In My previous Discourses I have told you that I Am The Mother's Love of the Elohim Creators through the Great Central Sun! This Knowledge above is all from the Discourse given on September 9<sup>th</sup> 2016. ‘Adam/Lilith Kadmon Race – Part 1 - The Christ Councils - The Elemental Grace Alliance Council – Mother Shekinah 9th, September 2016’. I sincerely invite you to go back to this Discourse and review what has been shared in depth beyond the words Dear Hearts, Beyond the illusions!

Peter, I bring the above Discourse up now before I continue, for Beloved One, You have overlooked it within the summary of why We Are All here in this Now Moment. I wish to have this Rewriting of the Divine Flower of Life Blueprint to be Embraced and Placed within the Upcoming Invocations, for this single Accomplishment is perhaps the most Powerful Changes ever entered into for the Rebalancing of the man and woman, that of the Masculine and Feminine Divine Qualities and Virtues. This single ‘Love in Action’ to have the Archetypal Energies of Archangel Lucifer to Return to God and to Return the Power of Polarity Back to both Man and Woman alike is Truly important. I will not go into this here, as I have spoken of this before in the aforementioned Discourse, however, My Precious Children of the Light, The Activation that was Created for you within the Elemental Grace Alliance Light Programs were placed there for a very good reason. I will leave it here with each of you to follow through with in accordance with your own ‘free will’. It may just place a whole new Light upon why this has been included in your previous activations throughout the Merging and Blending of yourself with Your Self. It may now be more than just words and take on a Whole New Meaning for you. I could not, in All Faith, leave this single most Reuniting Activity out of this Series.

Beloved Sisters, I now wish to speak Directly to you, but this does not mean I Am not speaking to the Brothers also, however, I wish to draw more attention from those who have incarnated in this lifetime in the female body. Why? Because it is the body of woman that draws the attention from the outer world and experiences that which plays a potent part in holding the imbalances in place. Likewise for the body of man, but as I said I speak now of the Beloved Lineages of the Magdalene’s. To look deeper into this focus upon woman, first I need to clear up a grave error for woman that relates to the word ‘**Virgin**’. This is such a mis-appropriated word in human language and its meaning, according to mankind is not the meaning that has

been ascribed to. It is for the purpose of it, but there is more, and no-one ever speaks of this openly enough, not churches or religious doctrines, not in theologian circles and it must be spoken of here, if you are going to grasp the importance of the Feminine Divine Virtues and Qualities in **'woman'**.

**'Virgin'** in this context is neither the Mother of Jesus, nor the One that is called the Pistis Sophia, which translated means **'Faith Wisdom'**, two of the Divine Mind Powers of Christ Consciousness. **'Faith Wisdom'** is but one of the Twenty-Four Emanations - Attributes of the Divine in this Solar Sun and Universe, Who, Out of Her Desire To Ascend also, but Who has been caught, entrapped in the lower worlds and consciousness of mankind. However, this entrapment was also played out by Beloved Mary Magdalene that has allowed the Divine Qualities of God Mind, Universal Mind, personified by the feminine and female body, who are the extensions and embodiment in actual female forms of Me! That is The Divine Mother, The Celestial Mother, The Virgin of the Virgins, The Female Disciples and Mary Magdalene and all the other Divine Embodiments, Individualized Expressions and personifications of the Divine Feminine.

**'Virgin'** in this context, relates to John, John the Baptist, the **'Virgin'** is the **'Creative Energy'** that lives in Innocence, Compassion, Harmlessness and Balance, uncontaminated by the lower forces of consciousness, the material games of the flesh. Beloved John Exemplifies the **'Soul/Spirit Purity'** that can Ascend to the Higher Worlds, where **'Faith Wisdom'** (*Pistis Sophia*), on the other hand, has been contaminated and needs to break free from the self-willed one who binds herself to the lower realms, robbing her of her Light Garment. Again there is no coincidence that the Story of *'The Pale One – The Return of the Magdalene's'* has also been a Vital Part in this Re-Balancing Program and why you Peter, played such a Pivotal Part in your Role in Re-Uniting the Magdalene's here upon Earth. This too, needs to be included in this Series to Fully Embrace the True Understanding of the Complete Balancing Process. So it is here for those who wish to review in your own time!

