

Cosmic Overview

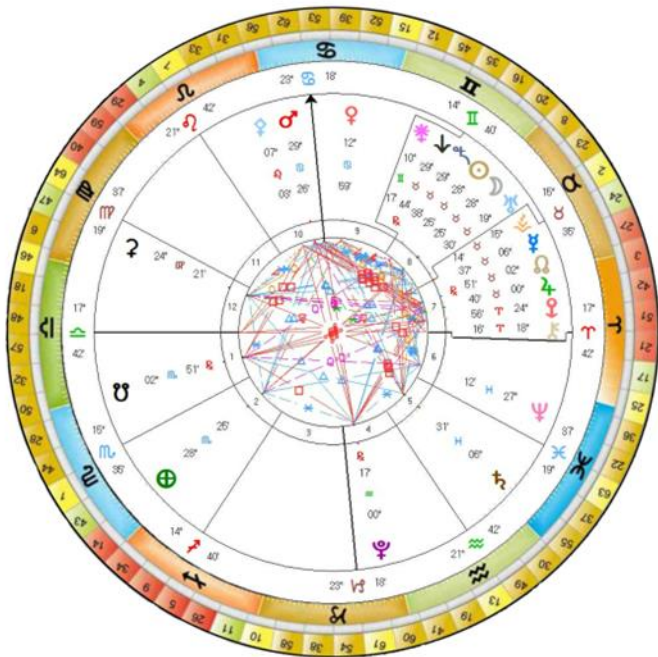

Taurus New Moon 2023

We find, under this orderly arrangement, a wonderful symmetry in the Universe, and a definite relation of Harmony in the motion and magnitude of the Orbs, of a kind that is not possible to obtain in any other way.

Johannes Kepler 1571- 1630
Astronomer Mathematician Astrologer

'I AM' the Penetrating Light of the Path

The New Moon takes place at 28° Taurus 25' on the 19th or 20th of May, depending upon where you live, following on from the Wesak Full Moon on the 6th of May.

Taurus flows through the 4th Ray of Harmony Through Conflict. Our conflicts arise from our desires, our seeking and rejecting, which is the emotional pendulum upon which Venus, the planetary ruler of Taurus, when coming from the personality level, operates.

The Constellation of Taurus is particularly connected to the Buddha. Buddha's teachings revolved around this fundamental human difficulty, how to be in the world but not of it. The Path of Detachment from desire, so central to the Buddhist teachings, opens the way for the entrance of Light, the Creative Will, and the energies of the 1st Ray.

Taurus is the most magnetic of the Zodiacal Constellations as it is Feminine, Fixed and of Earth Elemental. When the impulses of Light from the Constellation of Taurus are received and integrated by humanity through the 1st Ray, then the Sun and Vulcan become the planetary Rulers operating through Taurus. Vulcan is still yet to 'materialise' which it will do when human consciousness has evolved sufficiently to be able to respond to its planetary energies - then we will use will, purely as the *Will-to-Good*, and Vulcan's physical presence will be made known to us.

As Alice Baily shared in *Esoteric Astrology* through Djwhal Khul: *'You will note also that the First Ray influence, expressing through Pluto and Vulcan is only felt in a positive manner upon the Path of Discipleship. This First Ray potency has only lately been experienced by humanity....Hence the recent discovery of Pluto and the sensed power of Vulcan, veiled by the potency of Mercury and hidden behind the planet.'*

Since this was published in 1936, nearly one hundred years have elapsed and so there is the potential for more and more Souls to embody the innate, hidden Harmony of the 4th Ray, opening to the Light and to the 1st Ray of Vulcan.

