The Lion's Gate Portal 2021

*Even the Bravest of Creatures have some fear, but
it is not enough to stop them moving on the Path they
were destined to walk upon.*

*We can easily forgive a child who is afraid of the dark
The real tragedy is when men are afraid of the Light.*

The Lion's Gate Portal and the Leo New Moon on 8.8.2021

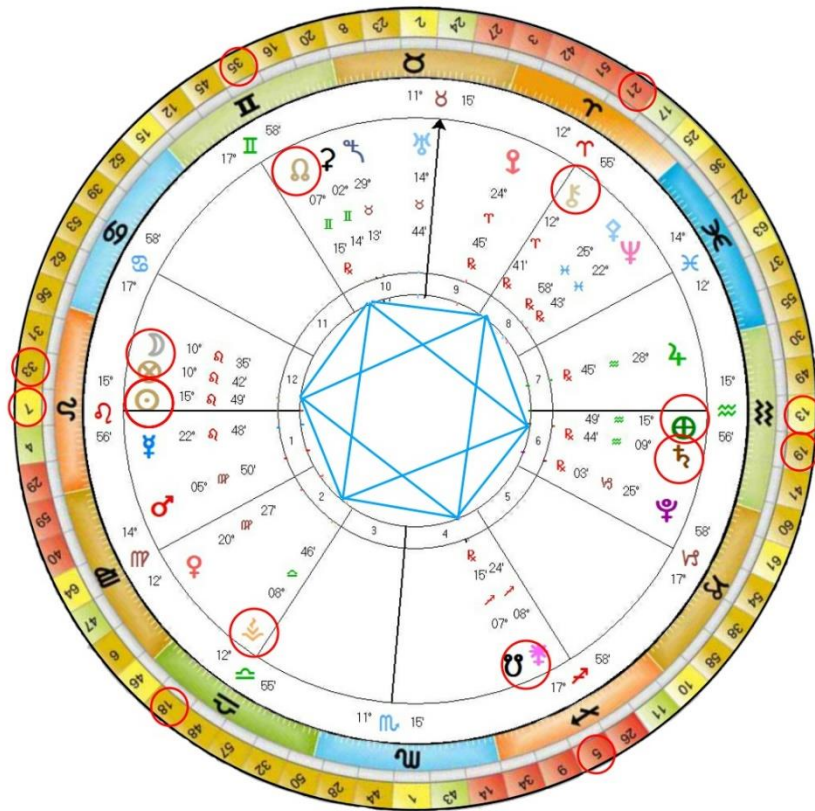

Chart for Sun Rising at the same time as Sirius 'The Lion's Gate' on 8.8.2021 at 05:23 EET Giza

The Heliacal Rising of Sirius at this time of year was a Sacred occasion marking the start of the New Year. In Ancient Egypt, the rising of Sirius coincided with the flooding of the Nile. They viewed this as a gift of prosperity and fertility and revering Sirius, they aligned their pyramids with its rising as well.

This moment in time has been held for thousands of years as a moment of renewal – a new cycle – and this year the New Moon on the 8th of August coincides with the Lion's Gate which emphasises this sense of a new cycle.

For the last two years at the time of the Lion's Gate there has been a strong energetic, a Grand Cross created by the planetary alignments, but this year, there will be a Six Pointed Star that is perfectly aligned to harmoniously distribute the outpouring of the combined energies of Sirius and the Sun.

So, the more we can have released old thoughtforms, and feelings, to be a clear, clean vessel for the reception of this year's grace filled irradiation the more we will be able to integrate the high resonances that are flowing through this Galactic alignment.

