

Part 19 - Boot Camp Alchemy Class

Why America World War II and Pluto Cycle - St. Germain, 6th February 2019

INVOCATION: Beloved Mighty, Silent Watcher! Even as You hast before You the Cosmic Crystal, send forth Your Rays, anchoring them in the hearts of God's Children. Teach them Obedience to the Great Cosmic Laws. Teach them Obedience to the Light. Fill their hearts and minds with Your Peace, with Your Silence, with Your Poise. Let the rejoicing of Your Heart fill their hearts, everyone even to overflowing with Your Substance and Pure Electronic Force that brings with It Your Immeasurable Infinite Blessings. Let each one feel Your Omnipresent, Watchful Care, Your Sustaining Love, Wisdom and Power.

Repeat of Call in Part 1.

"I Call Forth Beloved St. Germain so that we may Know the Truth to several questions regarding the use of the 'I AM' Discourses and their results since their introduction to humanity from 1932. Some of these concerns have been broached within Your recent Discourses to the Elemental Grace Alliance and SOEPC, but for reference and ease of locating such information in the future, would it be possible to place all these matters in Discourse form please."

Question 1.

"Since 1932 many imbalances, disturbances and control and let us remain on the subject of America, only for reference sake, have continued unabated. So many Decrees and Invocations have been Declared over time, but still today there are far more of those imbalances that were being addressed in the Invocations back in the 1930's and 40's. If the 'I AM' Discourses are so Powerful and so Potent, why have they not worked, allowing the dark forces and so-called 'evil' to remain and thus continuing to maintain their holds upon humanity today?"

'Matters of Response'.

1. Qualification of Force.
2. Transmissions and Astral Interference.
3. **World War II, the Attack on Pearl Harbour And The Cycles of Pluto**

3. WORLD WAR II, THE ATTACK ON PEARL HARBOUR AND THE CYCLES OF PLUTO.

ST. GERMAIN: Greetings Dear Hearts, Today, I wish to convey a bigger picture for each of you to comprehend with a more expansive awareness and have decided to point out some detail that will expose the Greater Influences that Cycles within Cycles manifest with any Evolutionary Process of a Physical World and which, apart from a Planetary perspective, most

definitely influences human consciousness and how that consciousness plays out through positive and negative expressions of the Pristine Energy that Floods the Planetary Bodies within that Solar System. I choose to do this, for, without it, human consciousness is far less receptive of the Cosmic Stimuli and Impacts than they were in the past.

I wish to share the purpose of giving another perspective of the facts behind why, the effects of the 'I AM' Discourses World Activity have not, since the departing of our Beloved Messengers, Mr. and Mrs. Ballard, continued to be as effective as it might have been. Hopefully, this will add another dimension to the overall need to give the 'I AM' Activity a whole New Approach, to bring it all back into the Alignment with 1st Ray Will and Purpose, 2nd Ray Love and indeed 7th Ray of Ceremony and Invocation, thus attaining an even Higher Consciousness than was not possible after the War and up to this now time that began in 2017. That being the beginning of a New Cosmic Cycle that relates directly to the 'I AM' Discourse Activities among many other things.

All of this also relates to the information that has now been presented in detail to the Elemental Grace Alliance, about the '*Science of Synthesis*' and the Growing need for Group Living Organisms.

'I AM' therefore going to share an excerpt from the latest information on Synthesis that you now have in your possession and awareness. This will hopefully draw your Consciousness and Person, for a Greater Elevation of the Truth, toward this work for deeper contemplation. Within it, a '*New Formula of Approach*' shall begin to be revealed for a Whole New Chapter of Human Evolution yet to be tapped into in a way that We desire to be made manifest here upon the Earth. And that shall be Cosmically Supported by the New Heavenly Influences due to the Planetary positions that have just Now in your timeline been Consciously Activated within this Group Forcefield but not limited to it. We, therefore, are asking for a more concentrated effort to consider far more options on how to begin creating '*Group Living Organisms*' and especially within the Land Masses and Territories of The Americas in the very near future. Here then, is Master Rakoczy from the Discourses (Lucille Cedercrans) to speak with you directly now.

