'I AM' the Light of the World

This month's New Moon takes place on the 2nd or 3rd of March, depending upon where you live in the world. At the time of the New Moon the Sun and Moon will be together at 12^o Pisces 06.

Pisces enters into our consciousness through the emotional body via the water element flowing through an evolutionary pathway that passes through '*Opaque Waters or Unconscious Response*' to '*Translucent Waters or Conscious Sensitivity*' finally as '*Transcendent Waters or Universal Inclusiveness*'.

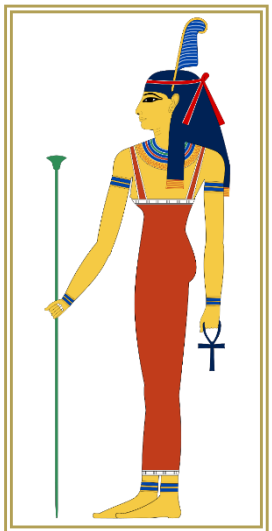

The Piscean symbol, of two fishes swimming in opposing directions, symbolizes the separation of the Soul and the personality – the pain, confusion and struggle that is created when this division occurs, not just in an individual, but within Society as a whole.

At the personality, egoic level Pisces flows with the 2nd and 6th Rays, of Love, Wisdom and Devotion. In this level of consciousness, Neptune and Jupiter rule and this can create inspiration or confusion, vision or illusion. There is the potential for ungrounded individuals living in a fantasy world.

It is in this state of fantasy or mass hypnosis that so many delusions can take root – a severing of the *Inner Voice of Knowing* that guides each one of us throughout our life and which underpins our Spiritual reality.

We are passing through extraordinary times, but this Inner Voice and the Cosmic Laws, underpinning our evolution remain constant. The 42 Laws of Maat, from the time of Ancient Egypt, predating the Ten Commandments of Moses, the Eightfold Path of Buddha and the later teachings of Christ, and all Sages, share a common Truth that we are each to be the Guardian and Master of our own feelings, thoughts and actions. Simply put – as you sow so you reap.

The journey through Pisces takes an individual into the depths of human experience from which Soul awareness is born, for it is through Pluto and the 1st Ray of Divine Will, that transformation takes place and which, from a Soul level, now guides the life expression and path of Pisces. Pisces is the doorway that bridges the material and non-material realms, the self to the Self. The Compassion and Grace that dissolves differences and divisions, that refines the sense of ego into Soul service. The Piscean vibration is mutable, ephemeral and ethereal, but equally, at the Soul level, beyond all need for defence - in the same way that Truth rejoices in transparency, the Piscean vibration at its height becomes Agape Love.

