

18 - PART 4 – ENACA PETITION – THE SAVING FORCE – SOEPC PETITION APPEAL, 24TH OCTOBER 2019.

INVOCATION: 'I AM' Master of My World. 'I AM' the Victorious, Intelligence Governing it. I send forth into my world this Mighty, Radiant, Intelligent Energy of God. I Command It to Create All Perfection — to draw to me the Opulence of God made visible in my hands and use. 'I AM' no longer the Babe of Christ, but the Master Presence grown to Full Stature, and I Speak and Command with Authority. 'I AM' the Mighty, Magic Circle of Protection about me that is Invincible and repels from me every discordant thought and element which seeks to find entrance or intrude itself. 'I AM' the Perfection of My World, and it is Self-sustained. 'I AM' the only Presence acting in My World. 'I AM' the Supreme Authority, God in Action. 'I AM' the Supremacy of man, everywhere I go. 'I AM' the Mighty Consuming Flame that now and forever consumes all past and present mistakes, their cause and effect, and all undesirable creation for which my outer is responsible. 'I AM' the Open Door which no man can shut, cutting me off from the Great Opulence of God, that waits, surging to press forward to Heal, to Bless, and to Prosper All Life Abundantly.

It is with Great Joy today that We return once again to confidently portray Our position in working toward the finalization of Our Appeal to warrant the Approvals needed to Grant any such Petitions for the Benevolence of Humanity, the Earth, The Elementals, Devas and Angelic Host.

Dear Hearts, One and All, I know, that as Spokesperson for the EGA/SOEPC herein, we may seem to be magnifying and perhaps expanding upon this Appeal more than may be necessary, and Heaven Knows that it was never our intention to enter so many Discourses. But as St Germain and Others have on many occasions shown that the subject material being spoken of, is so vast and complex, that it is very difficult to confine them in such limitations of words. Perhaps not in the Higher Realms, but most assuredly in the human realm, where human consciousness continues to play such prominent parts within its Ascension Programs.

Likewise, it is being firmly Impressed upon our minds and beings, upon the Granting of the '*Bridge To Freedom Dispensation*', that The Karmic Board of Directors Imposed upon The Great Divine Director, a Condition, subject to the Law of Omission was Enacted as an Obligation to Honour such a Grant. Although we are quoting much within these Discourses from the Masters, it is our Aim not to create any misrepresentation, misunderstanding or unrealistic potentialities that would impose any karmic return to anyone, that may come from limitations due to our insufficient sharing of information or omissions in understanding, in any Application of Life to any New Responsibilities given to us, as our Designated Roles expand with any New Grants being approved. We therefore, only desire the maximum return of Increase in the return of such Energies and their magnification therein! We Truly Desire to show that Our understanding and

comprehension of such Responsibilities are grasped within the Individualized Expressions as We enter these New Times of Growth within Our Designated Ashramic Group Life.

So, these extended details provide some awareness, from our perspectives of the Truth, to offer some further bolstering, strengthening and encouragement to find a settlement, fulfilment and finally, the Approval from All Whom may Review this Appeal. So in this vein of continued Expression, let us continue, before we make Our final Entreaty and Application within this Supplication.

Beloved Djwhal Khul explains this to us in His Teachings *'The Master's Group and the Ashram'*;-

*"In the Aquarian Age, there will be an Externalisation of the Inner Ashram upon the outer plane. Disciples, Initiates and World Disciples will meet for the first time in human history as Disciples, recognising each other and recognising the Master of their Group. The Inner Ashram is a Focus of Souls, Free and Unlimited; the Outer Ashram, under the future Aquarian Experiment, will be composed of a focus of personalities and Souls. Limitation will, therefore, exist; responsibility will require conscious recognition and there will be a necessary slowing down of both action and perception in the outer space-time world.*

