Virgo New Moon 2021

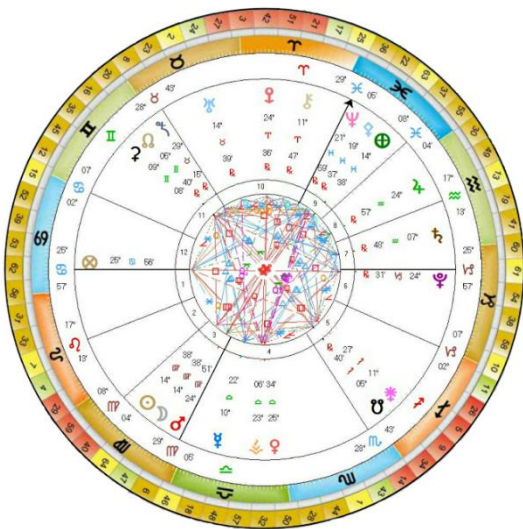

I Am the Way, the Truth, and the Life

John 14.6

*To the Illumined Mind the whole World
Sparkles with Light*

Ralph Waldo Emerson

'I AM' the Blended Dual Light

This month the New Moon will take place on the 6th or the 7th of September, depending upon where you live, when the Sun and Moon will come together in the sky at 14^o Virgo 38' at 01:52 BST London UK.

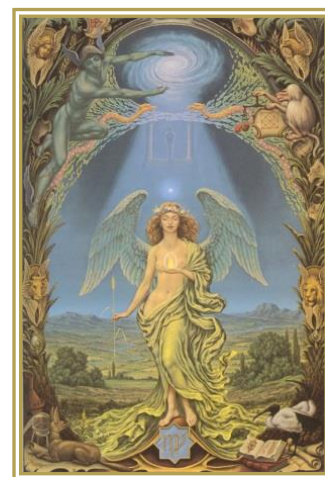

After the intensification of Light from the August Lion's Gate, we are now entering, a time of integration and maturation. For the Northern Hemisphere, this is the time of Harvest, when golden fields are gathered in and ripened fruits reveal the alchemical design and purpose, hidden within their inner seed.

The image of a Feminine Deity has long been associated by early cultures with the Constellation of Virgo. Ancient Star Maps often depict a winged woman holding stalks of wheat or corn in her hand. Spica, the brightest star in the Virgo

Constellation means 'Ear of grain' in Latin and Virgo symbolises this Harvest the synthesising and integrating of physical life into its higher expression. The Virgoan energy is feminine/magnetic and of the Earth Elemental. As such practicality and Spirituality are incorporated within this archetype – a deep sense and awareness of creating Heaven on Earth.

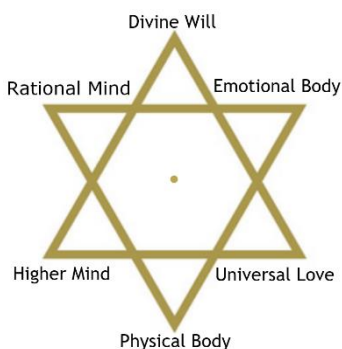

The Virgoan archetype has the quality of the Mother Principle in that she 'feeds' the Soul through the mind, emotion and the body by gathering 'information' that nurtures and quickens the growth of the Soul.

It is through the Virgoan vibration that the manifestation of the Soul onto the physical plane is said to be undertaken. As such Virgo is seen as the sign of the 'Hidden Christ' or 'Christos' as it represents the Seed which lies dormant within each of us, awaiting gestation and growth through the ongoing passages of time.

Christos means the *Anointed One*. In previous Cycles of Time, Krishna and Buddha have each held this title. In this last Age, the Piscean Age, the Christos energy was embodied as Jesus, but whoever holds this High State embodies the synthesis of all Human Souls. For the Christ is, in effect, the Soul of Humanity which is said to finally culminate within, and throughout, Humanity during the Age of Capricorn.

At the personality level, Mercury, the lower mind, rules Virgo through the 4th Ray of *Harmony Through Conflict*. There is a strong mental focus that requires discernment. How we think, and express ourselves, reflects our inner state - we either benefit the collective, or harm the collective affecting not only our environment but equally our individual physical wellbeing and health.

