what We have heard to date is truly eye-opening and mind-blowing, if We can use these terms, and is indeed allowing Us to gain far more understanding the plight that humanity has suffered over its billions of years of history. Our Hearts are aching with these thoughts and this is something We will most definitely bring up with Our Councils at Home when We return, for this shall give Us far more insight on how We can assist Humanity in Greater Ways of Service.

Our past has come from many different directions and although there have been lineages that connect with the Lyran and Vegan Constellations, They are not Our only Source of Ancestral Heritage and Family Tree. These are not important here as We understand the parameters of discussion within this Council, so We will refrain from speaking further of these things.

Instead it has been brought to Our attention that some time ago, back in the Earth year of 2007, Peter was contacted by one of Our Representatives from the Pleiades who requested to perform with Peter a very profound activation. This was the first time that this information was revealed to human consciousness and We are now being asked to bring it forward here to give it further Light as to its purpose and relevance to the present topic of *'Protecting the Future'*. This is not part of Our expertise and as We did indicate within Our introduction, We have those around Us Who We could call upon to share in a much more informative and profound way. So Beloved Members, with your permission We would like to invite and introduce a colleague to you, to speak of this

subject from a place of experience and knowledge regarding this particular aspect of activation.

*The Council Members give their permissions and Archimus and Rosa continue.*

We thank you for this permission and acceptance and so without further ado, We would like to introduce to The Esteemed Members of this Elemental Grace Alliance Council, Jacoba El Chai, Pleiadian Emissary of the Light and Member of the Galactic High Council of the Pleiades for Earth and Human Affairs.

*Archimus and Rosa step back and Jacoba steps forward to take His place in front of the Alliance.*

Esteemed Members of this Council, Beloved Peter, and All Who are Present listening to or reading these Discourses, I Am Jacoba El Chai and I have come at the behest of Our High Council through Archimus and Rosa to place upon the table of this Radiant Purpose of Intent with Our understanding of ancestral DNA programming that has affected humanity immeasurably through their historical past. Please allow me to get straight to the point while still embracing the vision of *'Protecting the Future'* for humanity and the Elemental Kingdoms upon Planet Earth for this subject is vital to its clarity and success of achievement as We believe it to be. It is good to be with you Dear Peter and a Joy to speak with you again! You will remember very clearly the content of Our meeting and so for the benefit of this Gathering I shall reiterate Our discussion that did indeed offer another potential in clearing the debilitating resonances of past programming through humanity's Ancestral Lineages.

To save the future, one must take into account the relevance of healing and making Whole again. Very much in the same Light that the Salvation of humanity and the world shall pertain to the release of everything within their holographic and morphogenetic programming that no longer serves them. Today I wish to bring into awareness an element of the past that continues to override the advancement of humanity into Greater Consciousness. It is the root of all fear on the planet and it has been around since the fall of humanity on Earth. This is what We call the KARMA OF MEMORY. Allow Me to elaborate on what I shared with Peter in Our meeting that faithful day in 2007!

This Karma of Memory is deeply embedded into humanity's cellular structure, and so acutely and so powerfully, it has become a programmed condition and attribute or feature that is so widespread it is totally now a sub-conscious part of the human psyche. This core of human nature, since the fall of man, is now so hidden from the conscious mind, yet so obvious to the seeker of Truth at the time it is brought into their awareness. Never has it been more appropriate to reveal than now as humanity stands upon the abyss of this giant chasm of Conscious differentiation, between humanity and the Elemental and Nature Kingdoms.

Like all karma, it must be acknowledged, forgiven and released at every level of evolution that it has been held within. This karma is the basis of all reflection, all thought and belief structures in every way, and held within all memory cells of the body, programmed into the DNA of mind, body and Spirit related to the lower bodies.

It is not generally recognized that memory is a form of karma or a pattern of any karmic nature and before this time, few would even consider it as such. However, like all karmic attributes it is necessary as part of the Universal Plan that pertains to the Law of Every Action has a corresponding Reaction. Times are changing and like so many other karmic characteristics, the energies of rejuvenation, regeneration and recalibration are now open to consider more thoroughly for Divine Freedom through the emancipation from old human constraints.

