Enable Us to Grow in Spiritual Love and Wisdom in Our every Moment of Evolving Consciousness.

St GERMAIN: Greetings Dear One's, as We Gather again today I feel that due to the events of the past 24 hours and the movements around the Healing of the woman in the crowd, that We need to take this a little further with what I shared in My Response to the Group's replies to Sister Terri's Proposed Healing. I said within that Response that there was more to Faith than what has been shared to date! And I wish to take this Opportunity to bring a parallel between Faith and Trust, to clarify The Virtue of Faith and the Quality of Divine Trust. Faith is a Mind Power, Trust is not. Trust relates to the Character or Personality Traits that is the Foundational Platform from which Faith can be Fully Made Manifest!

It is then no coincidence that Our Dear Sister Denise brought to Our Attention so We would all give Our Energies to it for Greater Awareness for the Applications To God Life today! This Group is a Living Organism of Divine Synthesis and in so being must be allowed its Freedom to rock and roll with the Flows of Consciousness as they present themselves. That was the Plan, making this Class one of open Dialogue, not just a one way Discourse or Address! I tell you; We are all here learning and seeking new ways to expand human consciousness to be able to complete the Construction of the Bridge of Consciousness to the Higher Dimensional Realms for all.

Again, this is showing you how Telepathic rapport is growing with the Group. So, the present Hour must be realized as a Chalice of Spiritual Opportunity. Life must be indulged by its Higher Objectives, Honoured by the Adoration of Exalting Principles and Laws within every man, woman and child.

Take this Power and Venerate it above every limiting condition and watch the Alchemy of Self Expand! Transmute the lies of shadowed substances, thoughtforms, beliefs, and old habits and complacencies that arrest your Spirit's upward soaring. Realize that conditions of the human limitation are but ghosts that parade upon the stage of moral existence, only to be laid to rest forever by Eternal Reality!

Each person must become aware of their own choices and select either Freedom or fetters as they explore the chemistry of their own state, where these self-examinations for the discovery of their deceptions, to bring them into focus upon the mirror of Truth; then determine to alter each base condition, constructing within the Crucible of the Hour that hallowed progress which is born of Eternal Perception.

Destruct, then, the base and senseless mania of your origins in Matter consciousness, that progressive nature, in the perversion of the Mother's Love, which does fail to assess the fullness of Cosmic possibilities, limits itself to the baubles and trinkets of temporal possession. Let Heaven Use your consciousness to Expand Its Window, as Denise did today, into the Infinite and then beyond at last to the Beautiful possibilities Present in the most dire of outer conditions. Give Abundance and Richness to the poor in Spirit, understanding to the rich and compassion, kind-heartedness, and benevolence to everyone!

I will step aside now and allow Peter, to share his address to the Elemental Grace Alliance Council within the Discourses presented in 2015 on Trust.

(02 – Narayana and Divine Grace - The Elemental Grace Alliance Council - Peter 21st November 2015)

PETER: *“Another point that I would like to receive comment upon, is that in the short time that I have begun to share some of the information of the Elemental Grace Alliance, I have as yet not really had much response from anyone who would like to be a part of the Project with a Soul Commitment to it! I have had several positive comments that showed interest in the concept, but as yet still no offer has come forth with committed assistance. Not that that is a problem for I will go alone if necessary, but as We saw at the beginning of the Elemental Grace Alliance Invitation to participate, it just seems a little strange to me! Is it so far outside of people's comfort zone that the desperation that is being experienced through outside influences within them, that continues to keep this away from people's awareness and Inner Desire for change? I see the Truth within The Elemental Grace Alliance, but am curious as to why no-one that has seen it to date, sees the potentials here in the same way as I do?*

“Desperation for change can indeed blindfold those who cannot see past the focus of change. But for the Elemental Grace Alliance, I see that there will come, through the Soul Attribute of Trust, of just Being, rather, than being any part of any informative regime or need to act any more. What do I mean by this? It was Archangel Gabriel; I believe who said through Meline Portia Lafont”;

