

# 9D Nibiruan Council Perspective on Money & Ascension

<http://www.nibiruancouncil.com/9d-nibiruan-council-perspective-on-money-ascension/>

February 25, 2000

For as long as there has been a new age movement there is been financial deprivation among those who walk the spiritual path. Many who chose to leave well-paying jobs to follow the calling of their soul and the promise of greater rewards now find themselves impoverished and unable to fulfill their soul's destiny. Why is this and furthermore, what can be done to resolve this situation? Those answers lie in the words of this missive.

To remedy this monetary imbalance we must first understand the belief systems that keep it in place. But before I begin, I must inform you that the knowledge that I share will be straightforward and frank. I will not mince words or sugarcoat the truth. If you feel you are not prepared to be open to this knowledge, then I send you on to your next endeavour with love and blessings. For those of you who are ready to embrace this higher dimensional wisdom, let us continue.

We will speak of these belief systems in the context of the study course on money provided by your planetary school, Earth. This course or class is known as Service to Self/Service to Others. To complete this course you must learn how to serve others to the same degree that you serve yourself and vice versa. This course is also being provided on other planetary schools and those of you who have been in contact with your space brethren currently involved in this class will find them at different levels of understanding in regards to its belief systems.

All civilizations who have returned to the 9th dimension, the dimension of integration, have experienced many lifetimes on different planetary schools in pursuit of this lesson. For one to return to the level of Creator God, one must be able to manifest anything one desires and accept total responsibility for those creations (more on that later).

I, and the many others of the 9D Nibiruan Council, in fulfilling our service to you, wish to share how we learned this lesson and graduated from this particular course in the hope that what we share will accelerate your learning so that you can achieve your heart's desire in all things.

## Service to Self/Service to Others

---

Finding the balance between serving self and serving others is one of the most difficult of lessons a Soul must learn in order to complete our current Universal Game for Soul Evolution, The Polarity Integration Game.

In this Game the polarity of Service to Self is known as the Dark and the polarity of Service to Others is known as the Light.

On your planetary school, Earth you have been taught to value only Service to Others shunning all aspects of Service to Self. Your religions teach you that to serve yourself is selfish and therefore is inherently wrong. Only providing for basic necessities is allowed. To become rich automatically places the negative stigma of selfishness on those willing to bear that burden for the sake of financial gain. Yet, some of your most affluent institutions are your religious institutions.

From the higher perspective this is as it should be because having this dichotomy in your reality provides a powerful clue about the error of this belief system. Like an alarm, it alerts you to the idea that something about this way of thinking is imbalanced. No planetary course is given without these helpful hints to show you the pitfalls and by process of elimination help you find the balance, learn the lesson and graduate the course.

## If it is spiritual, it must be free

---

In this course of Service to Self/Service to Others, there is one prevailing belief system. This belief system is "if it is spiritual, it should be free." In this class one must learn the error of this belief system by experiencing the near total disempowerment it creates in one's life. To graduate from this class and the reality it creates, one must reach the following conclusions:

a. The only thing that is free is nothing—a "no-thing." A "no-thing" is something that doesn't exist. If it is something (and in the context of this missive, spiritual knowledge) then it has a value. And anything that has a value is always offered as part of an energy exchange or barter (to use an earth term, bartered). A something in the higher

realms is never given for free because that would relegate it to the level of a no-thing thereby destroying its right to exist in its present form. It would return to the Universal Fund (discussed later in this missive) as raw energy.

**b.** When we adhere to the imbalances in this belief system and believe that spiritual knowledge, or any other knowledge for that matter, should be free, then the universe has no choice other than to support us in this belief system by blocking bartering energy (money) from coming to us, thus remaining in alignment with our current belief system. The Universe is governed by a law that states that it can only give us those things we believe we need. And since we have already stated that we don't believe we need money in order to obtain the spiritual knowledge of the Universe, the universe complies with our belief and shuts down our ability to manifest money for those things we say should not require money.

Within a short time after embracing this belief system we find that our ability to manifest money dries up because we believe we don't need it to acquire spiritual things. This is why so many on the spiritual path are experiencing an ever-diminishing ability to manifest money; they still adhere to this belief system.

## Giving it away versus charging for it

---

This is another aspect of the "if it is spiritual, it should be free" belief system in which we must learn to find the balance.

In this portion of the course one learns to apply the above lesson to how and what we choose to barter in exchange for those things we desire, be it food, shelter, a book, or a class on some particular form of spiritual training, etc. If we are a purveyor of items that provide basic necessities such as a landlord, it is expected that the form of barter will be money to rent our residence.