*"The True Ashram (of which the coming Outer Ashrams will be but reflections) is not for lower concrete mind discussion. It is a Focal Point of Receptivity; it embraces the effort to establish mutual contact through a united recognition of the Vision, of the Esoteric basis of Life and the Laws Governing Action. It is not a place, however, for long and silent meditation processes, for it is a Point of Tension where, together, the Ageless Wisdom in its more esoteric aspects is discussed, where the Nature of Soul relationship is recognised and where the fusion of auras and the inter-blending of the 'Triangles' goes forward consciously. An Ashram is the State of Mind of a Spiritual Group. **It is a Point of United thought; it is a Centre for the Clarification of the Vision and not of physical plane methods of work.** As Disciples learn to integrate themselves into a Master's Ashram, they discover that the first thing they have to do is to establish a basic harmony between themselves and their fellow Disciples and to reinforce the contact between their own Souls, the Ashramic Group and the Master. Then they learn to comprehend, through discussion and experiment, the **'Nature of the Energies'** which are seeking World Expression, and the **'Nature of the Forces'** which must be reduced to powerlessness, if these New Incoming Energies are to prove effective in bringing about the desired changes under the Divine Plan.*

*"They learn also that there is no weakness and no strength in themselves, as individuals, which may not be submitted to the Group 'gaze'; thus they arrive at the stripping away of all the 'veils' which prevent the 'Clear Cold Light of the Soul' from Shining Forth. The Goal of all Work done in the Ashram of Any of the Masters is Truth, on All Levels and at all times. As Disciples learn thus to Work from the Point or Centre of Light, Understanding and Truth into which they are being steadily integrated, their Exoteric*

*Usefulness and Effective Service will be greatly increased; they will, as a Group, Know what has to be done and find eventually that it is done.*

*“The major task of the Master in the early stages of training His Disciples is to bring to an end the period of the Disciple's intense preoccupation with him or herself, with their Service, with his or her reaction to the Master or the promise of future contact with the Master, with their own ideas anent Discipleship and their personal interpretations of Truth. The Master takes a Group of people with fixed ideas (which they are entirely sure are correct, being the best and highest they have been able to grasp to date) and with the conviction that they have reached a point where they have registered certain Spiritual values and concepts, where they have evolved their own formulations of truth and where they are eagerly demanding the next step. The first thing, therefore, which He has to do is (using a strong and perhaps a strange phrase) to **‘blast them wide open’**, give them a deep sense of insecurity as to the formulas and symbols of the lower concrete mind and so prepare them for the reception of Newer and Higher Approaches to Truth. This is frequently brought about by forcing them to question all the conclusions of the past.*

*“We have all, Disciples and Initiates of All Degrees, to enter the Secret Place of Initiation with a sense of blindness (or loss of direction) and with a feeling of complete destitution and have experienced this. The Disciple needs to bear in mind that he or she has to become **‘a moving point and hence a line’**; he or she Ascends towards the Hierarchy and assumes the Correct Spiritual Attitude but, at the same time, each one descends into what he or she erroneously regards as the depth of human difficulty and iniquity (if necessary), preserving always their Spiritual Integrity, but learning three important lessons:*

- *“First, the recognition that he or she shares all human tendencies, good and bad, and hence is able to Serve.*
- *“Second, the discovery that the thing which they most despise, and fears are the things which exists most strongly in him or herself, but which is as yet unrecognised. He or she discovers also that they have to explore and know these despised and feared areas of consciousness so that they become eventually an asset, instead of something to be avoided. He or she learns to fear nothing; he or she is all things; they are a human being, but they are also a mystic, an occultist, a psychic and a Disciple. And, because of all these acquired States of Consciousness, he or she becomes eventually a Master. They have ‘mastered’ all Stages and States of Awareness.*
- *“Third, the uselessness of past attitudes and dogmatic ways of looking at life and people (based usually on tradition and circumstance) when they separate him or herself from their fellowmen.” End Excerpt.*

So we can see from this teaching that we have arrived at a point in the growth of the Elemental Grace Alliance, that any and all fixed ideas we have had to date must now be completely dissolved and each Member must in his or her own way be **‘blasted wide**

*open'* so as to be released from any misconceived ideas, beliefs, misunderstandings or indeed inappropriate applications to life that actually do not and will never fulfil this Divine Plan. We understand and are willing to step forward and Stand Forth to be subjected to these *'blasts of energetic electromagnetic impulses'* that will clear the human psyche of any misconceptions of becoming a New World Server at the Higher Levels of Walking as a Christed Being!

