As we enter into the time of this Aries New Moon on the 23rd/24th of March, depending upon where you live in the world, we find ourselves in unusual times. How we, as a World Community, together work to bring balance and harmony back into a dislocated state of being will determine our future for many years to come.

Each year the Sun comes directly overhead our Equator marking our return to 0° Aries, at the time of the Spring Equinox, when equal day and night enfold the Earth, and all appears in equilibrium.

However, the Stellar Constellation of Aries flows with Fire Elemental energy and being Cardinal in nature, surges with a forcefield that irradiates the Light of the 1st and 7th Rays and these Rays of Will, Power, Order and Manifestation are focusing upon us, as we once again embark upon a New Cosmic Year.

And this Cosmic year is set to be both powerful and transitional. We began the Earth year, back in January, with the intense and transformative Saturn Pluto conjunction in Capricorn, which is underpinning the seeming upheaval that we are experiencing worldwide. Added to this there will be six eclipses and six supermoons this year, rather than the normal four, which indicates a 'ramping' up, an intensification of Light and Consciousness, assisting us to move into our full potential.

The 'make or break' for each of us and for the Collective, is how we utilise Will and Power – are we operating through Love or instinctual Fear? Right now on the planet we are witnessing clearly how primal fear is underpinning many actions that are taking place and how the Jupiter Pluto conjunction on 4th April can do much to radically alter this.

Symbolised by the Ram, the Aries archetype flows with a vibrant energy – evolving through time, from impulsiveness and anger to courage, quick action and fearlessness; maturing out of an instinctual *Urge to overpower*, to a desire to *Focus Power*, to finally becoming the *Vehicle for Power*.

