# 'I AM' the Light that Moves to Rest

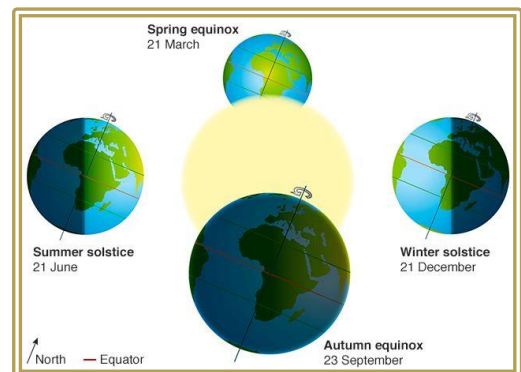

The New Moon in Libra will take place on the 25<sup>th</sup> or 26<sup>th</sup> of September, depending upon where you live in the world.

This New Moon occurs two days after the Autumn Equinox, in the Northern Hemisphere, and the Spring Equinox, for the Southern Hemisphere.

However, whichever hemisphere you live in, there will be an equalising, balance of night and day - twelve hours of light and twelve hours of dark. This balance occurs only twice a year when the Earth's axis is tilted neither toward nor away from the Sun, resulting in a "nearly" equal amount of daylight and darkness across all latitudes.

This 'Equinox' phenomenon is a macro reflection of the micro dynamics playing out within the Libran archetype, which seeks to find balance between two opposing forces which unfolds through the human's mental and emotional body as the personality seeking to come into balance with Soul expression.

The Libran Constellation flows with the 3<sup>rd</sup> Ray of Active Intelligence. The 3<sup>rd</sup> Ray is particularly linked to the Earth and also to Saturn – for it is here on Earth that we all take on the journey of creating with our thoughts and feelings and through trial and error discover and learn the power that these words and feelings have upon the wellbeing of each of us, individually, and also collectively. For these thoughts and feelings are the building blocks for the Elemental energies that underpin our physical form.

