

MOVEMENT IS THE KEY FOR EXPRESSION AND FREEDOM – PETER

I call upon God Mighty I Am Presence in communication with me. I ask this day what movements or actions can we (human beings) take to Co-Create in alignment with God's Will through us as the microcosm of the macrocosm?

Dear Ones, it is a valiant gesture what is called forth this day and one that, if adhered to, will expand your consciousness once again and the movements by which you shall all potentially travel, both inwardly and outwardly. This request is not a usual one and little is known from a 3d perceptive of such a concept as to the vast expansiveness and depth of what is indicated within the chosen words. Yet it is the simplicity and the innocence here, that will indeed move mountains, change the course of rivers, shift worlds and ultimately move many Universes into greater evolutionary cycles. Time has no bearing here as this request is in fact, outside of space and time as you know it.

For thousands and thousands of years, long ago, it used to be a way of life for many civilizations that have lived here upon Gaia. Through the evolutionary processes that have transpired, these peoples have departed, but not before leaving behind and preserving their consciousness' in the many various forms of libraries. For example:- Crystals and Crystal Skulls, stones, rocks and their formations, waters, artifacts, Earth forms, locational vortices of knowledge, Spiritual and Cultural communications through stories past down from generations to generations and now pathways of communications that access directly into the Arkashic records of people, locations and defined time line lineages of specific civilizations and races connected to the inside of Earth and the outside within Star Systems and Galaxies and other Universes.

There are so many who have stored their experiences and Knowledge for this Earth time to be released and discovered once again, for this is a time whereby a 5,000,000 year cycle returns to its beginning. The closing of this major Universal cyclic event will allow each of you to find your way back Home via the Cosmic Heart. Several hundred thousand Races are directly or indirectly connected to you and Mother Earth and this small but powerful solar system. Yet your present known histories are so vague and short minded that you know nothing of such things from where you are. These past civilizations lived physically upon the Earth fully connected to Spirit and were able to fully embrace the Principles and the understandings of just how powerful these Laws are and how beautiful and loving the manifested potentials can be that they created. If humanity today embraced these Principles now, life as you know it would never be the same again. All fear would dissipate. There would be no crime, control or manipulation, no illness or disease. Everyone would live in Perfect harmony, not only with each other but also with all nature realms and animal kingdoms.

It is no mistake that the messages that are now being received across the globe are making way toward the constant movement of *Love in Action* and the actualization of the Truth as to where Home is and how one may relate to it. *Home is where you hang your hat* is a human metaphor, which may be understood very broadly and simply as '*any place one resides upon this Earth, which allows them to find comfort and security*'. If your home creates happiness and pleasure for you, then we encourage you to continue to find your Joy and Peace within its

grounds and walls. However, We ask that you be mindful at the same time, that there is also a wider perspective that may open a whole new broadband of consciousness and Universal Awareness.

It is not to be confused by any complacency that this type of physical home may offer. Home can be a place of deception also, for comfort and security can indeed create limitations and boundaries that curtail the possible manifestations and experiences of even greater comfort and security, where true freedom comes, outside the realms of physicality. Please know that your Earth home is only a temporal place of residence and a place from where you can explore the Freedom of The Greater Home of Mother Father God that lies deep within your Cosmic Heart Connection with Him/Her. Here is where the eternal freedom and unlimitedness of Home or Heaven resides. Living in a particular place on Earth is not the issue we are raising for your discernment but rather the Knowing that Home is in every Heart of mankind. What We are endeavoring to share with each of you upon the planet who are ready, is to assist you to open the doors and gateways into your Grandness of Being the Light of Omniscience, Omnipresence and Omnipotence.

You Dear Ones are beginning to see the importance of expanding your consciousness' through the activation (movement) of Higher Vibrational Energies. The Knowing that no matter where you hang your hat, peace, comfort, joy, happiness and love can find their highest resonances of vibrational Light there with you. We would like to offer you today a simple task in movement; in expanding your consciousness into other realms of existence through your own conscious Heart Mind expansion.

Use your time today to relax, take it easy and do some writing, meditation or stillness or anything else that connects you to Spirit. We shall accompany you, and in doing so, take you upon a journey or two into the midst of Our Consciousness so that you may begin to merge more consciously from your own perspectives. You need to do this because although you are of a Group Consciousness, you in your individual way must discover this Unity from within the Journey of the biology in a physical realm. These experiences hopefully will assist you in the realization of the *feelings* of Home and greater awareness! Your feelings will activate your memories and your memories will transmute stuck energies to Higher Vibrational Fields of Light!

