

## 13 – ENACA PETITION – KEEP ON KEEPING ON – SOEPC, 8TH AUGUST 2019

Esteemed Members of this Alliance, the time has come for the unascended Dear Souls of the Sun Of Even Pressure Council to address this ENACA Council. We Stand before each and every one gathered here, including all those Dear Intergalactic Emissaries of the Light who may be reading or listening to these Discourses. Although, in the Purity of our Intentions, we would have had you represented within this Council, however in hindsight, due to our levels of awareness at this time of the Highest Truth, it is clearly comprehended now, that in order to have defined and refined the Truth of the Purpose of this Petition, events needed to take the direction they did! We Pray this is accepted in Good Faith that we, the unascended contingency, have Honoured All Beings within the Highest Truth.

Today, we not only stand before you as One United Voice through the SOEPC, but as Ambassadors for the Whole. We stand not only for the Human Race here upon Mother Gaia, but also for All Human Races within All the Star Systems Who have the most benevolent Investment of Energies for Advancement of each Star Human Race.

As this is possibly the penultimate Discourse within this Round of Discourses, that shall pertain to this Petition for the Grants which shall be defined herein, we specifically turn now towards Beloved Lady Portia, Who as the Goddess of Justice and The Goddess of Opportunity, and as the Divine Representative of the Karmic Board of Directors, Who shall in turn deliberate upon this Petition and Deliver Their verdict as to acceptance or the rejection of it. We shall now put forward our summary of why we believe these Petitions should be Granted. Thanking you all in advance for listening to our presentation here.

What began as an effort by unascended human Souls to clean up Nuclear and Chemical Waste around the World has expanded itself to include certain types and levels of technology. In the typical human experience, where we turn to technology for help, there is the potential to turn away from the *“Application of Life”*. Our great opportunity and our great challenge, within this human Experiment, is to Embody what it is to be a Living Organism; and not all technology is benevolent to this end. However, our focus upon becoming a Living Organism has begun, and the awareness of what is beneficial and what is not, requires greater diligence on our part to Qualify. We, who are Understanding what it is to BE a Christ Council, are now holding the presented Visions within the horizons of Our New-Found Awareness. As Human Angels Re-Membering Our Source, with feet on the ground, continuing to navigate human creations, we still have some work to do within our focus of attentions and Application of Our Energies.

And yet, how much has the direct experience for humanity begun to reveal? One could say, it is indeed great!

This 'free-will' region has empowered the forces that continue to hold onto their determination and tenacious indignation to remain as the power elite. The Divine Charter for this region has allowed this to happen. The Beauty of this unfolding is that the Vision to *"keep on keeping on,"* while remaining fully cognizant of the Cosmic Laws that Govern this World and Holding True to the Application of such Laws, is now a materializing Reality.

Beloved Serapis Bey has surfaced the opportunity to share the benefits of this unfolding Plan through this unascended Human Endeavour amongst the Members of the Galactic Federation. And within that same sharing, He reminded us of the *"correct channels"* that must be followed to access His Ascension Temple. As an effect of physical materialization, technology forms no part of these 'correct channels'; only Cause can be Dedicated and Consecrated to this Self-Realization.

As Beloved Saint Germain has reminded Us, from a Christ Consciousness perspective, this is rather an unusual situation. What could be said to *"break the Cosmic Laws in many ways"* is the Brilliance of a Divine Plan unfolding so that the Prime Creator can Expand Itself in New and Wonderful Ways. If any Experiment is to truly succeed and prove its *point (in this case, that the Human, in the Image of God can Re-Member, even in a state of forgetfulness in a river of emotional storms that create veils the like of which show the very Creative Power of forgetful unascended God-Creators)*, then it must be allowed to unfold. Our Task has primarily been to Observe, take measurement, Act in Accordance to God's Power, Will, Truth and Wisdom, and allow Impressions of Higher Intelligence Thoughtform by Shamballa, Hierarchy and Humanity to come when times have waivered in our confusion or mental old paradigm beliefs and programs. But the Desire for Perfection is ever at the Heart of All That Is along with Ourselves once that Knowledge, Practice, Familiarity and Know-how has been Qualified within the human experience.

Thanks Be to God, The 'I Am' Presence within Us, for this unfolding for Perfection. Already we have had an expanding Qualification remind Us of so much. Saint Germain Stated that, *"The New World Servers upon the Planet today are being Guided not to intervene or get caught up in any sort of consciousness that shall hold themselves within any sort of incarnational loop of any fixed Mind Consciousness."* Settling for anything that fails to surpass the first Nine Dimensional Realms is simply not possible. For this to be possible would suggest the Divine Plan was flawed, a Divine Plan that Beholds the return of Human God Life forgetting Itself from the lowest Dimension back

to the Twelfth. Thankfully, this Council is a reflection of unascended Human Beings choosing to listen to Our Counsels, which essentially continues to be a paraphrasing of the following: *"We would advocate that each one of you continue to Work upon your Vibrational Frequencies and Light Quotients, so that such technologies will no longer be required within this Ascension Program for Human Life here on Planet Earth."*