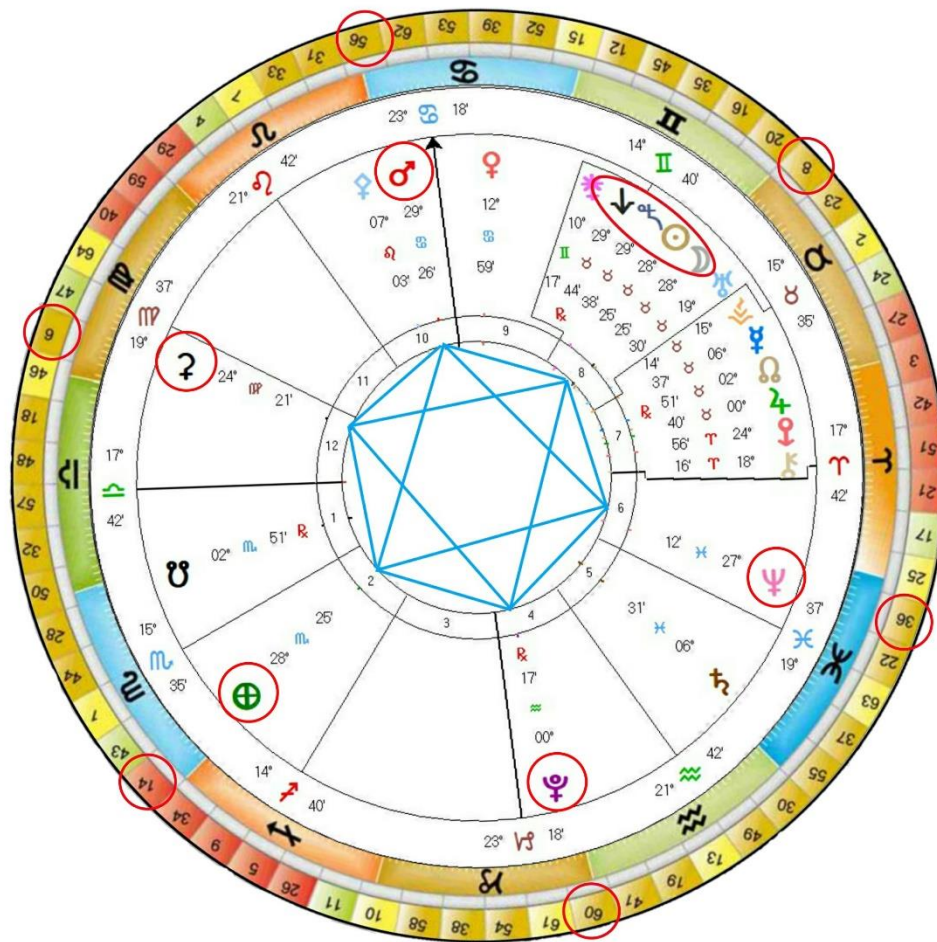

Taurus teaches us the true value of the 'art of living', which initially can blindly bind us to the material realm, but will ultimately reveal the Mystery of Life, for when no longer caught in the material realm, the Soul-centred individual can stimulate and reveal the Light hidden in all form. Those that move into the 1st Ray through Taurus, become the true healer, the white magician, healing and uplifting everything within their environment. This is the true *Art of Living*.

There is an exquisite symmetry working through the Cosmos. There is also a perfect interaction between each individual Soul and Pure Consciousness, from out of which we emerge to experience Life on Planet Earth. This Pure Consciousness, which is always with us, awaits our return, when free of reactions, judgments and fears, we come to rest within the Peace and Stillness of Source - to be United as One, within the Universal Field.

Instead of searching for what you do not have, find out what it is that you have never lost. *Sri Nisargadatta Maharaj*

Chart for the Taurean New Moon April 2023

New Moon 19th May 2023 17:53 BST London UK
<https://www.timeanddate.com/moon/phases/>

At the time of the New Moon, there is an alignment of Planetary energy that flows with ease through the symmetry of a Six Pointed Star. Each point of the Star is 60° apart creating three Mystical Rectangles, which again creates an energetic coherence.

The Sun ☉ Moon ☾ Sedna ♁ and Vulcan ↓, in Taurus, are, for this New Moon, emphasising the 4th Ray, and 1st Ray influence, encouraging us to move beyond the old emotional patterning that has kept us tethered, through duality, to constantly repeating patterns of conflict and to allow the 1st Ray of the Will to Good, to usher in, and seed, via the Sun and Vulcan, a mature spiritual awareness that brings an end to mindless conflict and hype driven by a distorted emotional desire nature.