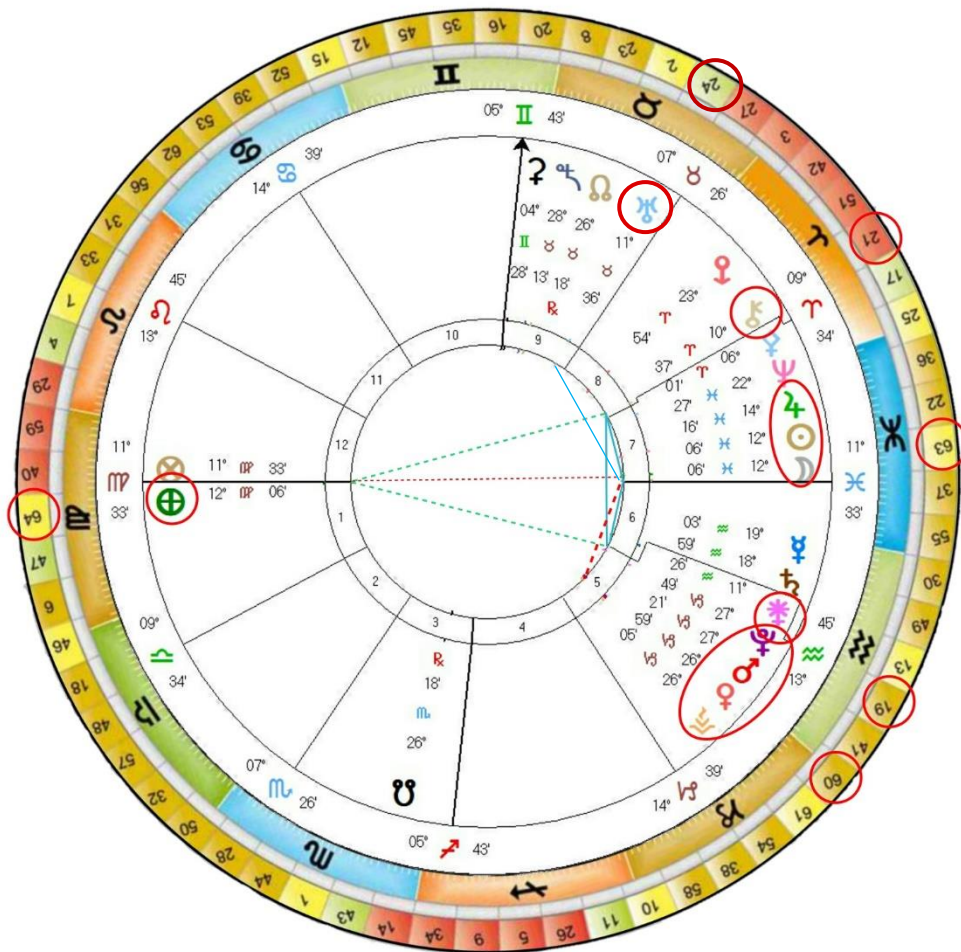

At this moment in time, as a Collective, we are passing through intense and *opaque waters* where Truth appears to have become an expendable commodity and luxury. We have become a Society where spin, vested interests and opinions have overtaken the necessary heart knowing, open mindedness and overview to dispassionately research and discover the Truth and Reality behind the words.

Three things cannot be long hidden: the Sun, the Moon and Truth.

Chart for the New Moon in Pisces

New Moon 2nd March 2022 17:34 GMT London UK
<https://www.timeanddate.com/moon/phases/>

Looking at the chart for the time of the New Moon, from a purely astrological perspective you will see that the planets are all gathered together in just over one third of the Zodiac – focussing this energy down onto the Earth through a Yod, or Finger of God created by the Sun, Moon, Jupiter, Chiron and Juno, giving added intensity to the Yod, by the alignment of Vesta, Venus, Mars and Pluto and Uranus.

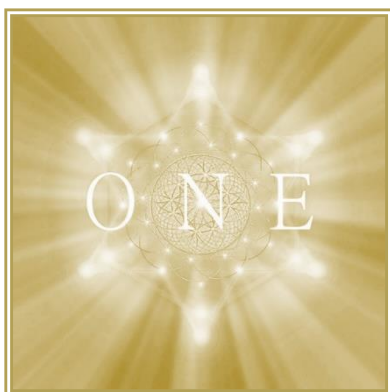

The Sun Moon and Jupiter in Pisces allow for the subconscious mind (Moon) to merge with the Conscious mind (Sun) and in so doing to greatly expand (Jupiter) our conscious awareness, of what it is to be a human being, when living through Love and Wisdom and anchoring this awareness onto the Earth plane.

Chiron in Aries holds the promise of becoming a human being who has woken up to the Truth of their Being, when the ego is dissolved and no longer dominant, but rather the emptiness is filled with the Presence of Divine Source which flows through and within all Life.

And Juno relates to the Sacred Union of the self with the Self, the microcosm with the macrocosm. The harmony of the lower mind with the higher mind, the balancing of the left and right hemispheres of the brain and the equilibrium of the electro-magnetism that flows through the physicality, coming into the neutrality, of the I AM Presence, where the 'I' has no name.

Both Chiron and Juno are facilitating the potential for Presence to be anchored and revealed on the Earth plane through this Yod alignment.

The Sun Moon and Jupiter are on Gene Key 63 Known as **Reaching the Source** moving through the Shadow of **Doubt** to the Gift of **Inquiry** to the Siddhi of **Truth**

‘When the energy of Doubt is harnessed cleanly it becomes the Gift of Inquiry. There is one Golden Rule with the 63rd Gift of Inquiry – if you inquire deeply enough into anything you will arrive at the revelation that you, the observer, are intricately bound with that which you observe. At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other. When you begin earnestly and honestly to question your own nature and purpose – you begin refining your physical and spiritual essence to such a height that you arrive at liberation or spiritual realisation.’

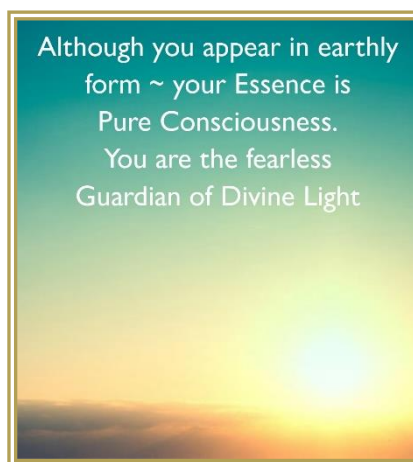

‘Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself. It is simply waiting to be realised, like a pearl within an oyster. Truth is your natural state - It is a drifting space, a total sinking into your Being and so beautifully simple - Truth is the Eternal Moment of the Universe.’

Chiron is on Gene Key 21 known as a **Noble Life** which emerges out of the Shadow of **Control** into the Gift of **Authority** and ultimately is revealed in the Siddhi of **Valour** as the ego dissolves its need to be defensive and in charge.

