

Archangel Metatron Channel
Part Two - Conclusion
The Art of Creative Living - Believe It or NOT !

Greetings Masters, I am Metatron, Angelic of Light. I am joined in this session by Tyberonn of Crystalline Service.

And so we continue with the 2nd portion of this timely channel on the mechanics and art of creative life. Masters, the reason that many of the books & teachings on manifestation do not work, is because they do not have the full understanding of deeper mind in relation to 3d brain. Many of these books are commercial, and are focused on manifesting monetary wealth, and in such cases the only persons truly manifesting are the publishers from book sales. And indeed many of the esoteric teachings on this matter, fail. to include the difference between the Law of Attraction & Law of Belief. They are not the same. You attract, as we stated in part one of this channel, that which you love and that which you fear. Wherever thoughts are focused, similar thoughts are 'magnetically' pulled in. And the nature of your thoughts effect your vibrational frequency, and high frequency is the initial, the basic stepping stone in connecting brain to divine mind. The untold factors involve maintaining a sufficient level of life force, and belief.

So, without the accurate comprehension such processes, which are generally unexplained in the texts, there are gaps in the flow, which prevents 'ask and it is given' from occurring. It's a bit more integral. Dear Ones, even when you expand the mind, you must optimize and balance the auric field for the Crystalline aspect that allows creation to function. We tell you that optimal connection between high mind and 3d brain requires an intact etheric energy field. If you are ego imbalanced, depressed, in fear, your energy field is in levels of short circuitry, or polar reversal, and vital energy streams required to connect to higher source mind are fused, in disarray.

The Key Evolvement Principles for Accessing the Law of Creation are:

- 1) Expanded Programming of the Brain - Knowledge into Belief
- 2) Release of Ego-Personality Control to Divine-Mind Aspect of Higher Consciousness
- 3) Understand & Maintain Auric Circuitry & Ovid Solidarity. (Metatronic Keys)
- 4) Activate the Mer-Ka-Na Crystalline aspect of Pituitary, Pineal, & Thymus
- 5) Consistently Maintain Balance & Clarity

It is essential that you understand that the 3d brain, the ego-personality aspect incorporated in your physical 3d biology is programmed for 'survival' in a primary coding. It is the 'survival' code that brings in the warning signals that involve cautions often experienced as fear and doubt. The frontal mind, the ego-personality aspect, is engineered to dominate your 3d consciousness, in order to allow linear time flow and

survival within the physical plane. The challenge is that to arise above 3d consciousness you must rise out of ego consciousness and flow into Divine Mind within the Seat of the Soul, the gateway into Divine Mind. The brain is in 3d, the mind is of higher dimension, and within higher mind is your Divinity. The brain operates in 3d and in a manner of speaking, its 3d programming is somewhat dominant in the field of duality. It operates in a more confined paradigm, and to expand into mind, you must operate 'outside the box' to engage your true creativity.

Clarity in Your Objectives

The importance of defined clarity is important in creation. You humans only partially engage your wishes through 'Someday I will ' dreamscapes. That is like partially programming a computer program. Is it any surprise that it doesn't happen?

Someday I will travel, One day I will be rich, someday I will realize my dreams... these then become merely 'maybes', spaced in a distance. So what you are attempting to create always stays at the distance, the 'someday' you programmed. You did not define it, you did not concisely put it in the present. Yes, the dream is the first part, but it must be clear, concise and followed by definite actions.

Your brain has two hemispheres, one dealing with intellect, one with feeling. The brain works through bio chemical activations and stimulus. The intensity & clarity of a thought program is extremely important for it to become a belief. You see your brain is a 3d living computer. It must be dealt with in defined terms. It will not work with 'maybe' or 'can I?' For example, if one were taken into a deep hypnotic state, and asked, "Can the mind heal the dis-ease in this body?" the answer would be "Yes". But it is the empirical answer to whether it is possible for the mind to heal the body. It is not the healing.