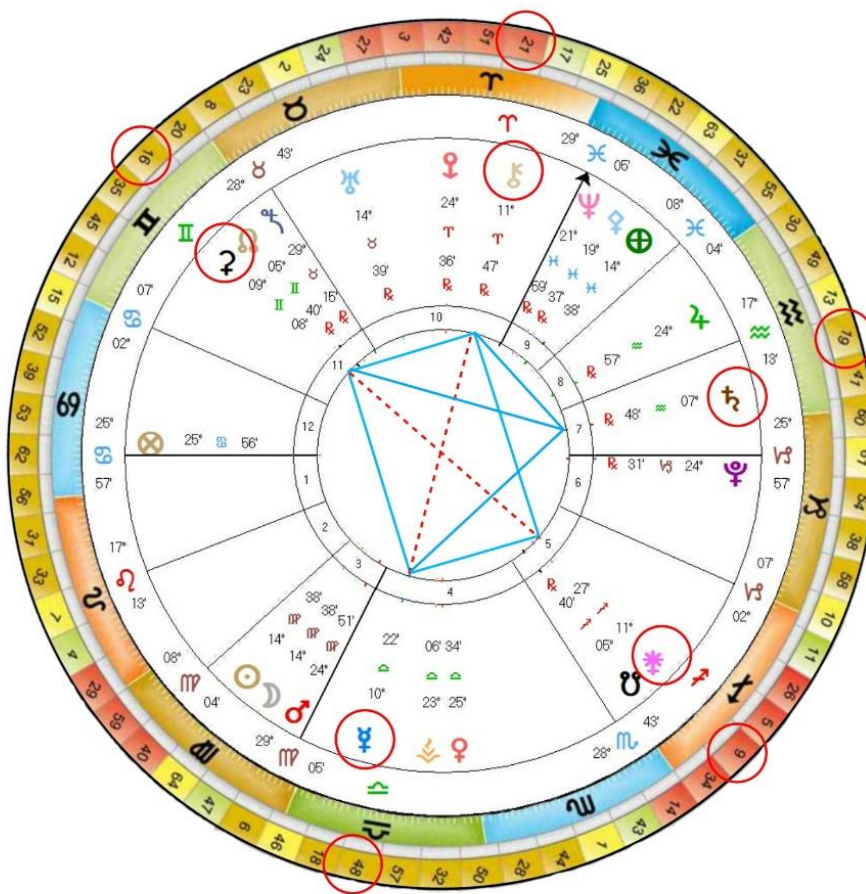

As the individual evolves, the ego mind no longer dominates and a loving, magnetic forcefield is created, underpinning a life that is led as an act of Love, through the 2nd Ray of *Love and Wisdom* and the 6th Ray of *Devotion*.

Virgo is the sign of the *Six Pointed Star* and it is through the inner 'Soul/Christos Presence' that the Law of Attraction operates – raising the lower frequencies of the Rational Mind, Emotional Body and Physical form up to align and merge with the three higher attributes of Higher Mind, Universal Love and Divine Will as they descend into form, creating this Six Pointed Star.

The ultimate Truth of who you are is not I am this, or I am that, but I AM. Eckhart Tolle

Charts for the New Moon in Virgo

New Moon 7th September 2021 01:52 BST London UK
<https://www.timeanddate.com/moon/phases/>

We are all constantly held within the unchanging Pure Light of Source, however this Pure Field of Consciousness is interpreted, experienced and expressed through different levels of Consciousness, the language of which is expressed through the Gene Keys, as it unfolds via each individual's response back into the Group Consciousness.

This month at the time of the New Moon there are several planetary aspects occurring so two charts have been created to show these aspects more clearly. Before looking at the planetary aspect created by the Sun and Moon here is the chart that shows the underlying planetary patterns that are informing the New Moon.