MASTER RAKOCZY:

"With the civilization transiting from the expression of the Third Ray (of Active Intelligence and Wisdom) to the expression of the Seventh Ray (Freedom, Alchemy, Transmutation, Ceremonial Magic,) we find many opportunities manifesting, many crises of opportunity. For this energy comes into appearance only during those cycles wherein rapid growth is predetermined by the Planetary Logos. The Seventh Ray is the reflection of Spirit, or the First Aspect, in substance.

"Now I would have you consider your own almost unconscious uses of these energies from the time you became interested in your evolutionary development, in the processes of the mind and their relationship to the working out of your purposes and plan, whether right or wrong, in time and space. The moment that the conscious thinking entity becomes cognizant of the

fact that they are, by reason of their own mind, creative of their own destiny, whether to a great or a small degree, they begin, unconsciously at first, to utilize this energy and to be used by it.

“In one sense this Seventh Ray Energy is one of the most important energies for you to understand because it is this expression that you will meet in your outer efforts to be of Service to the Divine Plan for humanity. You will meet it in its positive and its negative expression. The positive expression of the Seventh Ray, insofar as the Disciple is concerned, is that of White Magic. Theirs is the ability to manipulate energy, force and substance, to manifest those forms in the world of affairs which carry the Divine Plan for humanity into outer manifestation. Theirs is the ability to wield their mental, astral emotional and physical influence in such a way as to deliberately effect a greater growth and development of consciousness for those with whom they come into contact. This is Seventh Ray work on the positive side of the scale.

“The negative expression of the Seventh Ray is the opposite, the use of Black Magic as the individual seeks to serve their own separated purposes and goals, or the use of Black Magic by the Disciple of the Black Lodge for the purpose of opposition to the Divine Plan for humanity. You will meet with both expressions of this energy and it becomes ever more necessary for you to learn the right use of the Seventh Ray in your own life and affairs, both as they pertain to you personally and in your service activity. The Magic of the Seventh Ray brings the Purpose and the Love, the Life and the Quality of God, both Transcending and Imminent, into outer appearance.

“Each and every Disciple working within the field of humanity (from a focus as Soul within the new Ashram of Synthesis) has before them the seemingly difficult task of understanding the energy which is now their Prime concern. What is Synthesis? What are its characteristics and its effects in manifestation? How may one appropriate and rightly use it in Service to the Divine Plan for Humanity? What are its dangers? And how may one protect oneself, one’s group and humanity from those dangers?

“I shall endeavour to answer these questions for you now and in so doing release the initiating impulse for a renewal of group effort in the manifestation of the Ashramic Plan. Try to realize in reading, studying, meditating and practising the following, that it is only a first lesson, so to speak, in Divine Synthesis. Much more will follow in rhythmic cycles, each expansion in its own time and in response to its True need in Service.

“The Energy of Synthesis is a New Energy, a New Force and a New Substance. Its Purpose is the building of a New Civilization which will carry the Evolutionary Plan for humanity into manifestation.

“While it is a Synthesis of 1st, 2nd and 7th Ray Energies (and carries then resemblances to these,) still it is not like any one or any combination of them. It is like itself insofar as this Planet is concerned. In the Cosmic Scheme, it is a lower correspondence of a very subtle Cosmic Energy which does not yet reach our Solar Logos.” End Excerpt.

When We speak of Synthesis within a Group Living Organism, it is important to be able to take into consideration all aspects of the Evolutionary Process and not to get caught up, within single facets of the Progression and Activity of their forms they adhere to. I use the word 'Activity,' to offer a hint, as to how humanity, as individuals or Groups, can limit their own Evolution by not taking into account all facets of the Plan to align themselves to, thus benefiting from the maximum potentials of its Fixed Design.

What We are Truly Grateful for here in the Elemental Grace Alliance, is, that it has allowed everything within the Evolutionary Process to be acknowledged and hence given their undivided attention along with their own due diligent application before implementing into a New Formula of Approach that can then be tried and tested. In this way, We can All See if the changes that are required are being met with human interaction and acceptance. An increase or decrease of Resonances is always a clear indication of the advancement or not of the formulas set into Love in Action. 'Free will' is always the interference or resistance to its success or not. This is where other forms of Groups only ever reach a plateau of Resonance and can no longer pass the next Rings of Consciousness Passeth Not! Only a small percentage of the overall needs, as to facets are taken into consideration, so fruition is limited if you see what I mean here. There are many facets to a diamond and even though a diamond is a diamond the facets complete the potential of its Fixed Design.

