Aquarian New Moon 2022

*'So powerful is the Light of Unity
that it can Illuminate the whole Earth.'*

Baha'U'Llah

*'Our Ability to find Unity within Diversity
will be the beauty and the test of our Civilization.'*

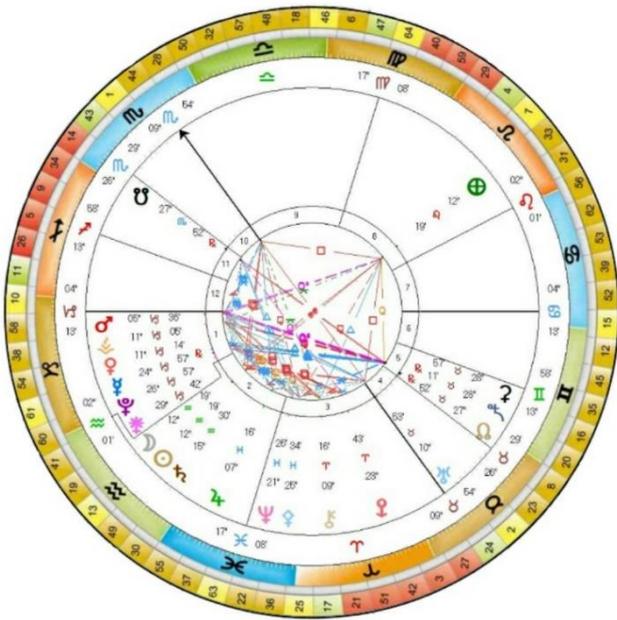

Mahatma Gandhi

*'Compassion becomes an automatic reaction when you see all
of Humanity as One undivided and indivisible Whole.'*

Wayne Dyer

One World Nation Flag ®

'I AM' the Light that Purifies the Darkness

At the time of the New Moon on 31st January or 1st February, depending on where you live, the Sun and Moon come together at 12 Aquarius 19.

The Constellation of Aquarius, as shared in earlier Reviews expresses through the Higher Mind and Heart. As we enter the next 2000 plus years under the guiding Light of Aquarius we can see how both the Mind and Heart have to be aligned to reveal and house the underlying Truth that lies hidden within the Shadow.

For the last 2000 years we have been collectively passing through the Pisces/Virgo polarity and now we are to have the Rays, Light and Consciousness of the Aquarius/Leo Constellations as the over lighting emphasis underpinning our collective growth. The Aquarian archetype is both revolutionary and evolutionary, moving beyond the sense of personality into impersonality.

However, Mind without the balance of embodied Heart can be a cruel and distorted entity full of fear based mental judgements and opinions. We are at the forefront of initiating in and integrating the Aquarian Age. This Age, which will in many ways revolutionise so much of our current ways of living, is upon us – but the codicil and the 'gold standard' for the inventions and 'breakthroughs' that will appear in many fields, requires a deep recognition and understanding that we are far more than just a physical body – we are an innate part of the Cosmos – with a subtle energetic system that underpins our unique expression of the Life Force.

The Truths that are held within Ancient Wisdom still stand the test of time – they underpin Life. The Aquarian Age has the potential to develop a truly Humanitarian Consciousness, when expressed through the three Principles which enshrine our relationship to each other and to our collective Abundance.

Unification: Right Human Relations and Loving Detachment.

Synthesis: Goodwill, Compassion, Love for Humanity and Service.

Universality: Sensing and Being One with the Cosmic Whole, a Universal Unity.

At this moment in time as we work through the Shadows of the collective fear that have arisen, we have become an isolated, polarised community on Earth, where thoughts are expressed with a dogmatism, a lack of kindness or willingness to listen that has increased and magnified inordinately over these last two years – egged on by media and algorithms that are in direct contradiction to the three Principles of Abundance and Well Being.