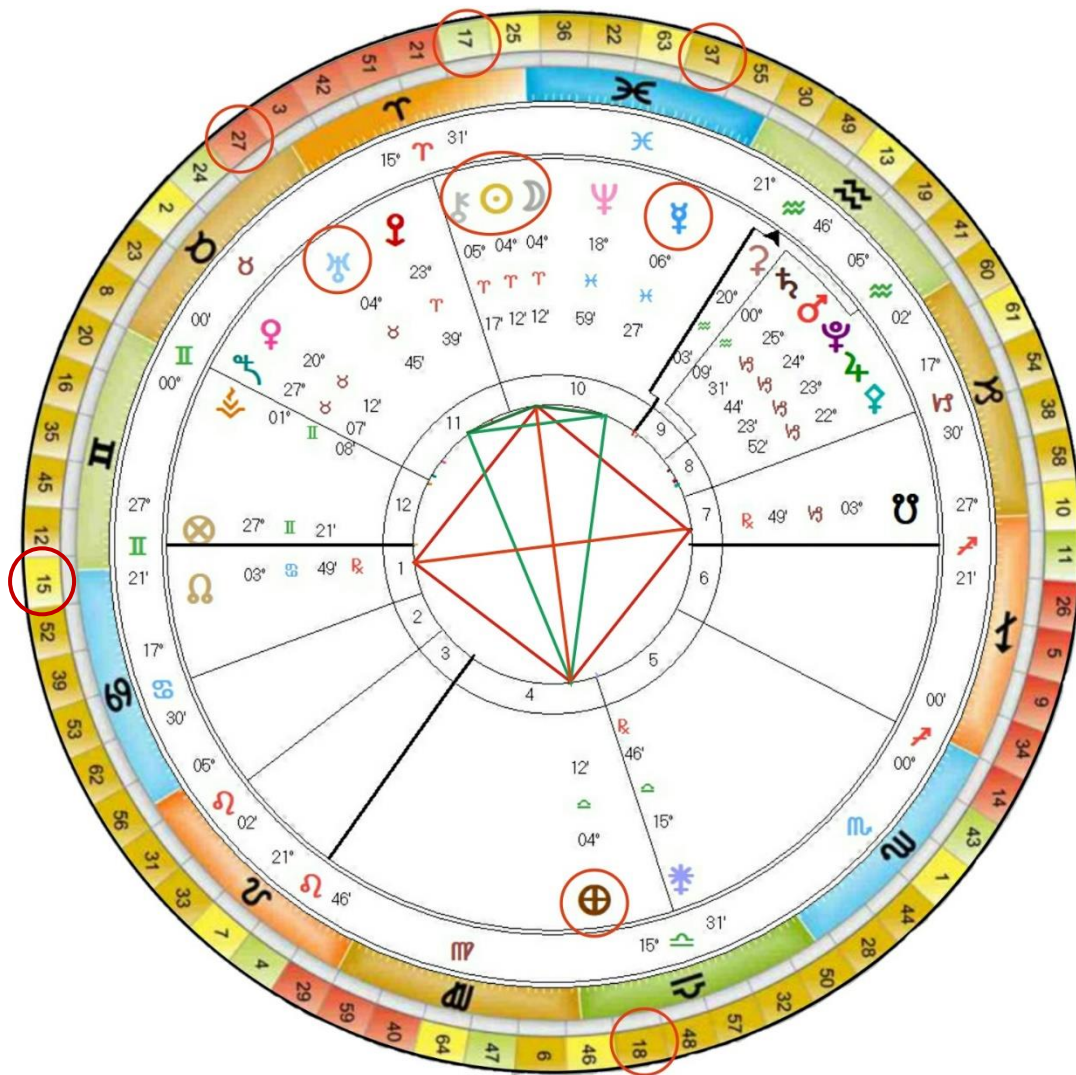

At the personality level, Mars rules Aries and there is a distinctly 'me first' attitude. At the Soul level the individual finds that he/she becomes more focussed upon the wellbeing of others rather than just self. At the Soul level Mercury becomes the planetary ruler of Aries.

The Soul centred Arian has a profound effect upon his/her environment through the subtle energetic field – through the power of their words they are able to awaken, arouse and inspire others – they use their minds and speech to bring about this transformation, ultimately, unfolding the Power to Manifest (1st and 7th Rays).

The Fire Elementals – Treatise on Cosmic Fire D.K. and A.A.B: *Men should remember that through the power of their thoughts and their spoken words they definitely produce effects upon other human beings functioning on the three planes of human evolution and upon the entire animal kingdom....It is of no value to man to know the names of some of the "army of the voice" unless he comprehends his relationship to that army, unless he apprehends the responsibility which is his to be a beneficent creator, working under the Law of Love, and not impelled to the creative act through selfish desire, or uncontrolled activity.*

CHART FOR THE NEW MOON

You will see from the above chart that the Sun and Moon are at 4° Aries 12' with Chiron at 5° Aries 17' all activating Gene Key 17, at the time of this New Moon, whilst the Earth is on Gene Key 18.

Chiron seeks to heal the inner wounds of each of us - the only true wound being that we have forgotten who we are and this forgetting, or obscuring occurs in our early childhood through the Shadow of the 17th Gene Key. As said earlier how we use our mind, thoughts and speech is pivotal to the health, not only of our own being, but to the Collective and so with Chiron prominent at this time, we are being guided to be ever mindful of our inner thinking process so that we release past programming that has limited us within specific belief patterns.

The 17th Gene Key is assisting us to move out of the Shadow of **Opinion** into the Gift of **Far-Sightedness** and eventually to **Omniscience**.

'As we examine the pairing of the 17th and 18th Shadows we will see two of humanity's greatest mental gifts and dilemmas – Opinion and Judgment. These two qualities epitomise the logical left hemisphere of the human brain....The early childhood conditioning impresses itself on the mental mechanism of every child. Opinions sprout from seeds planted at some point within the first seven years of life....Almost every aspect of our Society is based upon division, comparison and Opinion. Because this Shadow only sees what it is programmed to see, it builds its life around that original germ of dissatisfaction. Our children, therefore, behave in the way the

world programs them to behave, whether they conform or rebel. They are born into a world where the 17th Shadow is given precedence and all their eyes see is their own point of view and how to maintain it.'

'The true purpose of the 17th Gift is to uphold Integrity, by challenging all misrepresentations of Truth in the world. **The very quality that leads to narrowmindedness at the Shadow frequency has a mission to create open-mindedness at the Gift frequency.**

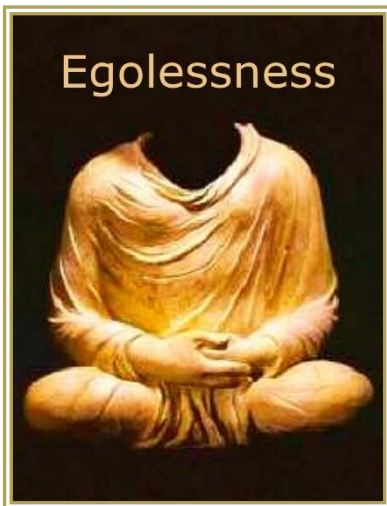

At the Gift level the individual sees the futility of identifying with a specific opinion. Because the 17th Gift doesn't dictate direction in a person's life it is freed to do what it was always intended to do – to differentiate between those patterns that lower your frequency and those that raise it.