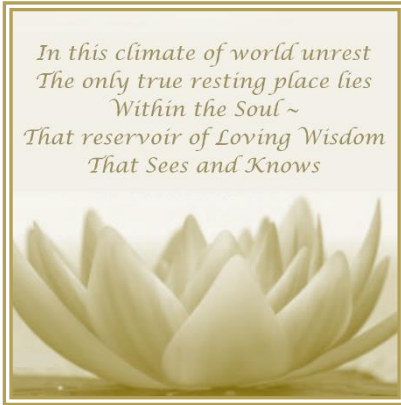

You will see that there is a Kite formation created by Mercury ♿ Ceres ♁ Saturn ♄ and Chiron ♁ and also a Mystic Rectangle formed by Mercury Ceres Chiron and Juno ♃

Looking at the planets that are creating the Kite Formation, Mercury, which is the planet that links to our lower mind, the inner voice that can so undermine us, is on Gene Key 48 known as **The Wonder of Uncertainty** assisting us to move beyond the Shadow of **Inadequacy** to the Gift of **Resourcefulness** to the highest resonances of **Wisdom**.

'This Shadow gives rise to one of the deepest human fears – the fear that we are inherently inadequate. The frequency that the 48th Shadow releases into the cells of our body emerges as a profound uncertainty about the future and our ability to handle it.'

'The secret of moving beyond the 48th Shadow lies in one word – Trust. As you learn to trust life on a broader scale the well begins to reveal some of its secrets. First you must enter the well – by entering into this field of

fear you slowly learn to stop being afraid of fear itself. Instead of hiding from the darkness inside you it is as though you finally lower a bucket down the well and then pull it up to see what it contains. What you discover is a wonderful surprise – the well has all manner of solutions to all manner of challenges – you will be amazed that so much Light can emerge from such a dark place. **This is the essence of the Gift of Resourcefulness. As you learn to trust that an answer will always emerge at the right moment in your life, your sense of fear and anxiety gradually begins to fade.** All of your inner talents and resources are ultimately designed with a built-in programming agenda – to offer service to the whole. You begin to realise that you are capable of far more than you ever dreamed possible.'

'The 48th Siddhi of Wisdom is one of the truly great Siddhis. Wisdom has been revered and sought by all cultures since the beginning of time. Most see Wisdom as some inner knowledge that allows the individual to see beyond the confines of normal awareness. However, the 48th Siddhi opens up the void inside you and you enter into a primal state of not knowing. Everything about Wisdom is about being unsafe and unsecure. There is a great difference between being insecure and unsecure – in insecurity we are looking for safety, for answers - to be unsecured means to be released from fear altogether. It means to have stepped through the Group Consciousness of fear and to be more secure than can possibly be imagined.'

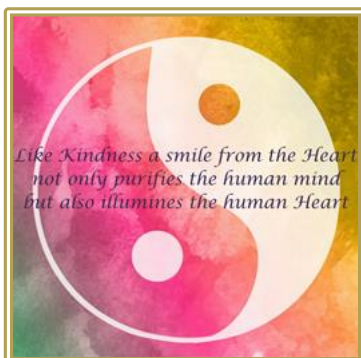

Mercury flows to Ceres, once an asteroid, but now a Dwarf Planet, giving this Cosmic Body, 'planetary' status in our recently realigned Solar System. Ceres resonates with Virgo in that there is a love of what is simple, pure and natural. The Ceres archetype creates a strong awareness of the need to nurture and protect, as well as to treat all other living beings, with kindness, respect and reverence. She is the archetypal Earth Mother – worshiped by the Ancient Romans as the Goddess and Guardian of the Crops and today we still have the word 'cereal' which comes from this heritage.

Over the last years many crop circles have manifested, particularly down in Wiltshire UK, close to the Standing Stones at Avebury and to the ancient monument of Silbury Hill. Crop Circles are a manifestation, a Cosmic imprinting, created with the Elemental Nature and Devic Kingdoms, which are encoding future potentials for the Life Streams of Humanity and all of Nature on Gaia, unfolding during this next two thousand years of the Aquarian Age.

Ceres is activating Gene Key 16 known as **Magical Genius** moving from **Indifference** to **Versatility** to **Mastery**

'At the Shadow frequency one of the most powerful and pervasive forces that keeps you from perceiving a higher reality is Indifference. Indifference is an energy field created by all human beings on this planet who are not doing what they would really love to be doing. The only reason for this state is fear – a fear of leaving the comfort zone. **The risk of being different and rejected is greater than the desire to be one's unique self.**

'Indifference is an expression of the collective frequency of humanity operating through your genetics. Indifference simply arises because the mass consciousness does not yet see its own true nature - that is, it doesn't yet realise itself as a holistic entity. However, our new awareness will enable us to identify as a single consciousness.