As Sedna is part of this Stellium, aligned with Vulcan at 29° Taurus, this shift in consciousness, this break with the past, speaks of the need to cleanse the tape, letting go of all the ingrained patterns, of many, many centuries of karmic conflict, that are stirred up by vested interests to keep humanity in a hypnotic state of fighting battles on behalf of vested interests. We need to recognise that we are one human family - a bond that unites us, from whichever country we claim to come from. This is the time for the pattern to be broken, no longer holding a magnetic charge for continuing retribution, but rather moving towards peaceful solutions where the karmic wheel can begin to come into stillness.

This is the potential that lies at the heart of this Six Pointed Star, but are we, as humanity ready to hear it.

The Sun, Moon, Sedna and Vulcan are all on Gene Key 8, which from the Shadow level, reflects this 'hypnotic state' – known as **The Diamond of the Self** GK8 moves from **Mediocrity** to **Style** to **Exquisiteness**

'When we look at the world in which we live today, especially the Western World, it is quite extraordinary how many people live such similar lives. The 8th Shadow like all of the Shadows is founded upon a specific fear and in this case it is the fear of being different. To break out of the heavyweight frequency of the 8th Shadow you have to take an exciting leap of faith in yourself.'

'This 8th Gift catches people's attention because it brings something fresh into the world. **The Gift of Style has little to do with our popular interpretation of this word – it has more to do with following your own unique, rebellious spirit out into the world.** True Style cannot be measured by materialistic trappings nor can it be faked. It is the natural flowering of your individuality.'

'To find your own style is to be yourself without concern about what others may think. True Style takes great joy in shattering the grey world of mediocrity that is considered the norm. **Where Style is more than skin deep, it is the cutting edge of creation itself.** The individual surrenders the self to a creative process that controls the individual rather than the individual controlling the process. The 8th Gift is about manifesting individual dreams rather than simply dreaming about them. It carries intent from a higher realm that is far beyond the individual through whom it manifests. **Their only concern is to free more free thinkers – thus such people inherit a powerful mission in the world.'**

'The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states. **People of the 8th Siddhi are not leaders. They are examples.** Each Siddhi is holographic in the sense of being reflected within all other Siddhis. **Exquisiteness is experienced when the Divine Essence begins to shine through the individual.** In this state of bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed. **This is the stage at which you achieve transcendence of your genetics.** You remain differentiated at the level of form, but at the collective Universal level your awareness permeates all forms, making you both a drop in the ocean and the ocean itself.

'**There is an inner Light and Wisdom that has a powerful and liberating effect on others, freeing them from the structured systems.** Their legacy to the world is to dismantle all concepts of how one should live or what one needs to do in order to attain any particular state. They sparkle like exquisite rare jewels. **They shine like a diamond in the heart of creation and wherever they look, they see other diamonds in various states of clarity – each one unique, each one exquisite and incomparable.'**

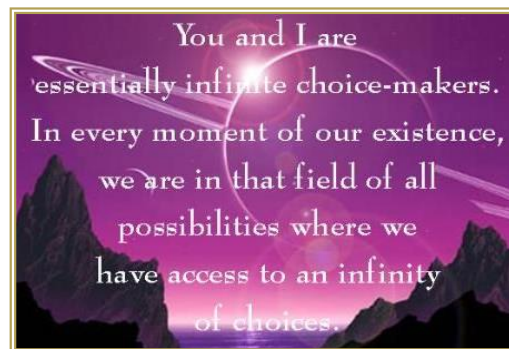

The Earth ⊕ on Gene Key 14 known as **Radiating Prosperity** moves through the Shadow of **Compromise** to the Gift of **Competence** to the Siddhi of **Bounteousness**.

'In the I Ching, the 14th Hexagram is called Possession in Great Measure - a symbol of wealth, health and prosperity, which are themes linked to good fortune as well as to hard work. **To live without inner compromise is to live a life of deep honour and virtue.** Ultimately the question is one of the heart. Have we compromised love? What would love do in this situation?'

