St GERMAIN: Greetings Dear Brothers and Sisters, welcome to the inception of My New IAMEGA Self-Mastery Class. Today begins a New Era in your life, if this is what you have chosen for yourself. I wish to say that the extension of the time for accepting the challenges to join Us, was most beneficial, having 3 of the 7 who would not have arrived in time, accepted another clemency to partake. For that We are all Grateful, however, from this moment on, your freewill to stay in the Class will only be as significant and unambiguous as the Actions one takes to remain resolute, faithful and dependable as your Divine Will is to Your 'I AM' Presence's Service to The Creator's Love!

What you are going to experience Dear One's, is a progressive intensity, beginning small and working up to a Greater Divine Will and Strength of the Divine Qualities of The Christ Consciousness In Action. I Am going to TEST you! I will not be your Driving Force; this I will not accept. You must within yourself be that Creative Outpouring from deep within your Own Being! Not one of you here, are incapable of reaching such mountain tops, so if you are feeling a little uneasy, then take charge of these feelings or thoughts now, for they will have no place in this Class! *'I am not able', 'I am not sure', 'I do not know what to do', 'I am in fear of making a mistake'*, are not thoughtforms that will help you.

I cannot challenge you beyond your deemed limitations or the illusions you continue to sustain within your present consciousness. If you give Me your Full Attention and do everything I ask of you, then I will assure you by the time you arrive at the end of this Class, you will not be the same person as you are today! So this is the last time I Am going to say anything to any of you about your full participation or fulfilling or not fulfilling the exercises and Instructions I give to you. Doing your best, will to a point be acceptable. But missing My Class, just once, will see you to the door! You are here Dear Heart's because you think you Know Who You Are! That is no longer acceptable! Thinking and Being are two very different things! You are the One you have been waiting for, the One We have been waiting for. We can no longer say We Are Waiting. You have come and you are ready, so the Masters are here to Support You, Guide You and Show you how to become that Christed One Living on both sides of the Veil at once.

To do this, **YOU** must Know Thyself First! The phrase “**Know Thyself**” was not invented by Socrates (470 – 399BC), as some may believe. It is a maxim inscribed in stone upon the Temple of Delphi. This assertion, imperative in the form, indicates that man and woman must stand and live according to their True Nature. Man and woman has to look at him, herself. There are two fundamental questions here.

Question 1: To find what?

Answer: This is an invitation not an enforcement, to set you upon a Path of Introspection. This as a Point of Guidance that begins at this level of awareness and is connected to the Platonic Theory of Reminiscence. The Reminiscence Theory of Knowledge is in itself just that, a theory. A theory that the Greek philosopher Plato, 429–347 BC, where he believed that knowledge originated prior to birth in a hypothetical existence during which humans are exposed to the True Forms or Essences of things. It was believed that after birth, this knowledge is retrieved through reminiscence. But, it is the closeness of his beliefs that we will look at, that will allow you to take some smaller steps, before you can understand the Greater Truth of those Impressions that were given to Plato and Socrates in his life upon Earth.

Everyone, says Socrates, had the knowledge itself, it was just that he could not remember it to any detail that related to the Real Truth! This is in many ways where you are at this time, you can relate to knowledge, but to Know that Knowledge comes with Application to God Life, not human life is again a very different thing! Knowledge **IS** inherent in mankind and is not outside of him or herself. But it requires Wisdom in one’s learning how to Remember that will break down the barriers of your lack of your Remembrance or the Re-Membering of your Divine Soul and Monadic Consciousness. Socrates was actually correct in his thinking, but that was only from the human standpoint, the reflections of only what he could see and evaluate from a physical application.

Question 2: By what means?

This Knowledge of One’ Self can be achieved only through the Socratic Method to begin with, that is to say, the dialogue between the Soul and Itself, or between a student and his teacher. Socrates was as often in the role of questioner, as an attendant within his own emotional states of being. Socrates’ questions, because he actually Knew nothing, only perceived what he thought he knew from his own human perception and experiences, which attain the same result; he knows nothing! He knew he knew nothing because he sort what he did not Know which is same thing as saying if you seek the I Am Presence outside of yourself, you will never know IT, because it is ONLY within, where that Knowledge will be found!

So this is how humans stumble and fall in their efforts to Know Divine Spirituality, and hence can only ever raise themselves to being humanly spiritual, which is nothing to do with Divine Spirituality at all! A human, being spiritual, is one who seeks what he or she believes to be spiritual outside of themselves, but with Divine Spirituality there is nothing to learn, nothing to attain, just to Be! Do you see Dear Ones? But I tell you Plato’s Theory of Reminiscence can

help those who follow their human spiritual activities, because sooner or later the Truth will be revealed to them what Divine Spirituality is, The Truth of your Being, beyond that of one's human perceptions of being human!

Socrates believed that without this work on one's self, life is worthless. He was right again! What value does any illusion serve! According to Socrates: '*An unexamined life was not worth living*'. Right again, but this attitude eventually lends itself to a Self-Realization that if life is not worth living, what sort of Life does warrant True Worth and Value? When one reaches this Self-Realization, the potentials of immortality presents itself along with all the Divine Virtues, Qualities and Gifts of Precipitation and Etherealization which can be explored. These explorations are then the extended Love in Action, and the Ring of Consciousness that begins to break down all the barriers of old human beliefs, programs and limited visions and ideals.

Philosophy does not mean, as in the sophists, (a person who reasons with clever but false arguments), the way forward here then, is through the acquisition of knowledge by way of questioning that which you do not understand, to be challenged in a way that stretches one's self beyond the old borders of beliefs and thinking, and being moved and stretched beyond the old forms of what one becomes comfortable in, as a safe haven! Socrates also believed that living a life where you live under the rules of others, in a continuous routine without examining what you actually want out of it, is not worth living. Right again! Therefore, self-examination is the only way anyone will proffer from the limitations of that Platonic Theory of Reminiscence, so as to pass through that old Ring of Consciousness.

