

# THE GALACTIC FEDERATION – ELEMENTAL GRACE ALLIANCE (EGA) PLANET EARTH NUCLEAR AND CHEMICAL AFFAIRS ALLIANCE COUNCIL

## INITIATION & INVITATION TO TAKE PART - PETER – 14TH JULY 2019

In Light of the previous Pledge we took as a Group Effort, as was set out in the 3 Part Series of Discourses called **Fukushima Clean-up** with Beloved Serapis Bey and St Germain in April of 2017, as no Qualifications of any progress in these matters have been received or confirmed as to our efforts, and that the request to engage Our Galactic Brothers and Sisters, never received any form of acknowledgement from our Proposals, it has been determined by the Elemental Grace Alliance to re-visit this '*Love In Action*' to Work more Harmoniously another time and closer with Our Dear Extended Families within the Galactic Federation.

This is a very powerful Thread that was Initiated and followed through by us. But somewhere we must have somehow negated our responsibilities and can only assume we fell short of Our Beloved Intentions to find a solution to these dire situations. This time we wish to go deeper, and this time extend the Qualifications in a more concise and demanding way! This will hopefully assist to realign into a more Expansive Focus including the wider attention of those who may Agree to help us succeed this time around!

I wish to say all this again from another perspective that I pray will assist in the understanding of where we are coming from, as and within this Group of Dedicated Souls here upon the Ground. I wish to refine, polish and sharpen the relevant details that matter and that are directly related to this Application for a New Petition to the Karmic Board of Directors in the hope that a New Dispensation will be Granted. All very necessary for those to assist us who are in the position of having the vantage points as the Masters, Archangels or other Christed Beings, who are not in physical form here upon Earth. We desire then to leave no stone unturned with the help of All Those who shall be Magnetized to this Divine Plan.

I wish to offer this as part of my introduction here.

Imagine for a moment that there is a flag-pole tall and strong with a flag attached to it. What is on the flag is of no consequence! The flag blows in the wind, fluttering away. It follows the prevailing wind, sometime to the south, sometimes to north and at other times to the east and west. Its form takes on that which the strength of the wind induces. Full flight is a strong firm wind, a flickering of form is a breeze. But this flag cannot stand the course of time, eventually it shows signs of wear and tear and will eventually become thread bare and disintegrate.

On the other hand we have the mast itself. Strong and rigid, firm in its form and it remains in position and focused no matter what the prevailing wind. It's all roundedness creates little resistance to all weathers, even hurricanes and storms. It may sway a little, but in general it remains firmly rooted to the ground, stands pointing upwards with a determination to support all flags of all types in all wind directions and intensities.

I see the Sun Of Even Pressure Council and the Elemental Grace Alliance as the Flagpole. But while we remain the flag, we shall be susceptible to the directions of the winds that blow against us! And this will take time and understanding, and we need to speak of such winds, for they will always blow, weather we are flag or Pole.

I have been seen in the past to appear to have a resistance to the Galactic Souls through my desire to remain more focused upon Divine Consciousness. I have tried to explain this to a few in the past, who could not see what I was trying to share. I wish to therefore state quite clearly that I have 'no resistance' to these Beings at all! My experiences to date have given me a Great affinity to any Galactic Being or Star Race who come from places of Christ Consciousness or the Benevolence for humanity!

I have been involved with them on many levels including the High Councils of Sirius (Verangadah), The Galactic Federation of Andromeda (Velios), Nirbiru (Amegatron), Lyra and Vega (Moreaharaaa). So I say I am not adverse to Them or their Galactic Fleets in any way, because I know they are here to help us! THEY ARE US AND WE ARE THEM. We must understand this before we can embrace the next Levels of Consciousness. The Reality of Our Ascension processes.

