LORD METATRON: Blessings Everyone, I Am Lord Metatron of Crystalline Service, and I come here today within a Sequential Order for the Upgrading of Information to allow for a more congruent Understanding and Comprehension for the processes involved with the Resetting of Christ Time Upon Earth. I Am here to tell you that this particular Time Matrix of the 22nd of February 2022 is a major Re-Booting of the Crystalline World Grids around the World; more intensive that any previous Re-Boot. So before I Contribute to this particular Foci of Consciousness I wish to bring forward 2 past events to show those who were not part of the earlier Rebooting Phases, and can now begin more ardently see, from what has been presented to you through these Resetting of Christ Time Upon Earth and the Christ True Virgin Discourses. So this '**Reality Change**' Discourse and the following '**Factory of Light**' Discourse and many, many others have all been Prepared to inform the Whole of The Planet what to expect as a Unified Human Race over the years to come.

You will glean from this Discourse that you are all within the 3rd Phase of the **Re-Calibration and Re-Booting of the Crystalline World Grid**. Lord Michael spoke of 2017 in the Previous Discourse and I AM going to help you to feel more about what this means and how you as Humanity can assist in your everyday lives to assimilate the New Conditions Now playing out upon the Earth to make your Journeys more comfortable. I will return with Part 10 when the time is appropriate.

I Am Lord Metatron at your Service.

REALITY CHANGE LORD METATRON – Through James Tyberonn and the Earth Keeper Publications in 2017 <https://Earth-keeper.com/>

Greetings Dear Ones, I Am Metatron, Angelic of Light. I Am joined in this session by Tyberonn of Crystalline Service and we embrace you in an Energy of Unconditional Love!

Masters, a Planetary *'Reality Reboot'* occurs at major *'shift'* points along the sequence of human life on Earth. It can be crudely compared to you upgrading from Windows 8 to Windows 12, or should we say 2012! Your present shift is an upgrade. However, Reality Re-Boots can also be downgrades. For example, the Planet experienced a Reality downgrade at the final fall of Atlantis.

The Grid System is in fact the Primary Program, the Driver of Re-Boots. In the peak of the Golden Age of Atlantis, an incredibly complex geo-Grid was in place. It allowed for the interactions between dimensions and other *'worlds'*. The final *'Fall'* of Atlantis was in essence, a new beginning. And the new era was primitive in comparison, a time phase in which great focus was to not only rebuild, but also just to survive. This required a new, less complex Reality template to better accommodate the *'starting over from scratch'* period.

Each new Grid Program, loses, erases or replaces much of the *'memory'* of the prior *'Reality'* System. A very stressful period occurs in the early stages between Reality Program transfers. It is as much a period of stress and confusion, as it is a time for learning to operate in the new Program.

The Reality Re-Boot brings vast modification. The original structure, which had been altered then no longer contains the codes and programs from which its specific Reality relied, and the *'old Program'* the memory banks of the old system can never be recovered or restored; it has been forever changed.

Our point is to emphasize that the Planet Re-Booted in late 2012, and you are in a purposed timing of adjustment. The old parameters are fading, and all of you are adjusting, all of you are feeling, to varying degrees, the stress of the *'Reality Program'* change.

You are in for a fascinating, but challenging ride. It may well get harder before it gets easier, but all of you have the tools to deal with the pressures, and it is important to use them. And We assure you that there are incarnate & manifested Masters among you on the Planet to assist in guiding the wise thru the torrents.

In the phase of 2017 to 2038 you will be tested. You are experiencing a necessary nebulous phase for the next 10-14 years. The Crystalline Electro-Magnetic are shifting into the appropriate Earth nodes and the *'new'* Earth Codes & Currents will not be fully in place, fully optimal until 2038.

This means the polarity aspects of the Planet are Re-Structuring. And in this phase, the normalized parameters are not yet reached. To phrase this differently, Pandora's Box is open for the next two decades.

Do not misunderstand! We are not sharing this to frighten you, rather to assure you that the changes taking place do lead to a better Program. But the Program it will not be fully functional until 2038. There is, however, sufficient coding in place to assure the Ascension. Rest well on the knowledge that the doomsday predictions will not materialize.

The Shift is Happening!

Masters, whether or not you accept it, you are in an extraordinary shift, a phase of an evolutionary leap. And despite the chaos around you, you must know and believe that the Ascension of Humanity is on-

track. Make no mistake, shift is happening in your now. You are in an Earth plane paradigm revolution. You knew before coming in, that it would not be easy. And it is not.

Such Transitions are difficult, as humanity are forced to confront and contend with anomalous physical, psychological & dimensional paradigm changes. Reality, as you have known it, is drastically Reorganizing & Re-Modeling itself. This is realized by the savant few, unrecognized by most and misunderstood by the masses.

