

RULE 1 TRIAL STUDY GUIDING INSTRUCTIONS

PRIOR TO STUDY BEGINNING

- We encourage you to find your own method of study, however, this is a tried and proven way in the interest of being 'Love-in-Action':
- The study period each day is flexible, this has to be for obvious reasons, day or night, personal responsibilities, family, work etc, so we are suggesting that within 12 hours either side of your local time will provide the necessary unity for this Group Endeavour! In Truth is matters not, for while we are doing this in real physical time, we could easily be aware and KNOW we have done this or are doing this together in no time and no space or in other words ethereally connecting! The NOW Moment is eternal and that means we are in all places in the One Moment. We are simply providing here the alignment necessary for conscious awareness of the Truth of the ONENESS We Are, providing the time and space for the ego personality to catch up.

PROCEEDING WITH THE STUDY

- Each day you say the 2 Prayers out loud preferably, allowing your vocal resonance to inform your whole body what is being asked of it and to work with you. Else this could become a mind study alone with no allowance for the participation for a whole-body experience.
- All other documents supplied that are not the 10-day study material is not for writing, just reading as supportive material for preparation and possible review after or during the pondering of the course and text material. By all mean use those as and when you feel them necessary and follow your I Am Presence for He/She will lead you to the answers you seek if you pay attention to your feelings and inner guidance.
- Use imagination, visualization and pictures while not forgetting your creativity to change old habits to make this work for you! Follow every lead and most of all share with the Group for within this Group are many delightful and Loving Souls just waiting to Support you also.

REVIEW

- As you transcribe, highlight/bold those sentences that immediately catch my attention
- Do this so that you can maintain a flow of transcribing, honouring that process, while honouring that part of yourself that has surfaced to be noticed that you can return to if needed. Making personal notes can also help.
- Those that catch your attention quieten your mind, centre yourself with a few very deep breaths and ask your I Am Presence to enrich your conscious understanding.
- Those that you don't understand warrant a similar approach. Accept, that you explicitly need to ask for assistance, else it will not be forthcoming.
- If no result, just surrender to it, knowing that in the right and perfect time it shall be given to you in another way, perhaps in another place and there you shall gain the understanding needed.
- Remember you can always ask the Group for assistance also, which can be very enlightening.

- It is not an obligation to record anything, but this work can bring up all sorts of things and may produce some Ahha Moments that you may like to record for your own purposes.
- This is a group endeavour and your sharing of your realizations, experiences regardless of what they may be, good or bad, painful or uplifting. The Group is a Safe Haven to share and help any healing to take place, even if only an ear to listen or a shoulder to lean upon.
- This Study Group Opportunity is ultimately here for your Journey but with a Oneness to Unify the experience with those Who Love You! UNCONDITIONALLY