In my Melvadek Alliance Council Discourses Amegatron told us that they did not know just how powerful humanity was, or the potentiality of how powerful they could be. On this particular occasion Jesus came as a Guest Speaker, and after his talk about human beings, Amegatron told us that they had never met Jesus or knew anything about him and seeing the power of Jesus and the strength of His Light it had given him and the Nibiruan people a whole new outlook as to a human race. You see, on Nibiru there is oneness, all work for the One as the One. Beloved Amegatron told me,

*"We are a race that is what you would call "practical". We set goals, we set agendas, we set timetables, and we achieve that which we intend to achieve, and because we are of one mind, it is to us obvious, it is the way to move forward. There is very little in the way of divergent discussion, so although there are many in our populations, we are all part of the one consciousness.*

*"For us, it has been quite simple to call upon all our troops and all our racial members. When we come forward with an idea, we all work towards it. When we have an achievement in mind, we just do it all together. And so we are technologically advanced, and we have great ships, and we have (this has already been pointed out) contact with human beings, and we have had some frustration as stories have been told about, we had this wonderful solution, a simple implant, and yet, that implant, which would achieve so much, was actually designed around*

*our form. And yes, we have had various human beings at various times with whom we have had discourse and with whom we have experimented with upon with these implants, and they have not been as successful as that which we had intended.”*

This scenario of course is successful from their perspectives, and they have implants that makes this a success. Yes, they all work toward the group harmonics, but none have free will! He also told me that *‘When one acts or does something unbecoming, they are simply removed/eliminated if the implant cannot be reprogrammed’*.

The point I am making is that technologies and higher mind can be limitations in cases where lack of awareness is present and without the High Heart, which the 9th Dimension is the Pinnacle of Evolution that can be achieved by any Human Race: Higher Mind is just not enough to pass beyond the 9<sup>th</sup> Dimension. I make this comment not reflect it toward the Nibiruans, as I have no idea what levels of Consciousness they may be. The point is without the Heart Centre being activated; the mind alone can be a limitation. The 9<sup>th</sup> Dimension is a VERY HIGH mental achievement, that is clear, but our aim here is to punch through the 9<sup>th</sup> Dimensional Levels of Consciousness.

Let Master Djwhal Khul put this into better phrasing than I can!

*“It should therefore be borne in mind that a disciple of any of the Masters will have his peculiar equipment, and his individual assets and deficiencies. He can nevertheless rest assured that, until the path of Knowledge has been added to the path of Love, he can never take the major initiations, for these are undergone on the higher levels of the mental plane. Until the path of light is united to the path of life the great transition from the fourth into the fifth kingdom cannot be taken. Certain expansions of consciousness are possible; initiations on the astral and lower mental planes can be taken; some of the vision can be seen, the sense of the Presence can be felt; the Beloved can be reached by love, and the bliss and the joy of this contact can carry with it its abiding joy, but that clear perception which comes from the experience undergone on the Mount of Illumination is a different thing to the joy experienced on the Mount of Blessing. The Heart leads in the one, the Head leads in the other.*

*“To answer categorically: The path of knowledge is that of the occultist and the sage; that of love is that of the mystic and the saint. The head or the heart approach is not dependent upon the ray, for both ways must be known; the mystic must become the occultist; the white occultist has been the saintly mystic. True knowledge is intelligent love, for it is the blending of the intellect and the devotion. Unity is sensed in the heart; its intelligent application to life has to be worked out through knowledge.”*

*~ A Treatise on White Magic*

What I have shared in the past, particularly with those who do not quite understand where I am coming from, was that although we acknowledge these Galactic Beings there is a specific aspect of the Elemental Grace Alliance, through the Sun of Even Pressure Council that MUST FOCUS upon the Flagpole that shall transcend these 9th Dimensional planes of existence. That is why we are here, to go beyond. **To Evolve Beyond Evolution!**

We are already those 9th Dimensional Beings, albeit we still have yet acknowledged that here on Earth, that we are and can Re-Member All that We Know INNATELY Through Our 'I AM' Presence! That is why we are able to communicate with All Our Brothers and Sisters in the Higher Realms and Dimensional Realities. That is why we cannot travel with Them, that is why we cannot relate so Wholeheartedly with Them. These Beloved Beings are but aspects of ourselves, fragmentation's of Our Soul Parent, whether you call them past, present or future they are All One within the Over Soul with Us and We with Them. They Need Us as Much As We Need Them. That was why we did the re-calling of Our fragmented selves, all those aspects of ourselves in this World and all other Worlds, in this Universe and all other Universes. To Ascend this time, beyond the 9<sup>th</sup> Dimension, to Evolve Beyond Evolution itself as an unascended human being and beyond that in even greater cycles of Life Evolutionary Plans we must go beyond what we think we know! We are going to do this with all aspects of Self as a Single Unified Form in time with those Whom We Acknowledge Are Our Own Selves awaiting Our Return back to Unified Oneness.

