

Two Parables, Aspiration and Physical Ascension - St Germain, 7th January 2023

Dear God I Am, Holy Incorruptible Spirit in Matter, of Infinite Speed, Who Is Everywhere and in Everything.

*As I Reflect upon the year 2022, and consider what 2023 may bring, I would like to hear an update from St. Germain or any other Ascended Master, from the Higher Perspectives and Awareness for this EGA Divine Plan please. Especially, at this Full Moon's most pivotal moment to begin this New Year Period of 2023, in terms of the Elemental Grace Alliance, disseminating, either partially or preliminarily, the **'True Constitution' and 'Declaration For The Freedom Of Humanity'** information into the world for Greater Awareness. I am becoming more consciously aware of how many people around the world, are speaking and feeling the depths of their own despair, and who have their virtual reality coming to the point of acceptance that the world has gone past the threshold of no return. In other words, that humanity will have to accept that it is too late to find their own Divinity in Sovereign Freedom, with or without their perceptions of what God or Jesus The Christ may be. And I am not speaking here of those who do not believe in God, Jesus the Christ or Soul at all! Rather, those who are speaking out against the tyrannous establishments, who seemingly, in more concentrated efforts and announcements, strengthening even more their strangleholds upon humanity.*

I Seek Divine Clarity and indeed some Direct and Tangible Instruction, as Part of the Dispensation Granted to the Elemental Grace Alliance, please.

'The Official Grant for the Acceptance of The Cosmic Laws to Take Possession of The Atmosphere of Earth Becoming The Authority of What Is to Act Out Here, Through The Elemental Grace Alliance Council'.

And So, It Is! I Am Grateful! Peter.

ST. GERMAIN: Greetings Beloved Brother, Be Joyous and Know that All is in Divine Order, and nothing is being left to chance. These are very trying times for humanity in general and because of the nature of human consciousness there remains such separative beliefs that the Kingdom of Heaven, that Higher Understanding that Divine Sovereignty is yet still unknown to the many, but more than this, those who have heard about this Kingdom Upon Earth, still find so many *'weeds'* in their *'Fields of Wheat'*! I refer here, to the *'Fields'* of their conscious beliefs and tenancies to hold their focus of attention upon the outer world of their own making: not ever considering who created the human outer world in the first place. The ignorance of the Truth of the Creator God's of this Human Physical world is no excuse anymore and until the Truth Is Self-Realized then there shall remain the *'weeds'* of their own planting!

Jesus spoke in Parables to help those who sought after the Kingdom of Heaven, and I have shared some of these Parables in My Discourses in the past. Today, I will offer two more of Jesus's Parables that will hopefully give some deeper Clarity as to the Reflections many will delve deeper into over the coming weeks and months!

The First is the Parable of the Wheat and Weeds.

To understand this Parable I will ask you and all who may read this to remember what I shared in the *'True Constitution'*, that the laggard consciousness being played out in the world of physical tyrannous actions, is not an actual separation consciousness in action. It is the reflection or combined resultant of the projected consciousness projection of humanity as a whole. And while it remains, albeit an illusion in Truth, it does and will continue until such a time that sufficient Dear Souls, who have found the Kingdom of Heaven within themselves, have become sufficient in Mind, Body and Spirit to **'STAND UP'** in the **'Name of God'** and see the difference in what the *'Wheat'* and *'Weeds'* actually look like! In the meantime, one would be very wise to be mindful of what that Standing Up, In The Name of God looks like. For while the Field Of Consciousness before them is a vacant plot of ground the *'wheat'* cannot be planted until the land is tilled and fertilized with Synthesis of Organic Living Substance *'Wheat'* Consciousness, that will repel the *'weeds'*, even if thrown into the mix will be without effect in any way.