'I AM' Grateful that Saint Germain stands firm. The release of millions of pounds and dollars would be wasted without the Resonance to ensure the Correct Application of Life. Like a deluge of effect, money poured into an unprepared and un-Initiated Living Organism, would likely drown those involved; and this We cannot allow! Even now, the awareness within unascended Human Beings is beginning to UNDERSTAND that, *"The success of physical Life is beautiful, most worthy; but the Perfection of oneself is a thousand times more valuable than all the wealth one can accumulate about them."*

This Human Experiment is starting to show signs of an Awareness that the 'Law of Life' will produce Success because they are beginning to allow the 'I AM' Presence to direct them into Perfect Activity. They are beginning to understand the Heart of the EGA Divine Plan. Until they have fully realized that, *"everything they are, ever hope to be, or have, must come through their feeling world"*, that they must learn how to Consciously Commune, and Co-Create with the Angelic and Devic Kingdoms; unless this is done, then this Human Experiment will not be complete. This cannot happen until they have Mastered the Life-Stream that causes 'Feeling' to BE. The only way for this Mastery to unfold is through Direct Experience and proving to the 'I AM' Presence by each individual that they indeed can be Trusted. With such Trust, they will graduate from the High School of Duality and be ready to start their Studies to become Masters of Compassion in the Cosmic University.

The Maha Chohan has reminded Us that it is the inability for humans to see beyond their own human difficulties that drives them. How wonderous is the Divine Plan that causes these aspects of humanness to keep looking for solutions. *The 'Principle of Pain'*, felt within the emotional body is indeed a potent teacher. In of Itself, this is a major contributing factor in their inevitable drive to transcend the inability to see beyond their own human difficulties. It is this very Paradox that has yielded so much to the Observers of this Human Experiment; this might be considered to be the Essence of Humanity Expanding Itself in the Fullness of God Life.

This Council has already witnessed Realization concerning the need for Education of the 250,000 Star Nations. If this Human/Master's Alliance Council accomplishes only one Realization – that the Sphere of Observation needs to be expanded from the Spiritual Hierarchy to include these Star Nations, for the benefit for such Advanced Civilizations

to learn more of Who They Are, for the Refinement of the very Human Blueprint Itself to Enhance Existence – then It will have served a Grand Purpose.

And yet, this extension to include the topic of technology within this Council has not occurred by accident. It was required so that the understanding of what technology is, represents, and can create, could be brought into conscious awareness. This Self-Realization must be coupled with the understanding that the only acceptable premise for the use of technology, concerning Earth's Nuclear and Chemical Affairs, must evolve toward its' dissolution as humanity steps further into their own God 'I AM' Presence.

In Discourse 3 the Maha Chohan posed two questions for consideration.

*“Would humanity not benefit in the long term to see that their efforts in cleaning up a certain amount of such things as Nuclear fallout, radio-active contamination or chemical destruction?”*

*“Would humanity not be inspired to stretch their rubber bands to breaking point, if they saw with their own eyes that their Invocations and Decrees were actually making a difference?”*

Any benefit in the long term cannot interfere with the reconciliation of the various bodies in the Work of the Infinite Way. This includes the fragility of humanity coping with life's challenges even as the seed program (Alpha) and the harvest program (Omega) converge into this scale of human temporality, and specifically into the Interplanetary Exchanges of Knowledge and Experience. The Work of the Order of Melchizedek, *“to Know One's Identity in the Higher Worlds as a 'Volunteer' with the Abilities and Gifts to help train All Light Movements, Denominations, and Dimensional Perspectives to Work in Co-Ordination and in Unity with the Father”* must be factored into this Petition. Any implementation of technology ultimately reflects a use of an effect (technology) treating Cause, and thus must work in Co-Ordination and in Unity with the Father. In addition, benefit to humanity, in the cleaning of a certain amount of contamination or destruction, must encourage the Development of Unique Gifts and Resources for the Collective Welfare of the people.

However, it is not humanity alone that factors in this consideration of the artificial transformation of Atomic Energy. In the Great Divine Director's Sharing, concerning the Evolution of Devic Life, it was made clear that such changes of Nuclear and Chemical fallout would produce changes in the form aspect of itself, thus interfering with the Divine Plan for humanity. This use must consider the Greatest Good for EVERY *Life Stream* concerned.

If the human experiment includes the Revelation of allowing God's Pure Energy to Flow forth through humanity, then the journey to embodying the Conscious Effort required to Control the Feeling must not be disrupted by the use of technology. As Resonance elevates the experience, to put it bluntly, gets simpler, by the very nature that the duality of fear and Love are ultimately Resolved into Love.

Humanity's Higher Mental Body knows everything required. Any use of technology carries within it the risk of short-circuiting the Truth that everything required is already contained within the Higher Mental Body. While none here need to be reminded, that what might stretch the rubber band might also break it without the 'I AM' Presence Qualified Due Diligence, this must for the sake of completeness be stated. The measure to which this allowance is diminished will correspond to taking away from the Application of Life and the direct experience of allowing the 'I AM' Presence to Act.