Can you now begin to see, why the subject matter about Baptism has come up recently Dear Ones, and why John was the one who Baptized Jesus? He was and Remains the Principle that remains of the Immaculate Conception and why Jesus when He was Baptized by John, He could enter the desert to Discover the Fullness of Himself so He could Gain His Ascension Light Body! Without John's Participation in the Baptism, this would not have been possible.

It would be easy to overlook the Inner meaning that a male and a female aspect dwells in all men and women. The Feminine side of the personality within both sexes is the Expression of the Creative. However, the creative mind, until it opens to receive the Implanting of Higher Consciousness Thought-forms, is restricted to hovering within the lower consciousness as the players or pawns in the movements of intelligent history of human evolution. The psyche, unaware of its Higher Identity Patterns, can be drawn into eternal games of sexuality and controlling mind games in seeking to find its balance in the outer world only, for such is the illusion of the lower consciousness.

As has been Expressed to you through the various Stages or Steps to find this Re-Balancing of the Matriarchal and Patriarchal Energies, it must begin from the **'top down'** within Each Dear Soul. The Unity of Balance is saying here that one has to Work alone, but what it is not saying is to also Work in Divine Trinity Relationships. I Use the Word **'Divine'** here, not to emphasize the work of trinities within the lower expressions of human outer world creations. This has been Divinely Expressed within the Discourses Presented to you within this Series, to show the Trinity Union were Created in the astral planes, for that is where they must be Created to dissolve the old manmade mis-creations. It was the Coming of the Higher Intelligences that Over Lighted the old archetypes, thus absorbing them within Themselves to consume and Unite in the Fullness and Unification in Participation, to remove the archetypes out of the astral planes and back to God. This is what is Meant when I say, **The True Virgin, is the Principle of the Immaculate Concept of any Creation.** To dissolve any mis-creation, or erroneous thought-form it must be dissolved from within the **'Innocence, Compassion, Harmlessness and Balance of One's Own Virginity'**.

We could go into this subject matter in much more detail, speaking about the relationships between Jesus, Mary Magdalene and the male Apostles, who, each one of them, represented one of the Divine Mind Powers that you have so Appropriately already studied, but there are still a couple of points I wish to cover before We close this Series, so you may complete your preparations for this most Potent of Up-Coming Activations. Peter, the comment has been offered by a Dear Brother about changing the name of this New Activation, may I invite you to consider more closely for this Discourse to Serve that Divine Observation?

As this Discourse is being conducted for the Purpose of Greater Awareness to Execute this Invocation with Precision, Accuracy and Purposeful Intent, I wish to broach the subject matter of the **'Law of Gender'**. You may not consider this as a requirement for such a Rebalancing of the Masculine and Feminine Divine Qualities and Virtues, but I can assure you that your Generations of Dear Hearts today, and those of the next Generations to come need this Re-Balancing more than ever before. And that means to complete this task you will need to understand the full gamut of that which defiles and strips away the Divine Right of One's Own God Inheritance, that which the dark forces continue to this day imposing upon the unsuspecting Beautiful Beings. You Know of which I speak, for there are none more caught up in the separation from their Divinity and God Image than those who have forgotten their male and female Divine Creative Essence and Individualized Expressions. I Speak of those Dear Souls who are confused in their relationships with self and others, that express gay and lesbian interactions and those who are confused about their true natures of male or female and in that utter confusion choose life changes as transvestites or transgender operations.

First it is important to Know the Cosmic Law.

