PART 16 - INTRODUCTION ALCHEMY CLASS – COSMIC HARMONY - ST. GERMAIN 8TH FEBRUARY 2020

Dear Heart, Send Forth Your Love, to the Truth, Power and Wisdom which Resides Deep Within All Hearts; We are not Alone, We Are One Within Soul Consciousness That Knows the Oneness as 'HOME', That Beats Within every human Heart, every Ascended Being and every Aspect That came Forth and Returns to the Heart, the Soul of the ONE LIFE!

St. GERMAIN: Greetings Dear Ones, We Come and Send Forth Our Love so that you may feel the Truth, Power and the Wisdom that already Resides within that Spark of Light We call the Threefold Flame within you. But it is the comprehension each of you entertain within your lives that shall determine how big those Flames Shine Forth as the Depth and Radiance of God's Pure Love, through you. We have told you before, until your humanness has been Purified of all imbalances and disparities, there are only certain Levels of Christ Love that your physical bodies can hold. Lord Maitreya said in the Science of the Spoken Word: 'The statement Perfect Love cast out fear is True because it can be proven scientifically in demonstration of Cosmic Law. Although it is difficult for mankind, cast in the mold of the human consciousness, to sense the Full Perfection of God that Is Within. So, it must be through the understanding of Perfect Love that each man and woman, can come to the place where Pure, Divine or Perfect Love is Self-Realized as the Essence of Selfhood.

"The Perfect Life of which I Speak, is the Love that Emanates From the Father-Mother God, from the very Core of True Being. And it is this love which, when invoked through Divine Decree by the Sons of Man, will dissolve and consume on contact all fear and doubt, anxiety and frustration, in the sense of aloneness which mankind has evolved through the consciousness of separation from the Source of Life."

Before I begin to share with you God's Love today, first you must understand how these levels are Cosmically influenced and portrayed there upon Earth through humanity. And this Dear

Ones is the physical Attributes of the Law of Relativity within 'Divine Order' but on a Cosmic Level and within 'Cosmic Order'. In the Gene Keys, by Richard Rudd, Gene Key 50, the Shadow level 'Corruption', explains the human characteristics of what the Piscean Age was all about.

"For millennia, the Wisdom of all Human Cultures has suggested an incredible possibility – that the microcosm exactly reflects the macrocosm and vice versa. Normally we think of this word/state of consciousness as political and social corruption where those in positions of authority misuse and abuse their power for personal gain. Looking at 'Corruption' from another context, we need to consider data 'Corruption'. At the Shadow frequency, information is processed by the human brain and translated through the medium of fear. As this occurs data is corrupted leading to a slanted manifestation in the world. In a similar way RNA, which copies DNA within our genetic structure, becomes corrupted resulting in disease. The 50th Shadow stands out in particular as an archetype that mirrors the process in genetics known as 'Transcription'." End Excerpt.

We then have the transitional period between the Piscean Age and the Aquarian Age the Gift Level.

Dear Brothers and Sisters, upon the Path of the 'I AM' Presence 'HARMONY', is then, the Fulfilling of the Law of Love. For Harmony is not only the Law of Love, it is the Epitome of Love, the sign of Loves True conquering heroes.

Now, as many of you know, when the thought desires to go to the right in the feelings pull to the left, most often it is the feelings that went out and the thought, by rationalization, will gravitate in their direction. And in many cases, unless of course the feelings are motivated by Purest Love, this is not the fulfilment of the 'Law of Harmony'; rather it is very often a compromise made by the Soul caught between the mental and feeling worlds. And it can result in that peace without Honour that because it is not based on Principle, cannot provide the Permanent Solution to the problem.

In all Disciples or Initiates normal efforts to Precipitate Substance Alchemically, they will find Higher Alchemical Keys in the Purity of Divine Love Flowing Forth from Their Consciousness as God's thoughts and feelings, Winged Messengers of Light Delivering Blessings, Attracting More of Their Kind and returning to the Alchemist the Blessings of the Abundant Life.

The Love of God made Manifest in the Threefold Flame sparkles, flashes and glistens White Fire Substance Particles with Immortal Brilliance. It's Vibrant, Radiant, All Unfolding Light comprises the Sun Flames Centres of all Interrelated Macrocosmic and Microcosmic Energy Systems in material and Spiritual Manifestation. Withdraw the Power of Love from any of these and their eventual collapse is certain. Every System of Worlds, Planetary or Starry Body of which the human body is the microcosmic reflection, that has ever been dissolved, whatever the apparent or scientific reason, has collapsed from within due to the withdrawal of the Love charge from the Sun Centre. The lapse from the moment of withdrawal to the

moment of dissolution, may range from thousands to even millions of years as men and women imagine time; or it may consist of a few microseconds, or the pause between them. But the decay of every System begins with the withdrawal of Love's 'lodestone' from its centre. Love, then, is Truly the Cohesive Power of the Universe. In other words, while the individual continues to see themselves as a person or thing, that is the focus of attention or attraction, the dissolution of that body begins to deteriorate and collapse. Hence the aging process, sickness, ill health and well-being, accidents, etc.

