

## EVOLVING BEYOND EVOLUTION – THE GREAT DIVINE DIRECTOR 11<sup>TH</sup> JULY 2019

*“Beloved ‘I Am’ Presence, We Give Praise, and Give Gratitude and We Thank you for Our Sustaining Love and Light as We Walk Our Paths back to the Source of Who We Are! Along this Path comes times that We within our daily responsibilities need that helping hand to understand the Higher Truth, so We may more earnestly Place Our Love Into Action. This is one of those times. Through the Awareness of Our Ashramic Group, a number of alignments have been made Telepathically through the Master’s Impressions and what has been received requires Clarity before We can place anything into any Permanent Action. So Beloved Master Rakocsy can you help us to open more clearly toward our preparations for what is now before us. That is:*

- *The subject matter of that which aligns to the 20<sup>th</sup> July 2019; Namely,*

*“The Prophecy by the Brazilian man Chico Xavier about the date of July 20th, 1969, being a historical chapter in our progress. Where on this date, Neil Armstrong was the first man to step onto the Moon and make his renowned statement: “That’s one small step for man, but one giant leap for mankind.”*

*“Where according to Chico, on the occasion of the arrival of a man on the Moon on July 1969, a meeting took place between the Heavenly Forces in Our Solar System, to Certify the moral progress of the earthly society. The Angelic Forces of our Solar System were concerned about the harmful impact of mankind on the planetary balance. Taking into consideration that the most powerful nations on Earth have armed to an unprecedented degree, the nuclear question was raised, together with the issue of weapons of mass destruction. And from that moment, it was decided after protracted debates, according to Chico, a period of 50 years will be given, since July 20th 1969, so that this additional period shall expire on July 20th 2019. It was said: If we don’t go into a self-destructive war in the next 50 years, then we can expect phenomenal achievements of human science, starting from the Moon. On July 1969, a 50-year deadline commenced.” End Excerpt from link provided in email.*

- *What part of all this has to do with the Galactic Beings who allegedly are involved?*
- *How does all this relate to the recent re-evaluations in resurrecting the Fukushima Clean-up we spoke of with Beloved Serapis Bey and St Germain and Their Permission for us to engage with the Galactic’s to assist us a few days ago? This is really important, because as it turned out it appears to us that even though the Galactics were asked to help us in September of 2017, they did not appear to engage with us at all?*
- *So can we now bring full alignment to all these matters, before the 20<sup>th</sup> July is upon us?*

*“Bless You for Your Love and Wisdom upon these matters.”*

Dear Souls, I AM Your Brother in the Oneness of the All That Is and Am here today to give you the clarity of which you have asked. It is always a Joy when humanity asks the right questions after they themselves have looked into the answers and allowed the feelings to percolate through all 4 lower bodies, and when still not in full understanding Know they can call upon Us to assist! Most of humanity only ever asks the questions from their ego personalities and never considers them beyond that perspective alone, no Higher Knowledge could ever be attained let alone acknowledged or accepted as Truth. From the old human experiences nothing of what you are all stepping into now could ever come to fruition. Here is a simple analogy for the Simplicity of this situation.

I wish to offer you this as part of a clearer vision that was shared by Richard Rudd in Gene Key 23, for what I Am about the share, that even though it is given through words, it can be more deeply comprehended through this vision!

*“Imagine one is a pilot flying a plane in the clouds, and so the mind finds only Complexity and it goes around in circles trying to find its way out. In these lower frequency clouds one will pick up static all the time. At Higher Levels of Frequency the mind sees further and further and more clearly. So the decision is made to rise above the Levels beyond the clouds, where the world mind is left below, and one can begin to move into The Greater Silence. Things that were thought to be problems somehow dissolve because now one can see far more clearly and far further in vision and through this Higher Sight, Greater Insight and Clear Language can be received for here, there is no static and what appeared to be difficult now becomes easier.”* End Excerpt

Every person has a unique key that opens them to a Higher State of Consciousness, but this needs awareness and the due diligence to Raise one’s own Consciousness out of the clouds before a Clearer Reality can be found. This situation here with your questions is a good example of how to Seek and Find the Truth of any perceived resistances in feelings or thoughts that seem to revolve outside of consistency! It is not easy for any Disciple or Initiate in Training to associate the Sense of Synthesis and the use of the Divine Will together and to Realise that a cultivation of the First Ray perception is a potent mode by which the Highest Aspects of the Spiritual Will (as yet embryonic within him or her) can be unfolded.

