12. Trust and have Faith, think, speak and live your New Life and your Greatest Desires for Your Self!

**What qualifications do I need?**

You need no qualifications at all! Only the Desire to remember Who You Are, nothing more. These activations etc, are not restricted to any person regardless of their religion, colour of skin, culture or age. There are no educational requirements either. Your life is your Qualification. If you have found your way to this page then “*KNOW THAT YOU QUALIFY*”. All you need to do now is to make the choice!

## PREPARATION

Before you begin it is important that in the New Energies you understand that you are Supreme Mind and not body. This simply means that at a cellular level your cells require to be told of your Intent. Unless your Intent is clearly defined, confusion can set in and your desires cut short. We don't always let our bodies know what it is we desire. In the greater scheme of things, we must also understand and accept that each cell (the microcosm) is in direct association with the Universe (the macrocosm). Therefore, to attain what you desire, every part of you needs to work in unison, i.e. Mind, Body and Spirit. To do this we must speak our Intentions Out Loud. Generally in Private, but Always Directed To The God I Am Presence within you!

Once you have decided to become or to be re- aligned to the Order of Melchizedek and the Cosmic Councils of Light (The Great White Brotherhood as it use to be known as), even though it will be in direct relationship with your Intent, it will also be necessary to let your body know how, where and when. In the New Cosmic Energy, to maximise your desires, it is required to verbalise out loud what it is you Intend to do. It also allows your Spirit Guides to work with your Intentions. Spirit Guides, according to Universal Law, cannot do anything for you unless you ask them and give them permission to do so. To ask out loud for Their assistance will provide a clear platform to launch your desire. State your Intention and do not place expectations upon the result. Expectations are limitations and will block energies that will confine your potential.

It is suggested that this meditation be undertaken in such a way that it takes on a Ceremonial Nature. Remember this is now the 7<sup>th</sup> Golden Age of Ritual, Ceremony and Transformation. I would recommend that some time be given to your own personal Ceremonial preparation and design. This is your attunement and/or alignment and you will respond to this in the way that best suits you. Of course this is not necessary but it will help the logical mind to grasp and accept the attunement and/or alignment to take place with its optimum results.

If you are accustomed to meditation you may already have a sacred place or meditation technique. Whatever places you in a state of complete relaxation and away from the normal stresses, tensions and concerns of everyday life, will work perfectly. Find your Sacred Place away from any potential disturbances and select some soft relaxing music if that appeals, maybe in nature is the perfect location for you?. Music again, is not necessary, but it can create a more ambient mood. A pillow and blanket or cover may be appropriate if you desire. I recommend you light 22 and place them strategically around the room or location, being mindful of inflammables and materials igniting should you fall asleep for some time. Floating candles in water bowls are excellent, as are earthen dishes or containers. Common sense comes with the

territory of responsibility. The number 22 is symbolic of the Master therefore 22 candles is simply a tool to symbolically manifesting your Mastership within the physical realm.

If you have any questions about the meditation or how you set up a ceremonial atmosphere I would be pleased to give you some ideas. But you are not reading this as someone new to all this! There are no set patterns or procedures. This is your attunement, do what makes you feel good! This attunement can be performed on your own or in a group. Perhaps you would prefer to do it with a group. A leader could guide the group into the peace and when the silence begins each one can slip into the attunement themselves. If a group is to partake I will require names and details for activations.

## FEELINGS AND SENSATIONS

Before you commence it is my responsibility to inform you that the changes of energies that you may experience can come in many different forms. You may simply fall asleep and not remember anything; you may feel or see Spirit Guides or feel hands or movements around or upon your body. You may feel tingling or pins and needles, energy pulsations, or vibrations, maybe coolness or warmth of some kind. I highly recommend that this attunement be undertaken while lying down. I have had people in my workshops actually falling off their chairs through absolute loss of muscle tension and support. As I cannot be there to watch over you through the meditation in person, I am eliminating all factors of danger or disruption. Once you have made the decision to change your life now, the energies generally begin immediately even while all the preparations are taking place by you for the attunements. This may come in many ways. Tiredness, subtle changes in your perceptions and feelings within your body. People may change toward you; anything that is not normal can be deemed a form of preparation. If you have any concerns whatsoever, then please advise me and I will direct you to a clear understanding and way to move through it. Physical conditions like diarrhoea, colds or flu, headaches, aches and pains are not uncommon. If you are at all concerned with these things it is recommended that you consult a general physician.