We have told you before of Our Appreciation for how the EGA is developing because it offers no particular direction or implements any Fixed Designs on what it places its focus upon. It remains flexible, ever ready to make ANY changes necessary, when the call is received by Shamballa, the Hierarchy of Masters and Ashramic Impressions to implement such changes at the most appropriate times.

So, as I have said before, the Elemental Grace Alliance Discourses hold all the information that one needs to make those choices as and when they are required, it is simply a matter of its Members being open sufficiently to receive the Synthesis of Impressions from the Masters and Their Ashrams at the most appropriate time. Here we are then speaking about Planetary Cycles and the Influences of Planets upon the Consciousness of Humanity. Here is Beloved Alpha speaking of this very subject within 'The God Awakening' Book 1 Page 481.

"Humanity and Earth are now transcending the former new age concepts and moving very rapidly into the New Cosmic Consciousness. The Kuiper Belt and the Asteroid Belts, just as the Planets and Moons, all play a major part within human consciousness and as Shekinah explained in the beginning, these aspects of Planets are all part of the Human Experience that are playing out here on Earth, albeit, way out there in Space far away from the conscious awareness and understanding of the masses of mankind. Not Anymore! These are integral to Man's Evolvement and must not be forgotten or negated as part of the Healing and Forgiveness Plan! Astrologers will lead the way to the New Cosmic Consciousness of understanding the Energetic Links between all of these facets of humanity and the Planets for their continued Spiritual Growth and Development.

“Give some thought Dear Ones about the Proposal of a Humanitarian Dispensation to the Planets. Is this not about the ‘I AM’ Presence of Humanity? There is a Key of Understanding being offered here. We Bless Humanity in Their Humility and their naivety.

“Humanity has accepted the Batons of Responsibility from the Masters Who Held the Light before. Now they are being asked to take these Batons of Light and run with it and thus taking and creating the Initiatives to catch up on 5,000 years of lost potentials in just a fraction of the time. Can They do it? Indeed, They can!” End Excerpt.

As you have all now received Our Beloved Sister Sue’s Astrological and Cosmic Overview of this ‘Matter of Response’ of World War II, the Attack on Pearl Harbour and The Cycles of Pluto, I wish to share it again here. Bless You Sue! This is Fully Endorsed by Me.

SUE: Reflections of the ‘I AM’ Discourses with St. Germain:

“At the end of Part 3. St. Germain ends with the statement:

“And so, because everything moves in Cycles, We can once again come forward to Work together with Humanity in ways We could not have done before, this time with a New Cycle of Greater Power, Awareness, Steadfastness, Will and Purpose. We can Work in a more expanded capacity with the Higher Resonances and Light Quotients of the New World Servers Who are In Co-Creative Unity within Their Living Organism Groups. The Cycle I speak of, We shall go into detail in the next Discourse.”

“The Cosmic Cycles that are unfolding through ‘Time and Space’ reveal the state of human consciousness as Humanity responds and reacts to the planetary patterns at any given time. Astrological Cycles are not random, as there is a Divine Design within this enfolding Cosmic dance there is a pattern and a pathway which we, as human beings, intimately interconnect with on our Evolutionary journey.

“All of the Planets are, from another level, Spheres of Consciousness, which are seen through human eyes as physical forms. They are the distributors of Universal Loving Consciousness that is flowing from the Twelve Constellations, each Constellation holding particular Principles of Light so that Life on Earth might evolve into the Highest attributes held within the Rays that flow through the Cosmos and which are constantly enfolding us.

