JESUS THE CHRIST

Beloved Ones of My Heart, I will not hold you long tonight, but I want to show you that the world is a mirror; and into it, as you look upon its great creative activities, you may place there whatever you want to come back to you. You are the creator individualized. Your Responsibility is to help govern the Universe by the Flame of Perfection of your own Life in your own Heart. And the world — since Its Electronic Substance is so very sensitive in the atmosphere about you — the world is yours to mould according to your desire. Whatever you mould into the world without will condense and become your individual world of manifestation.

So, if you want your world free from limitations, you must place Freedom into the atmosphere about you by Conscious Command and the use of the Great Sacred Fire of Creation; and as you charge that forth to Life everywhere, Life will give It back to you. There is no escape from your own creative activities. With every thought, feeling, and spoken word you are creating something every moment. Waking and sleeping, the waves of certain vibratory action are constantly passing off from the Life in you.

Therefore, unless you take the Master Hand — and definitely determine that the Life in you shall only send forth certain rates of vibration that produce Perfection into this Great Universal Light Substance — unless you definitely determine that, whatever happens to be around you will rush into you. The world is a mirror; and therefore, as you look into it, you may command there God's Perfection. And if you give the Recognition of God to the outer world, the outer world will recognize the God in you — your “Beloved I AM Presence.”

So, each one is individually responsible for anything and everything that goes forth through the energy of the outer self each day through thought, feeling, and spoken word. The vibratory action of your life's energy constantly is throwing off into the very air you breathe the qualities that are within you at the time; and as We have said before, so often

that which goes forth from the mental and feeling world of an individual never gets beyond a radius of three feet until it comes right back into the individual, because as you send forth — through your thought and feeling and your spoken word — certain rates of vibration, you are breathing them back into yourself right the next instant before they can get very far away from you.

So, do you not see that unless the attention of the mental and feeling world is held upon the “Presence” and comes into Our Octave, to there see and feel and understand the Manifestations of Perfection, unless you reach to Our Octave or to your “Presence” and draw that Perfection into your world, how is your world going to give Perfection back to you?

You have, all through the centuries, My Loved Ones, time without number — time, and time, and time and again, you have reached into the outer world and drawn to yourselves what you thought was going to produce Harmony or Perfection or Happiness for you. And every time you have done that you have been disillusioned; for whatever temporarily seems to hold that to you, unless it comes from your “Presence” or from Our Octave, it has beginning and end in this world. So, if it makes you happy to receive it, it makes you unhappy when you lose it. Unless you come to the Eternal Association with your “Beloved I AM Presence” and with Us, you do not have Eternal Happiness; you do not have a way and means of producing the things that you want, and then maintaining them to bring you Eternal Happiness. So, in letting go of many of the things in the physical world that you have experimented with in the past, you are but freeing yourself, that you may reach into the Unlimited and draw to yourselves that which you have not yet experienced, but that which will forever bring with It the Happiness of Our Octave. And that you cannot lose!

So, it pays, My Dear Ones, pays very, very great dividends, to let your world be the World of your “Presence” and the World of Our Octave. Then when you command, “I demand the Will of God done physically here as It is in the Ascended Masters’ Octave,” then when your Demand goes forth, your Higher Mental Body is free to produce for you down here what you have never yet seen, and what may not even yet exist in the physical octave.

Your Higher Mental Body could draw from the Central Sun that which has never yet come into manifestation anywhere; and It would bring to you only Eternal Happiness and Boundless Illumination. Or your “Presence” could reach into Our Octave and draw forth ways and means of bringing you supply — some of it from this world, some of it from Ours — supply that you never dreamed existed, many things that would make you

wonderfully happy, but which you have never yet used in this world, but which are to be used in the Incoming Golden Age.

Unless you keep the Door open by your attention and your Call to your “Blessed I AM Presence” and to Us, you don’t let Us give you the new things that belong to the New Age that are to be a permanent part of this world — which We want to give you because you are the channels by which it is to come into physical manifestation. We are trying to open the Door for you all for the Limitless Supply to come to you and make your way easier and give you the way and means by which you not only master conditions in this octave, but as you draw this Power into outer use in more concentrated action, it makes you able to correct conditions that are wrong, to consume mistakes, and to lock the door forever against any more in the future.

It is to help you clear your world of these things that should not be that We are constantly turning your attention back to your “Beloved I AM Presence,” and to Us, to show you what We have. But if the outer world demands everything from you all the time, and it will not let you be still long enough to let your “Presence” or Us show you the things that are new and the things that bring Eternal Happiness; if it won’t let you alone, then you must take a very firm stand and forbid it to have your time or attention until you listen to your “Beloved Presence” first, and to Us. And after you have received in the Stillness that which is right for you to do, then when you turn your attention to the outer you will know how to handle it. And it will only then produce in your world that which brings Harmony and Happiness to you.

