

DIVINE INVOLUTION/Christ Consciousness -

The Christ Blueprint by Padma Aon Prakasha <https://padmaon.com/>

This Divine Involution is seen as part of the flowering of the Christ Blueprint, and will lead to global transformation on a mass scale. Imagine the Christ Council fully embodied; just by their mere presence alone, millions of people in suffering will be instantly counterbalanced by their light. This is the next step for those committed enough to become empty vessels of the Christ Light. The Crown is where this Divine Involution occurs. This Divine Involution is what made Jesus the Christ, by Christ descending into Yeshua so he became Christ Yeshua; it is the process by which Maitreya entered Shakyamuni to make him the Buddha. Shiva too entered Ramana on his enlightenment to make him a Maharishi, and on his death was seen to leave his body in a blinding flash of light witnessed by hundreds. The Disciples of Christ after his Resurrection were also all Over Lighted by the Divine Mother, who gave them all the Power to heal and share the Christ energy with many others.

The Divine Involution is how all Great Masters incarnate – through Grace. Some traditions refer to this process as being ‘overshadowed’ or ‘Over Lighted’ by the Masters. Some speak of it as the ‘baptism of the Holy Spirit’. This divine Involution is similar to the process of enlightenment. Before enlightenment, most of us identify ourselves as a ‘self’, as an entity fixed in time and space, with a history, personality, and individual memories distinct from any other. Upon enlightenment, we discover that this sense of a fixed or permanent self is an illusion, that we are simply a witness to a series of personalities that come and go.

The Divine Involution takes this one step further. As Divine personalities or states of consciousness start descending into a body, we begin to dissolve many of these human personalities that govern our existence. We become more and more identified with the Divine personalities that take over our lives and destinies.

These Divine personalities are primordial energies or aspects of God that have existed since the beginning of creation. In different traditions these Primordial Energies are identified as Christ, Maitreya, or Kali. Many Masters and Avatars throughout history have been over lighted or merged with these Primordial Energies in varying degrees. This Divine Involution is one of the aims of the Christ Blueprint; to enable bodies on earth to embody the qualities of enlightened consciousness that are represented by the various Masters on the Christ Path. These Masters will come to those who are fully ready to Serve as vehicles for the transformation of humanity and are fiercely dedicated and willing to go the whole way in the full embodiment of the Christ Light.

Divine Involution occurs ONLY by permission, and only when there is a truly Sacred intent and deeply heartfelt prayer on your part to surrender and be used as a vehicle for divine consciousness on Earth, for the benefit of all Beings. This is an unprecedented move by the Council of Christ to embody itself into humanity fully as part of the divine

plan and Christ Blueprint set up 2000 years ago, and ready to flower now. The Christ Council are uncloaking themselves in a way never done before, stating to us all, 'Here we are; we are here to provide the Quickening. This is what you have to do to descend the Christ Light.'

They are offering help, support, guidance and practical transformation on an unprecedented scale right now, to you. They are opening the doors to the Council and Temple of Christ, amplifying the Involution of Christ Light onto Earth Now, because it is time. The Christ has almost fully descended onto Earth, and now it is time for the Christ Light to shine clearly, in its full power, majesty, joy and love. To gain access to direct teaching, one must be fully clear and available in the Light Body. It is vital that particular clearings open the Crown Chakra, clearing away all obstacles along its pathway, all the way to God. This is known as the Rainbow Bridge or Antahkarana. These clearings then allow for direct initiation, guidance, wisdom, and Gnosis from the Apostles or Masters within the Christ Council that you are most connected to.

CHRIST CONSCIOUSNESS

Christ Consciousness is the Co-creator of the Divine Plan with God. Christ, through love, embodies all of humanity within ourselves; to hold the world in the crucible of our own consciousness, which IS Consciousness, and help to transform it. In Christ Consciousness one sees the perfection in all beings, and simultaneously sees the correcting that is required that obstructs another from realizing Christ. One can experience a lot of human beings at once, and what is occurring within their consciousness. This means that many people, very soon, can be vessels that shift and impact mass consciousness directly, working on large numbers of people, and on towns and cities themselves.

Conversely, one is also more able to serve in helping others by holding them in your prayers in a powerful, felt way that deeply transforms them. This occurs naturally as you realize more and more that you are One with all beings, and it becomes easier to hold them within your own consciousness, serving to dissolve their limitations and separations from the One that they are too. I AM GOD AND I AM ALL THIS.

Christ is God acting out Gods wishes for Itself. As you are God acting out your own wishes, you realize that there is truly nothing to do; and yet the actions flow through your empty vessel, actualizing the wishes that have already happened. Christ Conscious Beings in this age are creating something new, for this is what God perpetually wishes to do. Therefore, Christ Conscious Beings create things which have not yet been seen, or done, in this age. They do not teach what has already been taught, they do not create what has already been created, they do not invent what has already been invented. This is delight, and this creates more bliss. And bliss is why God creates. This bliss is

where God's creation comes from, and dissolves back into. So, this is another mark of a Christ Conscious Being; they create that which leads to Bliss.

The purpose of the Christ Blueprint is to create leaders, educators, and bringers of the new paradigm. The purpose of these teachings is to guide those who are ready, and who know deep within themselves that they are here to establish the foundation for an enlightened civilization on earth, to flower the Blueprint of Christ that Yeshua and the 12 other Members of the Body of Christ came here to anchor 2000 years ago. These revelations are the final parts of the Secret Teachings of Christ. The rest are being revealed, or have been revealed, by others. The purpose of these teachings is to bring wisdom, ripeness and joy back to the image and teachings of Christ, so that who Christ is, and who the women are, can be known, felt, and re-enacted once more on Earth by those who dare step up; by those who dare to take life by the horns, and live it fully. If This is what we did 2000 years ago.

Are you ready to complete the final steps? The Blueprint was anchored then; this is the flowering time for those seeds to activate. Who dares step up to reveal it fully through their own Beings, and bloom the seeds of the Blueprint now? There was only one Yeshua; but there will be many Christs.

That is the Christ Blueprint. Yeshua said, 'There are many who will come after me who will do greater things than I.' This could be you, and in fact is your birthright; what Yeshua died for. Many are called, but few choose themselves. Peace be with you forever, and ever.