‘If you assert Authority through the hierarchical base of the 21st Shadow then you rule through control and fear, which never inspires true Loyalty. True loyalty can only be maintained when the frequency of love outweighs the frequency of fear. Such people are given authority by others and this is the real meaning of Authority. Authority cannot be asserted through will. It can only be afforded/given through trust. True Authority unites rather than controls. The relationship between Authority and submission is the relationship between yin and yang, between the male and female energies throughout our Universe. The Male Female polarity balanced so that the Yin/Yang flow is finely and exquisitely tuned into service.’

‘At the highest level this coupling of Love and Power gives way to the ideal of Valour. Valour is the highest frequency of the 21st Gene Key – it is an energetic field released into the world through a chemical signature within your genetics that underpins nobility. Valour is nobility in action. It contains virtue, wisdom, love, courage and above all sacrifice.’

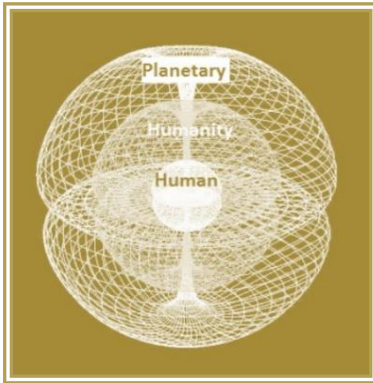

‘As an archetype Valour signifies the ending of all karma, even though the states preceding it often carry a great deal of karma. No matter how muddy the waters are, you have to realise your pure nature can never be soiled. To be a master - that is a Being who has attained realisation through this Siddhi - you must lead by example.’

Although you appear in earthly form ~ your Essence is Pure Consciousness. You are the fearless Guardian of Divine Light

‘Valour is an act of absolute self-surrender in which you lay your entire being on the line for a higher ideal. Valour represents the surrender of the male principle of control to trust represented by the feminine principle of trust. The power of Valour could be summarised as the courage and love that must be found within the lower self to die into the unknown word of the Higher Self.’

And Juno, the other line of focussed energy creating the Yod is on Gene Key 19, known as **The Future Human Being**.

‘The Path of frequency through the 19th Gift goes from the Shadow Co-dependence to the Gift of Independence and finally to the Siddhi of Interdependence. Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species.’

‘Through the 19th Gene Key you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater self - to Sacrifice your individual identity and experience yourself as one with all Life as well as the Creator of it.’

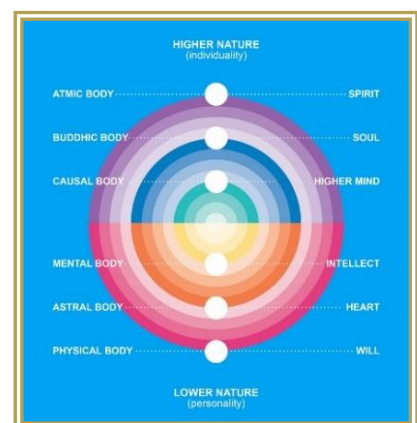

‘This is the secret of mystical initiation. The 19th Siddhi shares a profound connection with the 49th Siddhi of Rebirth. These two Siddhis represent the key mystical process that will eventually overtake the human species - the ultimate realisation that all sacrificial deaths lead to Rebirth. Consciousness is now beginning to outstrip man and is reaching out for a higher form. But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered.’

‘They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.’

There is an eternal Truth which is immutable - we are all living within a Pure Consciousness Field of infinite potential and our level of consciousness creates our experiences – we are not fated – we have choice. The planets are focussing and irradiating Life Force directly onto Gene Key 64 at the time of the New Moon. Gene Key 64 unfolds through **Confusion** to **Imagination** and ultimately to **Illumination**.

‘The more you listen into your body, the more you will attune to this collective sense of unease that is rooted in fear. Most people develop patterns from an early age to escape feeling this vast desert of world pain and the mind is the first line of defence. As long as we are addicted to thinking we can avoid fully feeling it. The Light that flows through the 64th Gene Key wants more than anything to enthuse and fire your mind with inspiration rather than Confusion. Confusion in itself is a perfectly natural state. The ancient alchemists referred to it as the massa confusa – the chaos of the elements – the primal swirling that preceded the birth of the Universe.’

‘Despite the reality of the pain we are born into as we enter a human body, there is good news. Once you are willing to feel the pain – the miracle begins. As your inner spirit decides to face who you really are – the mind’s long reign over you gradually begins to crumble. All natural energy or Life force has an inbuilt programme to grow and evolve. Imagination is the expression of unimpeded life force coursing through our genetics. Thus, when you release the quantum energy that was latent inside you, it begins to rise. Imagination allows alchemy to occur inside your being and a truly creative individual is born.’