“You might consider taking measures against actions, but have you ever come to the consideration of desperation being the drive behind this all? For desperation has become the action into form and it leads all of the world beyond consideration. When desperation comes to life it is a signal of the last battles being overshadowed by Light. What one wants to have control over is a form of desperation as well. Desperate to be and to hold that which once was and now is not anymore through the changes that come about as you

all step into a new realm of time out of the illusion. For that is what it is right now, standing in the midst of desperation to hold on to something that is becoming brand new in its expression and wave of being. You move from desperation into information and from information to a source of intelligence. When that source of intelligence is sufficient enough to hold new frequencies of embodiment you shall cease to exist in the world of intelligence, rather unfold yourself into the embodiment of Trust and Being. For information is only a possible solution to questions and problems that arise. But seeing and stepping beyond that information is coming into the unfoldment of Trust and Being all units merging and celebrating the Unity of all things in life.” End Excerpt

“Are people so caught up in their own desperations for their desires to change, rather than just Trusting that all is unfolding exactly as it should? Are those reading this information, finding that it is too far beyond any reasonable possibility, let alone potential just yet, and therefore see it as an invasion that separates, due to too great a change being asked for, that will be outside of their comfort zones? If this is true then what is the chance in the short term to finding Members to a Christ Council whose requirements for holding a Seat will stretch even farther outside the old human paradigms of both family, normal life, and environmental engagements?”

“I see this for myself as part of the problem, for as Shekinah began to explain, “action is required at a point where information is available to follow, but after that, Just Being is required when Absolute Trust and Truth comes from Internal Knowingness rather than external information that is used for explanation.” I know that the Christ Councils will come from Being, rather than action and so this really needs to be defined in a much Greater Expression for Clarity and Understanding. I see the Elemental Grace Alliance, at least from a Christed Being, or a very High Resonant human being, will Become the Unified Consciousness of the All That Is here on Earth. For the purpose of explaining myself a little better here, I shall share what I see as Trust and Truth so as to Be. Feel free to add or subtract as you deem in Your Own Wisdom!”

“Trust” is the foundation for all the other attributes: Truth, Honesty, Tolerance, Gentleness, Joy, Defenselessness, Generosity, Patience, Faithfulness and Open-Mindedness. Once you have attained Trust then the rest will follow naturally and without effort. Trust is the part of man that few are consciously aware is not governed by the Laws of the world and man. Trust is inherent in us all and has its perception within this world as having to be learnt. Trust is reliant on Confidence in Knowing the Truth. What is Truth? Are we talking here of the truth which man falsely perceives as being true according to his belief systems or Truth in accordance to the Laws of Creation and God? Man’s truth is based on misperceptions with its origins based on personal power, personal dominance and personal material wealth.

“What is the constant underlying truth in this world where truth for one is different to the truth for another? Two or more truths, how can this be true? You must have one Truth or another, it is impossible to have more than one Truth without being confused

and uncertain of your Trust. As I am discussing Divine Characteristics, let me then base my perception here on the 'Truth' relevant to God's Laws and His Creations. When one Trusts, he does so with a Knowing that only good can come from his action to Trust. If he is Trustworthy then he will only act for the purpose of sharing and extending God's Love. A Trusting person is non-judgmental and sees good in everyone regardless of their race, colour or creed, regardless of their actions, words, decisions or circumstances. He or she is a Forgiving person full of Compassion always willing to lend a hand without expectation of anything in return. For he or she knows that to Give, he or she then receives, and that the reverse is simply not possible.

"To understand what Trust is, the use of this simile will provide an image so one may grasp it more easily. Imagine that you are standing on the edge of a platform which is placed below the clouds. The uniqueness of this platform is that it is upside down because in this imaginary situation, gravity as you know it is in reverse. This can be related symbolically in your logical mind and the lessons we have yet to learn regarding the undoing of all our old belief patterns, so we may in turn find who we are on our 'journey to be'.