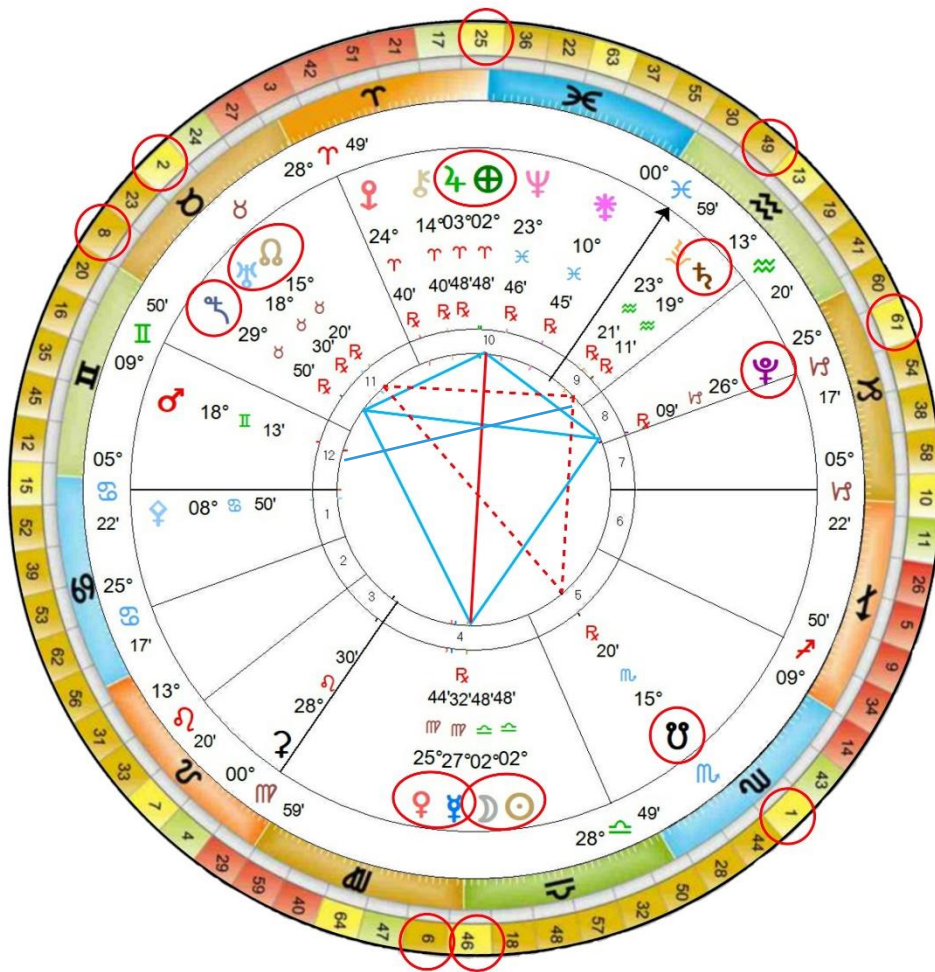

Saturn, which is exalted in Libra, acts as the *Ring Pass Not*, patiently guiding us to take on the responsibility for our actions, until we ultimately become co-creators with the Creator – At One with Source. At the personality/ego level, Venus is the planetary ruler of Libra, working through the 5<sup>th</sup> Ray of Concrete Knowledge but, at the Soul level, Uranus is the planetary ruler, flowing with the 7<sup>th</sup> Ray of Ceremonial Order and Magic, impulsing all Life Streams with the radiation that flows from an integrated, balanced, synthesis of the 1<sup>st</sup> Ray of Will and Power and the 2<sup>nd</sup> Ray of Love and Wisdom.

The 7th Ray has an impeccability and precision that is most intimately concerned with the alchemical transformation of Matter – the turning of lead into Gold. The Aquarian Age is over lighted by the 7<sup>th</sup> Ray and it is this collective Transformation that is the focus for this Age, so that we might reveal the Spiritual Essence, held within matter, the Christos Consciousness, the Light within Form that interpenetrates all Beings.

*We are in this Life to Enlarge the Soul, Liberate the Spirit, and Light up the Mind.* Anon

## Chart for the Libra New Moon

The New Moon 25<sup>th</sup> September 2022 22:54 pm BST London UK  
<https://www.timeanddate.com/moon/phases/>

Looking at the above chart you will see there is a Kite Formation created by the Sun, Moon, Mercury and Venus trine to Sedna and trine to Pluto, opposite to the Earth and Jupiter. So at the time of this New Moon you could say that individual thoughts (*Mercury*) and feelings (*Venus*) are very much in focus as they are conjunct the Sun and the Moon.

There continues to be a 'T' Square formed by Saturn being 90° away from the South Nodal point and the North Nodal point and Uranus as was the case for the last month's New Moon and so looking at Saturn first, you will see that Saturn remains on Gene Key 49, known as ***Changing the World from the Inside***, continuing to hold the space for us all to move beyond the Shadow of ***Reaction*** to the Gift of ***Revolution*** which ultimately leads to ***Rebirth***.

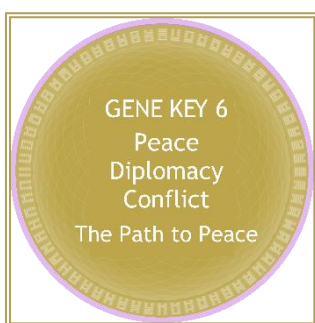

If Libra is about bringing the opposites into balance and harmony then the tension that is created by Saturn in aspect to Uranus is a perfect example of two very different expressions seeking resolution. These two important Planets are complete opposites, as has been said before, Saturn represents tradition, rules and regulations, authority and control. Whereas Uranus represents rebellion and change, protest and freedom. The pendulum swings between these two archetypes during times of major unrest and social reform and has been with us throughout 2021, coming very close to an

exact 90° aspect this month before finally moving out of aspect by the end of the year. So will the Libran qualities of balance and harmony, assist in being able to find an equitable outcome for all that is so divisive at present.

***'There is a genetic Revolution underway right now – everything that is rotten in the 49th Shadow will be brought up to the surface. The 49th Gift is a power that is already beginning to flood the awareness of many people across the globe.'***

***There is a difference between reactionaries and true revolutionaries.*** Agents of the 49th Gift are not victim to their old emotional prejudices. They do not provoke further reaction but seek to resolve conflicts and at the same time implement radical changes and ideas based upon a grand vision for the future - a vision of deep goodwill towards all creatures.

***'As fewer and fewer humans are victims of their emotional reactions, violence will rapidly decrease in the world. Men and women of peace are infiltrating all races more than ever before. This Revolution is worldwide.'***

Looking to the position of Mercury and Venus we find that they are activating Gene Key 6 known as **The Path to Peace** moving from the Shadow of **Conflict** to the Gift of **Diplomacy** ultimately bringing **Peace**.