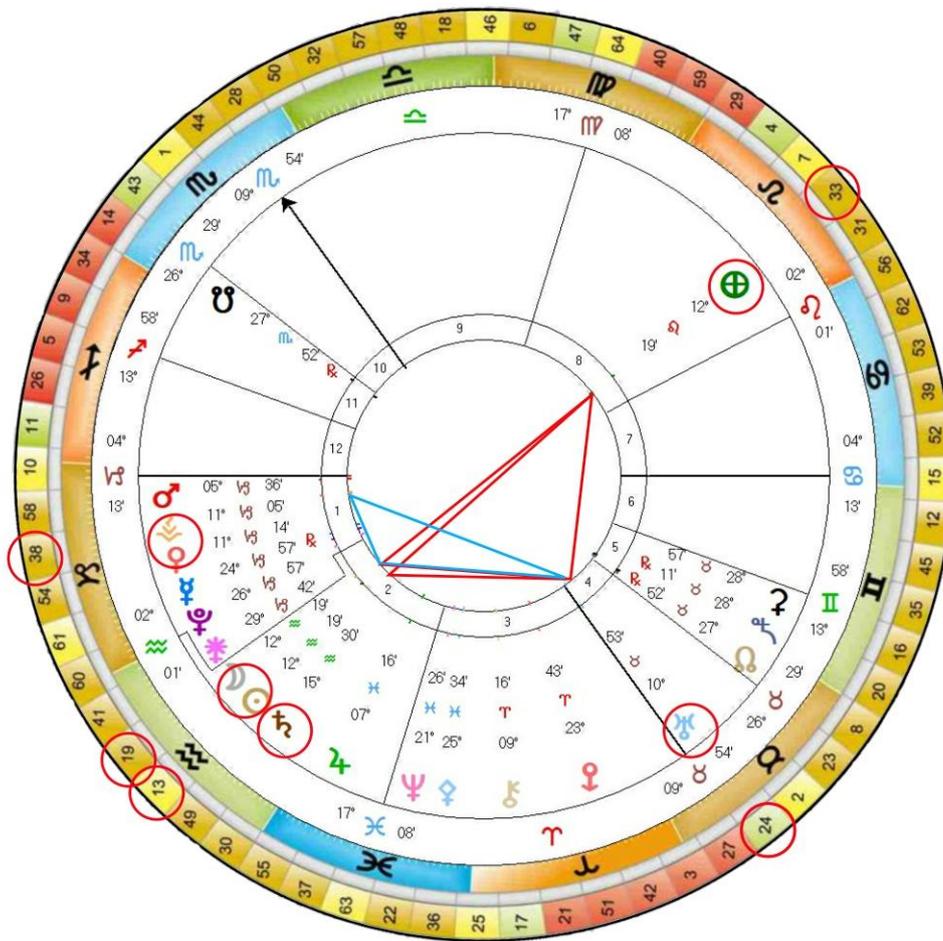

So, we have discerning choices to make and principles based on Compassion and Wisdom to uphold. Truth must not be silenced in a race to embrace the new, for the Planetary bodies that underpin this Aquarian Cycle of Time are

Saturn and Uranus – which requires that the Uranian energy - the inventions and breakthroughs - are balanced by Saturn - the tried and tested, proven over time – so that the choices that are made will be expressed through Jupiter, which is the Soul centred Planetary energy of Aquarius, ruled by the 2nd Ray of Love and Wisdom, underpinning growth and abundance for all.

Everyone who wills can hear the inner voice. It is within everyone.

Mahatma Gandhi

Chart for the New Moon in Aquarius

New Moon 1st February 2022 05:45 GMT London UK
<https://www.timeanddate.com/moon/phases/>

This month we are going to be looking at the New Moon and also the Pluto Return that is occurring on the 20th of February to the USA Independence Chart of 1776, but before looking at the Planetary patterns that are to unfold this month let's look more deeply at how the 64 Gene Keys and their Qualities interact and affect each one of us. The 64 Qualities, at first, may seem to be just simply pleasant aspirational states of Consciousness.

However, the Essence of the Qualities that are recognised, felt and experienced through the auric field of each human being, affect and direct the autoimmune system via the endocrine system and through every particle, atom, cell and organ of our body. Our autoimmune system, developed over millions of years, is the conductor and reflector of the health and well being of our Inner Universe.

The 64 Qualities/Frequencies that flow through our auric field are experienced without words – silently recognised by the Body Elemental as Divine Gifts that support Life, Health and Well Being – for they are the language of the Soul. Like etheric music these invisible healing Qualities/States of Being flow to All – protecting, enhancing and unifying humanity within their wholistic Spiritual birth right.

Seeing and knowing the Light that is held within Matter, within each of us, the Siddhi Qualities resonate far beyond personal likes and dislikes – guiding and returning us to the remembrance of our Collective Wholeness. For it is the collective Soul of Humanity that creates our unique Essence within the Cosmic Universal Field and no algorithm or external intervention can reproduce this inner innate etheric Essence, which is the pristine Life force, the Source flowing through All, holding the seeds of perfection when the Group Consciousness is untainted by fear, ignorance or arrogance.

In this State we are reborn into the Pure Truth of our Being and right now this remembrance is being called into our consciousness as we travel through such pivotal times.

In looking at the chart, for this moment in time, we will see that the Sun Moon and Saturn are together making a T square with Uranus and the Earth, which reinforces the sense that the 'new' needs to be qualified through the guardianship of Saturn and equally that there are likely to be sudden changes and disruptions that challenge authority.

When Uranus and Saturn work together from the Shadow state of disharmony then there is likely to be

- ❖ Tension between past and future
- ❖ Hyper-responsibility and hyper-vigilance
- ❖ Sudden shocks and rude awakenings
- ❖ Negative side of modern science and technology

When working in harmony from the Gift level then Saturn and Uranus achieve constructive results

- ❖ Responsible freedom
- ❖ Cautious innovation
- ❖ Transcending time and causality - flowing through the 7th Ray of Uranus
- ❖ Challenging the bedrock assumptions of a world view

These are the outer likely dynamics of the current Saturn Uranus square, which are the out picturing of what is occurring from an inner subtle level deep within our DNA.

