

Cosmic Overview

Capricorn New Moon 2022

You can't go back and change the beginning, but you can start where you are and change the ending.

CS Lewis

' I AM ' The Light of Initiation

Capricorn New Moon 26th December 2019 5:12 UT London UK
<https://www.timeanddate.com/moon/phases>

If we trace this particular Lunar Cycle back to the time of the New Moon on 26th of December 2019 just before the Saturn Pluto conjunction on the 12th of January 2020, that has underpinned the fundamental and profound changes that have been occurring across the Earth over these last two years, we find that Chiron was guiding us to dig deep, to turn inwards and to heal the Human Wound, which in essence, is that we have forgotten Who We Are and the potential that we hold.

In truth we cannot go back and change the beginning, but in reflecting upon and comprehending the immense changes that have been occurring since the Saturn Pluto conjunction took place, that ushered in this new Decade, we can begin to understand how and why so much of Life has begun to unravel and to be stripped away.

Through this challenge we have the opportunity to assess and to embody our Core Values - that which is precious and innate within each one of us - the Soul of our Being.

It has taken inner awareness, deep roots, and perseverance to stay centred and grounded over these many months, whilst maintaining an overview and witnessing all of the upheaval, fear and chaos as shadows rise and old safety nets fall away – to listen and to stay true to the guidance of our Soul as we go through this pivotal Initiatory period, which is birthing a quantum leap of consciousness.

From an esoteric viewpoint, the changes that are occurring externally are also occurring deep within the psyche and energetic of each individual. Saturn rules Capricorn at the personality and also at the Soul level of Consciousness – being both the Dweller on the Threshold and the Lord of Karma, for it is Saturn's Ring Pass Not, that we meet when we wish to start a new cycle on a higher level of the evolutionary spiral.

At the personality level Capricorn is deeply immersed within the material life, seeking success and financial reward with little if any awareness of anything other than the physical material form. The Soul's Light within Matter still remains hidden. But as the individual progresses, over time and working with the higher levels of the three Rays which manifest through the Constellation of Capricorn, Initiation is undertaken.

'Capricorn is most closely connected to the Third Initiation and flows with the 1st, 3rd and 7th Rays. This combination gives Capricorn the ability and strength to eliminate anything that has been previously created and bring about a new Form for the manifestation of the Plan.'

At the 3rd Initiation the individual is aligned with the Higher Mind and the individual's specific Rays, talents and abilities are integrated into the Collective Purpose of the Plan. The prerequisite for this Initiation requires emotional balance with the capacity to operate with Wisdom within the physical realm.

Love and compassion are necessities not luxuries - without them Humanity cannot survive.

Chart for the New Moon

Capricorn New Moon 2nd January 2022 18:34 GMT London UK
<https://www.timeanddate.com/moon/phases>

Just after we celebrate this New Year on Planet Earth, the New Moon in Capricorn will take place on the 2nd or 3rd of January, depending upon where you live. Once again, just as in 2019, at the time of this New Moon Chiron is making a T square to the Sun Moon and Earth but this time there is also a T square from Jupiter to the North Node Ceres Sedna and to the South Node.

So, what does this all mean in everyday language what are the archetypal Qualities that are seeking resolution? This year, the Sun and Moon are on 12^o Capricorn 22 on Gene Key 38 known as **The Warrior of Light** moving through the Shadow of **Struggle** to the Gift of **Perseverance** to the Siddhi of **Honour**.

'This aspect of DNA developed in human beings became the foundation of the evolutionary law of the survival of the fittest. This Gene Key still influences all human beings today, regardless of how closely associated you are to this Shadow. It is there in the collective energy field of humanity and it is particularly strong when certain groups of human beings are threatened by other groups.'

'The 38th Gift is part of a genetic codon family known as The Ring of Humanity. Each of the six Gene Keys in this group represents an archetypal aspect of the human story. In this story, the 38th Gene Key sets the pattern of all human struggle — the struggle of all form to reach Spirit. In human beings it is represented by the quest of the inner Warrior of Light against the dark forces of your lower nature. It is this quest or battle that stands behind all

external human conflict. **Perseverance is the most essential human attribute of the inner warrior because the darker forces of human instinct are so deeply embedded in our nature..** Over time, through Perseverance, Love and Trust, you will eventually attain victory and experience your own Divinity.'

