

CATCHING UP WITH GOD – PETER

Dear God I Am, of Incorruptible Matter at Infinite Speed, please can you offer a perspective on this phrase “Catching Up With God” that will give further clarity to our growth and development. Thank You.

I Am/We Are here in the Light of your request and here in the shadow of your Behest! It is always a Joy that We celebrate the coming out of what was, to what Is and has Always Been. We have used the word behest in an authoritative way, for it has great depth in relationship to your request. Let Us put it another way, the God Within You has requested and Behested this clarification of “*Catching Up With God*” to indicate and identify that which is outward, flowing inward and inward, flowing outward. Ponder this for a moment and see just how simple it can be.

Let Us be direct and straight to the point. Let’s use words that many are well versed in, yet have rarely if not ever, truly experienced the greater ramifications of such information within their everyday lives. God I Am That I Am! Let’s define this in a way that the full concept of this is understood. God, what is God? God is Everything, He/She/It cannot be defined by size or description. God is Everywhere and this simply means there is no place that God is not. As We expand this concept We can clearly state that God is in you as well as God is outside of you. So if God is Everything and Everywhere, in other words All In All, then the requesting and the Behesting comes from God and circled within, you and God together as One!

The statement “*I Am God*” does not mean that you ARE God, just that God is in you and you are in God! It means that you are a Spark of The Godhead or Godliness. In other words, the creation of you in your many energetic forms are all in the likeness of God’s Own Image and Expression of Himself/Herself. You are a spark or flickering of God’s Light and Love that awaits the Full expression of the human experience. This expression as God has Willed It, It is not limited to any form, limitation or boundary. There are Laws applied to these experiences but these Laws are the Laws with which God Expresses Herself and if God is Everywhere and in Everything, there Are No Exceptions.

In your book Peter you describe God as the Essence of Consciousness and this is just part of the Truth, for it also includes the physical manifestations you reside within. The combination of both the Essence and Energy of Thought or Consciousness and the multitudes of the vast manifestations of the human experience are in inflows and outflows, the outflows and the inflows of God’s Own Expressive and Expansive Nature of Itself. And as far as you are concern this is indeed all about you and your own Godliness to Create and Co-Create just as Go Himself/Herself does! You all have this Power, the only dilemma is that you have all forgotten just how the Be with this Prime Creative Energies.

I have added this excerpt to remind myself of what I have written before.

“God for me is not a Great Being outside of myself; God cannot be defined by categories or pigeon holes, God is an Inner Experience of the Original Divine Creator Energy That remains Single in Unity Consciousness, yet all encompassing as an inward Knowing. This Energy is then expressed outwardly and then drawn back to us in the form of an outward manifestation of that Inner Knowing. For myself personally, here in this Knowing, is where I feel and align with that God Energy or Essence to and with my outer world. God as me then, (not being separate from God but a Spark of That Light/Love) is the Energy of Consciousness and Power that is generated where I, as a conduit can anchor the Divine Energies here upon and within the planet of Mother Gaia by my thoughts, words and actions. This Essence or Consciousness is in and around every one of us whether we care to acknowledge it or not, believe it or not and is most definitely accessible and open to all. It is constantly working through and around us at all times, 24/7. However, to create, from a Higher Vibrational standpoint, it simply lays dormant until it is activated and honoured by the individual consciously through their own personal attitudes of worship, dedication, commitment, discipline, gratitude and heartfelt joy! It may not happen overnight, but the world is changing, this is a fact! And it is this Essence of God that we are slowly beginning to manifest within our lives! I think it was Abraham through Ester Hicks who said “the basis of life is Freedom, the purpose of Life is Joy, the result of Life is Growth”. For me, one’s connection to the God Energy will determine the speed of attainment for such desires of achievements”.

So Dear Soul, “Catching Up With God” has nothing to do with God being ahead or above where you are. It has nothing to do with God being more advanced or All Knowing than you are, for by definition as We have explained God is You and You Are God. Catching Up With God is rather the expression of the God Essence or Consciousness that lays dormant within you, awaiting your own free will to activate and honour it by your own individual consciousness through ‘*your own personal attitudes of worship, dedication, commitment, discipline, gratitude and heartfelt joy*’! (smiling with Joy). What Abraham speaks of is your Free Will choice to choose and express Everything Everywhere that will offer you the Freedom that lays in waiting for you. This is not limited to just the good and loving, but all the expressions of their opposites. The shadows of life are not bad for they filled with all that one requires to expand and grow. If human beings could only just grasp this small but powerful statement how quickly would the Purity of God transform their everyday lives.

How else would humanity Know what Love and Freedom was if they have never experienced fear and bondage. Abraham says Joy is your purpose, for indeed the expression of Joy will set you free once you have cultivated the Truth of such a magnificent and benevolent manifestation of God. “*Catching Up With God*” then is simply the growing into the Greatest Expression of your self that you can be while fully embodied within God’s Human Experience as you!

However, here is the dichotomy of being a human! Expansion of the human heart cannot truly expand until you realise and comprehend that life *is not* about you, but about God’s Expression through you. For full expression to occur, no personality can exist, for here no separation can be perceived; the Totality of God is only then able to manifest in an unlimited and most expansive way. The dissolution of the personality is not “*Catching Up With God*”, it is however, the not getting “*caught up*” in the dramas of life and not giving your energies

of focus to the lacks within your life. It is not about acknowledging your own needs for anything, including happiness or any material requirements; it is simply about helping others achieve Freedom, Joy and Growth through their own self realisation that God is within them as they are within God.

This simple Law is the Law of Giving and Receiving and it is here that the understanding through experiencing this Truth, that you will keep all that you give away; and hence want for nothing! Remember that you cannot give what you do not have or indeed what you are not. So if you are God and God is You then Love is Abundance and Beautiful, Joy is a Gift of the Heart, Truth is sharing God's Support and Nurturance offered through Gentleness, Balance, Peace, Harmlessness and Gratitude. Compassion, Forgiveness and Understanding will heal all wounds when given as the Essence of God.

It is indeed possible not to have experienced God in these ways in one's life to this level of awareness and expression, yet We say the quickest way to experience these Expressions of God is to Catch Up With God, by releasing your everyday dramas and the feelings that do not align with Unity Consciousness. Give God a chance to raise you to the Greatest Human Being that you have ever been. Become a Human Angel by allowing God to Express Himself/Herself through you in ways that you have never imagined before. Become then The Gods and The Goddesses that You Are as you allow the Essence of Love and Light to Flow through you to all sentient beings here on the amazing planet. For here, is where the Love Action Is and here is where you have the Power to fulfil your Mission in attaining humanity's Freedom, Joy and Growth!

We ask that you run this information through your Hearts and Minds so as to constructively and consciously instruct your human biology to co-operate in the co-Creation of God Love in Action. Be then the Very Best You Can Be, through your conscious thoughts, words and actions as the Expression of the Essence of God through you, here on Earth in your everyday life and see the Precious and Priceless Beauty that surrounds you.

We close this communiqué by saying, first the information, then the experience of the information, then the wisdom for the Truth that is God!

I Am That I Am/We Are That We Are

L'ahlâm, Almîn, Amên

(Sealed in Trust, faith and truth, I Confirm with my entire being!)

Thank you with All My heart

Peter