Here the movements of the Universes will flow through you in a way that your personal Journey can be validated and accepted with ease and grace. In this way you will begin to correlate that which You Are as the microcosm of the macrocosm. You will potentially discover that the limitations of this Earth Realm or the human consciousness that surrounds it, is no longer able to hold or constrain you to the dimensional fields of Earth.

You shall remember on many occasions We have prompted you to move, each in your own way, not only for the reason of undertaking your Earthly Works, but related to the importance of how one's energies are depleted and restricted when remaining too long in a single place, situation, circumstance, belief pattern or way of life. This may have been a physical, mental, emotional or even spiritual domain change, which had the potential to limit, restrict and become stale! Some have called it a move away from *familiarity*; We call it "*a move away from being stuck in limitation*". We wish for you to know that to realign with the movement of the Universes, you too must move.

The unfamiliarity and the unlimitedness of human potential which allows expansion, comes when they are in constant movement; never being in the same place longer than is required.

Movement continues to take one outside of their comfort zones and the extremities of their old patterns of belief, their habits, rituals and customs, all which may come in a myriad of forms as everyone knows. No example is greater than religion, world administration, financial programming, media conditioning or as simple as the repetition of everyday routine and life.

Movement is the key for expression and freedom; it offers security and protection, through the very implementation of placing one's self into the most vulnerable and innocent of positions. The Divine attributes of Faith and Trust are reinforced time and time again and the confidence to pick up your stakes and take another journey inwardly or outwardly, to encourage the excitement of the journey and new experience through strangers, friends, family, Spirit, Earth and of course God and His/Her expressions of Universal Flow.

When the Universe and Self are in total Unity, (and you are already, might We say), through the same matter and anti-matter that make up the Universe, your world and you, you will expand your constitutions once again. Your thought forms will radically become so much more expansive than that of any old human paradigm, it will amaze you beyond worlds. It will and We smile here – knock your socks off!!!!

We offer three steps:-

1. The disconnection from the old human consciousness matrix and thought processes.
2. The connection to the New Cosmic Consciousness Grid.
3. The realization that the Universe lives for and through you.

A fairly tall order for humanity, but in Truth, not all of humanity is being asked to become completely unattached to the way of human life as it exists today upon Earth.

Only the ones who have come specifically committed to place their focused intention on the Higher Realms here upon the New Erthe will respond. All is within the reach of the rest of humanity should they so choose to accept these new Principles for themselves. However, for now, those who are here to trigger the first waves of Consciousness shifts are being called to respond. It may take some higher consciousness and consolidated effort to start to make these shifts now. Especially now, for clarity of direction is somewhat clouded by the intensity of the present Energetic flows of photons and magnetic impulses arriving from the Central Sun.

We tell you many changes are coming and the intensities are only going to increase. We are here to assist in every way We can, but only you can ground these Energies for yourselves and the rest of Humanity. There are now, more than ever, some fearless choices to be made in unconditional Love for Self, focused dedication, humanity, all other life forms upon the planet and the All That Is. Lift and shift these Universes to new heights of human awareness consciousness through your expansion, joy, happiness, peace and your HOME status deep within yourselves.

The Macrocosmic Fields of Creation are all *within* you and expressed through the Microcosmic realities of your Being. Expand your beliefs and perspectives of what God Is. Open the Heart Mind into Being and you shall begin to see, understand and feel more clearly the benevolence of the Macrocosmic alignment and fusion with the Microcosmic Self of you. What does God ask of you – Nothing! What do you ask of God? *What movements or actions can we (human beings) take to Co-Create in alignment with God's Will through us as the microcosm of the macrocosm?*

We answer for you; gently with ease and grace move away from living in the old human paradigm of doing. Your own Higher Consciousness will guide you, ALWAYS, when you are listening.

A picture has been painted, but not so many can interpret the Master Piece. It is the Spirit within your Cosmic Heart that is the Artist. He/She will bring Unity Consciousness and the complete Knowingness of your expansive and multidimensional natures back for you to remember. Just as you agreed when at Home. Time to come Home Beloveds!
Have a wonderful peaceful day.

I Am/ We Are Universal Blessings

Thank you in Love and joy, I Love you – Peter