The Noble Path

Every thought produces a bio-chemical enzyme. That enzyme works with the physical and nonphysical, in sync with the programming. One of the exceptions to the concept of 'Ask and it Shall be given', is that unless the asking is channelled from within, in sync with higher mind, it may have little effect. So a human on the path, in a relatively advanced state of consciousness, may well neutralize from a higher stance desires that would impede progress. There is then, a natural filtering for those in a state of grace. Goals must be worthy. The most noble of goals is to learn the mysteries of life. To gain wisdom and Mastery. But to achieve these goals you will have to take on certain pressures and stresses that are taxing. It requires discipline and will. If you are lazy, you will not get there. You must take on the task to achieve it. So attempts to create a challenge free life may be in stark conflict with a life intent on learning. Goals have challenges. Masters souls do not plan challenge free lifetimes.

Mind is the Builder

Mind is the builder, and focused will-power is the activator. The more responsibility you appropriately take on, the more your frequency will increase.

Learning to program the brain is essential. The brain is a biological computer with 3d filters and 3d programs that are ingrained from birth. Unless you were born in a Tibetan Monastery, your programming has come from what we will term socio-cultural indoctrinations. Most social programming teaches you to accept a very limited view of human existence, and human ability.

You are taught to believe only what you can sensually detect through sight, hearing, taste, smell or touch.

Dear Ones, know that the physical world of matter you see around you is imagery that you sensually interpret and project. It is received in the eye, transferred via the optic nerve to the brain. What is received stimulates neurons, and a response occurs through a bio chemical reaction that is thermal in nature.

Because you generally believe what you see, smell, taste or hear you accept it, you believe it as real. You then decide if it is pleasing or not. The brain then releases neurons based on like or dislike. This is how your reality and attraction works. You are initially attracted to people who are attractive, have a melodious voice and smell good! Your physical sensual body says yes or no.

In kind, the brain takes ideas and either accepts them or deflects them, according to program parameters. In truth the brain is unable to differentiate between an actual event and an imagined one. In multidimensional mind the two are the same. And although the human brain is capable of receiving information and frequencies from well above 3d, most humans in the present are programmed from adolescence to automatically reject anything above the mundane 3d frequencies of sensory conformity. The brain computer thus receives only what you allow, what is programmed either consciously or unconsciously, to receive. In such limiting paradigm programming, the only parts of your brain that are activated are the right and left hemispheres of the upper cerebrum and portions of the lower cerebellum, composing and imposing an activity level of less than 10% percent of the brain. The brain activity and processes in the neocortex of the cerebral hemispheres conduct the primary activity in the physical realm. The 90% majority of your brain remains unused, un-activated, programmed into dormancy. That is because any thought that does not fit in with the limited thinking programs of your cultural programming or dogma, you auto-deflect.

Herein is one of the great reasons the 'Law of Attraction' does not work for you: limited belief from limited thinking programs. To be so narrow-minded is to be closed to the

grand possibility of anything existing beyond the small band of frequency that can be perceived through the five senses of your physical 3d body. So how do you expand the brain? How do you open to mind? How do you reprogram the computer? The answer is simple but seemingly a difficult hurdle for many of you to accomplish. It is by doing. It is by examination and study, and willing self to open. Accordingly the very desire to expand attracts powerful thought frequencies that will allow for expansion. And then every occasion in which you openly accept an idea that is beyond your accepted parameters, that idea activates yet another part of your brain into purposeful use. Each time you do that, the expansive idea will offer itself as a carrier to expand your field of belief, and allow greater Cosmic reasoning. That process, sincerely repeated, will attract new ideas with study and meditation. In kind, this cycle will activate other portions of your brain for more expansion, new programming and new reception, by accepting in clear mind Mer-Ka-Na. When you have no doubt, when you know and it is absolute....it is Belief. It is through expanded mind that you begin the steps of creating your destiny.

How do you functionally expand the brain and open the doors to Divine Mind?

It is not done in one illuminating flash realization. It is not a one-step Divine Anointing. The sacred pathway to what you may term 'Enlightenment' is achieved in deliberate steps. There are many in metaphysics that want to open the book of knowledge and skip over to the final chapter. It doesn't work that way. It begins by self-exploration. By carefully auditing what works and does not work for you. In this method you allow fresh and expansive ideas to enter the brain from the Divine Mind as high frequency thought. Then you process and contemplate the concept. One then must experience the new concept by embracing it. Acting it out, living it! You must evolve it and drive it with emotion, and live the new information into knowledge and thus wisdom.