Once freed from the Shadow frequencies of mass consciousness the 17th Gift has the ability to see higher dimensions and realities - looking ahead to the future and linking one phase of evolution to another. It is working with the Gift frequency that the process known as the opening of the Third Eye begins.'

'At the level of the 17th Siddhi Consciousness sees through you rather than you seeing through it. **When the 17th Siddhi comes into the world it comes like a Divine afterthought. It is one of the seven Powers of Grace.** It is where the body becomes an instrument for Consciousness and there are no borders, levels, Opinions or past lives for the Siddhic level sees an endless fractal pattern of life – repeating over and over – the same but always new – the serpent eating its own tail.

This is a Siddhi that sees and knows only Perfection. This 17th Siddhi is something of an anomaly, since it is the only aspect of the mind to survive awakening. All other aspects of the mind are transmuted into the higher frequencies with the exception of this Single Eye – the Mind's Eye.

The deepest irony of all Life is caught in one famous mystic's words: '**God can only come and visit you when you aren't there' or put another way, if you want to know what Omniscience looks like, you, the personality, have to cease to exist.**'

The Earth on Gene Key 18 known as the **Healing Power of the Mind** moves from **Judgement**, to **Integrity** and ultimately to **Perfection**.

'The 17th and 18th Gene Keys are partners and as such the Shadows of Opinion and Judgment create much misery in the world. The 18th Shadow begins in your childhood and it gives rise to a collective phenomenon in the world known as the 'victim mind'. This victim mind is a conglomeration of all the judgemental, undermining thought patterns, throughout the world.

The 18th Shadow, however, holds a key secret, that all judgement is a self-Judgement. The key to raising this level of frequency is to realise that everything external in your life is a mirror of an internal process seeking resolution. As you move beyond the victim mind – your frequency rises and your external and internal life reflect these changes'.

'This Gene Key is about the physical, emotional and mental boundaries that you meet in your life. The 18th Gene Key will continually bring you back to any recurring issues rooted in your childhood.

In understanding what made you the way you are you are able to release what does not serve you and equally you can assist others to release their conditioning. **When you are free from the trap of the victim mind then judgement becomes Integrity.'**

*'The 18th Siddhi is not often seen in the world today - it involves an archetype of Perfection. **If the 18th Gene Key is activated within your hologenetic profile then you will continue to lead humanity towards Perfection in any and every way you can conceive of.***

Someone demonstrating the 18th Siddhi is above the victim mind – when they look at someone, even someone who appears genuinely evil, they will only see the Higher Self hidden in that person.

***By holding this high thought frequency they influence hidden currents of energy that raise the frequency of others.** This is called Siddhic thinking and it involves thinking with the heart.*

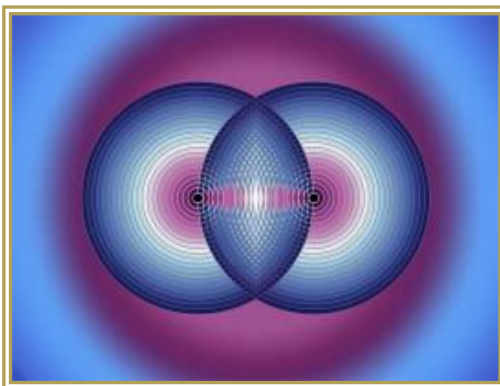

The 18th Siddhi serves a very mystical purpose – it heals the split in the mental plane itself bringing humanity closer and closer to its realisation of Oneness.'

At this New Moon you will see that Uranus and Mercury are energetically connected to the Earth via what is known as a Yod aspect, or **The Finger of God**. With Mercury and Uranus linking in this way, it is really, once again, reinforcing and emphasising the need for us all to clear and cleanse our mental thoughtforms.