The Sun and Moon are on Gene Key 19 known as the **Future Human Being** having the Shadow of **Co-Dependence**, the Gift of **Sensitivity** and the Siddhi of **Sacrifice**

'The 19th Shadow of Co-dependence has its roots deep within our tribal past. Co-dependence refers to the state of consciousness below independence. However, the 19th Shadow is currently undergoing a huge genetic mutation which is having an unprecedented effect on all life on our planet. As a vital aspect of the Codon Ring of Gaia, along with the 60th and 61st Gene Keys, it is breaking down the very patterns of the world psyche. The reactive Rigidity of the 60th Shadow and the Psychosis of the 61st Shadow have long held sway on our planet. As this great reaction is occurring within the chemistry of our DNA – the old ways appear to tighten their grip on the only reality they have known.'

'The 19th Gene Key is a genetic portal into the unconscious and particularly into the collective unconscious. As this Gene Key awakens in humanity we see changes in our dream life and through this portal we can reconnect with our ancient sense of the magic that comes through dreams. People with the 19th Gift are often shamans because of their increased sensitivity to other worlds and other realms. There is a heightened awareness of other worlds, realms and kingdoms of life forms and the ability to communicate with them.'

'The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature. These kingdoms, which have often been referred to as the Angelic or Devic Realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions. The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds.'

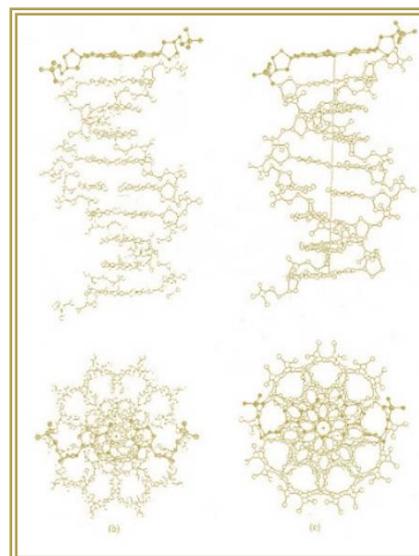

'The path of frequency through the 19th Gift goes from Co-dependence to independence and finally to interdependence. Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species. Through the 19th Gene Key you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater self - to Sacrifice your individual identity and experience yourself as one with all life as well

as the Creator of it. **This is the secret of mystical initiation. The 19th Siddhi shares a profound connection with the 49th Siddhi of Rebirth.** These two Siddhis represent the key mystical process that will eventually overtake the human species - the ultimate realisation that all sacrificial deaths lead to Rebirth.'

'Life is a living chain of Sacrifice. Consciousness is now beginning to outstrip man and is reaching out for a higher form. **But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered.** They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – **they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.**'

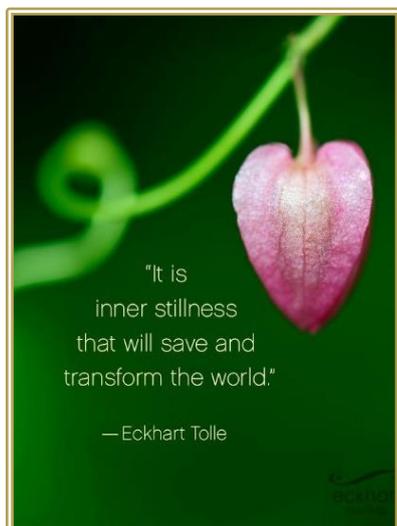

Before looking to see which Gene Keys are being activated through Saturn, Uranus and the Earth a reminder that since early in 2018 and then from January 2019 onwards until now transiting Pluto, the planet of Transformation has been passing through Gene Key 61, Psychosis, and from now until the end of December 2025 transiting Pluto will be activating Gene Key 60, so you can see just how powerfully old limiting, psychic patterns and beliefs are being broken down to allow for a Rebirth of awareness over this period of time.

Transiting Uranus is on Gene Key 24 moving through the Shadow of **Addiction** to the Gift of **Invention** to the Siddhi of **Silence**.

'The 24th Shadow, when correctly understood, explains much about the Shadow state itself as well as why human beings find it so difficult to resolve the deeper repetitive problems in their lives. We humans come pre-programmed for Addiction and the main culprit responsible for this is our mind. **The mass consciousness of humanity is still dominated by the archaic fear and survival based aspects of our brain.** Only by turning inwards can you face the addictive quality of your mind. Your willingness to confront your mind creates the necessary pause or gap in thinking to disentangle the mind from the astral/emotional body.'

