

PART 4 - NEW LIVING ORGANISMS – SCIENCE OF EMBODIED RESPONSE -
RULE 1 STUDY GROUP – DJWHAL KHUL, 3RD APRIL 2019

“Dear Brothers and Sisters of the Way. I come to you today, as part of the extended edification that will in many ways provide for the elevation of those who may desire to Walk this Path of Revelation! The Masters today are indeed seeking ways to accelerate the Disciples and Initiates within Their various Ashrams of what is now seen as a clear and precise modern to implement and ground within the consciousness of humanity through those ready to open themselves to these new potentials. For those who have arrived within the new Rule I Study Group, you who have now allowed the Impressions of the Masters of your Ashrams, you, who are the Intelligent Agents, whereby the needed Precipitations can be brought about have now at a deeper conscious level have agreed, albeit, not necessarily irrevocably conscious at his time, but have responded which is the first step. You have heard the calling!

For those who have continued with the remaining 13 Rules with the EGA, you will know by now that there is indeed a definite Technique for producing this peculiar form of cooperation, and those Techniques as you will have found, here in these Studies which have realized the Truth of why you are here embracing all that is unfolding within and around you!

I told you in Part 2 of this New Series that one of the first lessons in the esoteric field is the sense of timing, with which that which is imminent, or impending is connected; the Disciple has to Awaken to that which is on the very verge of Precipitation into human thinking, life and circumstance. He or she has to take those occult steps which will enable him or her to recognise not only that which is hovering over humanity on the Point of Revelation or of karmic usefulness, but also enable him or her to handle him or herself so correctly and wisely that he or she becomes a Co-operator, step by step, in the process of aiding in this task of Revelation. The way this is being done today, and which shall now expand exponentially into the future, is through the conscious Self-Realization of your own Individualized connection to your particular Master and Ashramic Life! I am not going into this subject today, but I wish to emphatically place this Seed of Consciousness within the minds of all those reading this.

Without this Realization, the ‘I Am’ Presence or God along this Path, and many others but not all, cannot flow through you unimpeded. For while the human being remains caught within the quagmire of human thought and actions, direct communication from Higher Dimensional Levels remain an unrealised source to God Life!

The training to be given to Ashramic Disciples and Initiates must begin in your educational institutions as soon as possible. This will concern the dual use of the mind, the Nature of Energy, the indication of an Evolutionary Plan, which includes more than the physical forms, and later of a definite and clear purpose for humanity as well as modes and methods of developing the subjective and subtle powers of the human being. This I have shared earlier, but I must repeat it for those who are now beginning a new journey of attentiveness for their greater awareness now! As such New Curriculums and Studies are firmly established, in the near future, it will, without doubt Revolutionize the modern Educational Systems upon a Planetary Scale, allowing mankind including the New Children to re-orient themselves with the Cores of their Beingness! Their connections to Source and the Powers of Mastership that shall bring to Light their own innate

abilities, virtues and talents, no matter what vocation they may take part in. The relationship to Their Ashramic values and their Life's Purpose will flourish like never before.

The quality of humanity remains mutable; yet with more direct focus to New Formulas of Approaching all imbalances within humanity's outer worlds, there is the potential now being revealed that will strengthen and increase its Livingness, is producing advanced changes in the human organism. The tide of Spiritual Life is today so strong and striving closer to the Truth of Reality than ever before, that the next 20 to 40 years will demonstrate the factual Nature of the Kingdom of Souls and of God. This, as you can surely appreciate, will produce fundamental changes also in the immediate objectives before human progress, and in the Masters' Plans, in the teachings given, and in the trainings presented. All these will most definitely be enhanced when the Disciples and Initiates of the various Ashrams of the Masters, learn of their Innate connections. These Dear Ones are the spearheads of this change and the Members of the New World Servers, who will all sooner or later become acquainted with the New Living Organisms now being introduced in a far more conscious way than ever before.

In my last Discourse, Part 3, I spoke about the Science of Impression. The Science of Impression, if studied by the Disciples or Initiates in the world and by the New Group of World Servers, and the New Living Organism of Group Initiates, will greatly facilitate the presentation of those Ideals which will now condition the thinking of the New Age and will eventually produce the New Cultures and the New Civilised expression which lies ahead of humanity, superseding the present civilisation and providing the next fields of expression for mankind. I would highly recommend you go back and be sure to familiarize yourselves with all 3 Parts of this Series, if you are going to understand where we are going with this New Cultural Experience. To gain even more detailed information you can find all these subjects contained within my book with Alice Bailey on Telepathy and The Etheric Vehicle.

I now wish to outline briefly what I have alluded to in the above introduction; that of the Science of Embodied Response, or the Science of Contact. Both are very much inter-connected, and both relate to the expressions of the human vehicle as the result of the received and acknowledged Impressions of the Master's from within Their respective Ashrams.

Up until now there has been a long period of unresponsiveness due to the pressures of human life and experience, however, as the consciousness of humanity is changing and the Groups of New World Servers are gaining far more Conscious Awareness of who they are, the responsiveness is becoming far more profoundly acknowledged. However the clarity of the Impressions from the Master's and Their Ashrams have not been as clear and forthcoming from human expression as they could be. And if they have, they have not been held firmly enough or with sufficient attentive focus for them to have become a visible manifestation just yet!

Of course we are speaking here of the Science of Telepathy, as the medium by which Impressions are transmitted and in so being you will see that the resulting ambiguity of the human interpretation or ability to receive with clarity come from various pairs of opposites. Those of the Higher Mind and human intellect. The relationship between the Master's All Knowing to the personality ego influence, the Source of Emanation and the Human receiving channel itself. All connected with the head centre of mankind.