When anyone hears the message about the Kingdom of Heaven, and the religion of your world is abundant with it, and does not necessarily understand it, the damaging *'weeds'* come and snatch away what is The Kingdom's Reality sown in their heart. This is the seed sown along the path. The seed falling on rocky ground, that refers to someone who hears the word and at once receives it with joy. But since they have no roots, they last only a short time before the *'weeds'* strangle and choke them. When trouble, ill health, oppression or persecution comes because of the *'weed'*, they quickly fall away from the Kingdom Consciousness. The seed falling among the thorns refers to someone who hears the word, but the worries of this life and the deceitfulness of wealth choke the *'Wheat'*, making it unfruitful. But the seed falling on good soil refers to someone who hears the Word of the Kingdom and understands it. This is the one who produces a crop, yielding a hundred-fold of what was sown.

The Parable of the Weeds (Mathew 13)

²⁴ "Jesus told them another parable: "The Kingdom of Heaven is like a man who sowed good seed in his field. ²⁵ But while everyone was sleeping, his enemy came and sowed weeds among the wheat, and went away. ²⁶ When the wheat sprouted and formed heads, then the weeds also appeared.

27 "The owner's servants came to him and said, 'Sir, didn't you sow good seed in your field? Where then did the weeds come from?'"

28 "An enemy did this," he replied.

"The servants asked him, 'Do you want us to go and pull them up?'"

29 "No," he answered, 'because while you are pulling the weeds, you may uproot the wheat with them. 30 Let both grow together until the harvest. At that time I will tell the harvesters: First collect the weeds and tie them in bundles to be burned; then gather the wheat and bring it into my barn.'"

I do not feel I have to explain more of what this Parable is saying other than in your own minds and hearts allow the 'wheat' and the 'weeds' to grow and when you're ready to harvest, perhaps now at the beginning of 2023, you can build your fire to burn the 'weeds' consciousness. You are all the Creators of Your Own World First! How and what that fire may look like is down to you!

While this Parable should be enough, I said I would offer you two Parables.

The Second Parable of the Seed Growing Secretly (Mark 4:26-29)

In this Parable I wish to highlight that which I have shared with you in the past. The present state of humanity today in overall 'weed' consciousness has meant that the so-called power elite have had a 'carte blanche' giving them the power to be able to suppress and corral humanity by the billions into their clutches of poverty, ill health, imbalances or every human condition known to man, not to mention unhappiness, lack of vision or hope! I have told you that this human race here upon earth is so blind and lost within their own lives, I have known of no human race anywhere who has been given so much God Help to Rise - Up out of the human tar pit, but for them to climb out of their own accord, they first must become Knowledgeable about The Kingdom of Heaven and LIVE IT! Until then their 'weeds' may cover their whole field only to come to the point that those 'weeds' will drag them under the surface of the tar pit, until the very breath in their lungs either drown them to another incarnation or they raise themselves up entirely above the surface and see just how many are no longer within the tar pit at all!

That New Light of Day may just be enough then, for them, to Rise Up in the Name of God under their own Self-Activated Volition that, they are God Also!

The options to life here upon the planet are diminishing very quickly now. Ascend into Higher Consciousness by your own Volition or repeat, repeat, repeat your life upon the Wheels Of Karma. This may sound harsh by most; however, the Earth and this Human Race is about to Ascend, figuratively Speaking, and this cannot be deferred any longer. All the warnings,

consequences and Knowledge has been given beyond the realms where *'free will'* can be tolerated further without more stringent consequences.

That is why the New Cosmic Laws are required now to Utilize the changes in human evolution as a whole human race. That is, The New Human Race; The New Adam and Lilith Kadmon Man and Woman Human Race.

So, this next Parable hopefully will give the clarity needed to make the Qualified Choices in how to Move Forward with the Distribution and Analysis of how the True Constitution and Declaration for the Freedom of Humanity should be Divinely Designated on How, Where, When and by Whom.