*"The **Law of Gender** - Male and female are necessary for procreation. Like seeds, everything has a gestation, or incubation period. This Law is the Yin (feminine) and Yang (masculine) of Life, making them the basis for all creation. As Spiritual Beings we must Balance the Masculine and Feminine Energies within mankind to become a True Co-Creator with God. This Law Embodies the Truth that gender is manifested in everything - the Masculine and*

*Feminine Law is ever at Work on all Planes of Causation. Gender manifests on all three Planes of Causation which are the great Spiritual Plane, the Great Mental Plane, and the Great Physical Plane. The Law is always the same on all Planes, but on the Higher Planes, it takes Higher Forms of Manifestation. This Law Works in the direction of Generation, Regeneration, and Creation. All life forms contain the two elements of gender - masculine and feminine. On the Great Physical Plane, the sexes of all species are manifested as male and female and the role they play in sexual reproduction.*

*“On the Great Mental Plane, Gender Manifests as Masculine and Feminine Energies that exist within each and every person. Every male has its female element, and every female has its male element. On the Great Spiritual Plane, Gender Manifests as the Father-Mother Principle of the Infinite Omni-Present God in Whose Mind the Universe is Immaculately Conceived and Firmly Held. It is written, ‘You all live, move, and have our being within God’. When Balance and learning reach a critical mass, the personality achieves the Merger of God, and see self as neither, male or female, but as One Blended Self, Androgenous in Nature.*

*“Gender is in everything. It is related to form and characteristics. On the other hand, polarity is related to the Frequency of an Energy-Structure. Everything in existence has its Masculine and Feminine Principles; one expressive, the other potential. Gender manifests in all planes. Psychologically, in man we have the anima, or female aspect, and the animus, or male aspect; one is dominant in the female, the other dominant in the male, while the opposite gender of both usually lies dormant in the sub-consciousness.”* Also see the Law of Polarity.

Having the understanding of this, I now wish to introduce this Discourse from Lord Metatron which looks at the fullness of the imbalances and where or what they can be attributed to. ‘Part 2 – SONGS OF RELEASE – Turbo-Charged Events - Archangel Metatron 22nd August 2018’.

On second thoughts I Am not going into any part of this Discourse from Lord Metatron, as He explains it all so clearly, so I shall leave this here for you to review for yourself. But KNOW, that this is also a Vital Part of this Overall Divine Plan!

It is time for Me to close now as this time-allotment is closing fast for all of you.

I just want to share something else with you. This Part 6 is the last Discourse to be given in this Series and so the order of reading and Activating is not by chance either! Just as there is a revers sequence of Process within the Seven Steps of Precipitation, here too is something else for you to garner for yourself or yourselves. Remember Dear Souls, We choose Our Words the Be in Divine Order very carefully not to make this Journey for you a Life on a Silver Platter. You must still do the Work. The Mother’s Love can only take Her Children so far before they have to be allowed to live their own lives! But the Mother’s Love never diminishes and Always Remains Ready to come when called for reassurance and nurturing!

One last thing I wish you to Know before I step back and allow you to Move Forward through your own experiences, and that is the meaning of Shekinah. Either Father Shekinah or Mother Shekinah, Both Within God Balance Are the Presence of the Divine. In the Higher Worlds, It

is the Continuous and the Eternal, in the lower world it is through the uniqueness of the Glory of God in Mankind. Either Hidden or Revealed it Is the Power through which All forms and levels of Creation are Maintained and Sustained within the Almighty God Presence. This Divine 'I AM' Presence Brought down to Earth to Reveal to the Human Race the Presence of the Cosmic Laws that Govern All Life.

May the 'I AM' Presence of God within all the Qualities and Virtues Be Your Guiding Light Dear and Precious Ones of My Heart!

'I AM' the Eternal Mother Embracing You Always and In All Ways, Willing You On through Understanding, Innocence, Compassion, in Faith that You Will Prevail to Bring Balance to the Masculine and Feminine Divine Presence in All Life!

**BENEDICTION: We Give Praise That We are Harmonized, Sustained and Balanced Within Its Energizing Field and We Honour It by Envisioning the World and All of Humanity Opening Fully into Its Embrace of Ascension Energies, Perfect Rhythms of Faith, Understanding, Innocence and Compassion, Harmonious, Inspirational, Loving, Peaceful, Joyous Pulsations.
