

16 – PART 2 – ENACA – LAWS OF GROUP LIFE – SOEPC APPEAL, 22ND OCTOBER 2019.

INVOCATION: Thou Mighty, Infinite Presence, Thou All-Pervading Intelligence! Thy Love, Wisdom and Power, Govern all things. Thy Divine Justice is ever operating in the lives and worlds of those who look to Thee with unfailing determination. We Give Praise and Thanks that Thou Art the Ruling Power and Governing Intelligence Ruling all things. We Give Praise and Thanks that in our world Thou Art the Ever-Sustaining, Invincible Power. We Thank Thee. GOD ALWAYS FINDS A WAY TO HELP THOSE WHOSE HEARTS REACH OUT TO HIM.

Beloved Hearts we Rejoice in the Knowing that the Love of The 'I AM' Presence is the Foundation Stone, the Nucleus of All Life! Blessings this day! In Accordance to Beloved Lady Portia's Instructions the SOEPC will identify today, each of the Petitions that found its way into this The Galactic Federation – Elemental Grace Alliance Planet Earth Nuclear and Chemical Affairs Alliance Council Series of Discourses and Sharings.

To begin, let us list the Petitions for further summary;

1. *The Cleaning Up Of Nuclear Fallout And Chemical Waste Dispensation.*
2. *The Universal Ambassadors Educational Dispensation.*
3. *The Ascension Flame Dispensation (The 144,000 Seeds Of The Adam/Lilith Kadmon Man And Woman Dispensation).*
4. *The Removal Of Planetary And Human Primal Karmic Cell Implants And DNA Programming Dispensation.*
5. *The Dissolution Of Technology That Shall Suppress Humanity Within Any Sort Of Delayed 'Incarnational Loop' Of Any Compartmentalized Mind Consciousness Dispensation.*
6. *The Time Contraction Dispensation.*

Before we address these individually, Lady Portia also invited us to return to the Pallas Athena Discourses that relate directly to the Granting of any Petition whereby there are no exceptions to these Cosmic Laws. She said;

"What We will also say, is that several of these Petitions have been requested by the Hierarchy Themselves through the Elemental Grace Alliance, but these too We must decline temporarily, as there has been no definite security within the unAscended Delegates to warrant the Granting. As you have been told Dear Hearts, All Grants must be secured with sufficient Magnetization for those upon the ground to Work Diligently and Effectively with the Hierarchy. We invite you to return to the Pallas Athena Discourses that gives rise to these specifics." End Excerpt.

From the Pallas Athena Discourse 'Part 2 - Pallas Athena - Sun of Even Pressure Council Grant Dispensation Disclosure, 13th August 2017', She tells us, speaking of the Granting of Grants and Dispensations to unAscended Human Beings upon the ground, walking within the old human consciousness;

"The Cosmic Law shall apply, and as We have said before, there are no exceptions. Those ready will follow through, Streamed according to their Light Quotients and Vibrational Frequencies. That is Our Domain, not yours. So there are other unlimited Responsibilities you could accept as your own, by handing 'these' ones to Us, allows you the Freedom to Do the Work without encumbrances within the physical realities.

"Dear Souls, We the Messengers of Prime Creators Love, Light and Life have been telling you the Truth for aeons, but still humanity fights the vigorous battles with their own ego personalities, many listening to the various Messengers, but few and far between actually Hearing the Truth coming from Them. So it matters not who may read or listen, what matters is that they have the opportunity to do so, and unless it is presented for such opportunities, then this group or any other, becomes a clique or a falsely deemed elitist group. We cannot allow this to happen with the EGA and so the Programs of Light, The 'I Am' Presence's Over Lighting Radiance and the Cosmic Laws have been so meticulously incorporated with this Divine Plan to achieve its Goals. This is not a human plan. It is a Divine Plan, that MUST be executed personally by humanity, in accordance to the Universal Will Guiding It forward. Human Beings who have trained, taught, been educated and Qualify for such Roles over aeons of time within the Human Experience. There a Millions of you on Earth, and We have been calling for Ages for you to take on your Own Sovereign Powers. Not necessarily through the EGA, for there are millions of Divine Plans awaiting such Execution Right Now! This is just ONE!