'The 14th Gift is Competence. It is an emerging Gift in the genetic matrix, because it has a lot to do with the collective awakening rather than being an individual Gift. Competence is about part of something transcendent, something huge. **The 14th Gene Key is one of the Gene Keys that will change our world.** Competence creates a powerful magnetic field that not only draws in the right support but also has the ability to magnetise material wealth. **Those who have the 14th Gift strongly activated in their hologenetic profile are often the driving force that can implement a particular vision or idea.'**

'The 14th Siddhi is the core archetype of your power as an individual. It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human. **This is our true inheritance – to create abundance.** But it is not about accumulation – it is about fertility. Your true latent fertility lies mostly dormant in your genes. **When the 14th Siddhi flowers within a human being they become a driving force for humanity itself.** Their every thought word and deed reaches deep into the morphogenetic field and guides the whole of humanity towards abundance.'

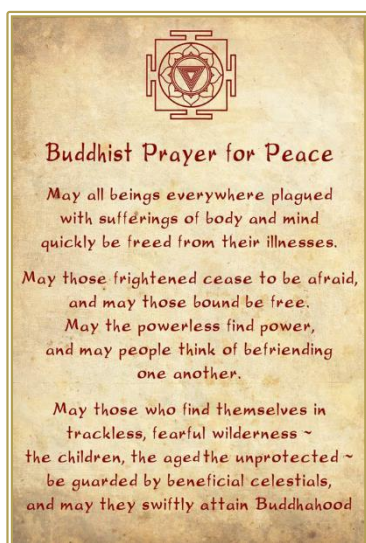

'**The mass dawning of the 14th Siddhi would be the uniting of Heaven and Earth.** Not just a Golden Age, but a permanent state in which all humans take the helm together – a state in which individual power and collective power become one and the same – creating more and more abundance. As mentioned, the ancient Chinese named this archetype 'Possession in Great Measure'. **At this level, we need to view humanity as one large expanding genetic spiritual vehicle.** That is the true definition of Bounteousness.'

Both Ceres ♀ and Neptune ♃ on Gene Keys 6 and 36 are addressing the fundamental embedded difficulties that are held within Ray 4 at the Shadow level. Gene Key 6 moves through the Shadow of **Conflict** to **Diplomacy** to **Peace** and Gene Key 36 moves through the Shadow of **Turbulence** to the Gift of **Humanity** to the Siddhi of **Compassion**.

'The 6th Shadow of Conflict is the single most influential Gene Key with regards to human communication. **At its highest it has the potential for world peace, at its lowest, it is the root cause of all human Conflict.** This Conflict stems from the emotional system and our inability to handle the voltage of extreme emotional states. As long as you surrender your will to the emotional system, then you will be trapped by its volatile nature.'

'At a heightened frequency, the 6th Gift pulls rapidly away from Conflict adjusting behaviour to create harmonious relationships with others. **This is the Gift of Diplomacy – the ability to adjust your own behaviour to create a harmonious exchange with others.** This is a by-product of opening our heart to another. As you become clearer about your own emotional conditioning you begin to feel more peaceful. Because this Gift is so deeply connected with the pH balance in your physical body it also has the effect of stabilising the emotional aura in your environment.'

'**The ultimate defence is emptiness.** This is the essence of the wisdom taught by the great sages. The 6th Siddhi of Peace is one of the truly great Siddhis. In fact, it is the underlying nature of form itself once its true essence has been realised as consciousness. The 6th Siddhi is the final result of the process that occurs in the 6th Gift. **The 6th Gift is marked by a constant balancing of opposites.** In this sense, Diplomacy requires a subtle effort since it is juggling within the realms of duality. **However, at a certain point, this process spontaneously gives way to the 6th Siddhi and duality itself is transcended.'**

'You might say that whilst the 6th Gift is the activity which maintains peacefulness the 6th Siddhi is Peace itself. Peace is an auric vibration that surrounds anyone in a Siddhic state. Awareness is no longer trapped within the vicissitudes of the emotional human drama. Profound changes occur in your physical body before, during and after this realisation.'