On the other hand, if it happens to be a spiritually based product or service, the prevailing belief is that those items should not be exchanged for money. Therefore, those who have chosen to provide spiritual knowledge by creating a company to do so are criticized for charging money for their products and services. If one applies the before mentioned conclusions, one realizes that spiritual based products and services fall under the category of "somethings" and therefore must be subject to an energy exchange in order to sustain their existence. Otherwise their business will return to pure energy in the Universal Fund. In earth terms, the company will go out of business because it cannot support itself financially.

On Earth school the primary form of power and energy exchange is known as money. With money one can acquire all products and services necessary for survival and beyond that, for pleasure. Therefore all "somethings" must inherently be made available for exchange through this form of energy regardless of whether they are spiritual or non-spiritual in origin. Otherwise, as stated earlier, any "something" that is not exchanged for another something becomes a "no-thing" and therefore returns to the Universal Fund as raw energy.

For those of you who engage in spiritually based occupations, you will find that once you can fully embrace this concept, your ability to flow money will improve substantially since you will no longer be allowing your creations to return to the Universal Fund as raw energy.

## There's no such thing as a free lunch; someone always pays

---

In this aspect of the "if it is spiritual, it should be free" belief system, we learn that, once again, the only thing that is free is nothing, a "no-thing." Whenever we encounter a product or service that claims it is free, we intuitively understand that somewhere someone is still paying the bill. Since your planetary school was setup to provide lessons on how to use your powers of manifestation, it would have to have a primary form of exchange (money) as an integral part of its systems. Therefore, all products and services with any value at all would be subject to an energy exchange, with money being the preferred form of exchange.

Once students of this course understand this concept, they automatically look for who is paying the bill in any situation where an item is offered for free and do so without judgment. They know that in some way those providing the free item have done so with the idea that compensation will come in another form that will support them and their efforts.

All souls incarnating into your planetary school desired to do so in order to learn this lesson along with others provided in the school. Just like you would shop to find a university that provided courses that aligned with your educational goals, you as a soul chose Earth as the planetary school that offered the courses that most closely aligned with your evolutionary goals at this time.

## Manifesting money by drawing from the Universal Fund – the multidimensional way of banking.

---

Once the above lessons of the Service to Self/Service to Others study course have been learned, and you have embraced the higher dimensional way of thinking in regards to money, you are now ready to move to the next step; learning to manifest your 3D needs and desires by means of the Universal Fund.

The Universal Fund is simply a name for the unlimited energy supply available to everyone in our universe. This energy is used to manifest all forms of creation from galaxies and planets to the electronic numbers and paper money that you use on your planet to acquire goods and services.

To use the Universal Fund you will need to be aware of how it functions and also the particulars of how to make withdrawals. I will provide you with the most important elements in this article, but there is a lot more. It would take a book to share everything. What I give here will enable you to get started and successfully integrate this multidimensional monetary system into your 3D system.

### The Basics

---

**1.** To successfully use this fund we must be willing to let go of our current belief that having a large sum of money in a 3D bank account is the only way to create financial security and, instead, switch to seeing the Universal Fund as our universal savings account. This can be very difficult due to the fact that we have been trained to believe that only by having extra funds in our 3D bank accounts can we manifest what we want. Still, it is the key step in switching from a 3rd dimensional money system to a multidimensional or universal system.

Our inner children are really frightened by the idea of giving up what they have been programmed to believe is the only way to feel financially safe. With this step we are saying by our actions that we are ready to begin learning to manifest in the moment from the Universal Fund. In addition, we are saying we are willing to let go of the need to hoard money, taking it out of circulation because we fear we will somehow lose our ability to manifest. It shows we are beginning to have faith in our ongoing ability to manifest our desires through use of a universal source. Spiritually speaking, we are beginning to walk our talk.

**2.** Your Soul/Higher Self acts as your personal banker and determines when your requests will be accepted and how they will manifest. These determinations are based upon your Life Blueprint of which your Soul acts as the manager. This is of course, by your request (see The Divine Partnership, the 3rd Key of Compassion for more information).

Since your main reason for being on earth is soul growth, all requests for withdrawals are checked against your Life Blueprint to see if they are in alignment with what will best serve your evolutionary needs. Your Life Blueprint is the blueprint you created during your time in the Interlife (life between lives) and contains all the lessons, contracts, major events and people you would meet during your present incarnation. If your request is in alignment with your Life Blueprint at the present time, your Soul will kick into high gear to bring your request into 3D. It will literally flow into your life.