So I can tell you that part of the inconsistency here is the continued misperceptions or lack of fully understanding of this First Ray of Will and Purpose. As You Are going to Step more fully into your Ashramic Consciousness and be that Love In Motion exerting these First Ray Qualities and Virtues, you must allow yourselves to embody more of the ‘Authority’ that this First Ray Carries. Remember the Rays 1, 2 and 7 are a vital part of

what shall become the Foundational Stones from which you MUST Project your Invocations and Decrees!

Let us come back to this later!

I wish to bring another Discourse given to you on the 17<sup>th</sup> January 2019 by the Maha Chohan. *“I Am’ In Action Maha Chohan 17th January 2019”*

He told you;

*“Today, let Me make it clear to you that in entering the Conscious Pathway of Light, you have to assert the Dominion, which is yours, which has not fully been understood before and definitely, not claimed. You are the Decreeer for your world; and when you enter the Conscious Pathway of Light you are compelled, not by anyone, but by the Light of your Being, the Light of your own ‘I AM’ Presence, to make your own Conscious Application. I ask you earnestly never to tire, never to lose your enthusiasm in your Application. Reach to the Light for your Freedom!*

*There is nothing which can stand against your determination, when you remember that whatever quality is acting constructively in your thought and feeling world is the Power of your ‘I AM’ Presence called forth. Remember that! It is not anything of your outer self! If you will comprehend this, you will see how the Power which you call forth in your Decrees is Infinite! It is limitless and All-powerful in Its Protective Activity for you. Therefore, you cannot fail in anything you earnestly call forth from your ‘I AM’ Presence.*

*So, I tell you Dear One’s, The Elemental Grace Alliance’s Work has not yet begun, you are still within the pangs and pains of the preparational Work. However, you are on the Ground and you are holding your own, within the Great Silence, albeit, still coming to terms with the Responsibilities and getting to Know where your Combined Forcefield is heading!*

*It is time for you to forge forward with the Plan that has been given you, and it shall be your determined and concentrated effort upon your Decrees and Invocations, that will support every Action that you shall engage. That is, the work in building your Radiations Centres, the continued Magnetization of many new Brothers and Sisters to join you in your Combined Goals, to fulfil all the requirements of fulfilling the Proposals yet to be Engaged and the Support and Guidance of the New Children!” End Excerpt*

I invite you all who are reading or listening to this to return to this Discourse for closer review. It is the basis for what I Am speaking to you of in this Discourse.

Okay, let’s clear up the questions, we can do this very quickly now leaving no further misconceptions in what these are related to!

As for the 50-year agreement, yes this was considered within the Realms of the Angelic Host, but like all things brought to human awareness and projected out into the astral realms, which all thoughts are, this new announcement was picked up and run with from outside the Realms of Angelic Consciousness. Chico Xavier is a valued Human Soul who offered tremendous Benevolence and Higher Understanding and indeed if not for him we would not be speaking of this here with you today! So Credit and Adoration Given where it belongs! However, I tell you, Angelic Consciousness does not have 'protracted debates'. That is human consciousness playing out within the static of the clouds of their own beliefs and indeed can also rollover into the astral planes of Galactic consciousness and played out to the fullest in those realms. This part is untrue and must be jettisoned from any further discussions. We wish to remove any thoughtforms, that where any prolonged, drawn-out and delayed methods of reaching any sort of decision or agreement can play no part in Christ Consciousness within the Great Silence.

Yes, the matter of the nuclear effect upon the planet was a concern but at that time the Elemental Grace Alliance Divine Plan had not yet been picked up by humanity there upon the Ground, and since that time in 2016 We Knew that this concern was over. So I tell you all in no uncertain terms although this date has not yet arrived for Our final deliberation the result is already Known and Celebrated!

We also wish to tell you that this date was selected because we knew, that there would be a Cosmic overlay, that Dear Sue has now identified when she shared this yesterday:

*"I am interested in the 50 years from the date of Man's landing on the Moon that Chico describes - when writing my book "The Divine Design - Worlds within Worlds", I was clearly given a fifty-year timing for man to come into maturity.... the dating that I then based this on was the discovery of Chiron in 1977 which takes 50 years to complete a cycle and will take occur on 8th June 2027. As you know through the various Cosmic Reviews - over the last two hundred odd years we have been on an accelerated expansion of consciousness Uranus the Higher Mind 1786, Neptune the Higher Heart 1846 and Pluto the Higher Will 1930 have all entered consciously into man's awareness to be integrated into our energetic system and to be utilized creatively for the benefit of all.*