This then, is the only Parable recorded in the Gospel of Mark. Mark's Gospel is not known for Discourses, instead, it is a narrative in which Jesus is vividly portrayed as a *'Man of Action'*. Mark is selective in His choice of Parables; so, when He places three Parables on Growth of Seeds in His Gospel (*all end up in Chapter 4*) then, we know the Growth of the Kingdom of Heaven is an important sub-plot to His story.

This **Parable of the Seed Growing Secretly** is somewhat a simplistic Parable. Nothing is said about preparing the ground, rainfall, sunshine, weed control, or fertilizer as others have done. However, the life of the farmer seems to parallel that of the seed, whereby the farmer sleeps at night and is active by day! This Parable bypasses all these details and focuses on the actions of sowing, growing and mowing.

It is implied that the farmer does not spend his days idly by. Rather, he still does his part, in cultivating, controlling weeds, and watching over the crop. Because he knows, ultimately, God is in control. God provides the sunshine, the rain, the pollination, the growth, the ripening, and He brings the increase. The farmer can describe the miraculous Work of God in the crop, but he cannot explain it. The farmer plants in Faith, Knowing that God Will do His Miraculous Work of Nature by Providing the Universal Energy in Accordance With God's Cosmic Laws.

There have been several possible interpretations given for this simple Parable, including:

- Allegorically – Christ has sown in time and will come to reap. For now, the invisible power of the Holy Spirit does His Part in the Growth of the Kingdom of Heaven.
- The New World Ministers of the Word will sow the seed and should not become discouraged. The rewards of their labour will ripen at the appropriate time.
- There is a difference between sowing and growing; man should not take credit for the Invisible Work of God in Ripening the Soul's for the Harvest or the Qualification of those who will enter into the Kingdom of Heaven.

- The Kingdom starts small (*as seeds*) but grows over time due to the Invisible Working of the Power of God.

The New World Ministers of the Word of God are in God's Divine Employ; and do no more than Proclaim the Good News for the Salvation of the World where they do not make the choices where personality choices are administered to, Leaving them to the Christ in each Soul to do their own Administrative Growth and Development of their own Soul! However, the New World Ministers must Stand aside while God Performs the Work of Administering Agape Love in Accordance with Ray 1. Which the EGA in its own Right MUST Acknowledge First before Ray 2 is Employed.

These New World Ministers will see the Fruits of Their sowing, growing and mowing labours at the time of Harvest of the '*Wheat*'! The Harvesting then follows sowing, growing and mowing periods, and in due time, not by the Ministers but by God Himself, Herself.

So, I say to you all who are reading this, the Manifestation of the Kingdom of Heaven will follow the Faithful and Trusting Minister and Ministry who are of God's Trust in Word and Deed without exception! This Victory is Assured. The Harvesting is Immanent now and the Kingdom of God will be revealed in Its Entire Splendour in a time that ONLY God Knows when the Christed Ones will come forward, to Give to God your free will and Allow the Universal Consciousness Its Own Increase!

Wait then, a little longer Dear Hearts! You have enough on your plates right now to prepare the New World Ministries, Administrational and Governmental Structural Templates!

I want to now speak of the other part of your request and reflective comments. While this is very much part of your own personal Design Gene Key DNA Design, everyone has Gene Key 54 somewhere in their Profile. But Gene Key 54 is your Design Purpose Peter, and where the Gift of Aspiration and Siddhi of Ascension play a major part in your own Awareness for knowing what you yourself need to place some focused attention in 2023.