'**So what happens in the gap when you do fully embrace it?** The answer is absolutely anything. The 24th Gift is truly magical and contains the secret to genius. One of the best ways of exploring the gaps is through contemplation. To contemplate is to surrender yourself into the great mystery until it suddenly reveals itself to you through a process of deep insight. **Magic and mutation occur within those gaps.** The 24th Gift is the heart of the human creative process. In human beings this codon allows you to make quantum leaps in terms of the evolution of your awareness. The Gift of Invention brings in originality that is surprising to self as well as others. **All the great insights that have driven human evolution, from the arts to the sciences, have come across the bridge of the 24th Gift.**'

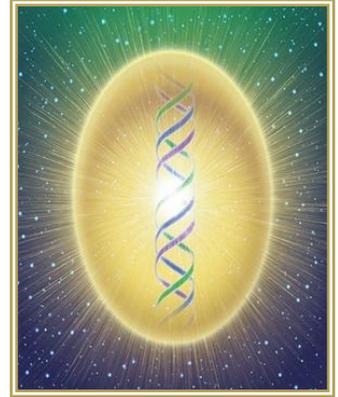

'Over the centuries human beings have tried all manner of techniques to stop the mind from thinking. Thinking can in fact be masked by certain techniques, but that temporary quietness is not the same as the pure Silence of the 24th Siddhi. **The Silence of the 24th Siddhi is a Silence that descends on you even though it already lives within you.**'

'True Silence reigns when the mechanism controlling your awareness moves from your head down into your solar plexus. For awareness to shift in this way there is a physical mutation that occurs – certain chemicals are created by the endocrine system – **so that you no longer think – but are thought by Life.**'

'When the mind ceases to think then all addictive behaviour also ceases – **only true inner Silence can bring an end to the Maya or illusion of separateness which is ultimately the healing of mankind's greatest fear.**'

The Earth at the time of this New Moon is on Gene Key 33 known as the **Final Revelation** moving through the Shadow of **Forgetting** to the Gift of **Mindfulness** to the Siddhi of **Revelation**.

*'Most of us are familiar with the notion of karma. Perhaps not so well known, however, is the doctrine of the sankaras. **The sankaras are the specific memories that you carry from life to life according to the karma you have taken on in this lifetime.** They are far more than simple memories – they are charge of kinetic energy stored in the sheaths of your consciousness, which over time determine the shape of your life and your destiny. The 33rd Shadow is the great Shadow of our Forgetting. **Along with the 12th and 56th Shadow, it is one of the three great tests we have to face in our evolution on this planet.** The 12th 56th and 33rd Shadows are related to the three stop codons in the human genome. **The three stop codons are genetic markers inside your physical DNA that, when activated, begin to unplug you from the illusory world of the outer senses.***

*'The 33rd Shadow governs all the endless cycles of existence and incarnations on this planet. Around the energetic and etheric boundaries of our planet lies a great veil – the Ring Pass Not. This is the energetic grid that connects the higher planes to the lower planes. It keeps humanity locked into these material forms **until such time as the consciousness begins to spontaneously awaken of its own accord, at that point the frequency passing through the DNA rises above this atmospheric veil and our true Universal and Eternal nature is revealed.***

*'It is through Mindfulness that you discover how to purify your nature so that you no longer create negative karma. **Through the Ring of Trials you learn to Discriminate (the 12th Gift) between that which keeps you trapped and that which brings freedom, by moderating your thoughts, feelings, speech and actions.** Equally the 56th Gift of Enrichment shows you how easily you are distracted away from your true nature by your senses. Thus, you begin to be drawn towards experiences that enrich your Spirit rather than experiences and addictions that stimulate or over-stimulate your senses. **Mindfulness is a very enriching experience process, for the karma inside your very DNA is systematically transformed back into pure essence – the natural state of Divine longing which becomes the very fuel that returns you to the true centre of Being.***

*'As you rise into higher and purer frequencies, the secrets of the higher realms are released sporadically into your lower nature and, over time, your physical DNA begins to mutate to accommodate these higher frequency wavelengths. **Once your DNA has mutated to sufficiently handle these higher frequencies permanently it is ready to receive the full force of the Siddhic realms.** The fullness of the Siddhic state causes time to disintegrate and memory along with it. You do not lose your physical memory, but rather your mind can no longer interfere with the purity of consciousness, which flushes the karma/sankaras out of your whole being. Every stop codon in your DNA precedes a start codon of another strand of interlinked code. **By opening us up to higher realities and angelic frequencies that lie beyond our physical DNA the 33rd Siddhi accelerates the evolution of human consciousness.** The 33rd Siddhi, is an access portal to these higher and wider realities that begin where you, the human being, comes to an end.'*

So how does Saturn assist us to bring out the higher potential of this T square? Saturn is on Gene Key 13 known as **Listening through Love** which has as its Shadow **Discord** which evolves into **Discernment** and ultimately into the Siddhi of **Empathy**.

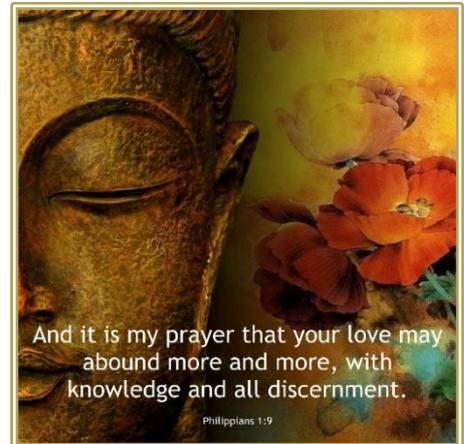

*'Gene Key 13 links to the true art of listening. **The 13th Gene Key concerns a single theme – the theme of listening.** Through this Gene Key we see how many dimensions there are to the art of listening and how deeply tied it is with the expansion or contraction of human consciousness. At the Shadow level there is an inability to listen and to learn from our experiences in the world. **Discord is the inability to escape your own past.** However, there are global mutations taking place within the Solar Plexus system of human*

beings which will affect our emotional chemistry profoundly and this, in turn, will affect the Shadow of Discord.'