## PROTECTION

Remember this: - there are no such things as coincidences, therefore whatever you feel or experience is for a Higher Purpose. You have nothing to fear unless you think you do. If you have any doubts as to any possible fears I recommend you do not go ahead as these could manifest and I cannot be responsible for your own manifestations. Protection is not necessary unless you think you need it. If you fear the slightest thing then I suggest you place all the protections you require counteracting them. However, if this attunement were undertaken with the Purest of Intent and in the way I have instructed, then you will be fully and absolutely protected, safe and secure from any harm whatsoever. This is about Intent. I know my Intent and therefore the people that are attracted to this group or myself for their attunements, come with like mind and vibration. My instructions to Spirit for this process have no foundation based in fear therefore fear is non-existent. It is therefore up to you to decide if protection is required. This is as much an individual choice as any you can make. Be Mindful However that Archangel Michael is going to be Invoked along with His Legions of Light, but this is more for His Love and Compassion, However His Divine Virtue is Protection just the same! Love is Its Own Protection!

## CHANGES AFTER THE ATTUNEMENT

Many people experience different things but it is important that you are prepared for the possibility of huge changes. This could be in the way of movements in relationships, situations and circumstances. You will most definitely, be placed in situations that will push your buttons and place you in areas where you will be required to make choices that you have never made before and to step into unknown territory, with simply nothing as your Guide but Faith and Trust. You will be tested, and tested with the levels of Resonance that you are about to shift into. With New Vibrational Frequencies comes Greater Responsibilities. The Greater the Responsibility the Grander the TEST! You will, without doubt, move sub-conscious issues of fear to the surface so that these too may be dealt with and released. As you raise your vibrational frequency of Love, to create a New Balance in your life, so too must you raise the aspects of fear within to the surface for release. Our potential to Love is only comparative to the amount of fear that we carry. To raise the Vibration of Love, we therefore require to make way for these energy changes and shifts. This is undertaken by facing and releasing our fears. The more fears you release, the more Love you will have to replace the voids that have been left behind. You have heard of the cliché “first you must empty out before you can fill up”. This is very applicable for this process.

These attunements and alignments can be, but are not necessarily, about releasing issues. They are for the purpose of clearing old energy patterns and realigning one's energy fields into balance allowing the 4 lower bodies to receive Higher Vibrational Frequencies. This may bring issues to the surface that have been held deep within the physical body. Should they surface, then it is advised that they are considered for what they represent, accepted them for their Higher Purpose, Loved them and Let them go! However, these activations have been known to clear total karmic patterns entirely from the individual, and the ancestral lineages aligned to them. Thus releasing all aspects of karmic lessons that were originally programmed within them to be experienced before they could be released. The New Energies allow, simply with the power of Intent, to change the programmes, by rewriting them, within our cellular self with nothing more than a choice and the Power of the Will To Do! How the individual reacts depends entirely with the individual, for each person has their own independent experiences that brings them to this point of realignment. Everybody reacts/responds in a different way to these attunements. Some are more dramatic than others, however, never in my experience of all the attunements, some 600 consciously to date, that I have facilitated, has anyone ever been placed in a situation that has been detrimental to them on a physical, mental, emotional or spiritual level. It is totally Safe, Honoured and Sanctified by the Highest of our Spirit Guides

These attunements are not designed nor are they possible for me to facilitate the dealing of any such issues immediately, however, these can be addressed as they arise in due course. Not for any other reason than that I personally am not physically present at the time. I Am presence on the Etheric Levels along with the Host of Others including your Own I Am Presence. You may choose to work with these through this group or your own I Am Presence. Whatever you decide is your own free will to do so! You may have another professional you know that is able to assist you through these processes should you need assistance. As I am responsible for initiating these attunements I therefore place myself available for any questions or situations or circumstances that may arise that require explanation or resolution. Please feel free to contact me at any time regardless of the problem or question.