From the Elemental Perspective We must remember that any interruption of Evolutional Procession on the part of humanity would interfere with the Potential of how Humanity shall Consciously Co-Create with the Elementals in the Golden Age to come. It is humanity who must direct their Invocations and Projections of opportunity within the Golden Age from within their own Inner Individualizations of the Expressions of God Life when using the Elemental Supply.

Through this, We are confronted with a historical context. Lord Michael stated that, *"The Messiahship of Christ and the Messiahship of Myself are intrinsically United; even though Christ Jesus and Christ Michael are two unique Aspects of the Living Godhead, serving the Holy Father, My Position is to Protect and Preserve the Seed of the Divine Family (the Adam/Lilith Kadmon Divine Seed) from the fallen hierarchies in the lower heavens. These fallen hierarchies are the chief Lords of Light who rebelled against the Father and who have the collective power as the local hierarchy to prevent Spiritual Evolution on this Planet. You call them the Illuminati and the Cabal!"* It is proposed that countering the efforts of the fallen hierarchies through the use of technology could, with the Correct Understanding and Consideration, offer an avenue and opportunity of Karmic Adjustment. It goes without saying that if technology is to be used, it should support a wider Realization that war, control or suppressive machines and machinations, exploration beyond one's own ability to first be able to successfully Live within one's own immediate reality (space travel and the colonization of other planets etc), to internet devices and addictive programming, artificial intelligence and technology that moves humanity away from self-empowerment or Mindless application are to be things of the past.

Any use of technology cannot result in the leaving behind of any part of any Soul Parent through attachment to those technologies. The Paradox of any use of technology by humanity would be the extraction of part of themselves away from themselves. Even turning to Those outside of the current planetary scheme would only incur further Karmic imbalance, that would have to be Resolved in some way.

Beloved Jesus stated the following. *“You have before you a crossroad that faces humanity! One Path leads to a planet that will succumb to technology and thus will lock humanity into a virtual reality that shall be one of the hardest addictions to ever escape from. The other is one where the use of technology shall allow for the expansion of consciousness whereby that technology will dissolve and be surpassed by God Consciousness within the Higher Octaves of Christ Consciousness.”* With this understanding, it becomes clear that any use of technology must allow for the expansion of consciousness whereby that technology dissolves and is surpassed by God Consciousness within the Higher Octaves of Christ Consciousness.

There may also be an opportunity concerning the omission of the Divine by mainstream academics in the present. On one hand, there could be benefit from bridging the mainstream separation of Science and the Divine. On the other hand, a dramatic stirring might create fractures in many emotional bodies. Perhaps the use of technology might also form a gentle foundation to begin building a bridge between Science and Spirituality.

Given the sharing of Beloved Mother Mary, along with the reminder of Jacoba’s previous Sharing, this New Petition should also receive a Grant to clear, cleanse and release all Human and Planetary Karmic Memory, particularly that of fear! Our Dear Sister has requested that, *“Not just those who join and undertake this Light Activation as a Member of the Elemental Grace Alliance, but EVERY human being here now and who shall Be Come into incarnation from this time forward! I desire that all addictions, no matter what they may be, in life now be cleared from human life, to allow ‘The Joy and Power of New Beginnings’.”* In addition, this Grant should cleanse those places upon Beloved Mother Gaia where humanity have lived and died. Whatever the Decision, Jacoba has shown us that, *“This release is about forgetting everything that mankind has ever been taught, it is about the memory of humanity as a personality, that is no longer pertinent to Who They Are Becoming. It is about releasing the hooks and energetic ties at the deepest levels of human DNA where the core of these patterns lay!”*

Dispensations that We are including within this overall Petition.

1. *The Cleaning Up Of Nuclear Fallout And Chemical Waste Dispensation.*

2. *The Universal Ambassadors Educational Dispensation.*
3. *The Ascension Flame Dispensation (The 144,000 Seeds Of The Adam/Lilith Kadmon Man And Woman Dispensation).*
4. *The Removal Of Planetary And Human Primal Karmic Cell Implants And DNA Programming Dispensation.*
5. *The Dissolution Of Technology That Shall Suppress Humanity Within Any Sort Of Delayed 'Incarnational Loop' Of Any Compartmentalized Mind Consciousness Dispensation.*
6. *The Time Contraction Dispensation.*

In closing, the unascended Dear Souls of the Sun Of Even Pressure Council hand this over to Lady Portia to Qualify and Deliberate upon. In our limited awareness there is much to consider in what has been presented. And yet, this expression in of Itself represents what it is for Those both With and without the Eyes to See the Fullness of All That Is. A New Seed of Consciousness has been both planted and has begun to Sprout. Whether Its growth will mature is for the Karmic Board of Directors to Determine. We Pray the Purity of Our Intentions are the Root of this Growth and We Give Thanks for the Expressions from amongst the Seven Spheres that continue to Support the Full Qualification of this Petition on All Levels of Existence.

'I AM' the Sun Of Even Pressure Council in Service to Humanity, the Angelic and Elemental Kingdoms, and the Elemental Grace Alliance Divine Plan.

Thank you All for Listening.