Look at it this way, remember the story of Jesus and the Essenes. The Essene Group Realized, it could not Ascend as a Group at that time and so placed all their Group Focus upon Jesus so He could Ascend, which would allow All of Them to be able to Ascend in another time. That other time is now, we are those Essenes! The Greater Family if you like! This is a little like that! They, the Galactics are Supporting Us so that one day They too shall be able to pass through their own 9th Dimensional Realities into Higher Ones. And you and I will be the Ones to Support Them then! Can you see this? Of course there is more to this, but I am just trying to paint a bigger picture here!

So to move forward we must find this Higher Mind, Higher Heart integration and this is done through Knowledge and Love In Action which shall be an experience through Service!

As far as the radiation clean-up is concerned there is still an element of Resonance that will override any efforts on our parts. As I write this last sentence, I also have to say that perhaps this refers to the engagement of the Galactics as well. They too cannot help, unless we ask Them to help us! But we must be very clear about what we are asking help with! Cleaning up all the radiation spills, to remove all malevolent beings on the planet, to remove all cancerous growth causations, to find solutions to help relieve the earth of all illnesses, starvation, poverty and war requires a huge Group Organized Effort! But just what can be done that is within the parameters of human evolution without creating further karma? That needs addressing and with a great deal of Attentional Focus to find the resolutions and solutions to all problems and imbalances.

If the Hierarchy have not done this so far Themselves, just exactly how far can we go as human beings who still cannot communicate effectively with our own 'I AM' Presences? That is the danger that I see! And the one that I feel cannot be rushed.

What we need to do then is to pay less attention to what is happening outside of ourselves and concentrate to Initiate, Activate, Invoke, Attune and so on, until we are 100% in a position to KNOW without any shadows of doubt what the next step is! But as St Germain says; the quickest way to align to our 'I AM' Presence is through Service! So what Service can we engage that will help us achieve Our Goal fully Embodying our Own 'I AM' Presence? Just what we are doing here is just one way!

Our next best Option is to Work as close as we can with the Higher Intelligences Who stand within the All Knowing and All Pervading 'I AM' Presence.

So, with the radiation spills I see this as a go ahead, Beloved Serapis Bey has given us the go ahead as I see it. Beloved Elohim Purity and Astrea have given Their go ahead. So let us Go Ahead!

In the book '*The Golden Book of Melchizedek by Joshua Stone*' he tells us that there are 14 steps to physical manifestation upon Earth. He says that most people on earth barely own the power of the first level. These steps are:-

1. To own your own personal power on a conscious mind level to achieve self-Mastery for God Realization. This is to master one's own emotions, desires, mind, physical bodies, subconscious mind and negative ego.
2. Once having mastered the subconscious mind to begin giving it commands, like a computer. i.e., Invocations, Affirmations and Creative Visualizations.
3. Call upon the superconscious Mind of the Higher Self for Assistance and Guidance.
4. Call upon your 'I AM' Presence and Monad.
5. Call upon your Holy Spirit.
6. Call upon the Christ Within.
7. Call upon the Godhead.
8. Call upon the Planetary Ascended Masters. St Germain, Lanto, Melchior, Helios and Vesta.
9. Call upon the Cosmic Ascended Masters. Melchizedek, Mahatma, Cosmic Council of 12 and 24 Elders.
10. Call upon the Archangels and Angelic Beings.
11. Call Upon the Elohim.
12. Call Upon Christed Extra-terrestrial Helpers. Arcturians, Ashtar Command (and their use of advanced technologies).

13. To place all these Beings and this Law within the Core of your physical body, Your Heart Centre!

14. Call upon Pan, Mother Earth, Nature Spirits and Devas.

The only thing we are not doing is number 12! And I guess that is why all this has come about. So we must now include these Dear Souls in all our efforts. Not sure how to do that myself just yet so I will hand this back to each of you to feel into in a much deeper way! But remember this. We cannot allow ourselves to become anything less than the Flagpole, firm and erect and unmoved in our focuses and the Divine Plan that we have been given to fulfil!

As a side note I wish to say that Joshua David Stone says in his books that he is taking over the Ashram of Synthesis from Djwhal Khul so DK can move on into His next Evolutionary Plan! Very interesting!