**Please Note:-**

This is not a Group choice to enter such a place and Command such a Willingness to be *'blasted'*, so I will clearly state here that only each individual Member can make such a Covenant of Acceptance and then Stand Forth knowing that the unknown of what that means could become a very uncomfortable and challenging state to be thrown into! As each individual passes through these changes with confidence and clarity of its Purpose, they will find the need to potentially even withdraw from many aspects of their life, as was mentioned with pure Ruthless Compassion to remove any remaining conditions, things or indeed people, that continue to hold them back from what is needed to move forward within the Ascension Program at these levels! It may not be easy, but as we can see from DK's Instructions of the process, it is a necessary and an intrusive Condition of Engagement.

In the Book of Ailice Bailey, 'Telepathy and the Etheric Vehicle, p 195' DK tells us;

*"The Members of the Ashram constitute a United Channel for the New Energies which are, at this time, entering the world; these Energies pour dynamically through the Ashram out into the world of men and women; they stream with potency through the Master at the Heart of the Ashram; they move with 'luminous speed' throughout the Inner Circle; they are stepped down by those who constitute the Outer Circle, and this is right and good; they are delayed by the beginner and the New Disciple from breaking forth into the world of humanity, and this is not so good. They are delayed because the New Disciple has turned his or her back upon the world of men and women and their eyes are fastened upon the Inner Goal and not upon the Outer Service; they remain fixed upon the Master and His Senior Disciples and Workers, and not upon the mass of human need."* End Excerpt

Just to clarify that this EGA Ashram is not made up of just a single Master's Ashram but three, Master El Morya, 1<sup>st</sup> Ray, Master Djwhal Khul, 2<sup>nd</sup> Ray, and Master Rakoczy or the Great Divine Director, 7th Ray. This New Synthesis of Ashramic Life will Unite Shamballa, the Hierarchy and Humanity Who will Stand Forth consciously related and dynamically in touch with each other. The Will of God, the Love of God and the Intelligence of God will thus fuse and blend on Earth and in relation to all human problems. Conditions will consequently be brought about, and Energies will be set in motion, which will end all through the victory of the Forces of Light, recognised and aided by Humanity.

This Ashramic Synthesis of the Three Energies, Evoked through Invocation and the response of certain Divine Potencies, is Esoterically given the name of **'The Saving Force'**. It has never before appeared in Full Group Action on the physical plane, though it has been for some time been Active upon the Mental Plane. Though it is a Blend of the Energies of the Three Centres referred to above, it is primarily the Energy of the Divine Will, which will be its outstanding characteristic. It is most important that we understand this facet of the Ashramic Group Life for it will be how we respond to the changes to come, through Divine Will and Purpose and the intensity of the *'Saving Force Impulses'* that are now present upon the Earth. We therefore can be guaranteed we will be tested, big time!!!

So, when we enter such phases and depths of exposures to these so called **'blasts'**, we must remain very cognizant that these challenges must not become personalized goals which turn our heads away from what we have Covenanted and Pledged with Our 'I AM' Presence, Masters and God. We must hold firm to humanity and a World in need with our Guided tasks and Group Activities. But here too is yet another twist in the Group Life of a Living Ashram of Synthesis, which contain Group Initiations which are detailed within the 14 Rules of Group Initiation.

There is a question we (the SOEPC) must ask ourselves!

**What is our particular Service Relationship to Ashramic Purpose?** Lucille Cedarcrans, I believe answers this very well in her Articles on the Ashram of Synthesis;

*"The Purpose of our Ashrams is to literally Create a New Civilization. We have to build the Forms which will carry the Higher State of Consciousness, the Fifth Kingdom in Nature, right into the Body of Humanity.*

*"What is our Purpose? To convey the Wisdom, to embody the Wisdom, to attract those who will themselves embody and carry out into manifestation the Wisdom. As they are attracted, and as they receive the Wisdom, they move out away from us. The Wisdom is formulated into the New Forms that are needed for manifestation of the New Civilization.*

*"The Plan, as you have been told previously, is first to maintain the Light of the Plan in incarnation, secondly, whenever and wherever possible, as this is done, to Radiate that Light to Infiltrate, so to speak, all areas within the human body with it by means of first establishing a Centre whose Focus is such that it is Magnetically Attractive to all of those who can carry the frequencies, carry its dynamism, out into the body of humanity. It does not matter whether these individuals are persons of prominence or influence or not; it is not important. But these individuals will be attracted into the Centre to receive that 'Impress of Light' which they can best carry back out into their particular 'Sphere of Influence'. This includes individuals in all parts of the world, in all departments of human living. There need not be many. They need only be of a certain State of Consciousness, a certain point of 'Karmic Adjustment' in their personality lives and affairs, which gives*

them then both the freedom and the equipment with which to work. This is primarily the way in which the work will go forward.