'Nature will create a human in whom the art of listening will no longer have to compete with raw Desire. In a single and unprecedented and radical sweep she will do this by killing off desire itself.'

'Discernment begins at an individual level as you see how deeply your view of others is connected to your feelings. Only when your personal feelings are witnessed and examined can you become more objective. With the arising of Discernment come many gifts. **Once you stop viewing life from a subjective emotional level a new landscape of feeling opens up within you.'**

'Over time, your personal agendas become more lucid and you reclaim the ability to listen to others and the world from a broader perspective. This feeling is the early manifestation of your future ability to transcend your emotional system - and it is experienced as optimism. Optimism is the gradual swelling of awareness within your solar plexus system transferred and projected outward onto the world.'

'Those with Discernment know in their bellies that this phase of our history must and will lead to a transcendent leap in consciousness, regardless of the fear-based culture in which we live.'

'The 13th Siddhi like its partner the 7th Siddhi has much hidden wisdom within it. Our DNA is an incredible substance – it contains all the memories of our entire species and even those earlier life forms from which we descended.'

'Like a fractal shard of God itself, DNA forms the living vibrating link to the beginning of life on this planet. Even more profoundly it connects us to the seed from which our very Universe first sprouted. It is through the 13th Siddhi that information from our collective past can be recovered. We are not just talking information here.'

'The Siddhi of Empathy requires complete dissolution of the individuated self. Once identification with one's form has been cut Empathy reveals itself as the background awareness of all living forms. In other words, we really are inside each other. Whereas sympathy requires two, Empathy demands One.'

'Through the Ring of Purification the 13th Siddhi opens its eyes on a new world – a world in which the past has been magically transformed into a radiant new future. Human addiction to Desire ceases in this Siddhic state and it is said that one's spirit no longer returns to Earth but takes birth in higher spheres of existence.'

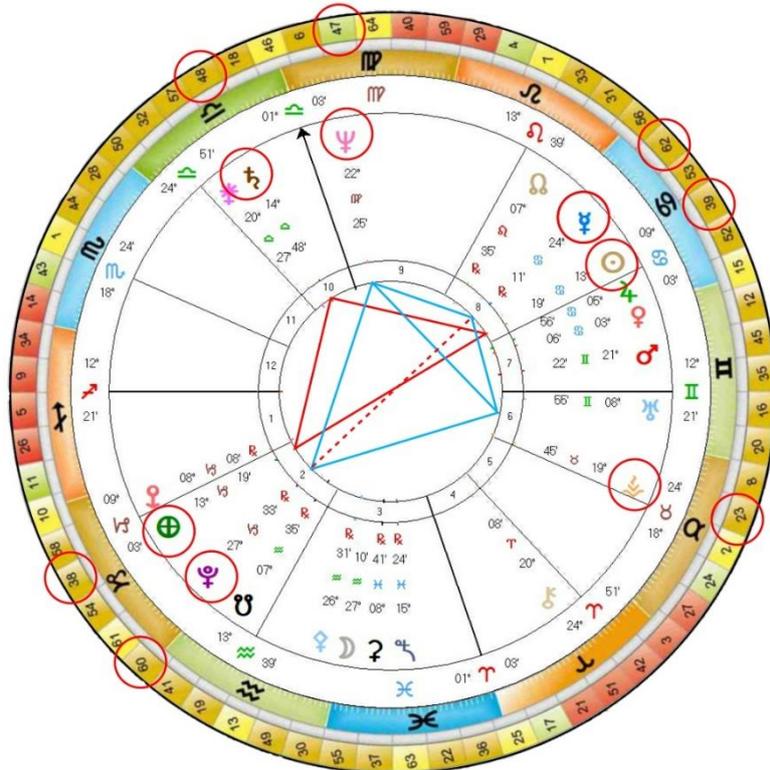

Our ability to **Listen Through Love** will reveal to us the higher Path to navigate over these next years as divisions and shadows continue to manifest from within the collective unconsciousness.

This need to come into an inner state of Silence, where Empathy will be revealed as our natural inner, innate Essence, does not mean that we lose the ability to speak, but rather that the words that are spoken flow through the Wisdom and Love of the Language of Light - from the Soul. As we navigate these next years, we are facing challenges across the Earth, prompting us to move into a higher awareness of our Unity with all of Life –not just as an idea, but as a reality, and no more so than within the USA, as here the Collective Consciousness of America is going through a Pluto Return – a time of collective Realignment and Rebirth.

USA Independence Chart of Independence

Pluto Return to USA Independence Chart

20th February 2022

12:35 am Philadelphia USA

What potential seeds of consciousness were held within the 1776 Chart, at the timing of the signing of the Charter of Independence, that have been unfolding and evolving through the following two hundred and forty-six years as Pluto has been transiting around the Sun to return to its inception point at 27⁰ Capricorn 33.