Editing of Reality

The fact is that the ongoing editing of Reality is affecting all *'human-kind'* in ways & areas that you may have not considered. The present *'leap of evolution'* is creating a temporal imbalance in the mindset and expression of life. Stability is much harder to achieve in such times of change. And in overview, this *'instability'* has influenced a great increase in chaos, confusion, melancholy and depression.

We have told you on many occasions that you are in a cleansing phase of *'Crucible Astrology'*. A purge is occurring, all unresolved is surfacing, in order to recalibrate *'Reality'* into a Golden Era. And We realize the Light at the end of the tunnel is hard to see amidst the smoke and fire.

But to be clear, the purging around you, is not only because of Astrology. Rather, from Highest Aspect, it is because you chose to Ascend, to Expand. And that decision coded & moved Astrological gravities, which are indeed Highly Conscious, and attuned to humanities movement.

There are dimensional shifts taking place, and the mechanics of this expansion are effecting duality. And indeed, are dramatically effecting the core-magnetics of your polarity realm.

The Electromagnetic Grid is declining, as the Crystalline Grid Superimposes the Planet, forming a new *'template'* of Reality. Many of your metaphysical leaders refer to how this effects humanity as *'Ascension Symptoms'*. Perhaps a more apt description could be termed as *'magnetic withdrawal'*. But indeed, what is happening is not metaphysical *'woo-woo'* ...there are Laws of Physics involved.

Your sun changes its magnetic poles very 11 to 12 years. North and South, anionic and cationic solar poles flip, changing positions. In the beginning and ending portions of each 12-year cycle, bipolar energies become somewhat neutralized and distorted. In a manner of speaking, the Earth Plane Dimensional Matrix, since December 2012, has been undergoing a Dimensional Polarity break up & temporal distortion, somewhat similar in aspect to the Suns Polar shift, in the sense that distortion is occurring from an energetic disruption. It is quickening in the now.

Ascension Symptoms & Magnetic Withdrawal

Although unrecognized by your present scientists, this temporal distortion is effecting humanity in Myriad ways, far beyond your rather sweeping, simplistic explanations of *'Ascension Symptoms'*. For beneath the ascension, are changes in the mechanics of magnetics and gravities which have explanations in science & dimensional physics. Explanations your *'main-stream'* science will neither *'see'* nor understand for many decades. These distortions, however temporal, affect every aspect of *'human'* life on Earth; influencing emotions, mental states, physiology and indeed the Planetary environ.

There are ways to deal with these changes, but pre-requisite is realizing the changes are in fact actually occurring. This understanding, teamed with a basic knowledge of what they are and how said changes may mal effect you, is important.

- Physical Identity – Multidimensional Over-bleed.
- Sexual Orientation.
- A Sense of Lack.
- Loss of Well-Being – Increased Worry.
- Increased Fear, Panic, Irritability.
- Emotional Instability – Highs and Lows – Over & Under Reactions.

While these are temporal symptoms of change, they are quite real and very stressful on the nervous system. These can mal-effect physical & mental balance. These can disrupt one's sense of well-being, cause hostility in relationships, and lead to a dark pessimistic attitude as well as illogical panic reactions to normal issues and challenges.

Past Recall & Linear Time

The new Template of Reality can also trigger a shaking of collective cognizance of linear/Dimensional Time sequence. Accordingly, both past memory & short-term memory recall, are effected. Some of you may be experiencing a loss of time placement in this slurry. An obscure event or experience that you had decades earlier, may suddenly pop into your mind, with no rhyme or reason. Events that occurred 2 days ago, or 2 weeks ago, may seem strangely distant, and rather blurry. The Template of Chronological Time recognition is being '*rewound*'.

This is further exacerbated because in the process, all of you are in the confusing initial stages of exploring other Dimensions and potentials within differing Time Structures, in the new expanded Dimensionality available on the Earth Plane.

The new paradigm is shuffling '*linear*' time as you know it. The illusion of linear time is electromagnetic in nature and as the polarity moves, time in kind shrinks and expands in the ongoing oscillation & temporal neutrality of polar magnetic reduction.

The New Paradigm

We tell you that in 2017, year five of the New Earth, all of you are in a swift current of prolific development & profound discovery of your capacities and potentials. You are in a long planned prophesized era that you have yearned for.

It is a time to wake up, and hear the Clarion Call, and put into action all you have studied & learned over eons of sojourns.

Remove the Fear – The Sky is Changing, But Not Falling!