***'The 6th Shadow of Conflict is the single most influential Gene Key with regards to human communication. At its highest it has the potential for world peace, at its lowest, it is the root cause of all human Conflict. As long as you surrender your will to the emotional system, then you will be trapped by its volatile nature.'***

***'At a heightened frequency, the 6th Gift pulls rapidly away from Conflict adjusting behaviour to create harmonious relationships with others. This is the Gift of Diplomacy – the ability to adjust your own behaviour to create a harmonious exchange with others. This is a by-product of opening our heart to another. As you become clearer about your own emotional conditioning you begin to feel more peaceful.'***

***'Because this Gift is so deeply connected with the pH balance in your physical body it also has the effect of stabilising the emotional aura in your environment. In other words, when one is able to see and own their unconscious projections, they actually rupture the collective Shadow patterns wherever they go. People displaying the 6th Gift are always attuned to the right timing of how to act and what to say through the strong resonance of their auric field.'***

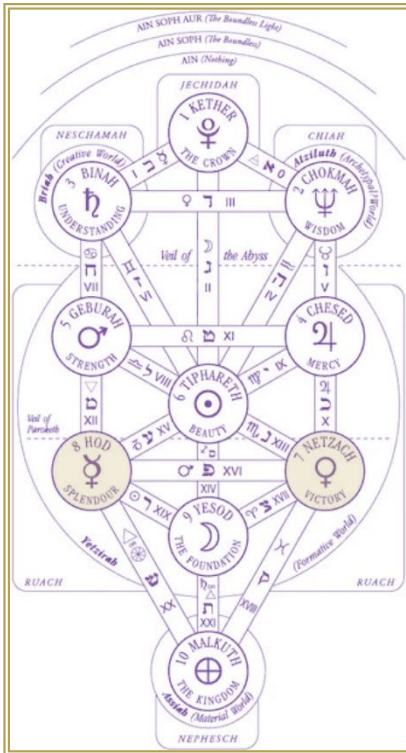

***'The ultimate defence is emptiness. This is the essence of the wisdom taught by the great sages. The 6th Siddhi of Peace is one of the truly great Siddhis. In fact, it is the underlying nature of form itself once its true essence has been realised as consciousness. The 6th Siddhi is the final result of the process that occurs in the 6th Gift. The 6th Gift is marked by a constant balancing of opposites. In this sense, Diplomacy requires a subtle effort since it is juggling within the realms of duality.'***

***'However, at a certain point this process spontaneously gives way to the 6th Siddhi and duality itself is transcended. Peace is an auric vibration that surrounds anyone in a Siddhic state.'***

***'Profound changes occur in your physical body before, during and after this realisation. It is as though all the cells within your body make peace with each other and experience their own inner Garden of Eden. In this sense the true Garden of Eden is the body itself. The waves of Peace that accompany this event travel deep into the collective consciousness of all humanity.'***

Mercury and Venus, called Hod and Netzach, on the Tree of Life, are the Spheres of Consciousness that have evolved through humanity's lower mind and feelings and which have held humanity in low resonance over eons of time, until transmuted. At the time of this New Moon, Mercury and Venus are making an aspect to both Sedna and to Pluto. Sedna, out in deep space marks out a time span of some 11,500 years, in one orbit around the Sun, and Pluto, the Gatekeeper into Galactic Consciousness, is the planet of Transformation that is enabling the Group Consciousness to transmute misaligned energy and to move into higher resonance.

These are pivotal times on Earth and each one who transmutes any misaligned energy that is flowing through their auric field, rather than projecting it out onto another, is serving the Collective in powerful ways.

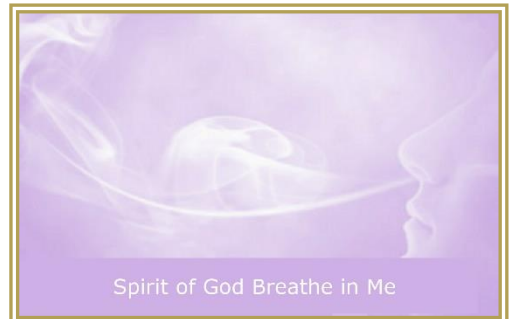

Pluto, right now, is briefly back on Gene Key 61 where it was from the middle of 2018 to March 2021 and then once again from June 2021 to January 2022. This is the final pass of Pluto through Gene Key 61 – it will leave this particular part of the Cosmos on the 11<sup>th</sup> of November 2022 - 11:11:22 – an auspicious date.

Gene Key 61 deals with the deepest fears and Shadows held within the Collective field that have been created over time – which has obscured and hidden the truth contained within this genetic key, which is known as the **Holy of Holies**, moving through the Collective Shadow consciousness of **Psychosis to Inspiration to Sanctity**.