Back in 1776 the Sun was on Gene Key 39 – **The Tension of Transcendence** moving from **Provocation** to **Dynamism** to **Liberation**, and the Earth was on Gene Key 38 – **The Warrior of Light** moving from **Struggle** to **Perseverance** to **Honour** so you can sense and feel the archetypal energy that underpins this time and place, reflected in the Declaration of Independence.

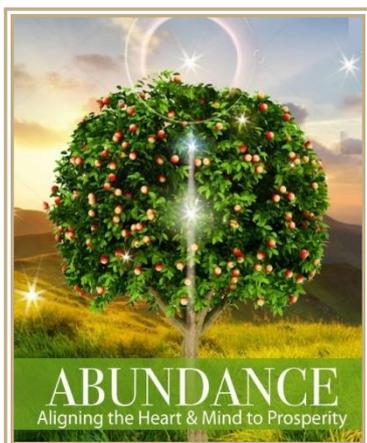

The Declaration of Independence states three basic principles:

1. God made all men equal and gave them the Rights of Life, Liberty, and the pursuit of happiness
2. The main business of Government is to protect these Rights
3. If Government tries to withhold these Rights, the people are free to abolish it and to set up a new Government

At the time, Saturn was making a square 90⁰ angle to both the Sun and the Earth and was on Gene Key 48 known as **The Wonder of Uncertainty** moving from **Inadequacy** to **Resourcefulness** to **Wisdom**. Saturn, known as the Teacher and Guardian, requires that we act from balance, from integrity and that we take full responsibility for our actions.

Although Saturn, at first, may seem to be concerned with the outer world, security, the accumulation of material goods, and status, it is always seeking to guide and to point us to our inner wealth and abundance when we have the courage to face our fears and shadows, so that we may open up to higher states of Consciousness. In one Pluto Return, of some two hundred and forty years, there are eight Saturn Returns, as Saturn takes around 30 years to orbit the Sun and so the question is, after experiencing these eight transits from Saturn, how is Gene Key 48 manifesting within the group consciousness of the USA at this point in time?

*'At the Shadow level of Gene Key 48, 'This Shadow gives rise to one of the deepest human fears – the fear that we are inherently inadequate. **The frequency that the 48th Shadow releases into the cells of the body emerges as a profound uncertainty about the future and our ability to handle it.** Coupled with its programming partner the 21st Shadow of Control – these two Shadows programme human beings to try to stay in control of everything. **The repressive nature of the 48th Shadow forms the collective blandness of the mass consciousness – the consciousness that is too afraid to look into the fear within its body so it settles into the fixed patterns of society.** Another major manifestation of the 48th Shadow is the urge to create more and more wealth.'*

'Every human being is designed to prosper because Life itself is prosperous. Prosperity is an entirely different phenomenon from wealth. To prosper, all a human being needs is a little more than enough, whereas to be wealthy means to have a lot more than enough. Wealth by its definition is formed out of the need for security, which is rooted in the fear of the Shadow frequency.'

*'Another vital aspect of the Gift of Resourcefulness is its integrative power. All of our inner talents and resources are ultimately designed with a built in programming agenda – to offer service to the whole. **The potential of this 48th Gene Key is urging us to dig deep into our Souls for collective and practical resolutions.** In the years ahead we are going to have to understand this Gene Key and the hold that its shadow frequency has over us.'*

*'Most see Wisdom as some inner knowledge that allows the individual to see beyond the confines of normal awareness. However, the 48th Siddhi opens up the void inside you and you enter into a primal state of not knowing. Everything about Wisdom is about being unsafe and unsecure. **There is a great***

difference between being insecure and unsecured – in insecurity we are looking for safety, for answers - to be unsecured means to be released from fear altogether. It means to have stepped through the Group Consciousness of fear and to be more secure than can possibly be imagined. No fear of death, no fear of life.'

There is another major planetary pattern at the time of the signing in 1776 – a Kite formation involving Pluto, Neptune, Vesta and Mercury.

In simple terms you could say that Pluto trine to Neptune and trine to Vesta is the deepest drive (Pluto) to uphold Spiritual values (Neptune Vesta) as expressed through Mercury in the words of the Declaration

'God made all men equal and gave them the Rights of Life, Liberty, and the pursuit of happiness'

This may well have been the vision and intent of the Souls that signed the Declaration but energy can, and does, manifest in many ways according to the level of consciousness and so Pluto opposite to Mercury can create a very dogmatic sense of being right, a sense of *'My way or the highway.'* In the outer world, Pluto trine to Neptune can create an obsessive (Pluto) drive for power and wealth, that has no boundaries, or is idealised in some way (Neptune) – a fantasy dream (Neptune) that hides a much tougher reality (Pluto).

But, within our DNA there is a deep and powerful potential that is waiting to unfold - an inner initiation. Neptune holds the potential of Gene Key 47, known as ***Transmuting the Past***, which is moving through the Shadow of ***Oppression***, to the Gift of ***Transformation*** ultimately to ***Transfiguration***.