"So Dear Brothers and Sisters, many will want to come and join the Elemental Grace Alliance, but those Filters, through their own 'I Am' Presence's, in Accordance to Divine Cosmic Law, will allow only those ready, through Divine Will, who wish to fulfil the obligations of those Laws, to be able to Pass through the Rings of Consciousness, and in turn receive the Full Dispensation, that is; the Full and Permanent Opening of the Seventh Seal and 12th Ray Activations. So the Light Programs presently in place for the EGA act as a Templates of Initiation that both allow time to Integrate and understanding to permeate the entire four lower bodies, to Heal and make Whole again. And so is preparing the human biology in all its four lower bodies, for what Stands upon the Threshold of the New Adam Lilith Kadmon Human Reality. These Light Programs are far more than what may be perceived, and they have indeed proven to be very successful Programs, as seen with the resultant combination of Souls now Gathered and United, Gathering and Uniting in One Cause and One Consciousness Light Band of Force Field Radiance!

“Mankind’s energy must be kept used up in certain actions of the outer, yet, Precious Ones, when you realize to what the mass of mankind, in their so-called work of the outer world, give their time, their energy, and their attention for no reason at all that lifts them to the Ascension, not one atom of what they do, raises them toward the Ascension.

“On the contrary, so much of their physical action in the outer world in the use of Life’s Energy but builds more and more and more limitation through the centuries that accumulates as pressures against the Powers of Nature, until such time as the force within arises and shatters the pressure without. Now then, you who have Conscious Understanding of this in the use of the Great Light Substance which We pour over the Nations, you may have an Individualized Stream of that Substance as a Balancing Force within you, just as well as We can spread It over the Nations to hold certain Balance or Pressure in the atmosphere, so the destructive forces cannot accomplish all they intend. We only allow enough of their own destruction to recoil upon them in order to teach the lesson which they will not learn harmoniously.

“Therefore, your Levels of Awareness shall be Measured by the Truth you Garner and Self-Realize through multiple reviews and your Dedication to Integrate what is being shared. If you feel ‘awe’ as some have shared, then know your reactions, responses are of overwhelm. This is an ego personality response, perfectly natural and deemed delightful just the same. But there is more! This ‘Awe’ has been offered you to INSPIRE you to Greater Aspirations of Achievements, not to question whether or not you are worthy or able to perform your obligations and responsibilities that shall come from Accepting this Grant for yourself/yourselves. It is your ‘I Am’ Presence’s way of saying “Hey, this is for you, you have earned this Grant. It is your Birth Right! Are you ready? If so, how do you wish to respond”?

“With Greater Awareness comes Greater Responsibilities, and these so called Responsibilities only relate to the human experience, and the ego personality. From the Impersonality no such Responsibilities are required for All Simply IS. Not from the standpoint of human perception, but from the Source Knowing Only that which IS LOVE! And this Impersonal Love of Life begins here at this Threshold of the Permanent Opening of the Seventh Seal and 12th Ray Initiation.

“Only from the standpoint for now, that is how it has been Heavenly Guided to you at this very specific time for this very specific undertaking. How it further opens for them, shall be under their Own ‘I Am’ Presence’s Guidance and how they respond. You cannot know the Grandeur of this Plan from where you are sitting, that is both Understood and Acknowledged by the Great Silence. The Truth Is We had/have no attachment to whatever you choose to do from any aspect of perception from any of you. For All is deemed appropriate within the overall scheme of things.

“Yet what has led Us upon the Karmic Board of Directors to make such a Grant at this time, is the way that the Sun Of Even Pressure Council is Incorporating and Uniting with the Higher Truths while not being over-swayed by old human consciousness or the way in which it continues to unfold.

“Any Grant or Dispensation cannot be given to one and not be offered to all. And so this New Grant is offered to all, but the Cosmic Law, to take possession of the atmosphere of Earth becoming the Authority of what is to act out here, through any Soul Individual or Group carries with it the full Karmic Wheel of Action and Reaction, Cause and Effect. This is not to be taken lightly by anyone!” End Excerpt.

Side note:-

NB:- For anyone within the SOEPC, or who are reading this, who may not completely understand what Lady Pallas is sharing, even now, after having received it over 2 years ago, would be clearly advised, as Lady Portia has suggested, to review all 3 Discourses of Beloved Lady Pallas Athena, Who is also a Director of the Karmic Board. This Love In Action, would also facilitate another important facet of this Appeal, that would show additional Co-Activity, in what We the SOEPC, can do for the Re-evaluation of Our position herein, to be Deemed Accountable, Trustworthy and Reliable, to Stand Forth being Granted more Dispensations. Clarity, Truth, Justice, Transparency and Understanding of these Discourses is imperative for the New Living Organism to Function in its Perfection. Lady Pallas said this in Part 3 – Reality Check!