The Static in the Field

The issue most humans have in not changing their beliefs is blind acceptance of mental 3d programming. You can think positive thoughts, think positive change, but if in your deeper mind you doubt they will occur, then they will not. Doubt is one blockage that prevents manifestation of your desires. If you doubt, you do not believe. Doubt in the brain creates a bio-chemical reaction. It activates a neuron carrier in the brain that flows from the Pituitary gland to the Pineal and blocks the 'gateway' of manifestation from opening. Again, doubt is there because you do not believe. As we have mentioned, the survival aspect programming of the Personality Ego brain utilizes 'fear' in duality as a warning system. However, the duality aspect, the double edge of that sword, is that fear out of context can reach into many negative emotions including depression, doubt, hatred, jealousy and self-contempt. These are at their root, negative aspects of fear, and fear creates static in the auric field, and can lead to auric bleeding. As taught in the Metatronic Keys, the human Aura must be integral to amplify into Mer-Ka-Na. A fissured or disrupted energy field is unable to optimally operate in the Law of Creation.

Bio-Chemical Process

The belief thought-images that surround you are co-created in mass fields by all of humanity in agreement in the macro. Individually they are projected according to your light quotient. These manifest into physical reality. This involves a physical process. Thought frequencies are digitally received and are immediately propelled bio-chemically within the brain. Mental enzymes are connected with the pineal gland. The Pineal gland receives them as geo-coded transmissions. Each image, each thought, being interpreted and sorted according to its energetic signature. They must pass through the program parameter of belief after reception at the pineal. Your brain screens what is determined as real or unreal. Believable or unbelievable according to the light quotient programmed into the brain. The bio-chemicals produced are produced with acceptance ingredient or rejection ingredient. These are allowed to open or close the gate to higher mind accordingly. These bio chemicals are sent as coded neurons, and are the delivery mechanism of this thought-energy, containing all the codified data necessary for translating any thought or image into physical actuality, or not. Thoughts that are congruent with belief move to reproduce the inner image within the brain and through each nerve fiber of the body physical. These then are the initial fires of gestation for forming the new reality.

The next step is through clear mind intent, the force of will, will , aptly driven by the acceleration of emotion and feeling. This done, the physical body releases the objective in a digital code to the sublime body, the intact Auric Field in a semi solid, congealed light code, projected and accelerated from the chakric system. The Aura must be intact, and optimal in I3-20-33 cycle and reach. It then passes through the Mer-Ki-Va to Mer-Ka-Va to Mer-Ka-Na field. All propelled by will. (As Taught in the Metatronic Keys)

The clarity and intensity you insert behind the thought-desire or goal determines to a great degree the immediacy of its materialization. Once you learn the mechanics of conscious creation it is essential then to utilize the engine of genuine desire with image visualization and emotion to complete the process of physical manifestation.

The Law of Conscious Creation

There is no physical object about you, nor any experience in your life that you have not created. This includes your attitudes & physical form. Masters, there is nothing about your own physical image that you have not made. In fact if you were to view your physical image in other life sojourns, you would be surprised at how many similar physical characteristics you create in what would be termed past or future lifetimes. When you have Divine Wisdom, you can create kingdoms unlimited. When you have knowledge, there is nothing to fear, for then there is no thing, no element, no

principality, no understanding that can ever threaten or enslave or intimidate you. When fear is given knowledge, it is called enlightenment. You have a natural rhythm of existing in the physical and non-physical. It is your waking and sleep state. Dreams are one of your greatest natural therapies and assets as connectors between the interior and exterior realities and universes.