'Versatility is driven by the dynamic energy of enthusiasm – the feeling that you are doing something thoroughly enjoyable, which also happens to improve people's lives and serve the whole. Versatility is a frequency and at this level natural abilities emerge with ease.'

'The enthusiasm inherent in the 16th Gift also has its manifestation in the Siddhi where it shows its true nature. Enthusiasm, deriving from the Greek meaning 'To be possessed by the breath of God' floods the human being and he/she merges with Divine currents, shattering their identification with the world of form. The 16th Siddhi has an interesting connection to the 35th Siddhi of Boundlessness and on closer analysis one can see why.'

'As one of the Miracle Siddhis, the 35th Siddhi's sole purpose is to expand the average human's perspective on life exponentially. The one who has attained this Siddhic level displays Mastery over Creation – their powerful actions, seen as miraculous, pull humanity out of Indifference.'

Ceres then flows to Saturn, the planet of manifestation on this dimensional level and the Gatekeeper to Transpersonal Consciousness, is on Gene Key 19 known as the ***Future Human Being***, guiding us through and beyond the Shadow of ***Co-Dependence***, to ***Sensitivity*** and on to the Siddhi of ***Sacrifice***.

'The 19th Shadow of Co-dependence has its roots deep within our tribal past. Co-Dependence refers to the state of consciousness below independence. To be independent means to rely only upon yourself, whereas to be co-dependent means to rely on outside agencies. Our relationship to God or a set of gods is a purely co-dependent relationship because it is based on this need for outside authority. As long as man believes in a God outside of himself the frequency of our planet will remain at the level of the 19th Shadow. As we grow beyond Co-Dependence, we discover that independence is an illusion, for in truth Life is, and always has been, interdependent.'

'In today's world people with the 19th Gift are likely to use their Sensitivity in any field where people are working together in groups.... There is a heightened awareness of other worlds, realms and kingdoms of life forms and the ability to communicate with them. The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature.'

'These kingdoms, which have often been referred to as the Angelic or Devic realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions. The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds.'

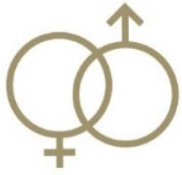

'The path of frequency through the 19th Gift goes from Co-Dependence to independence and finally to Interdependence. Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species. Through the 19th Gene Key you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater Self - to Sacrifice your individual identity and experience yourself as one with all life as well as the Creator of it.'

'This is the secret of mystical initiation. The 19th Siddhi shares a profound connection with the 49th Siddhi of Rebirth.....Consciousness is now beginning to outstrip man and is reaching out for a higher form. But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered and the 19th Siddhi contains the secrets of this mystical initiation.'

The last Cosmic Body involved in this Kite Formation is Chiron. Chiron also forms part of the Mystical Rectangle. Known as the Wounded Healer, the transits of Chiron infuse more Light into the etheric body and are instrumental in raising the frequency of the auric field and the DNA. Chiron assists in the embodiment of the Soul and is the key underpinning Christ Consciousness.

At the time of this New Moon Chiron is on Gene Key 21 known as a ***Noble Life*** moving from ***Control*** to ***Authority*** to ***Valour***.

'If you assert Authority through the hierarchical base of the 21st Shadow then you rule through control and fear, which never inspires true Loyalty. True loyalty can only be maintained when the frequency of love outweighs the frequency of fear. Such people are given authority by others and this is the real meaning of Authority. True Authority unites rather than controls. The relationship between Authority and submission is the relationship between yin and yang, between the male and female energies throughout our Universe. The Male Female polarity balanced so that the Yin/Yang flow is finely and exquisitely tuned into service.'

'Valour is the highest frequency of the 21st Gene Key – it is an energetic field released into the world through a chemical signature within your genetics that underpins nobility. Valour is nobility in action. It contains virtue, wisdom, love, courage and above all sacrifice. As an archetype Valour signifies the ending of all karma, even though the states preceding it often carry a great deal of karma. No matter how muddy the waters are, you have to realise your pure nature can never be soiled. To be a master, that is a Being who has attained realisation through this Siddhi you must lead by example.'

'Valour is an act of absolute self-surrender in which you lay your entire being on the line for a higher ideal. Valour represents the surrender of the male principle of control to trust represented by the feminine principle of trust. The power of Valour could be summarised as the courage and love that must be found within the lower self to die into the unknown world of the Higher Self.'