True Philosophy is, what I would call Divine Philosophy or Meta-Philosophy is not the study of the fundamental nature of knowledge, reality, and existence, especially when considered as an academic discipline, or a particular system of philosophical thought or the study of the theoretical basis of a particular branch of knowledge or experience; but instead, **the True Nature of Knowledge, Reality and Existence, the True Foundation of Creation Itself; is nothing theoretical at all, nothing experiential, for experiment is to move within old beliefs looking for the Truth. IT is about the Very Core of Truth, Love, Wisdom, Knowledge and the Essence of God Him or Herself.**

So Dear Hearts, although We shall be working with the old theoretical basis of using Philosophy to move you forward, there is now an understanding that hopefully will open you to a Higher Awareness that all of this Class is in its own right, an illusion of the same Theories of Reminiscence. But we shall use it to break down your barriers of acceptances, as best we can to your own present levels of belief and boundaries that you have up until now been living your lives!

I Am going to stop now and explain very briefly how these Discourses and Dialogues will proceed for the very least, the next 14 days! We will start gently, allowing each of you to engage at your own levels of capabilities and abilities. There is no right or wrong here, and all are equal in My Class, help each other as you can, follow the Instructions and I can tell you

this will not be *'hard work'* but both an enjoyable experience and one of Great mutual benefit and restitution for The Greatest Good of All Concerned.

Beloved Brothers and Sisters, for the next few days I Am going to ask you two questions a day!

- Each question I will be expecting an answer in 25 words or less.
- Before answering the question, I Am inviting each of you to sit in The Great Silence for at least 10 to 15 minutes, without any thoughts, visions, or external sounds that may disturb the Space you are beginning to create for yourself. If any stimulus comes in, do your best to let it be, and if it will not pass within a few moments Demand in the Name of Your I Am Presence, **“Be Still and Know that I Am God”**. **“Tell it to be gone, it has no Authority to be there!”**. Be firm but with no emotional connection.
- After approximately 15 minutes set the intention to receive the answer to your questions directly from your 'I AM' Presence. The answer may show up in a multitude of ways, this you will have to cultivate for yourself because everyone is different. What works for one, may differ from another Dear Soul! You will obviously now be open eyed and in a place of Observation, not thinking this or that! Just take your pen and paper, or computer and begin writing. The moment you think what you are going to write your personality has begun its interference. Stop immediately and find that space again using your Demands of the 'I AM' Presence. I have no interest in what you write at this time as this will vary at this stage. If it should come to it, and you cannot achieve this task, write something, anything! Try!! It is the giving up that will scamper you! As this exercise expands you will find as time goes on just the Faith in beginning will allow the 'I AM' Presence to take over and then all you need to do is keep up.
- A hint in connecting here is to imagine sense or feel an Orb of Light, whatever colour you choose, about the size of a soccer ball is hovering above you! With the power of your imagination, lower that ball down over your head, as if the ball of Light becomes your head. In fact it will be an Orb of the Language of Light! You can use this Orb in your preparations in finding your quiet space as well if it helps. Experiment and see how you go!
- Once finished send your contribution to the Group.
- No-one else in the Group needs to be concerned with anyone else's contributions unless they feel they would like to or need to.
- Peter will compile all 35 and then I/We will choose a number to respond to if necessary! I say 35 as Peter will not be taking part in this part of the exercise for obvious reasons.
- You will want to keep email exchanges down to a bare minimum, so use the same email to ask any questions, make any observations or comments you like. But here is the point of all this. If you have a question Qualify with your I Am Presence First. Try to answer it through your 'I AM' Presence First.
- Only tender a question that you sincerely cannot receive a satisfactory answer from.

- We are here to have dialogue, so do not be afraid of communication. Just keep very close to the subject without flowering or embellishing it with words. Time is of the Essence here, so do not waste anyone else's energies with communication that is neither necessary or is not defined and refined to the point at hand!
- Please be mindful of how much time everyone needs to do their Part in the Class and again help if you feel you can.
- Peter and I will send 1 Part Discourse, day for the Next 13 days with a delivery schedule of GMT time 9:00pm. See what time that means for you and We will do our best to comply with this schedule. 9:00 pm within half an hour of either side will be deemed 24 hours, even if Peter send the Discourse out before 9:00 pm. If he sends it out after, as could happen, adjust the 24 hours to suit the extension of time.
- Should any more Communication Documents be necessary, then We shall look at these on their own merits.
- Should any legitimate reason not to attend this Class, one that is beyond your Own 'I AM' Presence to Control, then send your situation to Peter privately and We will respond accordingly

Here are the 2 Questions.

- 1. Are you ready to fully engage with this Study Class?**
- 2. Why?**

Any questions on these points ask, and Peter will deal with those matters before I return tomorrow!

Just to repeat, I herewith include all the elements that are designed to challenge all those of every level of awareness to study here, to show yourselves the evidence unto the God Flame within you. Thus, individual alchemical advances will be achieved by all who faithfully apply My Teachings!

One last thing! Peter is only acting as a conduit here for reasons of keeping all this functional as a Group effort. But I will be available to any and all of you personally! I will come and be by your side to discuss any matter openly! I know Peter is willing to do what he does, but know that this in many ways will not Serve the longer term of this Study! It MUST All come back to each of you individually! I Know you understand this!

Tomorrow Dear One's We shall move forward and progressively We shall Reach Our Goal!

I Am St Germain