If one did not have memory then all negative traits and all programming, all negative characteristics of human beings would not ever come into play. They would never have been created in the first place. Memory is the root of all these results at a physical level of evolution, the cause if you will, that retains and diminishes the rate of growth dramatically, sometimes as We have heard within this Council's discussions, to the point of complete annihilation of species. It is the basic Primitve Cell Imprint that has created all fear-based patterns of life upon Mother Earth, animals included, as they are the direct reflection of and to mankind's consciousness.

One would never have considered this to be such a powerful foundation, but it is the construct and the source of all deprivation, pain, loss, lack, anger, hate, illness and all the many other fear-based constructs. We indeed could go on for centuries with the stories of this Karma of Memory, as it has done already, but the time is now to ear tag it for release, just like all the other constructs that have kept mankind slaves to the powers that hold the keys to the implantation of Karmic Memory. Each generation in every culture, race and creed of mankind has reinforced this, anchored it deeper and deeper into the psyche and cellular self of human biology and no man or woman at any time has ever incarnated upon this planet that has ever been without this programming. Even Beloved Jesus had to rise above this aspect of '*karmic memory*' before He could finally achieve His Ascension. We refer to this as a KARMIC CELL MEMORY CORE because it is the foundation of all other Primal Cell structures within the genetics and DNA programming and encodements of humanity.

Even in the times of Amazonia, Lemuria, Atlantis, and within the times of the Mayans and the Egyptians, even primitive mankind as you know them, such as the Neanderthals, everyone, the memory core of all fear, pain, hurt, lack and negative programming has its origin in this Memory Encodement System. Its origin began pre-history from other Planetary Star Systems and were implanted here and has very much been a method used to hold humanity back with intentions for them never reaching

Their I Am Presence. The heart of this Memory Cell is held within the brain stem where all memories are also held relating to the Reptilian Races. From this Core placement it then radiates by means of Energetic Matrices that encompass every cell within the biology and from there out into the other lower bodies of mental, emotional and ethereal auras.

This ancestral memory core through lifetimes of reinforcement, genetic refinements and deeper anchorings over the past millions of years, is now asking for eradication and the complete removal from human expression and life as part of the old consciousness.

Within the New Erthe, memory is not required for the Spirit is All Knowing, and this All Knowingness allows the information required at any particular Now Moment to just appear. No memory is necessary, it is not even a matter of recall, it just IS! It is part of the Oneness of the connection and unification of the All That Is with Mother/Father God.

This is not about *'not remembering'* certain aspects of one's life, good or bad, positive or negative, for all is within the Unity Consciousness of Oneness of 'Simply Is'. From this perspective however, such reference points are just that, points of orientation and not places where one needs to be attached and rooted into the emotional content and events of those times. This is about human growth without the holding onto energetic ties or hooks that holds one tethered to the past.

There is also an aspect of this interwoven into the life and death of human beings through incarnation. One could ask the question; Why is the memory of past lives always erased from the memory recall of previous incarnations? The answer may be that if this memory, although actually not erased, simply was not made available for conscious recall, was to be made available to individual human beings, because it would only lead to deeper despair, greater rifts between them and their God Selves, probably resulting in complete self-annihilation, which would encompass even greater karmic liabilities for them.

The memory of past lives is indeed withheld from human incarnation to allow humanity, both individually and collectively, to expand, based on their present life conditioning that pertains to genetic programming. This way they have the tools available within them to discover consciously through experience, their way to Higher Consciousness. Although this does indeed take eons of lifetimes, with an end Self-Realization where The Light and Love of God can free them from the restraints of the Wheel of Karma.