“Therefore, this reiteration is a rendition for this ‘Reality Check’ as part of yet another Plea, on Humanity’s behalf, to stamp your Divine Signatures upon your Own Path for this Evolutionary Marvel now unfurling in ways never dreamed of in any other. Therefore, the importance of a being, is able to communicate directly with their I Am Presence for maximum Potentialities to occur is vital now. Do not treat this statement with an oversight that everything else in your life is more important. I tell you Dear Hearts, NOTHING CAN BE MORE IMPORTANT NOW, especially for those whom wish to be a Part of any such Loyal and Consecrated Group, to be the Guardians for Grounding the Transmission Flames of God Virtues upon the Earth.”

If you only read one Discourse, then focus upon Part 3! It is the Core of Everything herein this Reality Check!

There is no real need at this time to repeat the information about each Petition Request, as each has been outlined in sufficient detail within the ENACA Discourses Series. So we shall simply define each one and then continue with the Appeal declaring how we as the Elemental Grace Alliance and the Sun Of Even Pressure Council will Stamp Our Divine Signatures upon such Petitions if Granted, Reiterating Our Decrees, Pledges and Covenants with Our Own ‘I AM’ Presence as Our Individualized and Group Responsibilities Being One Cell Each, of this New Living Ashram of Synthesis Organism and Divine Plan.

The Cleaning Up Of Nuclear Fallout And Chemical Waste Dispensation.

This Petition began by the SOEPC asking what they could do to help clean up the mystery of the radiation outpourings, not only of Fukushima, but that of Chernobyl, 28 years ago. It then, through Beloved Serapis Bey, expanded to include all the radioactive dumps all over the world in landfills, and those dumped at sea, both known and unknown. It went on to expand to the nuclear weapons used in the past and those

deployed around the world ready for use again now, inclusive of those arsenals of deadly explosive devices, that are being detonated every day somewhere within the world! The Petition has over the Series of Discourses gone on to cover such things as Nuclear Power production and the de-activation of plants all over the world. Finally it has evolved to include all matters relating harmful chemical concoctions that are malevolent to human beings and nature and continues to evolve beyond the human intervention but also that of assistance through Intergalactic intervention through advanced technological devices not yet known upon Earth to date! It is complex and very far seated in its implementations and working Schedules and Methodologies.

The Universal Ambassadors Educational Dispensation.

This Petition was introduced into this Series of Discourses by Beloved El Morya becoming aware that the Galactic Emissaries and other Planetary Lifestreams involved within the Evolution of the Planet Earth and the 250,000 Star Planets Represented here, where it has been discovered that a New Intergalactic Educational Program is needed to assist such Star Races to become more aware of what is taking place on Earth. This Petition then, is Presented by Chohan El Morya Himself through the Elemental Grace Alliance, who may or may not participate in the short term but will definitely partake after the Christ Councils and Radiations Centres have been Created where many of these New Programs will take place physically here upon the Planet!

The Ascension Flame Dispensation (The 144,000 Seeds Of The Adam/Lilith Kadmon Man And Woman Dispensation).

This Petition is based on a New Ascension Flame Program that will work toward the elimination of all Technology with the Second Coming of the New Adam Lilith Kadmon Man and Woman. It has been presented within this Series of Discourses by Chohan Serapis Bey who said;

“We would advocate that each one of you continue to Work upon your Vibrational Frequencies and Light Quotients, so that such technologies will no longer be required within this Ascension Program for Human Life here on Planet Earth.”

“There are many in the Higher Dimensions paying very close attention to this Divine Plan now, and this, as you all were told not so long ago, would set a new precedent for the Sun of Even Pressure Council to begin a New Phase of Ascension Programming!

“I say Ascension Programming very specifically, for the Fourth Ray represents the White Flame of Purity, The Resurrection Flame, and that of Immaculate Conception. What better way to set this in motion than to utilize this opportunity whereby, through your

own volitions, you choose to offer your Services for the Divine Resurrection, Purity and Immaculate Concept to those of the Elemental Kingdoms.

“Because of the specific requirements and need of the Cosmic Hour in which we presently find Ourselves, the Cosmic Law has allowed us Greater Freedom and an entrance into the world of form of larger numbers of applicants who can possibly attain the Ascension at this time than ever before. For the past seventy plus years, anticipating this Cosmic Moment, we have availed ourselves of the Leniency of the Law and have not only presented for approval a greater number of applicants, but have been given larger Grants in getting our Chelas incarnated.”

This Ascension Flame Programming will take place within the Ascension Flame Temple in Luxor, Egypt. Although an existing Grant and Dispensation to Serapis Bey has been given, the SOEPC is now being invited to assist in stepping up this Ascension Flame Program.

The Removal Of Planetary And Human Primal Karmic Cell Implants And DNA Programming Dispensation.