Last night I received a questioned message that said, "*How have you proceeded before*"?

Then it dawned on me, go to the top for answers!

So far then we have come up with the need for action regarding the cleaning up of the radioactive materials of the Fukushima site. We engaged the help of the Hierarchy and Beloved Chohan Serapis Bey and Elohim Purity came and set the foundation to proceed in our last attempt.

Then came the suggestions about the Galactic Federation and the decisions as to engage Them with the use of their Advanced Technologies.

I have to admit; I have tended to hold this aspect away from what I see as the '*Flagpole*' scenario of piercing through the 9th Dimensional Levels of Reality Opportunities. For that I must apologize, not only to each of you, but to all those of the Galactic Federation of Light! It was not that I was denying Them but more that my sights were set too high, too far ahead! I know that now!!!

So I have a Plan!

I have put together a list of Those Whom I feel would be best to help us within a New Christ Council which I shall call,

## **THE GALACTIC FEDERATION – ELEMENTAL GRACE ALLIANCE (EGA) - PLANET EARTH NUCLEAR AND CHEMICAL AFFAIRS ALLIANCE COUNCIL**

This is for the Sole Purpose of collecting and gathering all the right information and obtaining all the correct Permissions and Agreements for Co-Operation and Co-Creation

with All Those Concerned, including the Galactic Federation under the Supreme Command of Lord Ashtar and Lord Sananda.

I know that the Galactic Fleets represent some 250,000 Star Nations involved with Earth's Evolution that cannot act without humanity who have received Higher Authority Approvals and/or Requests to do so. In accordance to Universal Laws then these must come through the correct channels, just as the Melvadek Alliance and the Elemental Grace Alliance have used and how They received Permissions and Agreements in the forms of Dispensations and Grants from the Karmic Board of Directors in the past!

My Plan then is to Create a New High Christ Council made up of the following Members of which I am also indicating the reason why I have chosen them as the First Line of Invitations to Join Us here. They are:-

1. Beloved St Germain – As the Chohan of the New Aquarian Golden Age and 7<sup>th</sup> Ray.
2. Lady Portia – Representing Her Role as the 8th Golden Ray in preparations for what will come in Earth's future! As well as Her Role as the Goddess of Justice and The Goddess of Opportunity.
3. Archangel Michael – Representing the Archangels and as Protector of the Human Race and Mother Earth.
4. Beloved Serapis Bey - Chohan of the Fourth Ray of Harmony through Conflict.
5. Lord Ashtar – Representing the Ashtar Command of the Entire Galactic 9th Dimensional Fleet epitomizing the 250,000 Star Nations associated with the Galactic Federation Star Fleets. **Replaced by Archangel Metatron Lord of Light**
6. The Great Divine Director - Manu of the Seventh Root Race
7. Mother Virgo and Pelleur – Representing Mother Earth Herself.
8. Commander Arcturus of the Arcturian Fleet **Replaced by Myra - Lyran Galactic Council for Human Creation and Affairs**
9. Maha Chohan – Representative of the Holy Spirit Comfort Flame and the Over Lighting Chohan of All Seven Chohans of the Seven Rays.
10. Lord Melchizedek – Representing the Over Lighting Father of this Universe and the Cosmic Christ Consciousness.
11. God Zeus and Goddess Tara – Representing the Elemental Directors of Akasha/Ether. **Replaced By Mother Mary**
12. The Sun Of Even Pressure Council – Representing Humanity on Earth.

### 13. Openness to receive any Guest Speakers. Jesus The Christ

This is not my Sole Responsibility to Create this Council but is the Co-Creative Responsibility of those Whom We All Represent as the Combined Forcefield of the Elemental Grace Alliance and Sun Of Even Pressure Council.

So I am passing this Initiating Potential to each of you here to make comment, to offer other potential Members to total 12 Seats and to possibly tell me how you see yourselves as a physical, emotional, mental and spiritual participator/s.

I can approach the Council is the way I have in the past, especially the EGA, but I am no longer the only one in this Plan. And this is where it becomes a little uncertain. To partake in this Council as a Member with a Seat, one will need to be able to connect with one or more of the Council Members, acting as Channel or 'I AM' Representative. Apart from that, there is the SOEPC Seat to bring through the Discourse or information of or from that another Member reflecting the Qualified Relevant Details that directly Align to all subject matter that arises through the Council Convening.