*"The intensified frequency from Pluto links directly to Shamballa and as such we have to learn how to use the technology that has come from the Higher Mind/Uranus balanced with Universal Love/Neptune if we are to avoid the pitfalls of Power - it is no coincidence that within a few years of the Emergence of the Plutonic Resonance 1930, being harnessed by mankind, we had developed the Plutonium bomb which was released in 1945... obviously, we were still immature as a species and so this monitoring of humanity which has always gone on, took on a deeper and more pressing need.*

*"As you will remember I wrote that we had been passing through the Pluto opposition in July 2018 and that this was a major turning point for humanity and Chiron which I perceive as embodying the Christ Consciousness Resonance - bringing this Essence into the Solar System - has been instrumental in*

*assisting us to mature and to remember who we are as One Living Organism on Planet Earth. Our Evolution over these last forty plus years, since Chiron's arrival, has been striking - our recognition of our Spiritual Identity has been growing throughout humanity since the 1970's and the children being born on the planet today are the result of this shift.*

*"So, in fact, just before beginning to write this email I ran up the chart for 20th July 2019 and am attaching it here with some brief insights and thoughts.*

*"The most striking part about this chart is that on the 20th transiting Saturn will be conjunct to the South Nodal Point at I6 Capricorn - the South Nodal Point links to the collective accumulated karma of Mankind - the Good, Bad and Ugly and with Saturn exactly on this point you could say that Saturn is judging/weighing the totality of what has been created to date by humanity - Saturn as you may remember is the Gatekeeper of the Solar Consciousness and Pluto is the Gatekeeper to Galactic Consciousness, so again, you could say that an assessment is being made of our ability as a species to move into higher states of being - to connect with Galactic Consciousness without causing harm.*

*"I6 Capricorn links to GK 54 Moving from Greed to Aspiration to Ascension and the opposite point where the North Node is and pointing to our future growth is on GK 53 Moving from Immaturity to Expansion to Superabundance - I'm attaching some info on both of these Gene Keys to show what is being looked at right now and the potential that is held at this point in time. Synchronistically and interestingly, the Pluto opposition back in 2018 took place on these Gene Keys too which again signifies the relevance of this particular ingrained thought form that needs to be released into a Higher State of Consciousness.*

*"And on this day Pluto is making an opposition to Venus the Sun and Mercury - which can be translated as the Light of Shamballa assessing our need to transmute, transfigure, personal desires and personal opinions into a higher level of awareness - for these mental and emotional energies block the clear Light of the Solar Sun and prevent the Life Force from flowing with clarity and integrity into the human being without distortion - it is this distortion that creates the disharmony, imbalance and toxicity on this planet.*

*"Pluto is on Gene Key 6I which has been mentioned over the last few months in the Moon Reviews, but again I am attaching this Key for your information.*

*"The Sun on this day is on Gene Key 56 and the Earth is on Gene Key 60 - which speaks of how easily all of us can become distracted and how we need to make conscious choices to assist our own evolution and how we individually and collectively hold the key not only to our own inner growth, but to the birthing of a collective genetic frameshift mutation. Again I attach these Gene Keys for insight.*

*"So you could say that the 20th of July does indeed hold some clear reflections of what Chico Xavier described - however I do believe that there is a continuous, ongoing, layering, accumulation of Higher Consciousness/Forcefields that are consistently working to assist mankind and no one specific date is final - rather an additional cog in the wheel that is being turned each time. From Djwhal Khul we know that the next 'Touch of Shamballa' is due in 2025 so all of these 'cogs' may be building to that downloading of Intensified Light to assist us to move through into the next phase of Humanity's evolution in Grace and Ease - for our evolution is continuous and on-going as we circle around our Star, which is circling around the Galaxy, which too, is revolving around the Super Galactic Centre - Worlds*

*within Worlds that are waiting to unfold, through Universal Consciousness in Love, Wisdom and Beauty in each one of us.*

*“Come what may we are indeed in the middle of a vast unfolding Spectrums of Light - a Cosmic Wave as you describe - so holding the Torch High with no sense of fear is a Blessed Act.”* End Excerpt

So there are never any coincidences, and all is Divinely Orchestrated indeed! So now that the prophecy is cleared up, this then is all about the **‘Evolving Beyond Evolution’**. Not about the Galactics stepping in, to sort humanity out one way or another! The Galactics do not have Permission to do this, without the Explicit and Expressed Demands and Instructions of how, by those who have Attained and Accepted the Grants by **Cosmic Laws To Take Possession Of The Atmosphere Of Earth Becoming The Authority Of What Is To Act Here**, and the **Grant by the Cosmic Law Of More Than Ordinary Release Of Instructions Into The Combined Force Field**.