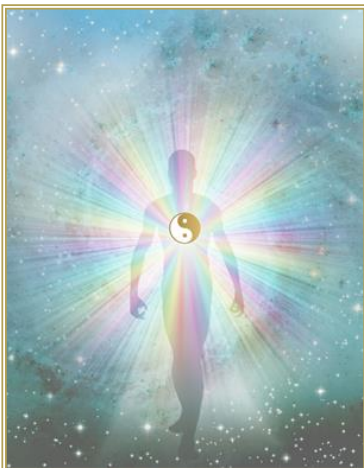

The last Cosmic Body that is highlighted, on the chart above, is Juno which is reinforcing our need for the inner alignment of the male and female principles, as Juno resonates to the Sacred Marriage, which occurs when the electro-magnetic field underpinning our cellular structure is brought into balance and the left and right hemispheres of the brain are in harmony allowing for higher awareness to flow.

Juno is on Gene Key 9 known as the **Power of the Infinitesimal** evolving through the Shadow of **Inertia**, to the Gift of **Determination** to the Siddhi of **Invincibility**.

'The Chinese Sage Lao Tzu said 'The journey of a thousand miles begins with the first step' - although more accurately it might be said 'The journey of a thousand miles begins beneath one's feet'. This piece of wisdom concerns focussing on what lies right in front of you rather than concerning yourself with where the future might or might not take you. Whenever you stand at the beginning of a journey, it is the first step that sets the tone of the entire journey, whether that be the beginning of a new day, a new job, a new relationship, and so you do well to remember this truth: those first few steps are critical to your evolution in the time ahead.'

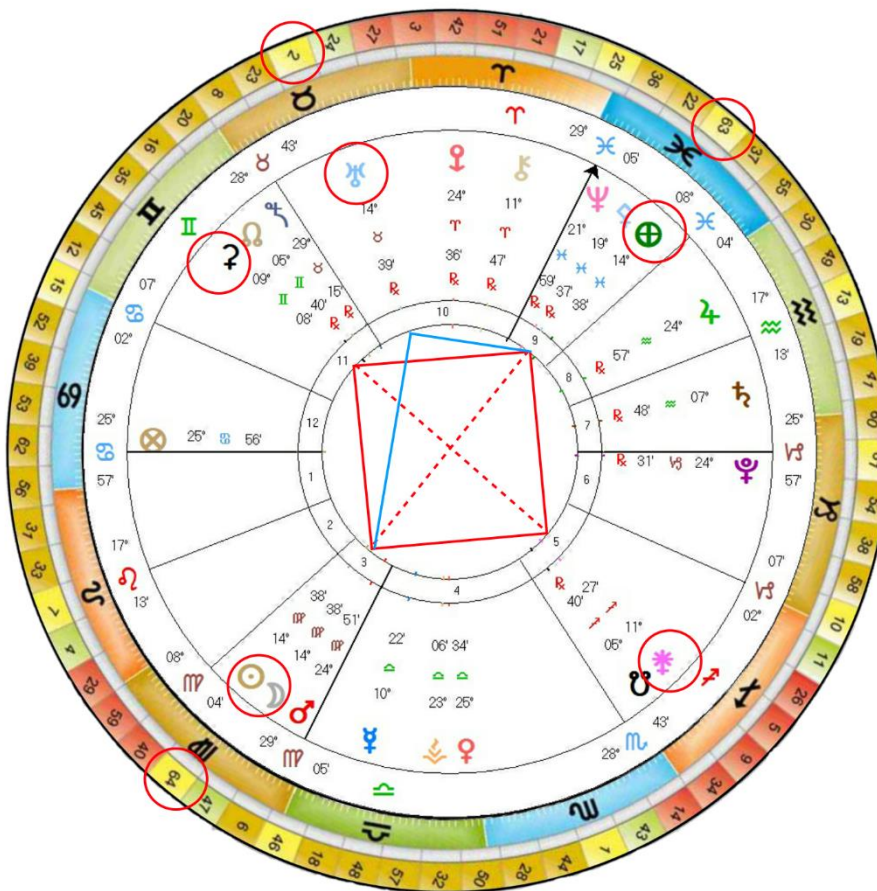

'The Gift of Determination is built upon the rock of each and every small act. 'Every intentional act is an act of magic'. Even the smallest act has a spin off effect that ripples out into the Universe – actions made out of resentment or fear reinforce the Shadow frequency, in both the individual and the World at large - whereas acts done in joy or service create more joy.