Mercury is on Gene Key 37, known as **Family Alchemy** moving from **Weakness** to **Equality** to **Tenderness**

*'Experienced as friendship, the 37th Gift is the glue that holds humanity together. In fact, true friendliness is the Universal mark of the Gift frequency. **Our current age is truly an exciting time to be alive because this 37th Gift is giving birth to a new social paradigm all across our planet....**Through the awakening of the 37th Gift each community will find that it holds the same core principle as all others – namely support of the Earth and empowerment and nourishment of Humanity as a whole.'*

*'The 37th Siddhi is unique among the Siddhis in that it does not manifest through a single individual. **It is the heart of the Human Family drawing all individuals into its infinitely soft and loving embrace.***

As a vital aspect of the genetic codon family known as the Ring of Divinity, the 37th Gene Key has some very powerful genetic programming companions – the 22nd Siddhi of Grace, the 36th Siddhi of Compassion and the 63 Siddhi of Truth. Each of these codes brings the eventual manifestation of the full Divine Being into the World.'

Uranus remains on Gene 27, as for last month, encouraging us to move from **Selfishness** to a state of **Selflessness**. At this Siddhic level of awareness, *'Despite endlessly giving of themselves to others, they are not depleted, but are continuously nourished by the refined currents of the aura of love surrounding them. **The Mathematics of Love are built into the structures of all life – and here in the 27th Gene Key is the Divine Law of Philanthropy – the Love of Humanity.***

At the Siddhic level this Gene Key becomes capable of miraculous healing.** As long as there is an ounce of life force within something, the vast love coming through the 27th Siddhi can revive it. **Because this Siddhi draws upon the entire bio-energetic field of Gaia it has the capacity to heal any disease or sickness.'

And finally, you will see that the Sun Moon and Chiron form a Cardinal Grand Cross with the North and South Nodal points on Gene Key 15 and 10. As a global community, right now, we need to harness our collective focus on transmuting the shadow patterns that have held us in the limitation of fear for so long and each of these Gene Keys are working together to truly assist us as is clearly shown via the North Node

The North Nodal point indicates the Path of our Soul at this moment in time, the focal point through which we can unite to bring the Consciousness into the next level of expression. With the whole world presently focussed upon the Coronavirus it is requested that on the 4th/5th of April, at the time of the Jupiter Pluto conjunction, that we, as a collective, bring our Mindfulness and Prayer, to come together in a Global Meditation to create an auric resonance/field that transmutes the Shadow frequencies back into Light.

This potential is, again, perfectly reflected in Gene Key 15. ***‘Gene Key 15, is one of the Gene Keys that bridges humans with other life forms and in doing so it connects us profoundly to the living Spirit of Nature or Gaia. Just as Magnetism holds families of the same species together, people with the 15th Gift feel a deep kinship with humanity. The Gift of Magnetism makes a person physically glow with Life Force - it is a Gift filled with enthusiasm and openness and Love.***

Trusting the natural ebb and flow of life's currents, these people live closely with the Earth's natural rhythm and experience the wisdom and clarity of slowing down. There is a subtle shift in attitude that unlocks the hidden magnetic force in your DNA. Harnessing the power of the natural world and magnetizing resource you begin to unlock the power in your aura to transmit and receive information between different life forms.

Florescence is the ultimate flowering of your higher self. Florescence cannot be chased, hurried or enforced. It is a state that occurs to humans sporadically, no one can predict if or when it will occur to a particular person. However, when it does arise that person is surrounded by light, magic and a tangibly magnetic aura. As the zenith of human magnetism, Florescence manifests like a supernova through the human aura and once begun it keeps expanding and expanding into deeper and deeper dimensions. Florescence depends upon nothing. Florescence is Grace.

There will be three conjunctions of Jupiter and Pluto this year – the first on the 4th/5th of April, the second on the June 30th and the third on November 12th.

As we know, our thoughts create our reality and at the time of the Jupiter Pluto conjunction on the 4th/5th of April, Pallas Athene will also be part of this conjunction. Pallas Athene links to the Higher Mind, to Mental Healing and when conjoined with Pluto, it emphasizes the power of ideas/mental thoughtforms to transform reality – so once again the Cosmos is working in perfect synchronicity to assist us all at this time.

Here is a link to the Global Meditation <https://www.youtube.com/watch?v=85VBXsXHzfs> where time zones are also given

As we travel through these next weeks, may we, through Grace, embody the Healing Power of the Mind to transform all into the Highest resonances for the benefit of All.

Love and Blessings