Like all healing within the human race this is never about the individual it is always about the whole, and that which one does for oneself, they also do for the whole of the human race. Life is not isolated nor separate, so it will be no surprise to you, for Me to tell you that indeed Beloved Mother Gaia also holds these Primal Memory of Karma Codes energetically within Her and which are embedded all over Her surface. These are the

places that humanity have lived and died, committed the atrocities and destructions which they have left behind in their wake. These are the holographic fields that have tainted the Earth's resonant vibrations and these frequencies of thoughts, words and actions must also be cleared, cleansed and dissolved, if humanity is to succeed in his/her quest for Sovereignty.

I do not wish to expand on this further for it is another part of what I Am sensing will surface through other Member's Discourses here. However, just to complete My Presentation I wish to cover a few more aspects of the attribute of Memory. It is timely now for this Primal Cell issue of Karmic Memory to be released. Everything that you require to do this, is at the moment being prepared. All Energy Fields require alignments, balances, blending and encodements for this release to take place. The process is simple enough, however, humanity may find the application and desired achievement more difficult than might be expected, for the Primal Karma of Memory is deeply embedded in their biological natures. Its intensity will call upon all their strengths of unity and assertiveness. Their Power and commitment, Knowledge and steadfastness will secure the result. That is why mankind is being informed of this element of their lives within these days for transmutation.

The PRIMAL CELL OF PLANETARY AND HUMAN KARMIC MEMORY is something not to be taken lightly and will take some deeper awareness and knowledge to achieve. It will be a part of the ancestral lineage clearings that will be undertaken to fully align to The God Within that have been shared prior to My Address.

This release is about forgetting everything that mankind has ever been taught, it is about the memory of humanity as a personality, that is no longer pertinent to Who They Are Becoming. It is about releasing the hooks and energetic ties at the deepest levels of human DNA where the core of these patterns lay! This is the first time in the history upon Earth that this has ever been conceived of on this scale of transformation. Time is a most incredible paradigm when it comes to experiencing the realms of the physical vibration. But it must be remembered that time and physical vibration are inter-connected, and one cannot be separated from the other, not in the traditional sense. Yet it is this tradition of how things have been that is now opening to Greater Levels of Awareness that will transcend all traditions, conventional thinking and confirmative natures of humanity. This means that patience will be called for and of course the true aspect of Faith in the Eternal Program of this Divine Plan. So, Trust is indeed the signature of these times of release. Trust that all is well, Trust that the God Within Is in absolute control of the outcome and Trust that you are The Son/Daughter Light as The Children of God.

So here We are, humanity has arrived at this place that you have asked what is it that you are stuck upon and unable to release at this time. There is the question of how

humanity can more consciously and Open Heartedly communicate and connect with the Elemental, Nature and Angelic Kingdoms. How then do you bridge this gap of consciousness? It is Our understanding that the release of this Karma of Memory would instantaneously pave the way toward this attainment. So, We will ask for this to be given due diligence and deeper consideration to determine whether it would indeed be worthy of one's consideration to achieve Divine Union with the All That Is. It has been a very humbling experience for Me being here. I Am extremely grateful to Peter, Archimus and Rosa and to All Those Who Are Gathered in the Name of God The Mother/Father for The Elemental Grace Alliance Council to exist. I see huge merit in its contribution to humanity and to the Elemental, Nature and Angelic Beings. Bless you for this Audience!

*Jacoba steps away and Archimus and Rosa return to close Their Address.*

We return now and thank Jacoba for sharing His Knowledge in this area of humanity's welfare according to Our involvement and understandings that relate to Human Evolution here on Earth. We have hundreds of thousands of Our people presently incarnated upon the planet and it has been within Our interest also for millennia to earnestly monitor, evaluate, analyse and work with all the attributes of human evolution. It has been a grand experience and one that We very much look forward to having come to its conclusion upon Earth with Radiant Joy and Happiness for everyone concerned. We Know Mother Earth is soon to make Her enormous Shift and We applaud Her for All Her Love, Devotion, Nurturing and Compassion that She has given All of Life who have lived on, within and around Her.

Thank you all for listening, We shall return to Our Seats in deep reverence and gladness in Our Hearts. Blessings of Love to All!