'At a certain level this Spirit enters into the realm of a pure frequency - into the realm of Honour. Honour is a dynamic living energy. **Honour is action that is rooted in a Love so pure that it sacrifices itself, without a thought, to serve a higher aspiration.** Every act of Honour carries an equalising force into the world rather than a divisive force. **If the act brings people together into a high frequency field, it is an act of Honour.** Honour always carries the frequency of mercy and surrender within it.'

'People in whom this Siddhi manifests are the highest form of warrior. **They become our Holy Warriors those who cannot be tarnished by the world.** As the Warrior of Light the 38th Siddhi does not fight the lower nature; rather it absorbs the forces of darkness deep inside itself through its action and in doing so shines out with immense purity in the world.'

The Earth at the time of the New Moon is on Gene Key 39 known as the **Tension of Transcendence** moving through the Shadow of **Provocation** to the Gift of **Dynamism** to the Siddhi of **Liberation**.

'The 39th Gene Key and its programming partner the 38th Gene Key hold unique place in our collective cosmology. Above all other archetypes, these two represent the myth of the warrior. Rooted in your adrenaline system, the 39th Gene key is a highly dynamic code that is all about action. **The majority of humanity is trapped by the lowest frequencies of the 64 Gene Keys.** It is fear that keeps humanity asleep and at the Shadow level it is rooted in the fear of being trapped - the fear of losing your individual freedom to act.'

'To access the Gift, involves a journey of awakening in which you have to raise your own frequency back to its original state. When this occurs your natural Dynamism returns and it returns as creativity. One of the simplest ways to raise your frequency is to do what you love in life - this will unleash your creative Dynamism. **People with the 39th Gift never seem to run out of energy it is as if they are being driven by a force beyond themselves.** The pressure of Dynamism cannot help but create more Dynamism. **The real essence of the 39th Gift is to touch other people's spirits in a way that helps them break out of their traps and into higher levels of freedom and energy.** A person living out the 39th Gift unleashes a tidal way of creative activity wherever they go.'

'There is always a point where the Gift suddenly makes the quantum leap to the Siddhi and the blossom becomes the fruit. In the case of the 39th Gene Key Dynamism becomes Liberation when it finally forgets itself entirely. To be dynamic is to create more and more possibilities through action. The by-product of Dynamism is that it serves many people which in turn raises its vibration. The 39th Gene Key is highly individualistic - it has to be so as not be taken in by the status quo. **Unique creativity has to break out of all conditioned patterns in order to rise to genius.'**

'At the Siddhic level an interesting thing occurs when all this genetic pressure breaks through to a higher dimension. Consciousness merges back into the totality which means that it gives up its greatest gift – individual freedom.

Only in giving up the illusion of your individual freedom can you receive an even greater gift – the Liberation of Being. Life itself is struggling to transcend its struggle through human beings and the 39th Shadow builds the tension for change until it is released through the Siddhi of Liberation. Liberation may sound like Freedom, the

55th Gene Key. *But even before the mutation of the 55th Gene Key, we will hear the Dynamic explosion of this energy which provokes the mutation itself. Thus, we will see how the energy of Liberation ultimately provokes the realisation of Freedom.'*

Chiron transits speak to the Soul's Essence and to the integration of the I AM Presence held within each one of us and once again Chiron is pivotal at the time of this New Moon. Back at the time of the New Moon in December 2019 Chiron was guiding us to understand let go of any sense of **Constriction** of how our limited belief system, based on a purely physical and perspective, of what it is to be human being, has blinded us to our full potential.

Now Chiron is on Gene Key 17 which addresses the archetype of the Mind. Gene Key 17 is known as **The Eye** moving from the Shadow of **Opinion** to the Gift of **Far-Sightedness** to the Siddhi of **Omniscience**.

'Our ability to base an Opinion on logical Judgment is one of the great powers of human beings. It is this combination that sets us apart from all other creatures and yet it is also what has pulled us away from the reality of our interconnectedness with all other creatures. At the Shadow level this creates nothing but division because the mind is based on seeing and challenging narrow aspects of the whole, rather than the whole itself.'

'The 17th Gift has a purpose and that is to understand the minute mechanics of life as well as seeing the whole picture. The true purpose of the 17th Gift is to uphold Integrity, by challenging all misrepresentations of Truth in the world. The very quality that leads to narrowmindedness at the Shadow frequency has a mission to create open-mindedness at the Gift frequency.'