This Collective Shadow consciousness has played out through all that has occurred over these last three and a half years highlighting the Shadow very clearly for all to see.

**'A dictionary definition of the word Psychosis might read 'any kind of mental defection or derangement'. The loss of contact with reality is the background consciousness of almost all human beings, for we think that the world that our mind sees is the world. But the Sages of all time testify that this is untrue and there exist Planes of Reality that are far beyond what we generally refer to as 'normal'...The dilemma is that you cannot fix the psychosis from within the psychosis. The ancient civilizations called this perspective cloak thrown over the world the Maya – the great illusion.'**

**'Inspiration is what happens when you stop worshipping God and start becoming God. Inspiration refers to a process that is very different from our normal understanding of the word – it is derived from the Indo-European word for breath and is connected to the Latin 'Spiritus' also meaning breath - it is a gradual releasing of your inner breath through the fabric of your reality and out into the world. Inspiration involves a powerful dismantling of the inner realities that have been built by your mind.'**

**'In arriving at the 61st Siddhi, we approach a great mystery – the mystery of Life itself. The Inspiration pouring through the higher reaches of the 61st Gift is a stream of sparks from a great transformation occurring within every human being who approaches the inner door. As you enter the field of the 61st Siddhi a huge pregnant Silence descends and all your mental activity abruptly ceases.'**

*'Here inner truth resides. In western mythic traditions, this is a place called by many names – the Covenant, the Grail, the Holy of Holies. In the East it is generally described as a state – enlightenment, nirvana or samadhi. **The 61st Siddhi is neither a place nor a state - it is the inner experience of Sanctity – of being one with the Divine.** Within this Siddhic state true reality dawns.*

*'The process that creates humanity's mass Psychosis is no longer routed directly into the brain but is rerouted through the solar plexus system (which houses a far more advanced system of awareness). **A human being who is embodying the 61st Siddhi is nothing but a human vehicle manifesting pure Universal Consciousness.'***

And Sedna is on Gene Key known as **The Diamond of the Self** moving through the Shadow of **Mediocrity** to the Gift of **Style** to the Siddhi of **Exquisiteness**.

*Mediocrity is defined by others rather than by yourself and Mediocrity has two main functions. **Firstly, it stops you from thinking outside of the box.** Under the influence of this low frequency you think like everyone else, look like everyone else and more or less behave like everyone else. **The second function of Mediocrity is to serve the machinery of society rather than evolution.** In other words you become a cog in the wheel of the systems established by man. It stops you from being a free thinker keeping you in a loop of unimaginative, compromised, and conformist thinking.'*

*'To break out of the heavyweight frequency of the 8th Shadow you have to take an exciting leap of faith in yourself. This 8th Gift catches people's attention because it brings something fresh into the world. The Gift of Style has little to do with our popular interpretation of this word – it has more to do with following your own unique, rebellious spirit out into the world. **It is the natural flowering of your individuality.'***

*'The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states. **People of the 8th Siddhi are not leaders. They are examples.** The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states. **Exquisiteness is experienced when the Divine Essence begins to shine through the individual.** In this state of Bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed.'*

*'This is the stage at which you achieve transcendence of your genetics. You remain differentiated at the level of form, but at the collective Universal level your awareness permeates all forms, making you both a drop in the ocean and the ocean itself.'*

The Sun and Moon join together on Gene Key 46 requiring humanity to move out of the Shadow of **Seriousness** into the Gift of **Delight** and ultimately into a state of **Ecstasy**. It is our mental thinking and beliefs that keep us in a state far away from Delight, yet alone the state of Ecstasy. So before considering this Gene Key, it is worthwhile returning for a moment to Gene Key 61 where Pluto is making a final transition and to consider how our minds trap us in levels of Psychosis, or in the Maya of unreality.

*'In India, the Wise, the Ecstatics, the Sadhus, whose yoga puts them in touch with other Planes of being, were and are revered. How far we have moved from the Magical; magic is now seen as a backward step. The term magic is the ability to interface directly with the Spirit of Life, to feel power coursing through your body and also knowing that your underlying Being is emptiness.'*

*'To escape the low frequency of Seriousness, it takes a single, simple quality – Acceptance. Acceptance is the programming partner of the 46th Gift of Delight. Delight is a sense of freedom and this Gift is about feeling alive within the realm of matter.... **When you move through life***

**with an attitude of Delight and openness, whatever happens is correct.** If your attitude remains open and accepting you will see that the Universe is at work in you. Synchronicity is an energy field available to all with, or without, the 46th Gene Key in their profile. **The only prerequisite for tapping into synchronicity is this Delight.'**