'All the little acts that are done with Heart begin to build up an inner momentum that eventually becomes unstoppable. The force of the entire Universe begins to gather behind such a person... The naturally flowing currents in your body begin to come into Universal harmony and as they do so, your brainwave cycles slow down and you enter a higher consciousness. Invincibility can be defined as merging your individual awareness back into the Consciousness of the Universe and the only force in the Universe that is truly Invincible is Love. When a human being attains this Siddhi their life becomes an expression of the Invincible power of such a Love. What the 9th Siddhi teaches is that every act that you make is of vast importance to the whole of evolution.'

'Hold onto the dream inside you because it is that vision that will act as the lens to focus the power of magic and manifestation in your life.'

Finally, looking at the chart below you will find that the Sun ☉ Moon ☾ and Earth ⊕ are creating another planetary pattern, a Grand Mutable Cross, with Ceres and Juno, and that Uranus ♃ is exactly 120° from the Sun and Moon and 60° from the Earth.

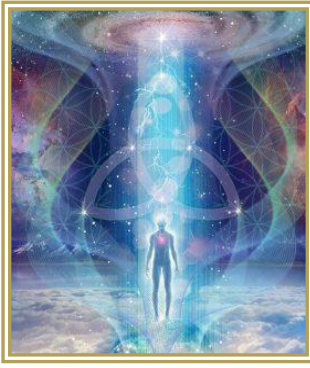

All of the potential levels of consciousness which have been shared in the planetary patterns, held within the first chart, are being focussed through this dynamic energy of this Mutable Cross and Uranus is also bringing an impetus for fundamental change. We are all aware that we are passing through and witnessing times of unpredictability, times of upheaval and indeed times of dislocation and deep distress, so vividly being demonstrated right now in so many countries in this world. The Shadow is visible for all to see and we are here at this point in time to assist in the transmutation of this World Shadow for we are all intrinsically interconnected.

So how is Uranus assisting and enlightening this Consciousness, what is the Truth that Uranus is wishing to illuminate at the time of this New Moon? Uranus is passing through Gene Key 2, known as **Returning to the One** moving through the Shadow of **Dislocation** to the Gift of **Orientation** and ultimately to **Unity**.

'At the Shadow level this Gene Key gives rise to the human perspective of loneliness, fear and rejection that is rooted in our biological functioning. It is this disconnection and Dislocation from our origins that creates a sense of fear and destruction. Separated from our own innate nature, a collective fear has been generated that pervades our individual lives as well. Thus, at the Shadow level, we perceive life through this illusion and interference.'

'The 2nd Gift has a special role within the DNA in that it creates an 'attractor field' around you. As the frequency through the 2nd Gift rises you live more harmoniously and the electro-magnetic power of your aura increases. As you let go into the Feminine yielding quality of this Gift, the more Universal power flows through you. The Gift of Orientation has two faces. The Gift of Orientation either comes as a shift in your awareness that affects your actions, or it comes as a shift in your actions which then catalyses a shift in your awareness. Whichever path is taken there is an increased realisation of synchronicity occurring in your life. Evolution itself is drawing you inexorably along the path towards awareness of your Unity and Oneness.'

*'To transcend into Oneness is not easy to explain. If you see Oneness as an experience to be attained or that may one day happen to you, then you are caught within that straight line between two points. **Oneness cannot be comprehended, only lived - it is the unification of all opposites, this cannot be described, only experienced.***

*'The 2nd Siddhi is the original nature of Consciousness itself and it manifests as a highly beautiful plan unfolding in time and space, swept along by currents of evolution. **For this is indeed our final destiny as a species - to realize our state of Oneness and Unity with all that is.***

Looking now, finally at the Sun and Moon, which relate to the conscious and subconscious patterning held within the Group Consciousness of humanity, we find that the Sun and Moon are on Gene Key 64 known as **The Aurora** moving through the Shadow of **Confusion** to **Imagination** to **Illumination**.