This Petition has been presented to the Karmic Board by Mother Mary, through these Discourses for the purpose of ALL Children being born upon the Planet from this time forward having All Planetary and Human Primal Karmic Cell Implants and DNA Programming Removed before they arrive. It is yet to be stated whether this is to include All of those Dear Children who have been spoken of within the Elemental Grace Alliance Proposals – A God Awakening, as Children arriving here but not through the normal birthing processes. All this is detailed within the EGA Book 1.

The Dissolution Of Technology That Shall Suppress Humanity Within Any Sort Of Delayed ‘Incarnational Loop’ Of Any Compartmentalized Mind Consciousness Dispensation.

This Petition has been sponsored by St Germain and Chohan Serapis Bey, among others, who are proposing that a Dispensation that all technology that will create incarnational loops, that include addictive functions to be dissolved, eradicated and removed from the Planet and which primarily relates to the Raising of Consciousness through Divine Consciousness Alone. Such devices, due to the late hour, do not serve such advances by Humanity and therefore must be removed from the awareness of those who desire to raise their Consciousness beyond the 9th Dimension.

The Time Contraction Dispensation.

This Petition Introduced to this Series of Discourses by Lord Metatron to take the necessary steps to reduce further the time limitations of what is called the 'Artificial Time Cell' that the Earth is presently in. This Artificial Time Cell is what is called a Holographic Morphogenic Program that all lifestreams upon Earth presently live within. This is not the Natural Time Cell of the Earth! Today it is said that this Artificial Time Cell is 4000 years behind the Natural Evolution of the Earth and humanity here! It was 5000 years behind, but the activities of the EGA since its inauguration, we are told has made up 1000 years to date! This Petition shall offer Greater Intervention by the Hierarchy and Shamballa to continue the intensification that will bring about the Natural Time Cell in a shorter time frame. End of Summaries

Tomorrow, the SOEPC will define how it shall Lift its participation, contribution, sharing and commitment through the use of 3 Cosmic Laws, presented to Us by Beloved El Morya! El Morya, 49 Shades Of Grey – The Rule 1 Study Group, 14 Rules for Group Initiation, 2nd May 2018. He told us;

“Remember, there are 3 Laws that pertain to Group Activity: The Law of Group Endeavour, The Law of Group Life and the Law of Group Progress. I, in very simple terms, will give a brief overview so I may make my point to become clearer for you.

*“**The Law of Group Endeavor.** This Law defines the multiplying of the Energy one creates when acting with like-minded individuals to form a group effort to pray, manifest, do lightwork, or even to create degrees of control which We define as inequity or imbalance. Where the efforts of an individual may equal one unit, the efforts of two for a common goal with equal energy, will affect the energy of twenty units instead of the sum total of two. With three, the resultant energy explodes exponentially. The longer pure thought (the exclusion of any other thought) of one’s desired goal is held in the mind, the more powerful the result. Holding a Pure thought for an increment of time, (not less than 18 seconds) is the beginning of the Lesson of Manifestation.*

*“**The Law of Group Life.** Mankind must fulfil in love their family and national obligations, but also, they must think in the wider terms of humanity itself, and so bring the Law of Unity into expression. Questions to self, such as “Will my action tend to the group good? Will the group suffer or be hurt if I do this action?” Abiding by these actions will gradually become part of your overall consciousness, and the human race will adjust itself to these new conditions. All aspects of the Life of God are interdependent, and when one proceeds to fuller expression, all of the group benefits.*

*“**The Law of Group Progress.** This Law is also known as the Law of Elevation. It is defined in the Group Activity of Rightful and Lawful Action, not only by each individual, but the Group as a Whole. It is reflective of the 7th Ray Energy and Its Qualities and Virtues. It is the Evolving Factor of Moving Forward.*

“To discover the Full Expressions of the Group Gatherings and Initiations in today’s Consciousness, you will appreciate the Study of the 14 Rules of Group Initiation by Djwhal Khul where the older group consciousness can now be surpassed into Higher Understanding. If you wish to progress, this then is a wonderful Opportunity to Engage.

“Now My point, and I shall share this with you using Myself as the example here. If a Master has given a certain dictation that is recorded in some book, and a lecturer puts this information in his own words, but misinterprets the Masters’ dictation, through insufficient study and preparation, then this is an example of the Karma of Omission.

“Also, when the “Bridge to Freedom Dispensation” was given to Me, the following warning was given by the Karmic Board of Directors, “If the disciples do not return the energy of the dictations through study and application, you are creating Karma of Omission for them, and you, yourself, will have to make up that karma through Application, in doing some constructive project.” It was only after My agreeing to this provision, that the Dispensation was Granted by the Karmic Board.” End Excerpt.

Thank you for listening.

Until tomorrow!