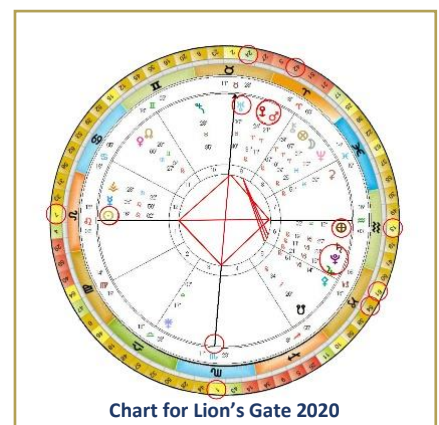

Chart for Lion's Gate 2020

The 8th of August links to 15° of Leo and to the Sabian Symbol – ***The Storm Ended all Nature Rejoices in Brilliant Sunshine***, which has as the keynote ***The Surge of Life after a Major Crisis***, which pictures and expresses that ***'This indeed is Release – Light and Life singing in the cleansed and refreshed mind flooded for a while by the waters of feeling – the Joy and Power of New Beginnings.'*** Dane Rudhyar ~ Astrological Mandala

The Constellation of Leo flows with the First Ray of Divine Will and Power and the 5th Ray of Concrete Knowledge. Leonine Souls have innate Courage – ruled by the Sun, they have a natural sense of presence and you will see from the Chart that the Planets forming the Six Pointed Star connect with each other seamlessly, there is no stress, strain, or force - just a simple flow – the picture and personification of Being rather than Doing, which is emphasized for us all at this time.

The Light and Heat of the Sun are the focus and centre for the Creative Life Force. The Life of the Sun on the Monadic Level, the Heart of the Sun on the Soul Level and the Physical Body of the Sun on the Personality Level, correspond to Cosmic Fire, Solar Fire and Planetary Fire. Through each of these Fires, the Will, the Soul and the personality are constantly Illuminated and Purified, ultimately creating a pathway for the expression of Divinity.

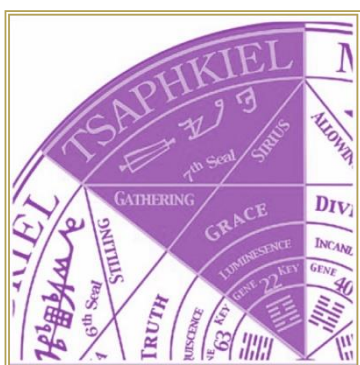

This is the focus at the time of the Lion's Gate Portal, which has an energetic influence from the 26th of July to the 12th of August, culminating on the 8th, when the intensified Light is most prominent. Each year the Plan and Purpose of the Heliacal Rising, at Giza, is for the Highest Spectrums of Light, from Sirius, to cleanse and purify and heighten the resonance so as to realign and restore DNA to its perfected state.

Looking at the first Grand Trine of the six pointed Star you will see that the Sun and Moon, are 120⁰ away from the South Node and Juno, and they are 120⁰ away from Chiron.

In simple language this is expressing the potential for the Subconscious (Moon) faculties to be brought consciously (Sun) into renewal and realignment - releasing the karmic memories and imprints held within the (South Node) that can be healed through (Chiron) bringing a balance back to our electromagnetic circuitry, the yin yang, female/male duality (Juno) which underpins and informs our DNA.

This allows for the second Grand Trine of the six pointed Star to bring both Commitment (Vesta) and Maturity (Saturn) to underpin our future Spiritual Pathway (North Node) which is the birthing of a new Species of Humanity – Homo-Spiritus.

The Sun and Ascendant at 15⁰ Leo are on Gene Key 7 known as ***Virtue is its own Reward*** – which asks us to move away from ***Division to Guidance to Virtue***.

'The 7th Gift of Guidance rests upon the ideal of service. To truly guide another person or group of people you need to put aside your own opinions and judgments and listen intently to their needs. Great guides are great listeners..... Often they lead from behind the scenes – for history show us that many of the greatest leaders pass unrecognized during their own lifetime.'

'Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics. Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders. The Kabbalists have a phrase – repairing the world – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter. Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. They say that every virtuous act committed by a human being helps to repair one of these broken vessels.'

'The 7th Shadow is the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation. The 7th Siddhi waits for a specific moment in time to awaken in the collective. In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ consciousness.'

The Moon is on Gene Key 33 known as **The Final Revelation** – moving through the Shadow of **Forgetting** to the Gift of **Mindfulness** to the Siddhi of **Revelation**.