Is there anyone who wishes to Represent a Member of this Council apart from themselves within the Sun Of Even Pressure Group.

To clarify the participation! You know the Discourses that I enter into whenever I engage with the Masters. This is what I am proposing. That if anyone can act as a channel or communicator as the medium through which the Masters will share, that is what is called for. Not the Members of EGA to interpret what is being asked for or discussed. That is except for the 1 Seat Assigned to the EGA. That must be as close as possible to an I Am Presence Communication Transmission. No personality if possible. There should be no personality within these types of Council Circles.

Does this make sense?

I am happy to step aside with this Seat and focus on other Seats, if another wishes to accept this Seat.

For me to resume the Role as I have before sitting in all Seats is going to be a task that could take some time. So it is my suggestion that the Communications or Discourses be limited to one Discourse each Seat of no more than around 6 A4 Pages with 12 font size per Discourse!

I therefore Propose that this Council have at least 2 Rounds of Discourses with Each Member holding a Seat sharing what They will! If the need arises, we can extend the Rounds. My Proposal to begin is as follows;

## Round 1 – Applications For A New Karmic Board Dispensation Including Details of All Contingencies of the Following Adopted Proposals.

- (i) Cleaning up All Radioactive spills at Fukushima.
- (ii) Cleaning up All Radioactivity at any other Reactor Site including Chernobyl.
- (iii) Cleaning up All Radioactive materials in dumps around the world in landfills, holding yards and buildings or those dumped in the sea both known and unknown.
- (iv) What to do about Nuclear Weapons used in the past and those now deployed around the world ready for use again now.
- (v) What to do with the World National and International arsenals of Nuclear based deadly explosive devices and weaponry, including those on land, in the sea and in Space around Our Planet known and unknown.
- (vi) The removal of ALL satellites that are positioned around the world and in Space that are designed to control humanity or unsafe to human or any other biological life! Such as 5G technology but not limited to this single technology.
- (vii) The Elimination of further attempts to rebuild and reconstruct or recreate any Nuclear products or Reactors, once the clean-ups have been completed.
- (viii) The closing down of any present-day Nuclear Power Plants still active and their complete clean-up and removal of all radioactive debris and materials.
- (ix) The closing down of those that are presently under construction for future use.
- (x) The Prevention of any new Plants being even considered any longer.
- (xi) May we Extend this Application for a New Petition to include the manufacturing and stock piling of Chemical Weaponry in all conditions and locations as above, and that have harmful conscious intentions behind them or those which are discharged into land holding dams or tanks, discharged into rivers or seas!
- (xii) What about manufacturing and production industries where their bi products are harmful to humanity, nature and the Electrons that are deposited into land holding dams or tanks, discharged into rivers or seas or released or radiated into the air and atmospheres around the Planet?
- (xiii) The Closing Down and Removal of All Chemical companies and their product ranges that are used to control humanity in any way or used to manipulate human, animal, plant or mineral genomes, through food production, water supplies, medical supplies or applications, birth control, cloning - genetically controlling any life forms.
- (xiv) The Removal and Clean-up of ALL weaponry that has been constructed for the use of manipulating Weather patterns like 'Harp' for example.
- (xv) What can be done about certain Artificial Intelligence that is against human evolution?

## Round 2 - Evaluation and Conclusion

- (i) ?
- (ii) ?

The other scenario I see as a potential, in the past the Councils I have worked with have been solely held within Divine Consciousness. The fact that we are now including this proposal within the Physicality of the Galactic Federation albeit Etheric and normally out of our earthly visible sight, maybe this Council Summit could be held upon the Galactic Command Ship New Jerusalem where all Members can Gathered to consciously take part?

That means a small Group Contingency from the SOEPC could all hold a Single Seat and have first-hand Conscious experience to be a part of the Proceedings. I have no idea if this is possible, as I have never experienced this before, but I wish to put this out there anyway as I know they can beam up humanity in their full physicality, so this is my Request for Confirmation or not, of such a potential!

Personally, I have no conscious memory of ever being on a ship, although I have been a number of times of being seen there; nor have I ever seen a physical ship or an ET on the ground. Although I have had my suspicions at times of some that have drawn close to me in the past!

I guess that is all I can say for now and hand it all over to you.

How Do You Respond?

God Bless You

Peter