And so far, as there is no other Group upon this planet who have yet attained so many Grants and Dispensations to date, due to their Applications of Petitions in accordance to Cosmic Law, the EGA remains at the forefront of the focus of the Spiritual Triad and that is why We are so eager to help you rise to the next Levels of Consciousness above the *‘clouds’*!!! Albeit yet clear Application of the Acting out these Grants and Dispensations are not presently at the Optimum Application of the Love in Action to implement them. So suffice is to say, first the Petitional Grants, then all the Love In Action does not have the same connection to any Karmic Wheel, but rather are given the Grace of **‘Walking in the Freedom Robes’** of which St Germain needs to fulfil His Divine Plan! That which He was Granted through His Petition to the Karmic Board of Directors.

Since the last two Petitions have now been Granted, those of the **Divine Clemency** and **Divine Amnesty**, that of the two-thirds and one-third cleaning up of the planet, this whole subject matter for the Fukushima calls is already a Mighty Victory, albeit, that still requires a deeper reflection and Love in Action of the First, Second and Seventh Ray Evocations and Invocations. But nevertheless the Victory Is Assured!

Just the same a review of the Fukushima Discourses with Brother Serapis Bey and St Germain would be a Wise Counsel!

Back to the First Ray of Divine Will and Purpose. I do not wish to go into the details of the relationships between the First, Second and Seventh Rays as this is a detailed subject, but just the same one that you would do well to place some Study upon! Come back to me if you wish to undertake such a in depth look of this.

For now I will tell you that the Evocation of the Will, for Disciples and Initiates particularly, is a new and most necessary development to Master, as is often said, the average Student confounds Will with determination, with fixed intention, with self-will and one-pointed attention. He or she does not realise that the **‘Will is that Divine**

Aspect in man that puts him or her en rapport with and then controlled by Divine Purpose, intelligently understood in time and space and implemented by the Soul as the Expression of Loving Application. The mode 'Par Excellence' by which the Will can be developed is the cultivation of the Recognition of the Divine Plan down the ages. This produces a Sense of Synthesis and this Sense of Synthesis ties the Disciple, Initiate and Student into the Plan.'

This Plan then, in this case, as all Plans are different in Design and Purpose, relates herein to the Elemental Grace Alliance having achieved the Granting of such Levels of Dispensations, although the Principles of these Laws Apply to all Plans, and have the potential of '*Evolving Beyond Evolution*' itself, just as soon as it can move above the cloud of the old human consciousness of limitation and ego expression of personalities. Forget this not however, although I Am using the EGA as an example here, the Law is the same for the Ascension of any Group Living Organism, providing they have evolved away from the old human conceptualizations of what a Human Being Really Is – A God Intelligence Being, made in the Fullness and Image of the Prime Creator Him/Herself.

St Germain spent a lot of time clarifying this for you all who have read or listened to His Discourses of late. I Am here to reiterate all that was shared within them!!

Before leaving this subject of the First Ray, I wish to press one more point. The First Ray is analogous to the Father Aspect. It is then, insofar as manifestation is concerned, the Impregnating Principle. Much understanding will come if you will take this into meditation in the Light of what has already been clarified in this Discourse. The Second Ray is the Mother Aspect, that part that Magnetizes the Love and Nurturing Qualities of all that is Created through the Principles of Immaculate Conception. The Seventh Ray is the focused intent in Energy, Force, and Substance. And the First Ray is that Focused Intent before it is Impressed. The minute it gets into the substantial aspect, it becomes the Seventh; it is Law and Order, Divine Purpose above that.

There is much to contemplate here Dear Brothers and Sisters and I would invite each of you to give due diligence to these aspects of First Ray Will and Purpose in aligned focus with the 20<sup>th</sup> July 2019 and what is being presented to you at this time for a New Application for Invocation and Love in Action.

It must become obvious to you that The Elemental Grace Alliance is a First Ray Ashram, and the Energy coming from the Avatar of Synthesis will make its Primary Impact upon this Ashram, which will provide the line of least resistance.

Although My Position at this time is occupied with Seventh Ray Energy, which is the Order-Producing Energy upon this Planet, I Am also Chohan of the Third Ray that relates to Group Ashramic Life! That Aspect of The Creations of New Civilizations! So please

pay very close attention to the Cosmic Alignment to the Consciousness of Humanity that you are now aware of and My Connections with you!

I Am Master Rakocsy In Divine Service and I await your next Application of Love In Action, with Divine Joy! And So It Is!