Many individuals think that for Energy to be Harmonious, it must all be spent in Devotion, Prayer, Ceremonial Service and Solemn Invocations, Directly concerned with Spiritual Aspiration. However for those with the 54th Gene Key in their Prime Profile the Truth is, that ALL Constructive and Harmonious Energy is a Natural Expression of the God Life, whether it be the Loving Service of friend to friend, or the Constructive Creation of a kitchen table, a kitchen or a home. I use your own trade here as the examples by which you excel Dear Brother from a physical perspective. But it can also be a Listening ear, a guiding word or a Discourse that illumines another's journey. Meanwhile it can be any trade or profession, just being a mother, or father, husband or wife, baker or lawyer. A person may be washing the dishes or peeling potatoes, yet their energy may be very Harmonious and Peaceful in that activity, and there will rise to their Causal Body every Electron Released in such an act. A Priest may stand on an altar, in a state of rebellion, resentment or hate, and not one electron

will add an ounce of energy toward their freedom! Saint Francis of Assisi and so many Holy Ones dedicated their Lives to Humble Service; walking the roads, serving the poor, feeding the hungry, and ministering to the ill. Saint Francis was a Comforting Presence, Blessing Life everywhere. I have said in My Freedom Alchemy Class that Service is the quickest way to the Freedom of One's Ascension and this is True!

While Harmony is a God-Quality, it is the Underlying Principle through which every facet of all Seven Rays Seeks Expression in the human theatre. For example, an individual seeking to express God's Will (*First Ray*) must do so Employing the '*Law of Harmony*'. An individual Seeking and Teaching the Wisdom and Understanding of the Cosmic Law must do likewise. **Therefore, Holding To The Law Of Harmony, Keeping An Aura Of Undisturbed And Sustained Peace, Expressing Self-Control And Not Anger, Is A Pre-Requisite On The Path To The Ascension;** One of the Seven Laws of Our Solar System, under the Three Major Laws. This is the controlling factor on the physical plane.

The destruction of the form, in order that the evolving life may progress, is one of the fundamental methods in evolution. This is 'Crucifixion', the basic Law of all Group Work, the Governing Principle which results in each Human Unit eventually, becoming a Saviour. It is also known as the '*Law of Those Who Choose to Die*'. The symbol is a Rosy Cross with a Golden Bird hovering above it. The Ray Energy is out-pouring 4th Ray. A Factor of Atonement!

The Initiate, must learn to function also as a Saviour, and thus Express the '*Law of Sacrifice*' through the medium of the developed, pure, reasoning Will, and not simply from that of impulsive Love and its activity. Here lies a basic distinction. Sacrifice must not be regarded as a '*giving-up*', but rather as a '*taking-over*'. It has a mysterious relation to the Law of Karma, but on such High Levels that only the Advanced Initiate can grasp it.

It should be remembered that the '*Law of Sacrifice*' (*in its destroying aspect*) is dominant during the Second, the Third and the Fourth Initiations.

- At the Second Initiation of the Baptism, the control of the astral body is broken. It is sacrificed in order that the Intuition, the Higher Counterpart of the '*propelling aspiration*' (*as it is sometimes called*) may assume control.

I hope that this is sufficient to introduce the Gene Key State of the 54th Gift Profile. You can go into more detail of the Gene Keys at your own leisure, but it is not Aspiration I wish to speak of but rather Ascension which is the Siddhi State of the 54th Gene Key, for it is the physical Alchemy of Ascension which I wish to Highlight before I close today! And We can go into more depth of the '*Law of Sacrifice*' another time. And for you Peter, please pay particular attention of the information here for much of this has kept you in a thought processing loop that you need to disembark from at your first opportunity!

I will use Richard Rudd's words to save you time and energy so you may finish your scheduled and allotted activities today!

I will therefore leave you now to contemplate the physical aspects of 'Ascension' Alchemy.

I Am St. Germain in Loving Service beside you and all the Members of the Elemental Grace Alliance.