'At the Gift level the individual sees the futility of identifying with a specific opinion. Because the 17th Gift doesn't dictate direction in a person's life it is freed to do what it was always intended to do – to differentiate between those patterns that lower your frequency and those that raise it. Once freed from the Shadow frequencies of mass consciousness the 17th Gift has the ability to see higher dimensions and realities - looking ahead to the future and linking one phase of evolution to another. It is working with the Gift frequency that the process known as the opening of the third eye begins. This Gift brings access to a whole new inner language that circumvents the need for one sided, dualistic expression. Thus, Far-Sightedness can be said to arise directly out of the heart rather than from the mind.'

'At the level of the 17th Siddhi consciousness sees through you rather than you seeing through it. When the 17th Siddhi comes into the world it comes like a Divine afterthought. It is one of the seven powers of Grace. It is where the body becomes an instrument for consciousness and there are no borders, levels, opinions or past lives, for the Siddhic level sees an endless fractal pattern of life – repeating over and over – the same but always new – the serpent eating its own tail.'

'Through the 17th Siddhi of Omniscience the human mind will finally see the perfection and beauty of our oneness with all of existence and through the 18th Siddhi of Perfection we will actually bring that vision into full manifestation.'

'The 17th Siddhi directly corresponds to the open 3rd eye. Where seeing and the seen are one. A single eye through which consciousness pours and where past present and future are a single eternal screen of consciousness. These are the true seers and oracles. This is a Siddhi that sees and knows only Perfection. This 17th Siddhi is something of an anomaly, since it is the only aspect of the mind to survive awakening. All other aspects of the mind are transmuted into the higher frequencies with the exception of this single eye – the mind's eye.'

*'The deepest irony of all life is caught in one famous mystic's words: **'God can only come and visit you when you aren't there' or put another way, if you want to know what Omniscience looks like, you, the personality, have to cease to exist.'***

The 17th Gene Key at its essence is asking *'How can we harm another when we realise that they're a part of us?'*

This truth is again being highlighted through the other major aspect at the time of the New Moon. Jupiter has moved out of the Constellation of Aquarius and has just entered the Zodiacal sign of Pisces. Jupiter in Pisces gives an expansive and creative feel – a merging of boundaries - a fusion of mind and heart - and as both Jupiter and Pisces are held within the 2nd Ray of Love and Wisdom this would seem to be a time of potential healing and resolving Shadow energies. Jupiter is activating Gene Key 55 moving through the Shadow of **Victimisation** to the Gift and Siddhi of **Freedom**.

*'Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change. Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness. **We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness.** There will be a genetic mutation that will slowly colonise our species. **The old human will literally be bred out of humanity.** This vast and dynamic change is being triggered by this 55th Gene Key.'*

*'As we begin the process of transcending our Shadows, miracles can occur in our lives. **Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity.** As your awareness stretches, the spirit of Freedom breaks down the barriers in your life. The fractal lines open all around you and energy that was blocked in a certain dimension suddenly precipitates unforeseen beneficial circumstances in your life. **All aspects of Life are interconnected, so a breakthrough at the source of your being will ripple out into all areas, some that you perhaps didn't even remember existed.** This Freedom is born out of one's absolute trust in Life.'*

*'After the awakening has occurred one will no longer exist as an individual. Awareness will operate collectively. The early shattering of the sense of separateness will take place through intimate relationships. **When the first relationships experience dual enlightenment, we will know that the deepest wound of all has been finally healed. The wound symbolised by the fall of Adam and Eve.'***

*'These Sacred Marriages will have an unbelievable energy field around them – they will naturally rise in Love from a position of Pure and Divine Union – both sharing the same auric field. **We will no longer fall in love but will rise in Love – an endless font of energy from the nucleus of Creation itself.'***

*'We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit. **The end result of this in flowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'***

Jupiter is at the apex of the T Square that links to the Nodal Points, our karmic collective past and our future spiritual direction, so very much emphasising the pivotal point we are at at this moment in time – as we collectively make the choice of how we wish and envisage ourselves going forward as humanity.

The South Node (our collective past) is on Gene Key 14 holding the collective Shadow of **Compromise** that requires that we release this old pattern so that we may move into the Gift of **Competence** and ultimately into the frequency of **Bounteousness**.

'Compromise has become so embedded in our group psyches that we don't even realise that we are doing it anymore. Compromise is the by-product of living without a sense of personal freedom. It implies a lack of imagination and an inability to believe in the power of your own uniqueness and individuality. Compromise begins deep inside us. It begins when we are very young, as we inherit the world Shadows from our parents and our schooling. Compromise cannot bring you prosperity because it makes you a follower rather than a creator.'