“Here on Earth for aeons of time, the orbit of Saturn has been the conscious outer boundary, the container or gestational ‘sac’ that has held Life on Earth, within a Group Consciousness that is based upon ego and the concept of ‘me’. But then this boundary was breached in 1781 with the ‘physical’ discovery of Uranus and in 1846 by the ‘physical’ discovery of Neptune. Uranus is the higher frequency of Mercury linking to the Higher Mind and Neptune is the higher frequency of Venus linking to the Higher Heart and Unconditional Love.

“Over the last 238 years Uranus and Neptune have been infusing this ego consciousness with the aim to fundamentally refine and expand our awareness and consciousness, for each physical sighting of a planet marks an evolutionary turning point in our spiritual development.

“Up until 1781 our re-incarnational journey would have remained much the same as we would have incarnated into a world where horse and cart were the means of transportation which had remained steady over centuries and centuries of time, but with the conscious sighting of the transpersonal planets of Uranus and Neptune we opened up to a new level of mental creativity, designing cars, trains, planes and by the 1960’s we were sending men to the Moon. The mind has indeed, greatly expanded, but as of this moment, is not balanced by the Wisdom of Neptune and Unconditional Love.”

“The physical advent of Uranus and Neptune into our awareness, was a Blessing and a Divine necessity, for the Higher Mind and Higher Heart has to be consciously integrated if we are to handle the arrival of Pluto which came into our awareness on 18th February 1930 at 170 Cancer 48.

“Pluto is the Higher Resonance of Mars, requiring that we move beyond personal will to Higher Will. ‘Not my Will, but Your Will be Done’. It flows with the Consciousness of the 1st Ray of Will and Power and expands us directly into the expansive Galactic Field rather than the Solar Field and as such directly to Shamballa and the Monadical Plane.

“So in the 1930’s when the ‘I AM’ Discourses were being transmitted to the Earth, from Hierarchy via Shamballa you can see how the transmission via Pluto initially allowed for the clarity and the messages to be received at this High Level and for Ascension to accelerate and if the overall consciousness of Humanity had been at a sufficient frequency of Light this would have remained the case.

“However, Pluto’s Resonance is of such a depth and intensity that it will bring to the surface emotional and mental imprints that have remained for lifetimes within the Group Unconsciousness field, beneath our conscious radar, which need to be consciously cleansed and integrated.

“Because of this background resonance of the Shadow Collective Unconsciousness, that had to be brought to the surface, we have witnessed in the first two decades, after the sighting of Pluto, not only the Second World War and the advent of the Plutonium atomic bomb that fell on Hiroshima and Nagasaki, but over the following seven decades the continuing karmic ripples that have continued to play out through the escalation of weaponry in wars and conflicts.

“The work of the Ballard’s back in the 1930’s was of inestimable value as it seeded a Truth and remains a Truth throughout this transitional period as we move from Pisces into Aquarius.

“Countless Souls, aligning with their Higher Selves, ‘I AM’ Presence, Core Essence, have been clearing the backlog of misaligned energy and maturing into another Level of Resonance and Consciousness so that Humanity may handle this expansion of Power benignly and wisely - knowing that the 2nd Ray of Unconditional Love, which was the focus of the Piscean Age, has to become Innate within the human, for it is a pre-requisite for Monadical Consciousness, as we move into the Aquarian Age.

“At the time of Pluto’s discovery on 18th February 1930, Gene Key 53, known as Evolving Beyond Evolution, was being activated moving from the Shadow of Immaturity to the Gift of Expansion to the Siddhi Level of Superabundance”. Richard Rudd says:

“Expansion is a process of transcending and including. In a human being, the expansion of frequency can only occur in one way through the heart. The 53rd Gift has the quality of bhakti or devotional energy. As you allow awareness to expand it opens your heart. You see the evolutionary impulse in all of Life all interconnected all One. Once you make this shift into your heart you are continually replenished and expanded.” End Excerpt.

“The Spiritual Purpose of Pluto as the Gate Keeper into a Galactic Higher Consciousness is to realign us individually and as a Group into this expansive field free of Shadow frequencies. Richard Rudd says:

“The great truth of the 53rd Siddhi is that Life consists of endless beginnings but not endings. This is the true meaning of Superabundance. The mind is no longer following the arc of evolution but finally rests in its true nature as Superabundant Being. Superabundance is a space beyond frequency, the 53rd Siddhi represents the state beyond and behind awareness known as Pure Consciousness.” End Excerpt.