**'Ecstasy is the highest frequency of the 46th Gene Key and it occurs only through the heart. It is in fact the true nature of Humanity.** There is actually no work more important on this Earth than play. When we become truly playful we reshape the nature of our Collective reality. **Ecstasy is not a word that most people consider when they think of themselves and their lives.** Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy. **If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism.'**

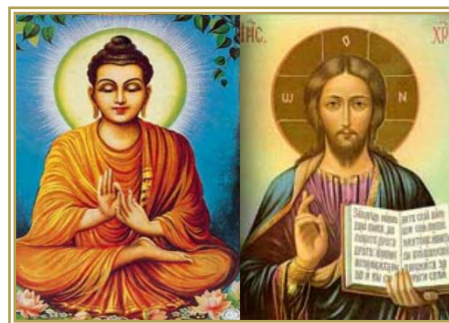

**'It is not that the 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm that it emerges through the physical body. Matter is penetrated completely by the Spirit.** Such men and women – the Ecstatics – have not always found it necessary to remove themselves from the world but have found their love within the world of ordinary life. **Ecstasy comes in waves, in orgasms that travel through the Universal quantum field in which we live.** The more people who experience such orgasmic energy coming through their higher bodies the more our planet will be transformed.'

Both the Earth and Jupiter are at the apex of the Kite Formation, on Gene Key 25. Gene Key 25 is the programming partner of Gene Key 46 and they work together to create a unified field. Gene Key 25 is known as **The Myth of the Sacred Wound**, moving through **Constriction** to **Acceptance** to **Universal Love**.

**'Here in the 25th Gift we arrive at one of the greatest and most powerful of all human Gifts, the Gift of Acceptance. Because this 25th Gift represents the portal to the true nature of the Universe as Love, it has incredible relevance for all human beings.** The flowering of Love follows the burgeoning of Acceptance. This kind of Acceptance takes place when you build up the courage to look into your own Shadow. **The only way to transform the Shadow is to have the courage to simply feel the fear.'**

**'The state of Acceptance is akin to "Spiritual Springtime" where everything seems new again, flowing more easily and freely.** The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. **When you can finally accept everything in your life just as it is right now you will have embraced the human wound. '**

**'The 25th Siddhi is a special Siddhi, whether it happens to be within your hologenetic profile or not.** Every Gene Key exists inside each of us and the 25th Gene Key is the primary archetype of Love. **The 25th Siddhi is Love itself as the Source of all and in this sense it can be called Universal Love....** It is said that the greatest obstacle to realisation is the seeking of it. All spiritual paths begin with the urge to bring an end to personal suffering – it is the unacceptance of suffering that makes you seek.'

**'Eventually this revelation gives rise to the quantum leap to the Siddhic level of consciousness. Those Beings who have attained realisation through this 25th Siddhi become, in some form, legends.** Whether Buddha or the Christ – the aura of such a person shines like a light down the centuries and is felt within the bloodlines of all future generations. Every time someone attains

*the 25th Siddhi a great genetic constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'*

All transformation requires inner awareness and over these next few days Mercury is retrograde, appearing to move backwards against the night sky - when Mercury is retrograde it is a time for inner reflection – being in Virgo it adds to the potency of this time, to truly look inwards, to take the mote out of our own eye before projecting onto another - to come to realise the power of thought and words, which underlies all manifestation in the outer world.

As said earlier, the 7<sup>th</sup> Ray is now the over lighting Ray flowing through the Solar System, as we move out of the Piscean Age and into the Aquarian Age. This changing of the Guard, reflected in the UK with the death of Queen Elizabeth II, with all the Ceremonial Order that accompanied her funeral, reflects, however mundanely, the 7<sup>th</sup> Ray, whose images were streamed around the world on September 19<sup>th</sup>. Whether for Monarchy or not – is not the issue - for something deeper that is seeking remembrance and expression was occurring.

This is a quote from a fellow astrologer on the death of the Queen whose natal Moon was in Leo:

*'The sign of Leo tells us what it is that people are seeking in Royalty: a connection with the Divine. For that is where Leos acquire the abundant Life that shines through them: from their own unique connection with the Universal. People need something on which to project the Divine, **until they are able to incrementally find it within themselves.** Far better that it is projected onto a politically and religiously neutralised figure like a Constitutional Monarch.'*

BG

So, as we step into this new Era may we remember that we are indeed Divine Sovereign Beings, imbued with the abundance of the Life and Light of Universal Source which flows through each one of us to support All in Harmony, Balance and Universal Love

*All Blessings for this Equinox and New Moon.*