## SUGGESTED MEDITATION

### DIVINE ALIGNMENT PLATINUM AND GOLD

(The candles are lit, the music is playing and you are in a relaxed state of mind and body.)

Imagine, sense or feel that your legs become like lightning rods penetrating deep into Mother Earth. Allow these rods to travel all the way to the centre of Sun Of Even Pressure at the Core of Mother Earth. As you see the rods arriving, allow them to turn into anchors so that they may fix you to the Earth Energies. Feel the Energies of Mother Earth rising through these rods into your legs, through your chakras and up into your Heart Centre and allow the Energy of Mother Earth, Pelleur and Virgo, to be Centred in your Heart.

Imagine, sense or feel coming down through the Universe, a Golden Beam of Crystalline Liquid Light from the Great Central Sun, Alpha and Omega, that penetrates the top of your head through your Crown Chakra. Travelling down through your Third Eye, Throat and into your Heart where it mixes and blends with the Energies of Mother Earth allowing each to resonate in Balance and Harmony.

Imagine sense or feel the Lights of the candles, representing the Element of Fire, cleansing, clearing and energising the Element of Air around you. Finally imagine with your mind's eye the pulsation of your Heart Centre and the flow of your blood travelling around the whole of your body representing the Element of Water.

Allow yourself to listen gently to the music, or nature around you, or the silence that you have created for this special moment in this time and allow your consciousness to be mindful of the in breath and the exhalation of the out breath.

Any thoughts that may enter your mind simply allow them their gentle passage through the logic. Do not try to push them away or to hold them, simply allow them to travel in and, in their own time, travel out again.

When you feel comfortable that you are prepared and ready for the attunement to take place you are asked to make the verbal Invocation and Decrees out loud. (*The one at the end of this meditation suggestion*). This will Declare your desire through Intent to both your 4 lower bodies, at a cellular and all present encodement level, and to your Angel Guides and Those you have called forth, for Their assistance, healing and activation of the New Divine Templates that Lord Melchizedek has awaiting for you.

If you have chosen the Invocation prepared, you may now read it out loud. If you have prepared one for yourself, then you may make the appropriate Affirmations or Decrees now.

### READ INVOCATION NOW!

Once having made the Invocation with your pure Intent, relax and enjoy the next thirty to sixty minutes while the activation takes place and any healing work that is required may be performed by Spirit. Please note that it is best to allow whatever time you feel that comes to you before hand. It has been known and I speak from personal experiences, that one can be knocked out for as long as 6 hours! So maybe you might consider to this late one evening and do it lying in bed so that you can simply Let Go Fully and sleep the entire night as may be required. Just follow your own intuition as to how you wish to do this.

Once the alignment or attunement has been completed, then you will be woken or you will have your consciousness stirred, so that you may return to the present moment and resume your routine. There is so many potentials here, just go with what works for you!

NB.

It is recommended that you drink at least a glass of water before the meditation and make sure that your preparations the day before include full hydration for there is a lot of the Fire Element being used and this tends to evaporate the Water Element throughout the course of the attunements and Alignments. You will no doubt be feeling thirsty after the activation has taken place or in the morning when you wake.

Upon completion allow the energies of the Golden Liquid Light to be retracted and imagine sense or feel the chakras that have been activated, closed to about 55% open. Also allow the lightning rods connected to Mother Earth to be retracted and the chakras that they pass through, closed to about 55% open. The reason for this is to ground your Energies once again. There is a potential that you shall totally leave your body through the Attunements so it is important to be mindful of this also. It is recommended that you do not perform any duties that require full concentration immediately after the attunement as you may feel a little light-headed from the process. If you are in doubt of your stability or groundedness then imagine sense or feel that you are a large tree sending your roots deep into Mother Earth. Feel the Energy of Mother Earth once again and do not disconnect yourself until you feel you have regained full consciousness.

## QUESTIONS OR QUERIES

Should you have any questions or queries about anything, I welcome your communication. If you require anything that may assist your development I would be delighted to hear from you at your convenience. May Peace and Love be with you.

Lovingly in your Service Namaste