PHYSICAL ALCHEMY – Gene Keys by Richard Rudd

"The 54th Siddhi is a relatively well-documented Siddhi compared to many of the other 64. It is one of the Siddhis that is actually triggered through the continual pressure of aspiration. This is the Siddhi of seekers. Through research into the 64 Gene Keys and the associated science of hologenetics, it has been found that a disproportionate number of mystics and enlightened sages have the 54th Siddhi as one of their Prime Gifts. Perhaps the best known of these is Paramahansa Yogananda, one of the great mystics of the 20th century, who had this Siddhi as his Life's Work. The 54th Siddhi concerns the notion of Ascension, the continual alchemical transformation of matter into spiritual essence. Here the base energy of ambition is experienced at its highest frequency and becomes the continual pressure to keep ascending up the hierarchy. At these levels however, we are no longer talking about social or material hierarchy, but the spiritual evolutionary ladder which consciousness itself ascends on the return to its own source.

"One of the common allusions to the 54th Siddhi concerns the Hindu concept of kundalini, the so-called serpent power lying coiled at the base of the spine. The goal of most transformational yogic systems is the awakening of this primal energy, which is said to rise up and activate each of the higher centres or chakras as it ascends through the human body. Many people have discovered to their detriment how dangerous premature or forced awakening of kundalini is to the human nervous system. Some people have indeed suffered severe psychological disorders because of the terrific currents of energy that such sustained yogic practice can unleash. Most yoga systems have accommodated to this danger over the centuries by offering step-by-step guidance to such meditations with a great deal of physical preparation and cleansing early on. With this 54th Siddhi, as we have seen at all levels, there is a need for deep grounding within the material realm.

"What is so interesting about this Siddhi is not its manifestations, which have been very well documented, but the way it has spiritually conditioned so many people. There exists enormous confusion in the world concerning spiritual paths, especially now that the West has become such a melting pot for all the great mystical cultures and traditions. There is a particular path for every single person, and any other path than your own, especially at higher levels, can cause delusion and can even be dangerous. Every single person who has attained a Siddhic state of realisation speaks through their specific Siddhis. However, if the sage is speaking through a Siddhi that is not a part of your own genetic makeup, you can easily become confused. Anyone who has attained a state of realisation knows this dilemma. It is impossible not to realise it. Thus, the great sages attempt to convey the energy behind their state rather than its trappings.

“The 54th Siddhi of Ascension is a very particular path. It concerns the transformation of the gross currents within the body into more and more refined currents. It is the essence behind many of the great tantric and alchemical yogic systems. However, in order to work with these systems, you must have the necessary aspiration. This is not something that should be forced. Aspiration is a predetermined energy that carries the seed of the final flowering within it. Any other energy will not carry this same seed. This is not to say that people cannot have heightened experiences of consciousness through such systems. They can. But only if you have the seed of this Siddhi already within you at a genetic level can you attain the final permanent flowering through these kinds of techniques.

“Aspiration is a predetermined energy that carries the seed of the final flowering within it.

True Ascension is activated automatically through the lower frequency of aspiration. At a certain point a spontaneous physical transformation begins to wrack the body. Techniques at this stage are over and done with. The process of ascension takes over and you are absolutely helpless to stop or interfere with it. All fluid memory must be erased, personal, cultural, and genetic, it all has to be burned from the body. The kundalini energy has often been likened to a fire. Actually, it is more like liquid fire, as the water molecules within the physical body are vaporised to create a steaming process in which Spiritual Essence is refined. After a certain period of time, sometimes spent in intense physical agony, stillness reigns over the body and you experience the Purity of Consciousness without thought. Even at this stage the steaming process continues as the physical body becomes more and more translucent.

“Ascension is an incredibly physical sequence of events. It has nothing whatsoever to do with modern systems involving visualisation or cerebral meditation. It usually follows many years of seeking by someone whose very path is to seek and aspire to higher planes. So many people have been conditioned to seek higher consciousness through these kinds of routes, but they truly do not belong there. Neither does the seeking itself activate the ascension process, since it is merely the manifestation of a totally mysterious and intensely felt urge to know more. For those who do not belong on this path, it is a truly dangerous one. For those who do, it is effortless and spontaneous.

“One Aspires, and sooner or later, one Ascends; it really is as simple as that.”