"So, you are standing on the edge of the platform, gravity is reversed, and as you look down (up) all you can see are the clouds. You know of no safety nets, your legs are not tied by a rubber bungee rope which will break your fall, you know nothing of the other side of the clouds. Now to demonstrate Trust, allowing you to sense its feeling, would you jump? Your decision will indicate your understanding of Trust. If you couldn't jump, then there are lots to learn yet. If you can jump, there is also lots to learn yet, but at least you have now shown willingness. Now jump anyway! What are your feelings? The exhilaration is immense, and the fear of the unknown will have your heart pounding outside of your chest.

"This is a quantum leap which can only be undertaken without plans or any preparations. How can you know anything about the other side; the vast openness of the Universe where no limitations apply, and no boundaries exist? You must jump without a thought of its implications or consequences but simply in the knowing that you will be safe. To jump then shows Trust and the willingness to accept whatever comes. It shows Confidence and Faith. We must Trust Life and not be afraid of loss or lack within it. Once Innocence has returned to the Heart and our fears have been eliminated, the bridge between ourselves and God is completed. Recognize that the only things that can be taken from us are those things which are temporary or that which can be lost, broken down or destroyed. These are the illusions of the material world and have nothing of value other than their gifts of learning. So why would you Trust anything that is of the material world that is worthless?

"Trust is a strength which comes from a Source which is outside of the self and once experienced it is impossible to consider that the self has any power to act correctly at all. Trust is a Knowing, that we are not who we seem to be, that our Power is in us but not of us. Perfect Comfort and Inner Peace can only come from a Perfect Trust, but Perfect

Trust can only be achieved through correct discernment as to Who You Are without the distortions, confusions, conflicts and obstacles which are placed in our way via our ego or logical mind. Trust has a Power that will solve every problem, every disorder, every wrongdoing, every mistake, every illness and sickness.

“Trust is the Principle which establishes the Miracle, for without Trust, a Miracle cannot occur. The True Essence of a Miracle is the Faith and Trust we have in what appears to be the impossible and the Miracle helps us to remember that our Beingness is not limited to the restrictions imposed upon us by the beliefs that we are only of this material world. All success is based on Knowledge, Understanding, Faith, Truth and Trust. Our success is God’s Vision for us, and we will all be successful when we discover these Seeds of Trust.

“I can see in writing this that I am actually answering my own concerns and realigning my wavering mind that has been allowed to surface within my Address, and how when we just Let Go and Trust the answer comes in by Just Being Ourselves! I Trust that All Will unfold according to God’s Will, so indeed within the interim, I Will continue with My Faith that God’s Design Will Be Victorious and that my part will Be of the Service that God has asked of me. With this I shall now return to my Seat and ask the next Speaker to come forward. In God We Trust! I Am Peter Melchizedek. Bless You for your Patience, Love and Understanding!” End Excerpt

St GERMAIN: There is one thing I would like to say about this Discourse. If you go back and review the entire Discourse you will notice the doubts that Peter has faced upon his path. However, despite this doubt and his self-analysis and forgiveness, Peter with his whining from time to time, and I am respectful in saying that which he Knows, when We Have Called to Him to do something, He ALWAYS steps up to the challenge without another thought. Doubt disappears and the focus of Faith and Trust Over Powers all else.

So although doubt and self-deception is present, that Divine Spark of Knowing can always Perform what is asked, in Fullness within the God Life, and when you are Standing in your Own Presence and Silence, just as Jesus was in the woman and the crowd story, Miracles can and will place, because you can function Perfectly outside of the human ego personality condition. All can learn something from this, even Peter! Right Peter? I Am getting a nod! Great! To Become the Divine Alchemist then, all you need to do is to make that Silence within a permanent place of Residence! Many of you have now experienced it. And that Dear One’s WE are going to turn that experience into a New Reality if you can continue to hold fast to your Faith and Trust!

Today, We complete the Virtue of faith and the Quality of Trust. Tomorrow We shall Embrace or attempt to Embrace, the Seeking of the New Laws!