One of the most dreaded disease is upon earth today manifest as a result of mankind's hatred toward one another, which, when it returns to the sender, drives the Love Element from the cells, thereby causing the perversion of their function. Through invasion and metastasis of a disease, eventually spreads throughout the body; and death ensues when the form, whose cells have lost the Cohesive Power of Love, can no longer magnetize enough Light to Sustain the bodily functions. Though the cause may be ancient, having lain dormant for lifetimes, the karma comes due. Only Flood Tides of Love and Oceans of Violet Fire can bring Permanent Resolution to the festering hatred that lodges in the psyche of mankind.

Yet, to this day, some have vowed to bear world Karma in their members. Saints without blemish take into their bodies the worlds iniquitous thoughtforms and creations of human disparities. Thus, judge not to infirm, but help them! Uphold them! Heal them! By Love. In Healing the many types of cancer and other physical, mental, or emotional disorders, the Invocation to Divine Love is Essential. And the Healer must be All Love in Action.

Jesus' compassionate response to the cry of the two blind men, 'Thou son of David, Have Mercy on us', was a personal Action of Divine Love. He touched their eyes and said, 'according to your faith, be it unto you'. The Master's Healing of the woman who touched His Garment without His Knowledge, is an example of the Impersonal Action of Divine Love. His Response, 'who touched me? For I perceive that Light has Passed from Me to her', showed that the Impersonal Christ had healed her through Him without His foreknowledge.

Remember Dear One's that I told you in a previous Discourses:

"God is a benign Impersonal Personality, a Personal Impersonality, a Personal Personality and an Impersonal Impersonality, comprising the manifold or varieties of Consciousness of Being. God Gives and Gives of His/Her Creative Self to the creatures He/She has made in the hope that they will apprehend His/Her Purposes and emulate His Consciousness to the Fullness with which He/She has Endowed them."

Divine Love as the Living Christ, the Son behind every Son of Man, is both personal and impersonal; and it is fulfilled, measure for measure, as ye are able and every one of you through the Cycles of the Law of Your Being, the Law that is ever Love in Manifestation. When you exercise it, the Law of Love Unites the Purity of Justice, Mercy and Freedom in Perfect Balance through the Threefold Flame within Your Heart.

To Pay Tribute to Love is to Pay Tribute to the Great Drawing Power of God's Own Tripartite Flame. Love is God's Flame of Being in Manifestation. One day the scientist of the world, through special instruments, will be able to measure a portion of the Love Flame and its Radiant Energy's, but never will an instrument be made that has a scale Great Enough to Measure the All-Encompassing Power of Infinite Love.

Infinite Love can best be expressed as the Manifestation of God. The Manifestation of God can occur in Everyone. It is the Destiny of Man and Woman that shakes from Mankind their dust. Love, then, is the Fullness of God as He Manifests man. I tell you there is no limit to the Degree of God's Love that anyone who will or may manifest. Anyone who wields to Invoke it, to bare and to share, may be the Answer to Loves calling and calling.

Here in the Realm of Divine Love is the City of God, the Foursquare City described by Beloved John as the place of Conscious Attainment where the Fullness of your aspirations may find unhampered expression. Here, your Soul looks out upon the Great Wide-Open Spaces of the Creation. Love has Unlimited New Worlds to conquer. Love is the Promised Land where are the Strengths of the Lion's Nature is Given to the Heart of the Lamb and the Good Shepherd of the Eternal Covenant Seals all In the Victory of the Expanding Three in One Flame of God Good and a World Without End.

Dear One's, Beloveds of My Heart, now can you begin to see further, why the exercises I have given you in Part 13, have brought to the surface in varying degrees, those 'corruptive' Piscean deceptions, pains and imbalances, those human distortions? You needed to define them, acknowledge them to release them. We can now look at them one last time 'in accordance with your Faith in God for you to Heal them'. You needed to do this before they could have the opportunity to be released, dissolved and eradicated, never to interfere with your Initial Equilibrium and finally your Divine Harmony in due course. I have told you before, this can happen today, tomorrow or in a lifetime or two away, time is irrelevant in this matter.

Dear One's, We Know your pain and suffering, We were human beings too once, but We have passed through those barriers just as you are doing now. So do not stop your evolution now that you are so close to fulfilling your Mighty Victory of Freedom from the illusions and fallacies of the human condition. You have come so far and your courage to remain steadfast in the Light of your Mighty 'I AM' Presence Who will Guide you that last inch over the finish line, will be your Mighty Victory!

As you continue to Visualize the Cosmic Christ White Fire Radiance around yourself and others, do not be concerned with the errors of your thought, that through the years may have intruded themselves upon your consciousness. Do not allow yourself to concentrate upon any negative quality or condition of any nature. Do not let your attention rest upon your supposed imperfections. Instead, see what the Light can do for you. See how even your

physical form can change, how the strengthening of the bonds of your health can occur in your body, mind and Spirit.

It may seem hard to do these things, but I can assure you, find success in the victory of these things and you shall find the Harmony in your life that you know is already within your Genetic Coding awaiting your Conscious Activation. I tell you, nothing that has happened to you in your past, not this lifetime or any other can ever harm or hurt you ever again if you keep following the straight and narrow High Road to your Destiny. And for Heaven's sake, stay on the Train, for to disembark now, it shall be a huge task for you to ever catch up to this Train again in this lifetime.

I Am St. Germain Your Holy Brother.