*‘Most of us are familiar with the notion of karma. Perhaps not so well known, however, is the doctrine of the sanskaras. The sankaras are the specific memories that you carry from life to life according to the karma you have taken on in this lifetime. **They are far more than simple memories – they are charge of kinetic energy stored in the sheaths of your consciousness, which over time determine the shape of your life and your destiny.** The 33rd Shadow governs all the endless cycles of existence and incarnations on this planet. Around the energetic and etheric boundaries of our planet lies a great veil – the Ring Pass Not. This is the energetic grid that connects the higher planes to the lower planes. It keeps humanity locked into these material forms until such time as the consciousness begins to spontaneously awaken of its own accord, at that point the frequency passing through the DNA rises above this atmospheric veil and our true Universal and Eternal nature is revealed.’*

*‘**At the level of Mindfulness you may still hide or react, but now you can see yourself doing it.** It is through Mindfulness that you discover how to purify your nature so that you no longer create negative karma. Through the Ring of Trials you learn to discriminate (the 12th Gift) between that which keeps you trapped and that which brings freedom, by moderating your thoughts, feelings, speech and actions.’*

*‘As you rise into higher and purer frequencies, the secrets of the higher realms are released sporadically into your lower nature and, over time, your physical DNA begins to mutate to accommodate these higher frequency wavelengths. **Once your DNA has mutated to sufficiently handle these higher frequencies permanently it is ready to receive the full force of the Siddhic realms.** The fullness of the Siddhic state causes time to disintegrate and memory along with. You do not lose your physical memory, but rather your mind can no longer interfere with the purity of consciousness, which flushes the karma/sanskaras out of your whole being.’*

*‘By opening us up to higher realities and angelic frequencies that lie beyond our physical DNA the 33rd Siddhi accelerates the evolution of human consciousness. **The 33rd Siddhi, is an access portal to these higher and wider realities that begin where you, the human being, come to an end.***

At the time of the Lion’s Gate the Moon is aligning with the Collective Karmic Past – the kinetic energetic patterns that play out through each of us and looking at the South Node and Juno which are on Gene Key 5 we find that **Impatience** would seem to be the underlying pattern that is informing the Collective Shadow.

*‘The 5th Gene Key represents the great digital library of consciousness in form, all concealed within every single living cell. It contains all the codes and patterns of life. This 5th Gene Key is found in all life forms since it alone maintains the rhythmical patterns that allows an organism to stabilise within its particular environment It is the pulse of Life. **Impatience is not a natural feature of human character – it is the result of a loss of your natural rhythm at a biological level.***

We are being assisted to move beyond **Impatience** to **Patience** and ultimately to **Timelessness**.

Patience is the natural ground of your being whereas impatience arises out of fear and conditioning. Patience is about trust. If you trust in life, you will trust life in every moment, even the challenging moments, and in so doing you will always remain in the flow. As a vital element of the chemical family known as the Ring of Light the 5th Gene Key plays a profound role within your genetics. **The amino acid, threonine determines the blueprint for how your individual cells trap light and convert it into energy. You will begin to discover a higher functioning of your DNA – a code within a code.’**

'What the Shadow frequency views as a problem may actually be a higher genetic mutation waiting to be unlocked. Here at the highest Siddhic frequencies, codes can no longer be unlocked digitally, which means to say that the mind cannot comprehend them. Only the human spirit can unlock the deepest secrets in your DNA. It is in the 5th Siddhi that the great secret known as Enlightenment lies waiting. The highest code can only be awakened by the flood of high frequencies contained within the Spectrum of Light. The more you open yourself to the higher frequencies of Light the more heightened the vibration becomes within your cellular DNA.'

And Chiron, the third point of this Grand Trine, which is seeking to resolve and to heal the Shadow patterns of the Collective is on Gene Key 21 known as **A Noble Life** moving through the Shadow of **Control** to the Gift of **Authority** to the Siddhi of **Valour**.