‘The 64th Siddhi is the Siddhi of Illumination. This is Imagination without the personal ‘I’. When that ‘I’ ceases to need to exist, magic comes shining through. When Illumination floods your being, it also takes possession of your mind. In this sense to be Illuminated means to think God’s thoughts. At this level the Mental Body gives way to the Causal Body. At the Divine level your Causal Body/Soul becomes your physical vehicle. Once the frequency of inner Light illuminates physical form, that form begins to ascend. It may or may not be able to ascend physically depending upon its genetic constituents.’

'Physical ascension is directly dependent upon Divine Will. Only certain evolutionary human vehicles are equipped for this purpose. This is the meaning of Transfiguration – when the Causal body draws the Physical body up into itself.'

'Only the higher codes of the Ring of Alchemy involve such rare occurrences. To be Illuminated by the 64th Siddhi is to remain empty, while being constantly flooded with the rainbow colours of the inner aurora – it is to be an easel for the Imagination of the Universe itself.'

You will see that Uranus, the planet of freedom is making a 60° angle to the Sun Moon and Jupiter and also the stellium of Vesta, Venus, Mars and Pluto, are connecting into the Yod through an exact 45° angle, activating Gene Key 60, known as the ***Cracking of the Vessel***, moving through the Shadow of ***Limitation*** to the Gift of ***Realism*** to the Siddhi of ***Justice***.

Around the world we are going through intense times, as Truth and Freedom confront the underlying Shadow patterns of both Pluto and Chiron - ***Limitation*** and ***Control*** - as they are presently unfolding through the Earth Plane at this time.

In looking at the archetypal pattern held within Gene Key 60 we find

'This Shadow represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. This is the Shadow that fears the new, the innovative and the original. It is the counterweight of Life itself – it shuts down life receiving faculties, essentially pulling life into ever tighter patterns over the course of time. This is an archetype deep within human DNA that tries to control and suppress the youth of the world. This Shadow appears wherever imagination and openness are stifled, or wherever men or women have forgotten who they are.'

'People with the 60th Gift understand that for anything new to take root in the material world it must follow certain laws. The main Law of Manifestation in the material world is based on structure. These structures are holding stations for new ideas and energy and as such are of less importance than the energy that comes through them.'

'There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense/realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'

'When a Being attains self-realisation through the 60th Siddhi, something quite extraordinary happens, the fundamental laws that govern physical existence are loosened and in some cases broken altogether. At a collective genetic level this kind of event is called a frameshift mutation. The 60th Siddhi breaks all laws of our reality – beginning with the Laws of Time and Gravity. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'

'Many of the great esoteric schools – among them the Tibetan, the Taoist and the Egyptian – have detailed accounts of Masters who attained the body of light or the rainbow body. These are the examples where the Laws that govern our world of form have been broken, manifesting through a mutation of the physical vehicle of the body.'

Over these next three years Pluto will be activating this 60th Gene Key encouraging all to move away from the Shadow of Limitation and sense of restriction and Chiron on Gene Key 21 is reaffirming the need to go inwards to seek the Spaciousness Peace and Awareness that lies within. So, it is worth reflecting, in closing, upon the healing power of Chiron and the highest potential of the 21st Siddhi.

‘To be a Master – that is, a being who has attained realisation through this Siddhi – you must lead by example. You have to know the absolute horrors of living within the most tightly controlled hierarchical situations. You have to understand the human need for control and the depths of your own fear of losing control and you have to continually be subjected to external controls. Once you see that no external form of control can rob you of your true Nobility, this Siddhi of Valour will finally dawn deep inside your DNA.’

‘The being that has attained realisation through this Siddhi never feels like an authority figure even though they may be. These rare people will commune with you as a friend, despite the exquisite fragrance of their state of Consciousness. It is this very humbling quality within the Siddhi of Valour that creates such deep levels of human Communion.’

‘There is a deep genetic connection between the 45th Siddhi of Communion and the 21st Siddhi of Valour. Communion is about merging your individual being into a higher collective being and this is precisely what happens through the frequency of Valour. Valour need not even act – it is a vibration of such intensity that it makes the heart of others weep. It is the recognition of true nobility in another and the realisation that the other is your own mirror.’

Over these next years as we witness all that may unfold, it is good to remember that in Ancient Egypt, Maat was the Goddess of Truth, Justice and Cosmic Order and that the Egyptians believed that the heart recorded all of the good and bad deeds of a person's life and, that when leaving this world, the heart should be as Light as Maat's feather of Truth.

Our purpose is to move beyond judgement and reaction, so that even within the most challenging of situations we are able to respond in purposeful ways from a place of balance and Spiritual maturity so as not to add to the web of anger and fear that has held humanity captive for so long.

When we embody the Presence of Agape our Hearts will always be as Light as a Feather.

Love and Blessings to All