**3.** You will know when a withdrawal has been successfully made because of three things: the people, the money and the opportunity will all come together at the same time. You will have little to do with making these three things occur. But remember, if all three are not there, then it is not quite time for your desired item or project to manifest.

If you are not sure whether a request is to be granted, just ask your Soul for confirmation one way or another. Ask that the confirmation be given in 24 hours or less and in a way that you can't possibly misinterpret. Your Soul will comply. It has every reason to give you an answer and usually the answer comes immediately even before you finish asking the question. Tip: Ask for either a "yes" or a "no" confirmation. Be specific.

**4.** There are times when your request is granted, but the energy withdrawal is blocked by your Ego/inner child because it is afraid of the changes your request will bring. In this case, go within and negotiate an agreement with your Ego (see Open Door Key, the 4th Key of Compassion for more information.)

### Guidelines for making a withdrawal of energy from the Universal Fund:

---

1. You must be grounded to receive your request from the Universal Fund. To be ungrounded is the same as having mail being sent to you but you don't have a address or mailbox. People who spend much of their time being elsewhere (out on the astral plane or other dimensional planes) will find their ability to manifest greatly hampered. Additionally, those who resist being on earth will find their ability to manifest blocked as well. To really manifest well, you must be heart connected to Mother Earth and her people.
2. You must verbally state what you want to manifest from the energy you draw from the Universal Fund. This can be likened to writing a check or using an ATM card. Both are 3D. By verbally stating your requested desire, you create the items in 3D through

sound. Without this they remain on the mental plain as thoughts. Many of you already know this detail from your study of visualization techniques.

3. It must be in alignment with your Soul's purpose as determined by your Life Blueprint before the energy will be withdrawn. Anything requested that is not in alignment with this purpose will not be given as it is considered unnecessary to your soul growth and mission. If you are in doubt about anything you request, just ask your Soul for confirmation.
4. All withdrawals must be for goods or services, not for extra money that just sits in a bank account to provide the feeling of financial security. This is considered a fear-based hoarding of energy. Fear-based hoarding renders the energy inaccessible to others.
5. Be open to allowing the desired items to manifest without the use of money. For example, a home could come packaged as an opportunity to live in a beautiful residence in exchange for upkeep.
6. Only the energy needed to acquire the requested item will be given. No excess will be provided.
7. Withdrawals many times require some preparation work on your end. One earth analogy would be: if you want to win the lottery, you must buy a ticket. If the withdrawal is "on purpose" your Soul will prompt you with messages/impulses to do the tasks required to prepare for the requested items.
8. Requests are granted based on the timing that supports your Soul's purpose. For example you may request a house and you want it right now, but your Soul has determined that the best time for that to manifest is after a particular set of experiences have occurred. Once again, if in doubt, ask your Soul.

As you learn to release your attachment to the 3D banking system and begin to use the Universal Fund, you begin to experience improved levels of prosperity. You see that you are able to manifest all of your basic necessities along with nonessential items with the only difference being that you do not have large amounts of extra money sitting in a bank account, and all items manifest in the moment based on the timing that will support your continued spiritual growth.

In addition, as you begin to get comfortable with this new process your faith in your power to manifest increases along with your feelings of inner peace and self-love. For example, you no longer fear whether or not the rent gets paid. You truly know that what is to be will be and you will be okay regardless.

I hope this has helped you in understanding why you may be experiencing financial limitation as well as how to resolve the situation. It simply takes moving to a new monetary system, the one your Souls and guides have been moving you into for some time now.

When you made the decision to walk the spiritual path, ascend and return to your natural multidimensional state, you also made the decision to learn how to use the systems that are inherent in that reality. Unfortunately, many of you were not aware of what this "package deal" consisted of when you made your decision. As a result, you have been confused and frightened by the roller coaster ride your finances have taken since you began this path. I hope that with this missive your concern about your finances will ease since you now know that learning to use the multidimensional monetary system in conjunction with your current 3D monetary system is part of the training for ascension. The fact that you have experienced monetary changes is proof that your Soul and Guides are hard at work preparing you to move up to multidimensionality.

All who are walking the path of ascension will encounter these lessons at one time or another, so you are not alone. I know from experience how challenging this course and its lessons can be. As one who doesn't seem to get it the first time, I can empathize with your struggles. From experience we found that by sharing your feelings, fears and experiences with those who walk the path with you, you will make it through these lessons much more quickly. Please reach out. Together we succeed.

In service and appreciation,

Devin,

Head of the 9D Nibiruan Council thru Jelaila