This Gene Key is all about balance – how we apply discipline – *'Life challenges us constantly to strike a balance between maintaining control and being flexible enough to change, to accommodate a new situation. We need enough discipline to keep us from becoming a victim of something or someone outside of ourself. On the other hand, too much discipline will create a rebellion or resistance in our environment.'*

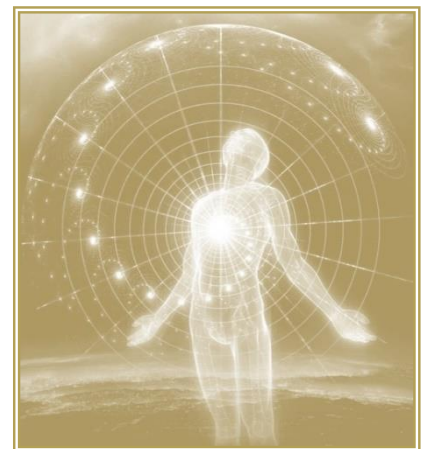

'Authority is the true vibration of this 21st Gene Key when it has found that delicate balance between allowing things to go their own way and assuming control of the way things are going. Authority is a frequency that is determined by intent. If you assert Authority through the hierarchical base of the 21st Shadow then you rule through control and fear, which never inspires true Loyalty. True loyalty can only be maintained when the frequency of love outweighs the frequency of fear. Such people are given authority by others and this is the real meaning of Authority.'

'True Authority unites rather than controls. The relationship between Authority and submission is the relationship between yin and yang, between the male and female energies throughout our Universe. The Male Female polarity balanced so that the Yin/Yang flow is finely and exquisitely tuned into service.'

'Valour is the highest frequency of the 21st Gene Key – it is an energetic field released into the world through a chemical signature within your genetics that underpins nobility. Valour is nobility in action. It contains virtue, wisdom, love, courage and above all sacrifice. As an archetype Valour signifies the ending of all karma, even though the states preceding it often carry a great deal of karma.'

'Valour is forged on the anvil of life. No matter how muddy the waters are, you have to realise your pure nature can never be soiled. To be a master, that is a Being who has attained realisation through this Siddhi you must lead by example. Valour is an act of absolute self-surrender in which you lay your entire being on the line for a higher ideal.'

'Valour represents the surrender of the male principle of control to trust represented by the feminine principle of trust. The power of Valour could be summarised as the courage and love that must be found within the lower self to die into the unknown world of the Higher Self.'

These are the potentials that are held within the first Grand Trine of the Six Pointed Star and so if we now turn to the second triangle to see how their archetypal principles and energetics assist the unfolding of the higher frequencies, we find that the Earth is on Gene Key 13 known as **Listening Through the Eyes of Love** moving us beyond **Discord** into **Discernment** and onto this heightened state of **Empathy**.

'Those with Discernment know in their bellies that this phase of our history must and will lead to a transcendent leap in consciousness, regardless of the fear based culture in which we live.'

'The 13th Siddhi like its partner, the 7th Siddhi, has much hidden wisdom within it. Like a fractal shard of God itself, DNA is an incredible substance – it contains all the memories of our entire species. Even more profoundly it connects us to the seed from which our very Universe first sprouted. DNA forms the living vibrating link to the beginning of life on this planet – it is through the 13th Siddhi that information from our collective past can be recovered.... This Siddhi requires complete absorption into the Discord of the collective 13th Shadow.'

'Through the Ring of Purification the 13th Siddhi opens its eyes on a new world – a world in which the past has been magically transformed into a radiant new future.'

Saturn at the time of the 8:8 Lion's Gate is conjunct the Earth, as part of this Grand Trine. Saturn is the planet of self-discipline and Self-realisation. It is, as has been said before, the planetary energy that guards the way to higher awareness. No one can come into this state of awareness, constructively, without passing through the Gates of Saturn, better known as the *'Ring Passeth Not'*. As such Saturn and Chiron at this time are resonating to and amplifying the message of discipline.

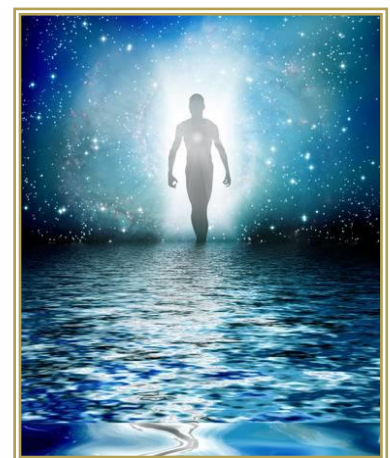

Saturn is on Gene Key 19 known as the ***Future Human Being*** growing through the Shadow of ***Co-Dependence*** to the Gift of ***Sensitivity*** to the Siddhi of ***Sacrifice***.