Mercury is on Gene Key 62, known as ***The Language of Light***, from ***Intellect*** to ***Precision*** to ***Impeccability*** which is all about the realignment of our focus from the mind, the neo cortex, to the heart.

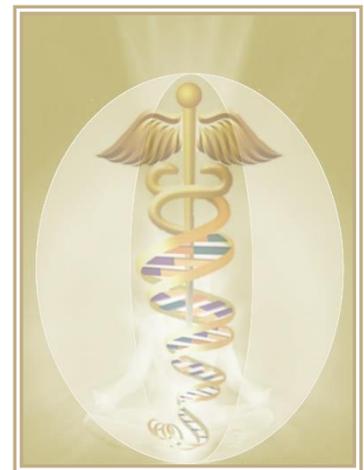

'The 62 Gift of Precision is far beyond the realm of the Intellect, which is based on mere knowledge. Precision happens when natural intelligence strikes a balance between the heart and the mind, but with one caveat, that the heart, the feminine principle, is given control over life. The masculine principle, the intellect, then moves into service of the feminine principle, which is about intuition, listening and receiving rather than thinking, expressing and transmitting.'

'The 62nd Gene Key is genetically coupled with the 31st Gene Key forming the codon known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the throat centre. The throat centre is where the greatest human initiation occurs.'

And Pluto which was on Gene Key 60, as it will be on 20th of February 2022, is known as ***The Cracking of the Vessel*** moving through the Shadow of ***Limitation*** to ***Realism*** to ***Justice***.

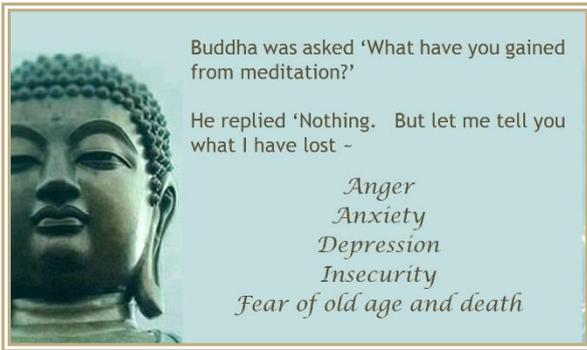

'There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense is not in opposition to magic. It is common sense to remain open minded to everything in the universe, because everything from the tiniest nano-particle to the cosmos itself, has at its core the same wondrous inner light.'

'When a Being attains self-realisation through the 60th Siddhi, something quite extraordinary happens, the fundamental laws that govern physical existence are loosened and in some cases broken altogether.'

'At a collective genetic level this kind of event is called a frameshift mutation. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'

'At a collective level the 60th Siddhi will be one of the very last Siddhis to dawn. As the 60th Siddhi begins to ignite in multiple beings it will be the ending of the world as we know it. The laws that hold together the Earth will crack and our planet will begin to transmute. The 60th Siddhi has been known by certain esoteric schools as the Merkaba, or Chariot of Light. The true collective Merkaba is the Earth herself, the Spirit of Gaia and the souls who hold this Gene Key hold the key to this ultimate magical experience.'

Finally, Pallas Athena, on Gene Key 23 known as the **Alchemy of Simplicity**, moves through the Shadow of **Complexity** to the Gift of **Simplicity** ultimately to the Siddhi of **Quintessence**.

'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. He hit upon the great and simple truth – that language flows directly out of your state of consciousness.'

'The 23rd Gift is an ongoing process in which more and more clutter is gradually removed from your inner and outer life. As your mind clears spaciousness opens inside you allowing you to see things with great clarity'

'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal. People with this Siddhi can transmit the power of the awakened state through a word or a look or a gesture. This is the Midas touch. **Every person has a unique key that opens them to a higher state of consciousness and the people of this Siddhi hold all the keys.** They do not necessarily know that they hold the keys – they simply respond spontaneously to each person and in so doing they touch the core of that person'.

'This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness. It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. **Once this Siddhi has fully dawned inside a person they become an alchemical agent that overtime refines all and extracts the Quintessence from the dross.** To walk this path, you will have to dig deep within yourself and revel in that true Quintessence that only you can recognise.'

All of the potentials that were seeded back in 1776 are now being revisited by the Pluto Return. The Pluto Return will throw a searchlight onto the present state of the Consciousness, to see whether the Shadows of **Struggle, Oppression** and **Limitation** will be transformed into the Gifts of **Dynamism, Perseverance and Resourcefulness** in the minds and hearts of the American people, and indeed all peoples of the world, ultimately releasing true **Liberty, Honour and Justice**.

In looking at the chart for 20th February you will see that Pluto is back at 27 Capricorn and that Neptune is at 22 Pisces, Gene Key 22, which is exactly opposite to where Neptune was back in 1776 at 22 Virgo Gene Key 47 - Gene Key 22 and Gene Key 47 are Programming Partners, so, there is a real focus on which level of consciousness Neptune is manifesting and operating in the psyche of the USA at this point in time.