'The Gift of Competence means to be able to think both logically and laterally whenever needed. The key to efficiency is the ability to switch spontaneously between creativity and receptivity. At the same time as acting, the Gift is also simultaneously listening and responding to its environment. Inside your body this awareness corresponds to the solar plexus area, which is the biophysical zone that dictates how centred you feel at any given moment. When centred inside one breathes and moves with ease and confidence. Competence creates a powerful magnetic field that not only draws in the right support but also has the ability to magnetise material wealth. Those who have the 14th Gift strongly activated in their hologenetic profile are often the driving force that can implement a particular vision or idea.'

'At the Siddhic level of consciousness, energy is transmitted through the individual via the medium of the morphogenetic field. Morphogenetic fields are energetic grids that connect all creatures and particles of matter at a sub-atomic level. It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human. This is our true inheritance – to create abundance. But it is not about accumulation – it is about fertility. Your true latent fertility lies mostly dormant in your genes. When the 14th Siddhi flowers within a human being they become a driving force for humanity itself. Their every thought word and deed reaches deep into the morphogenetic field and guides the whole of humanity towards abundance. The mass dawning of the 14th Siddhi would be the uniting of Heaven and Earth.'

And the North Node which gives direction for our collective Spiritual forward movement at this time and is a focal point for the Way Showers amongst humanity, is joined at Gene Key 8, by the dwarf planets of Ceres and Sedna. Ceres is the Earth Mother. She rules over health, nutrition, agriculture, and overall, a loving kindness, a universal nourishing that permeates everything. Ceres is exemplified in the depth of a Mother's love for her children - a depth of Love that resides within all of us.

The Innuite myth surrounding Sedna equally has this quality of the Love of the Divine Feminine - the Shekinah of Kabbalist tradition. For Kabbalists, Shekinah plays a very important role in the story of creation and in particular in the Great Plan for humankind. It is believed that as mankind descended to a denser, less perfect state of being in the physical realm, the Shekinah, the magnetism, the Divine Feminine Love, left the Absolute/Source/God, descending with us to hold form within our physicality. In just the same way, the Innuits speak of Goddess Sedna descending into the icy depths of the Oceans to create the creatures of the sea.

So how does Gene Key 8, known as **The Diamond of the Self** enlighten the Way Showers of the world. We are being requested to leave behind the Shadow of **Mediocrity** to be the Gift of **Style** and to emerge at the Siddhi level of **Exquisiteness**

'The 8th Shadow prevents individuals from rising out of the mass consciousness and exploring the real adventure of Life. A Life of playing it safe to make yourself and others feel comfortable which supports Mediocrity and Compromise. Mediocrity is defined by others rather than by yourself and Mediocrity has two main functions. Firstly, it stops you from thinking outside of the box. Under the influence of this low frequency you think like

everyone else, look like everyone else and more or less behave like everyone else. **The second function of Mediocrity is to serve the machinery of society rather than evolution. In other words you become a cog in the wheel of the systems established by man.'**

'True Style takes great joy in shattering the grey world of mediocrity that is considered the norm. Where Style is more than skin deep, it is the cutting edge of creation itself. The individual surrenders the self to a creative process that controls the individual rather than the individual controlling the process. The 8th Gift is about manifesting individual dreams rather than simply dreaming about them. This Gift is wild, organic and unpredictable energy full of genius and quantum leaps. Such is the power of genius, for it carries within it more than just a new concept – it carries intent from a higher realm that is far beyond the individual through whom it manifests. Their only concern is to free more free thinkers – thus such people inherit a powerful mission in the world.'

'People of the 8th Siddhi are not leaders. They are examples. The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states. Each Siddhi is holographic in the sense of being reflected within all other Siddhis. Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of Bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed.'

'This is the stage at which you achieve transcendence of your genetics. You remain differentiated at the level of form, but at the collective Universal level your awareness permeates all forms, making you both a drop in the ocean and the ocean itself.'

'There is an inner Light and Wisdom that has a powerful and liberating effect on others, freeing them from the structured systems. Such people create their path as they walk it. Their legacy to the world is to dismantle all concepts of how one should live or what one needs to do in order to attain any particular state. They sparkle like exquisite, rare jewels. They shine like a diamond in the heart of creation and wherever they look, they see other diamonds in various states of clarity – each one unique, each one exquisite and incomparable.'

As we enter into 2022, may we, throughout this coming year, be the Way Showers and Examples that usher in Freedom, Liberation, and Far-Sightedness, upholding Truth and Honour, so that these Qualities may be magnetised and reflected into the Hearts and Minds of all Beings.

Love and Blessings to All