'Since your outer walls have dissolved, the process is mirrored within your body chemistry and all inner conflict comes to an end. **It is as though all the cells within your body make peace with each other and experience their own inner Garden of Eden. In this sense, the true Garden of Eden is the body itself.** The waves of Peace that accompany this event travel deep into the collective consciousness of all humanity.'

'In other words, when one is able to see and own their unconscious projections, they actually rupture the collective Shadow patterns wherever they go. People displaying the 6th Gift are always attuned to the right timing of how to act and what to say through the strong resonance of their auric field. These people feel physically into another person's aura - they can do this because it is a specific genetic gift and also because they are emotionally mature.'

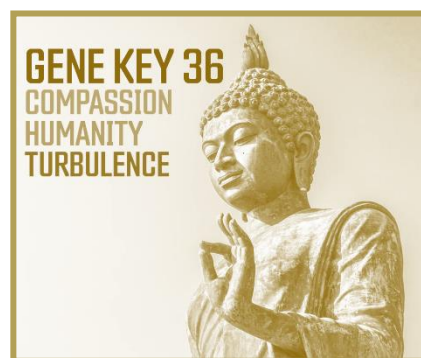

'Emotional maturity means that your awareness operates even during the most profound emotional states. This 6th Gift is breaking down the barriers in human relationships and dismantling the borders and barriers that keep people apart from each other – eventually and ultimately bringing peace to Earth.'

And Neptune opposite to Dwarf Planet Ceres at the time of the New Moon again is addressing the entrenched patterns of human emotion that are needing to be cleared.

'The 36th Shadow is an emotional battle that must be fought by every individual at certain times during their life. The 36th Shadow is the Dark Night of the Soul. It is an archetype within humanity that pulls us towards the unknown and that draws the unknown to us. It draws crisis towards itself like a magnet.'

'The Gift of Humanity truly understands emotions and consequently understands all people. This is a Gift that can only be earned. These are people who have looked deeply into their own Shadows and who have grappled with the challenges of their sexuality and emotions. At this level, these people are no longer overwhelmed by emotions as they tend to be at the Shadow level but have opened and expanded themselves to life through harsh experience.'

'As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them. The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'

'The 36th Siddhi is the Siddhi that spans the chasm between Man and God, between being a victim and being enlightened. In every mythic journey, there must always be a final trial. A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings.'

'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet. These are the most heart-melting people ever to walk the fact of the earth. Beings like Jesus, who attain final liberation through this Siddhi, are salt of the earth people. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts. At the Siddhic level your own suffering becomes so universalised that it encompasses all humanity. All boundaries of the self dissolve.'

Mars ♂ at the apex point of the star is opposite to Pluto ♀. Mars impulses and activates our personal will, our drive, our ambition, our courage and also our anger and Pluto, which is the higher resonance of Mars, flows through Divine Will. Pluto is the primary planet of transformation – refining and transmuting the lower frequencies into higher states of consciousness, so that our personal will comes into alignment with higher Will.

This ongoing alchemy laid upon the millstone is the foundation out of which Vulcan will emerge, and materialise, to usher in the next level of awakened consciousness.

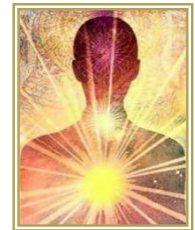

Mars is on Gene Key 56 which is reflecting the state of the underlying prime problem that affects and delays the polishing of the 'Diamond' of humanity, particularly over these last 30 years or so. Gene Key 56 has the Shadow of **Distraction**, the Gift of **Enrichment** and the Siddhi of **Intoxication**.

'In the modern world we appear almost desperate to distract ourselves from who we really are. At the same time we now have so many distractions that we are becoming increasingly aware of the extent of our addictions. The world's mask keeps us engaged, entertained and distracted by the drama going on all around us, as well as within us. And perhaps saddest of all, the world mask keeps us poor – for when we are distracted by something that simply keeps us in the same state of inert numbness we are truly impoverished.'