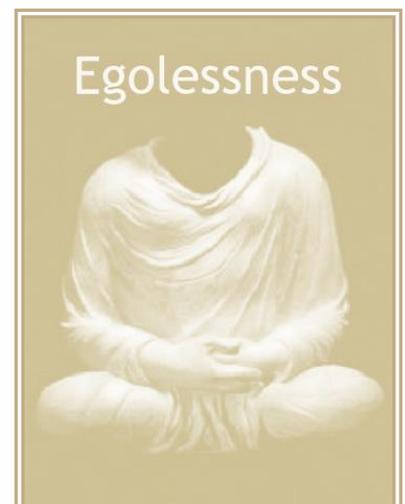

Gene Key 22 is known as **Grace Under Pressure** having **Dishonour** as the Shadow, **Graciousness** as the Gift and **Grace** at the Siddhic level.

'If you do not take responsibility for your thoughts, words, actions and feelings then life simply sends the same forces back toward you again and again. Whenever you project negative emotional power at another you Dishonour both yourself and the other person.'

'One of the great Cosmic Laws is the Law of Divine Memory. This Law states that all thoughts feelings and acts are recorded everywhere within the body of the Universe.'

'At the Gift level you see that all is interconnected – all things and all people. You realise at a deep level that we are all being listened to and you inherently know that if you do someone an injustice it will come back to you.

'With the Gift of Graciousness you begin to disperse your own Karma and that of your ancestral DNA. The Gift of Graciousness might also be called the Gift of the Soul.'

'Grace is your true nature. It is your inheritance. It is the Soul of the World. It is also a state that is beyond the Laws of our world. Grace is the breath of the Divine. When true Grace descends it wipes out all your past karma in a flash. It also wipes out the Karma of all your ancestors and all their ancestors.'

'Above all, remember this: through Grace, the Universe has but one single wish – for you to remember that you are Love and there is nothing in you but Love.'

Over these last few years, Neptune has been impressing and over-lighting the Earth plane with the resonance of Grace, whilst Pluto has been intensifying and bringing shadow patterns clearly to the surface so that they may be transmuted and integrated, allowing for higher frequencies of Consciousness and Light to be merged within humanity, birthing higher awareness.

So finally, if we now look to see where the Sun and Earth are at this pivotal time of Pluto's Return, as a new Pluto cycle begins, you will see that the Sun is on Gene Key 55 moving from the Shadow of **Victimization** to **Freedom** and the Earth is on Gene Key 59 moving from **Dishonesty** to **Intimacy** to **Transparency**.

'The 55th Gene Key holds the key to our liberation and Freedom. Our DNA holds our greater Self – the Cosmic part of each of us that transcends our mortal body. The 55th Gene Key allows us to contemplate and to quicken the actual process of awakening. The 55th Shadow is the addictive pattern of looking for outer circumstances to blame for our mood and circumstances.'

'The key to the 55th Shadow and its transcendence depends upon one factor – our attitude. There are really only two dimensions to the concept of attitude – we either behave as though we are a victim of circumstance or we take full responsibility for our situation - with the coming shift of consciousness that is unfolding through humanity we will slip through the strands of the emotional net that has kept us in a state of Victimization for so long.'

'Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change. We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. There will be a genetic mutation that will slowly colonise our species.'

'The old human will literally be bred out of humanity. As we begin the process of transcending our Shadows, miracles can occur in our lives. Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity.'

'When operating out of the 59th Shadow of Dishonesty there is an inability to be transparent with others and so there are hidden agendas and behaviour patterns rooted in selfishness and isolation. This is the Shadow that makes the world a lonely place.'

However, at the highest level of the 59th Gene Key, which is where the Earth is at this moment in time, we are reminded of our indivisible Unity with all Life, when our minds are no longer creating a world of separation and division.

'The purpose of the 59th Gene Key is to breakdown all barriers that stand in the way of union. When awareness has reached its ultimate expression it becomes a clear mirror for consciousness and this is what Transparency is.'

'It reflects life without any additional comment – the ability to look upon the world without Judgment.'

'This is the epoch we are now entering, when we will once again remember that every man and woman is our genetic brother and sister and no single individual, family, tribe or nation is an island.' 'We are One.'

As this next cycle of Pluto begins, our collective innermost feelings, thoughts and actions over these next years will lay the foundation for the unfolding of, not only the next two hundred and forty year Pluto cycle, but equally the foundation for the Aquarian Age - so reflecting once again upon these powerful words:

'God made all men equal and gave them the Rights of Life, Liberty, and the pursuit of happiness.'

may we truly come to be aware of the **Simplicity** of the words spoken by the Dalai Lama which express the True and Eternal meaning of the 'pursuit of happiness.'

'More compassionate mind, more sense of concern for other's well-being, is source of happiness.'

When we embody this awareness, as we each journey through these times of uncertainty may we also discover the **Wisdom** that is held within our Consciousness waiting to arise when we step through the Group Consciousness of fear, *to be more secure than can be possibly imagined*. For from within this state the Future Human Being emerges.

Love and Blessings to All