What is an end to one stage, is ever the beginning of another. Listen not to the naysayers who tell you that all is lost and crashing destruction lies ahead. 2017 is time to turn over a new leaf, and Co-Create hope & high expectation through expressions of mastery. We assure you change is the nature of Reality

and Reality ever evolves. Ride the wave in the direction it is going. Embrace the new Reality, for it is here and expanding. Deny the fear-mongers, deny not the shift.

Shift & The Earth

The Earth, and all of Her Kingdoms are Highly Aware of the ongoing changes. The Conscious Energies and spirits of the Earth are intimately aware that an incredible evolution is quickening, and rapidly so. But unlike humanity, there is not an unknown *'fear-factor'*, in their Intuitive Knowledge of transition. The Earth Kingdoms, including every particle and atom flow in a state of subtle wisdom, are actually projecting the message that *'All is Well'*. Indeed, this message is broadcast to humanity in every conscious *'power-node'* & *'sacred site'* on the Planet yet few take the time to listen, and fewer still truly hear.

The vibration & veracity of the Planetary Kingdom message can surmount, trumps & supersede any *'doomsday'* fear & panic admonitions, for the Living Earth and all of Her Kingdoms recognize the changes as the Natural Up-Shift of the Planet. The *'doomsday message'*, per sei, does not exist in the Natural Kingdoms of the Earth, other than in the realm of humankind. But of course, it is only you humans who are gathering for the morning and evening news and hearing daily negative reports of global chaos and environmental destruction. We are not advocating hiding your head in the sand when we encourage all of you to find Solace in Nature. Nature will assist you in rediscovering well-being amidst the *'attention-shock'* modality & programming of fear that constantly occurs in your media. But it is imperative that you realize, most modern media is slanted and sensationalized in order to gain attention.

We Assure you the Earth is alive and well, and is an incredibly conscious and powerful being. Mankind cannot destroy the Earth, nor does the Earth need mankind's salvation. This does not mean that you are not to strive to be loving stewards of the Earth Kingdoms.

Discernment & Choice

The years between the present and 2038 will be embraced by some and feared by others. And let Us be clear, one's attitude matters, and attitude is your choice. Yes, it makes sense to ride the horse in the direction it is going, but make sure you know the direction before mounting. Choose to ride forward toward well-being, not into the flames of fear. For fear is ever the great static, the great blinder. Running blind, the frightened herd heads to the edge of the precipice, to the cliff.

In the verdant valley of well-being, you will find hope is not only alive, but flourishing in the times of transition. Always, there is the choice of where to go on the Planet of free-will.

The advocates of fear, the *'Sky is Falling'* & *'End is Near'*, preaching's have been present on the Earth since the final days of Mu & Atlantis. It has been brought forth in many religions, finding fertile ground in the minds of humanity. Indeed, mankind's collective cellular memory includes the subtly embedded knowledge of many catastrophic floods, sinking's & quakes. But also embedded in the savant, is the knowledge that the Earth is a purposed illusion, and all roads, however arduous, eventually lead to Enlightenment.

The Ascension will occur, it is beyond the point of probability. Humanity have chosen this Reality. But it is important to understand that Ascension occurs, one heart at a time until critical mass is achieved. It begins in 2038!

Meantime, individually in the New Earth, you will draw to self, that which you dwell upon. In free will paradigms, if you choose to believe the Earth is headed for final destruction, the economy is headed for a catastrophic crash, and beyond repair, you can create individualized versions of this probability in your life experience. This is part of the Law of Attraction. One fearful negative thought pulls in another negative thought. The same applies to positive thoughts, but it is essential to understand that one powerful thought of Positive Creativity is exponentially more potent than ten dozen of a destructive vibrations. Such is the key to this purposed illusion called Duality. You must learn responsible creation.

Polarity is Changing

Polarity is changing, bending duality. Positive and negative are changing from vertical extremes into horizontal juxtapose, no longer on opposite ends.

The Planet Earth is unique in its incredible & diverse Solar System. And the changes occurring on the Earth are also occurring in the Solar System. Your Sun is changing, strobing into a New Light, a Light of Unconditional Love.

The change is quite Real, and far more vast that you may imagine. The epochs of time, of your linear past, will not only change, but in a real sense, gradually disappear, as the new Reality takes hold. In truth the future will no longer be created from the past, rather the future will be created from the future. The light that has been above the vision of 3d, will eclipse and bring forth a new paradigm, a new spectrum of hope and clear vision.

It is there on the horizon Masters. Do not despair, for the hope and belief of one soul can brighten the vision of thousands.

I Am Metatron with Tyberonn of Crystalline Service, and We share with you these Truths. We are ever with you. You Are Beloved.

And So, it Is...And it is So.