The incessant demand of the outer world upon your time and your attention and your energy and your things is an eternal suction, so to speak, taking away from you that which God has given. It takes your energy, your time, your attention, in order to sustain itself. It steals your life; and unless you take your stand that your life belongs to your “Blessed I AM Presence” and to Us to produce Eternal Happiness for you, if you don’t do that, the outer world will steal your life to sustain its wrong and then impose its limitations upon you.

I thank you with all My Heart for the Decrees you have sent forth last night and tonight. We shall make the most of every opportunity to draw this Cosmic Fire into the physical octave, in and around you, and into conditions wherever you call It forth. We trust, with your assistance, to have very satisfactory results! Thank you, Precious Ones. Won’t you be seated, please.

You have no idea how much We want you Free! Beloved Ones try with all your beings to demand My Fire Power of the Freedom which We want you to have into your physical

activities everywhere! everywhere! everywhere! And charge It into the atmosphere around you. It not only will bless you and bring Freedom to you, but It goes on. Just as if you threw a stone in a pool of water, the vibration travels clear to the edge of the pool. Therefore, when you call forth My Fire Power of All-Christ Freedom, It travels out everywhere into your Land. It travels to touch Life everywhere, and Life will awaken and send It back to you.

So when I said last night, it is not too much to ask that you love your neighbour as yourself, that you love each other as you have loved yourselves, that you love each other as I have loved you — We are all one Life, and if you do not pour out that which blesses Life, then you keep the Door closed to that Blessing which We can give.

And because of what is needed in the Nation tonight, Beloved Ones, it is very necessary that We give from Our Octave to you these various Activities of the Cosmic Fire of Creation. It is necessary that you have this Sacred Fire anchored around you in order for you to guard the Blessings of God within your Land and hold Protection for yourselves. It is necessary that the Sacred Fire of all Creation enfold you in Its Blazing Heart and guard you, because you are Our Guardians of God's Blessings in this world.

So go forward with a happy Heart, each one of you! Keep drawing these Activities of the Sacred Fire into your outer use; and you will find, as the Fire of Creation is called into the physical octave to do these things that consume the destructive forces and release the Greater Blessings of God, will your worlds automatically be filled with every good thing. You cannot lack; for Life will not let you lack if you do this which We have asked in order to let the Sacred Fire find Its Way everywhere in the physical world and burn out that which has interfered with the Great Divine Plan in Its Boundless Blessings to mankind of Earth.

So Beloved Ones, with all your might, pour forth this Fire Power of the various qualities and activities of All-Christ Victory. Just surge It forth! Be unconcerned about who or when or where It goes, except to charge It out everywhere around you and let Us govern Its Special Activity. As you pour It forth, sixty percent of Its Blessings remain in you and your world to perfect you more quickly and keep you in closer association with Us.

If, in your Calls, you demand Our Fiery Presence, visible and tangible to all, it will make it easier for Us to come; and We will be able to come sooner into the outer to render that Service which we give through the Visible, Tangible Body. If you want Our Presence with you, then demand Our Fiery Presence for all mankind to see; and that Demand would automatically compel Our Presence with you in visible, tangible association. I think I've given you tonight enough of a Direction to draw forth from within you the desire to do

this which the Cosmic Law demands. As the Beloved Cha Ara once said, there is something in that Call which you require; and We are waiting to come and want to come far more than you want Us. You don't quite think so, but it's true; for We can Love more than you.

So if you will accept My tip tonight, so to speak, it will come about much sooner. The world must have Us in the Visible, Tangible Body. And when We come in that Body, It is a Fire Body; so when you demand the Cosmic Fire in the physical octave and We come in that Fire Body, it is to do that which only the Cosmic Fire can do.

I commend you to the enjoyment and anticipation of Our closer association with you as soon as possible, here, in the physical world, that We may do that which awakens all mankind to Our Presence and make them know not only Our Reality, but Our Authority to correct conditions here. And none can oppose Our Authority! Once We appear in the Visible, Tangible Body, human authority in this world is finished. (*applause*) Thank you, Precious Ones, with all My Heart; and if you will just remain standing until I am through, it will be just a moment.

Will you call the Fire Authority of Our Visible, Tangible Presence into the physical octave to remove human authority forever? You ask for Our Fire Authority in the physical world to remove all human authority, and it will be greatly appreciated by Us all. Thank you for your Calls thus far. Thank you for your love and your loyalty and your Service to the Light. Now may the Fire of My Love make up to you for everything you have given — a thousand-fold every day — until everything your Heart's desire moves into outer command at your Call and is sustained to bring you Eternal Happiness.

I clothe you in the Fire Power of My Heart's Flame to be for you all that will ever bring you Happiness. May you expand It without limit; and let Its Cosmic Fire burst everywhere in the physical world until mankind can only look Godward to the "Mighty I AM Presence," and the shadows of past mistakes become the Sunshine of Cosmic Fiery Love. I commend you to the Glory of Its Victorious Presence and the most practical Power you could ever use in all Eternity. Enjoy your use of It to the full and go forward and demand your Freedom. Thank you and good night.