Your normal consciousness benefits by excursions and rest in those other fields of nonphysical actuality that are entered when you sleep, and the so-called sleeping consciousness will also benefit by frequent excursions into the physical matter waking state. But let us tell you that the imagery you see in both, is at its base, mental interpretations of digital frequential fields of core consciousness units. The frequency that your brain receives is actually a digital code, a crystalline pattern of symbols (akin to what you may term as X's and O's), that you interpret and translate into images and feelings. It is not so difficult for you to accept that you create your dreams, as it is to accept that you also create your physical reality, but you do both. You humans, however, determine thru your system of belief, if both or either are objective or subjective, reality or fantasy. When you believe, truly believe, in your inherent creatorship, you will make a quantum leap.

Re-Emphasizing the Blockage of Doubt

The issue most humans have in not changing their beliefs is blind acceptance of mental 3d programming. You can think positive thoughts, think positive change, but if in your deeper mind you doubt they will occur, then they will not. So we return to programming and its effect on manifestation within the Law of Attraction. Doubt is one blockage that prevents manifestation of your desires. If you doubt, you do not believe. Doubt in the brain creates a bio-chemical reaction. It activates a neuron carrier in the brain that flows from the Pituitary gland to the Pineal and blocks the 'gateway' from opening. The doubt is there because you do not believe.

The Pineal

Through the ages it has been known that the Pineal is the interface between the higher dimensions and the physical realm. It can be said then to be the gateway between the ego personality, brain and the Divine Mind. It has been termed by metaphysicians such as Descartes and Edgar Cayce as being the 'Seat of the Soul'. The pineal is the agent of advancing knowing into reality manifestation. The pineal works with the pituitary to open the bridge, the gateway between the physical and nonphysical, between brain and mind. Whatever knowledge you allow yourself to believe can only become a reality by the pineal first opening the gate to the Divine. It does this by interpreting the frequency of thought into a thermal bio chemical electrical current throughout your body and opening to mind. Your human brain transforms the thoughts you generate into

thousands of bio-chemicals every second. Not every thought of the ordinary brain reaches into Higher Mind, as we have explained.

Divine Mind

Divine Wisdom comes from Divine Mind, and when you allow mind to take the reins over ego personality you achieve the wisdom of Divine Creativity. It is this wisdom distilled from knowledge that gives you the ability to enter the Law of Creation. Once entered, then know what you want to create and take action toward it. The human body is an instrument that can be used to access the amazing and extraordinary energies of the Divine. But there are dedicated principles for accessing the Divine. When the body is fine-tuned, wisdom is achieved, the aura is maintained in balance to achieve Mer-Ka-Na, and the doors to the Law of Creation through the Law of Belief and Attraction are opened. For that to occur, all systems must work in balanced synchronicity. If you use your body for physical gratification rather than as an instrument to achieve the divine...you will reap what you sow.

Closing

You are ever the Master of each experience. Even in your most abandoned states of seeming helplessness, you are the scripter of each iota of that experience. Yet if you will utilize determination and wisdom by owning the responsibility to reflect upon your situation, and to search diligently for the Law upon which being is established, you then become the wise master, directing your energies with intelligence, and fashioning thoughts to worthy focus and realization. One thought attracts another. Positive energy attracts more positive energy. One intelligent thought attracts another. Likewise when you dwell in self-pity, depression and issues of poor self-esteem, you draw more of these to you. That is the Law of Attraction. Such is the conscious human, the Master, and you can only thus evolve by discovering within Self, the Laws of Conscious Creatorship. And indeed with the discovery of creatorship, one learns that creatorship is a science of certain laws. And this discovery awaits all of you, it is a matter of application, self-analysis, and experience. Masters, as has been said, you are powerful spiritual beings having a human experience. You are truly magnificent Beings of Power, Intelligence, and Love.

When you discover that, you become the manager of your own thoughts and you thus have the key to every situation. In Mer-Ka-Na, you are optimizing the Law of Attraction, Law of Belief and Law of Creation, which are the abilities of the Divine, within each of YOU, the transforming and regenerative agencies by which you may make what you will.

You can indeed intentionally manifest your world, and in doing so experience what is termed the Kingdom of Heaven. Conscious Creation is your destiny, and you can all make your lives the golden experience you responsibly desire.

I am Metatron with Tyberonn of Crystalline Service, and we share with you these Truths. You are Beloved.

...And so it is...And it is So...