“This is the message that Pluto was seeding and releasing within the collective consciousness on 18th February 1930 and which is being reinforced right now as Pluto orbits far out in space. For right now, we are, at a pivotal point in time, as Pluto is now at a crucial point in its orbital cycle.

“Pluto takes 248 years to orbit the Sun and because it has such an elliptical orbit, it has now come to the opposition point i.e. 180 degrees away from where it was discovered not in 124 years as you would expect - but for the first time, on the 26th of January 2017, it was positioned at 170 Capricorn 48, directly opposite its discovery point and again on the 24th of July 2017 and finally on 30th November 2017. At the end of October 2018 transiting it was still within one degree of exact opposition and will still be triggering the discovery point until the end of 2020.

“As such this angular alignment of transiting Pluto to its discovery point is creating a conduit and a reinforcement that facilitates the reconnection to all that was taught in the 1930’s, within the ‘I AM’ Discourses, which was being seeded at that time, via Shamballa and the Hierarchy, so that we might, at this point in time, take its revelations into the next Level of Unfoldment as the Living Embodiment of those Teachings and Principles.” St. Germain said:

“The ‘I AM’ Discourses that came through Our Beloved Mighty Messengers of God, who have passed before you, look upon You with their Hearts filled with Love and Strength, the Love of the Mighty ‘I AM’ Presence flowing forth to Heal, to Bless and to prosper all men, women and children of America and the World. The New Generations of Lightworkers have begun a whole New Formula of Approach, a New Template not seen before, that will assist mankind in the future to come.” End Excerpt.

“This underpins all that the ‘I AM’ Authority Alchemy Class is here to do.” End of Sue’s Sharings.

“It is significantly important for any Group Organism not to get caught up in the glamour of form, as Beloved Master Rakoczy, will tell you in the next Discourse.” Here is a quick excerpt!

“Consider the illusion and the glamour of the average student who, in meditation receives within their brain consciousness a grouping of words and thinks this is their Soul speaking to them or sees a beautiful picture and thinks this is their Soul impressing them with an idea, and understand that this is only the activity of the form which imprisons that incarnate consciousness; and understand, then, the problem with which the Overshadowing Spiritual Soul is confronted; it is confronted with a barrier of form, a barrier of speech, a barrier of words, thoughts, of pictures which the mental body throws between itself and the Soul.

“There is only one method of communication between the Overshadowing Spiritual Soul and the incarnate consciousness and that is via Consciousness Itself. It is a consciousness thread that is the line of connectivity between these two. Somehow the Overshadowing Spiritual Soul, whose conscious awareness is Wisdom without form, has to move down that thread and into the consciousness that is incarnate (without partaking of those forms on mental levels and on astral levels that are the barrier between the two.)” End Excerpt.

I have asked Peter to make this last excerpt from The Great Divine Director in bold, due to its inexhaustible Power, Love and Wisdom, once fully understood at the depth of the Soul Connection and the ‘I AM’ Presence Co-Creative Processes, indeed the Ceremonial and Transformational Alchemical Manifestations and Precipitations of the Highest Resonances and Light Quotients for Rightful Actions of God Life!

Foundations, organizations, societies, clubs, governments and their political parties, etc, cannot facilitate any formless attribute of a Living Organism while they remain attached and fixed to any such outer forms or their mindful old patterns of belief that they continue to give their focus and attention to. Hopefully, this will make sense sooner, rather than later.

We shall close here as I wish to add a further Discourse at this time that will help you even further to see why there remains an inconsistency of flow, that creates a ‘Ring Passeth Not’ of Resonance of Consciousness within the old formations of Group gatherings.

BENEDICTION: Oh Infinite, All-Pervading ‘Presence’, Whose Active Intelligence Governs All Who Look Unto You, Fill each one Who Seeks the Light with Your Mighty Inner Light. Hold each one Closer and Closer in the Great ‘I AM’ Presence, That It Fills the World of everyone with Your Great, Great Perfection and That the Consciousness of each individual Desires Only That Great, Great ‘Presence’ and Perfection.