*'As with all the Gifts of the 64 Gene Keys, Enrichment pulls you out of the shadows and into the light of the higher frequencies. Enrichment is what life is all about. **Distraction is fine, but only as long as it enriches us.** Those with the 56th Gift have learned the difference between what feeds the human spirit and what saps it – they have learnt the art of self-discipline and they know how to get the most out of life. **The 56th Gift has an alchemical flavour to it.** Therefore the 56th Gift will take in all manner of low frequency waves because it knows how to transmute their energy into joy and purpose. The 56th Gift knows a great truth – true enjoyment is rooted inside your being rather than in the external. **It is about appreciation and gratitude – the more grateful you are for every moment the more the moment comes alive for you.'***

*'People immersed in this Siddhi have taken the Gift of Enrichment to its ultimate zenith – they have allowed themselves to be pierced over and over again by the highest frequencies of Love. If you have this Siddhi in your hologenetic profile your life is supposed to teach you about this Love through the world and its suffering. **Suffering is the toxin you are here to use to become intoxicated.***

*'You will stop trying to direct life and your entire consciousness will shift – you will see that at this level, every single thing in life can be enriching. Those rare beings that manifest this state are a law unto themselves – if you sit with them and lap up their laughter you become drunk on their exquisite frequencies. **Such people are a reminder from the Source, that life is for love, for beauty and for fun.** There is a Love hiding within this Gene Key as awesome as anything anyone can imagine. **If you allow life's arrows to pierce you one after another you will eventually find yourself intoxicated by the Divine.'***

And Pluto continues on Gene Key 60 known as **The Cracking of the Vessel**, assisting us to evolve through the Shadow of **Limitation**, to the Gift of **Realism**, and onto the Siddhi of **Justice**.

*'Most people do not think magically; they do not leave the door ajar within their brains so that inspiration may creep in at any moment. The main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them. **It is out of this closed-circuit thinking that all self-limiting forms are ultimately brought into the world.'***

*'People with the 60th Gift are masters of creating structure, whether mental, emotional or physical. These structures are holding stations for new ideas and energy and as such are of less importance than the energy that comes through them. **There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism.** However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense/realism is not in opposition to magic. **It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'***

'When a Being attains self-realisation through the 60th Siddhi, something quite extraordinary happens, (and to the Shadow consciousness something very frightening). **The fundamental laws that govern physical existence are loosened and in some cases broken altogether.** At a collective genetic level, this kind of event is called a frameshift mutation. The 60th Siddhi breaks all laws of our reality – beginning with the Laws of Time and Gravity. There is an enormous magic hidden within the 60th Gene Key. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'

'At a collective level, the 60th Siddhi will be one of the very last Siddhis to dawn. This is where the concept of a Judgment Day arises – as the 60th Siddhi begins to ignite in multiple beings it will be the ending of the world as we know it. **The laws that hold together the Earth will crack and our planet will begin to transmute.** The 60th Siddhi has been known by certain esoteric schools as the Merkaba, or Chariot of Light. The true collective Merkaba is the Earth herself, the Spirit of Gaia and the souls who hold this Gene Key hold the key to this ultimate magical experience.

'Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. It is not an imposition or a limitation. It is an invitation, an opening. It is not up to us to punish. Life redresses the balance, and it is always about balance. Our invitation is thus to let go. **The siddhi is always about the quantum leap from the personal dimension to the Universal so it is all about letting go.'**