You will see how all these pairs of opposites play their part, exemplifying the dualistic nature of our planetary Life: The abstract mind and the lower mind. The soul and the lower mind. The lower mind and the head centre.

Each of them acts as an invocative agent and produces evocation. All act as recipients and as transmitters, and all of them together establish the group inter-relation and the circulation of the energies which are the distinctive characteristic of the entire world of force. One point you all need to grasp is that the progressing Disciple and Initiate does not move into new fields or areas of awareness, like a steady marching forward from one plane to another. What must be grasped is that All That IS, is ever present, but not always seen or known from a human point of view.

What we are concerned with is the constant awakening to that which eternally IS, and to what is ever present in the environment but of which the subject is unaware, owing to the short-sightedness of humanity. The aim must be to overcome the undue concentration upon the foreground of daily life which characterises most people, the intense preoccupation with the interior states or moods of the lower self which characterises the spiritually minded people and the aspirants, and the imperviousness or lack of sensitivity which characterises the mass of mankind. The Kingdom of God is present on Earth today and forever has been, but only a few, relatively speaking, are aware of its signs and manifestations.

The world of subtle phenomena (*called formless, because unlike the physical phenomena with which we are so familiar*) is ever with us and can be seen and contacted and proved as a field for experiment and experience and activity if the mechanism of perception is developed as it surely can be. The sounds and sights of the heavenly world (as the mystics call it) are as clearly perceived by the Higher Initiate as are the sights and sounds of the physical plane as you contact it in your daily round of duties.

The world of energies, with its streams of directed force and its centres of concentrated light is likewise present, and the eye of the seer can see it, just as the eye of the mental clairvoyant can see the geometrical pattern which thoughts assume upon the mental plane, or as the lower psychic can contact the glimmers, the illusions and delusions of the astral world. The subjective realm is vitally more real than is the objective, once it is entered and known. It is simply (*how simple to some and how insuperably difficult to others, apparently!*) a question of the acceptance, first of all, of its existence, the development of a mechanism of contact, the cultivation of the ability to use this mechanism at will, and then be inspired into correct interpretation.

Revelation is a generic term covering all the responses to the activities of the Eye of the Mind, the Eye of the Soul, and the 'Insight' of the Universal Mind which contact with the Monad gives. Sight is the greatest of all the developments in this world period in which the Logos is seeking to bring the subhuman kingdoms to the point where human vision is theirs, to bring humanity to the point where spiritual vision is developed and hierarchical insight is the normal quality of the initiate sight, and to bring the Members of the Hierarchy to the point where universal perception is Theirs. Therefore, it might be said that:

- 1. Through the door of individualisation the subhuman kingdoms pass to human vision, leading to mental contact and intelligent impression.*
- 2. Through the door of initiation humanity passes to spiritual vision, leading to soul contact and*

spiritual impression.

3. *Through the door of identification the Hierarchy passes to universal vision, leading to monadic contact and extra-planetary impression.*

Each time that there is a fresh vision of a compelling and conditioning nature, it is the result of invocation by the one seeking the New Impression. When this invocative spirit is present, the results are inevitable and sure, and the response evoked cannot be stopped. This is the basis of all the success of desire (material or otherwise), aspiration, prayer and meditation. Always we get, in time and space what we invoke; and the knowledge of this fact, scientifically applied, will be one of the great liberating forces for humanity.

It might be said that consciousness itself, which is the goal, on this planet, of all the evolutionary process, is simply the demonstrated result of the Science of Contact. It is likewise the goal in some form or other and at some stage or other of all planetary existences within the solar system itself. The unfoldment of this conscious response is, in reality, the growth of the sensitive awareness of the planetary Logos Himself. The human mechanism and its ability to respond to its environment (*as science well knows*) has been developed in response to an inner urge, present in every human being and in all forms of life, and to the 'pull' and magnetic effect of the surrounding environment.

Step by step, the forms of life upon the physical plane, down through the ages, have unfolded one sense after another; one form of sensitive response after another becomes possible as the mechanism is produced, until the human being can receive impressions from the physical plane and rightly interpret them; can respond to the emotional contacts of the astral plane and succumb to them or surmount them; and can become telepathic to the world of the mental plane, thus sharing physically, emotionally and mentally, in the life and contacts of the three worlds which constitute his or her environment and in which he or she is submerged whilst in incarnation.

What he or she gets out of this life of constant impression is largely dependent upon his or her power to invoke their environment and draw from it (*in evocative response*) that they need in all the various departments of his or her being.

This, in its turn, forces him or her, whether they like it or not, to produce an effect upon other people; this can be far more potent for good or bad, and from the telepathic angle, than he or she likes to think or can conceive. You see, therefore, how these Sciences of Impression, of Invocation and Evocation, Contact, Embodied Response, even Rhythmic Control and of Telepathy are naturally concerned with what is inherent in man and in his or her relation to their environment and circumstances.

This is a much grander subject and it would be advisable for those who desire to know more, so they may identify those aspects within their lives that are the barriers and resistances that prevent the clarity of receiving Impressions of Ideas and Visions from the Masters, to place within their fields of Education, that which will aid in the processes of becoming more Consciously Telepathic.

I trust this will all assist in your preparations as you now begin and continue with you Rules For Group Initiation and Precipitations toward the New Living Groups of Living Organisms.