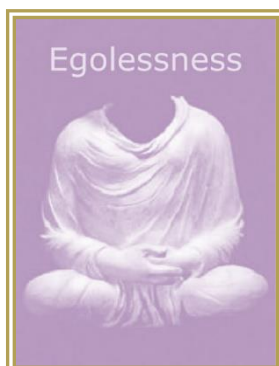

*'The more you listen into your body, the more you will attune to the Collective sense of unease that is rooted in fear. **Most people develop patterns from an early age to escape feeling this vast desert of world pain and the mind is the first line of defence.** As long as we are addicted to thinking we can avoid fully feeling it. **The depth of agony felt and expressed by the human race is both born and resolved in the genetic coupling of the 64th Gene Key and its programming partner the 63rd Gene Key.***

*'Despite the reality of the pain we are born into as we enter a human body, there is good news. **Once you are willing to feel the pain – the miracle begins.** As your inner spirit decides to face who you really are – the mind's long reign over you gradually begins to crumble.'*

'With the 64th Gene Key we come to one of the greatest mysteries of existence – the mystery of Inner Light. The 64th Gene Key is intimately connected with this mystery. When this Light is obscured then there is Confusion. The Light that flows through the 64th Gene Key wants more than anything to enthuse and fire your mind with inspiration rather than Confusion.'

*'All natural energy or Life Force has an inbuilt programme to grow and evolve. Imagination is the expression of unimpeded Life Force coursing through your genetics. Thus, when you release the quantum energy that was latent inside you, it begins to rise. As it rises the evolutionary force takes a hold of your mind and begins to 'paint' with it. **Imagination allows alchemy to occur inside your being and a truly creative individual is born.** All the energy that was going into your previously held thought processes is liberated and in some rare cases this sudden release of energy manifests as instant enlightenment.'*

*'The 64th Siddhi is the Siddhi of Illumination. This is Imagination without the personal 'I'. When that 'I' ceases to need to exist magic comes shining through. When Illumination floods your being, it also takes possession of your mind. **In this sense to be Illuminated means to think God's thoughts.** At this level the Mental Body gives way to the Causal Body. **At the Divine level your Causal Body/Soul becomes your physical vehicle.** Once the frequency of inner Light illuminates physical form, that form begins to ascend. It may or may not be able to ascend physically depending upon its genetic constituent, for Physical ascension is directly dependent upon Divine Will.'*

'To be Illuminated by the 64th Siddhi is to remain empty, while being constantly flooded with the rainbow colours of the inner aurora – it is to be an easel for the Imagination of the Universe itself.'

And the Earth, opposite to the Sun and Moon, is on Gene Key 63, known as **Reaching the Source**. The evolutionary journey held within this genetic key leads from **Doubt** to **Inquiry** to **Truth**.

*'As you slowly ascend the ladder of frequencies, the nature of your Inquiry changes. **There is one Golden Rule with the 63rd Gift of Inquiry – if you inquire deeply enough into anything you will arrive at the revelation that you, the observer, are intricately bound with that which you observe.** This discovery heralds the beginning of the end of the logical approach, since it signifies the end of your ability to assess life objectively.'*

*'At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other. **This quantum world thus forces your Inquiry into a far more subjective territory – that of your inner self.'***

*'When you begin earnestly and honestly to question your own nature and purpose you enter into one of the great Spiritual paths of all time, known in the East as the path of yoga. **Yoga is essentially a progressive path of refining your physical and spiritual essence to such a height that you arrive at liberation or spiritual realisation.** It is the system of internalising your life force so that it reaches higher and higher frequencies.'*

*'**The Siddhi of Truth is everywhere - there is nothing that is not Truth.** Whatever happens, however, delirious or disturbing, it is nothing but Truth. **Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself. It is simply waiting to be realised, like a pearl within an oyster.** There is no such thing as distorted or hidden Truth. Truth is simply here in every moment, at every stage of your life - it is eternal, undying, pure and incorruptible. **Truth is the Eternal Moment of the Universe.'***

At the time of this New Moon we are being reminded, that we are, a *Pearl Beyond Price*, and that we each have the potential, through the inner transmutation of the lower mind and emotional body, to enter into this Invincible field of Illumination, Wisdom, Truth and Oneness, for this Awareness has always been held within the silence of our Being, within the Self, which is awaiting our Remembrance and Return.

All Love and Blessings.