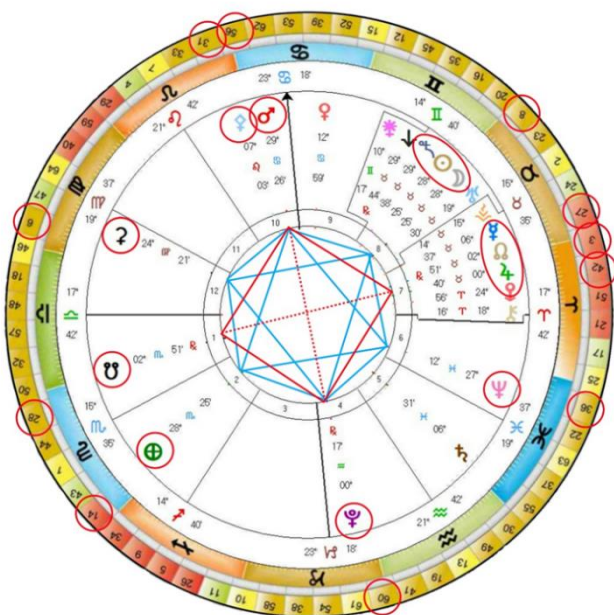

'All the power and the glory we have gained in the Gift we surrender to the Siddhi. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. **At a certain point our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal.** We begin to transmute more global karma, and the more our being opens, the more we are given.'

'When we are ready for that, we get to be an agent of Divine Justice. We take on the sins of our fractal, our fractal being the ancestral lineage we are born into. All this is in the DNA and all those acts that came out of fear down the ages are stored as sanskaras, memory imprints in our DNA. **Full realisation means we agree to transmute that on behalf of the whole.'**

Finally, you will see that the Six Pointed Star is held within a Fixed Grand Cross, which has Mars and Pluto, the South Node, North Node, Mercury, ♀Jupiter♂ and Eris♀ holding a focus and structure for the potential that is held within the Six Pointed Star.

The North♁ and South♋ Nodes remain on the same Gene Keys as for last month, Gene Keys 27 and 28. Gene Key 27 speaks of **Embracing the Dark Side** and Gene Key 28 speaks of the **Selflessness** that is born from out of the Shadow of **Selfishness** and just as for last month, Gene Keys 3 and 42 are once again being activated.

However, Jupiter has now moved onto Gene Key 3, which was where the Solar Eclipse took place last month, at the time of the New Moon, which indicates that more will be revealed, more Truth and Freedom will emerge from out of the Eclipse and a spotlight will shine more brightly on the 'fork in the road' that we are all witnessing.

Gene Key 3 known as ***Through the Eyes of a Child*** is unfolding through ***Chaos***, to ***Innovation*** to ***Innocence*** and the core message of this Gene Key is that we are at this moment in time in the process of creating and establishing Core Truths that will stand the test of time for future generations to come.

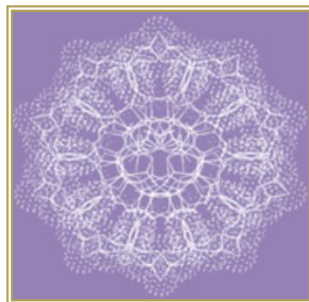

'In reading this 3rd Gene Key and its various levels of frequency you can perhaps feel the wonder and the scale of the experiment you are involved in.'

'All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. The Gift of Innovation requires you to become as open-hearted and open-minded as a child. For we are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'

'One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity.'

'As Einstein said: 'God doesn't play dice.' The human brain was not designed to grasp insights as profound as these. The certainty of Order within the Universe is a feeling that can only be captured by a more advanced system of awareness in human beings, that our mystics have called by many names. Above all it is equated with the human heart and the feeling of Love and Unity that lies between all creatures.'

This Month's Review began with the intricate and exquisite image of the eight-year orbital path of Venus around the Sun, as seen from Earth and with the words from Ram Dass:

'We find, under this orderly arrangement, a wonderful symmetry in the Universe, and a definite relation of Harmony in the motion and magnitude of the Orbs, of a kind that is not possible to obtain in any other way.'

This Cosmic symmetry and Order is the structure out of which our Life flows with the same impeccable perfection, as can be seen in this cross-section of our DNA genetic structure, which receives and transmits the Light and Consciousness that flows constantly through the Cosmos encouraging us all to remember that we are intimately interconnected within the Divine Light, Love and Unity of the Universe.

So, at the time of this New Moon, whatever may be occurring in the outer world, may we open to receive the ***Peace, Compassion, and Innocence*** that flows through the Cosmos, so that all of Humanity may be enriched with the Love of the Divine.

Love and Blessings to All