*“It is not meant for the Centre to become a thing of public acclaim. It is not meant for it to be known in the public mind as a Centre of Wisdom. It is not meant for it to function in the limelight, but rather behind the scenes through those Disciples who it will train and send back out into the field, the Body of Humanity. And they will not be known as particularly in the beginning (and by that, I mean a long, long time) as being belonging to any particular Group or being affiliated with one another in any particular association. The greatest aid can be given by establishing the Centre Focus which then, in its turn, will bring into relationship with the problems of humanity their Solution as contained within that great Devic Life known as the Divine Plan for Humanity. It is of Prime Importance that you, the Conscious Soul Incarnate, to maintain, in other words, this effort in incarnation. Due to the present world situation, this then should be the first effort or the subject of Primary Importance to those Disciples who are specifically related to this aspect of **Divine Service**.”* End Excerpt.

Once again, we are reminded of the importance for the need now of our Pyramidal Temples of Light and Radiation Centres, as those Centres! A clear point that Beloved Micah brought to Light for us recently. Before we enter our final Discourse for this Appeal, we want to share this.

At no time are we imprisoned within the body. At no time are we limited to the appearance that we have come to believe is us, no matter how deep the pain, no matter how certain we have been of what we call our common sense telling us, *‘I am here. I am this body. This moment is happening. This is all there is’*. Regardless of all of that, the Truth is unmoved! We are not the mere appearance of the body and mind that we have called the *‘self’*.

Now, with that simple point as a Foundation, we can now raise our Consciousness even Higher. Beloved Hearts, the way of Transformation rests on exactly the same thing that all of our dreams and aspirations rest upon; the decision concerning what we would commit ourselves to. For we cannot dream a dream, create a vision, that is, we cannot create an experience in the Field of Consciousness, without being one hundred percent committed to it. It may appear that this is not the case, but we can be assured that it is. We have been told too many times by the Masters and our Sponsors of this Truth! This means that in each moment of our lived experiences, what we are aware of is wholly uncaused by anything outside of ourselves. As we read these words, for example, if we limit ourselves to being only the body, receiving certain frequencies of vibration touching our eyes and creating a certain neurological stimulus within the brain and translating that vibration into certain words, that experience is not caused by anything outside of ourselves but by the translations we place upon them through our perceived understandings, not necessarily the Truth.

We are equally and Infinitely Free, in this very moment as we contemplate these words, to experience this Transmission of Vibration in a wholly different way, beyond our sense

of being, our concrete mind or any level of human spoken language. We are Free to perceive ourselves thus becoming Participants from within the Realms of Pure Spirit from where to engage our Applications to Life. We are Free to See God Life and those who join with us from Higher Realms, as All Transmissions of Communication or Electromagnetic Impulses are received that create the vibrations through our physical forms to expand our awareness and Unite Each of Us with One another; as Spirit, Matter and Consciousness.

Beloved Lady Portia and All Members of the EGA ENACA Circle of Light, before we close with our final Discourse, their remains still much to be shared from our perspectives, but in Truth remain unnecessary to air until we know for sure that we have been Granted such Petitions or not. So in Light of this, we can close here and come together once again shortly to finalize our Heart Appeal! And So It Is!

**BENEDICTION:** Thou Infinite, All-pervading Presence, whose Active Intelligence governs all who look unto Thee, fill each one who seeks the Light with Thy Mighty Inner Light. Hold each one closer and closer in the Great 'I AM' Presence, that It fills the world of everyone with Thy Great, Great Perfection; and that the consciousness of each individual desires only that Great, Great Presence and Perfection, Now and Forever.