*'Our relationship to God or a set of gods is a purely Co-Dependent relationship because it is based on this need for outside authority. As long as man believes in a God outside of himself the frequency of our planet will remain at the level of the 19th Shadow. **As this great reaction is occurring within the chemistry of our DNA – the old ways appear to tighten their grip on the only reality they have known.'***

*'The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature. These kingdoms, which have often been referred to as the Angelic or Devic realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions. **The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds.'***

*'The path of frequency through the 19th Gift goes from Co-dependence to independence and finally to interdependence. **Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species.** Through the 19th Gene Key you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater self - to Sacrifice your individual identity and experience yourself as one with all Life as well as the Creator of it.'*

'Consciousness is now beginning to outstrip man and is reaching out for a higher form. But the new form must emerge out of the old one, so, deep within Human DNA, new mutations are being triggered.'

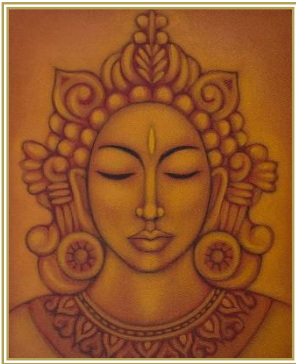

'The 19th Siddhi contains the secrets of this mystical initiation. They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.'

The Earth and Saturn energetically flow to Vesta, which carries the archetypal energy of the internal Sacred Flame and the Commitment to maintain the Light throughout countless incarnations. Vesta is on Gene Key 18 known as **The Healing Power of the Mind** taking us beyond **Judgement** to **Integrity** and eventually to the state of **Perfection**.

'The 18th Shadow begins in your childhood and it gives rise to a collective phenomenon in the world known as the 'victim mind'. The 18th Gene Key is psychologically extremely profound. It is actually the basis of psychology as it holds the keys to human conditioning. When a child is born an innate urge inside begins to explore its environment. This Gene Key is about the physical, emotional and mental boundaries that you meet in your life.'

'In understanding what made you the way you are you are able to release what does not serve you and equally you can assist others to release their conditioning. When you are free from the trap of the victim mind then Judgement becomes Integrity.'

'The 18th Siddhi is not often seen in the world today - it involves an archetype of Perfection. Someone demonstrating the 18th Siddhi is above the victim mind – when they look at someone, even someone who appears genuinely evil, they will only see the Higher Self hidden in that person. By holding this high thought frequency they influence hidden currents of energy that raise the frequency of others. This is called Siddhic thinking and it involves thinking with the heart. The 18th Siddhi serves a very mystical purpose – it heals the split in the mental plane itself bringing humanity closer and closer to its realisation of Oneness.'

'The 18th Siddhi is the source of the tradition of the Bodhisattva Vow. The Bodhisattva Gene Keys keep returning to the planet as individual human beings whose sole purpose is to build this collective vision of Perfection on the material plane. As we will all one day see, the end of this story also happens to be the beginning of our Universal Life.'

And Vesta completes this Planetary alignment by flowing directly to our Spiritual Pathway, the North Nodal Point, which is on Gene Key 35 known as **Wormholes and Miracles** moving through the Shadow of **Hunger** to the Gift of **Adventure** to the **Siddhi of Boundlessness**.

'At the Shadow level, awareness of one's true inner Essence is being diverted out into form. One becomes involved in progressing in the outer world at the expense of the inner world.'

'When progress turns inward and one's Hunger for Adventure is no longer outside, but is focused within the nature of being, the 35 Gift begins to flower. This is where the Human Spirit breaks free from the limitations of mind. The 35th Gene Key stands alone within the codon ring known as Miracles. The 35th Gift is the only place within all human DNA, where human beings have a choice in how their reality is constructed. This is the great Adventure that you take as the 35th Gift enters into your being – you enter a process of alchemical co-creation within your own body. As you raise your own consciousness through Love, these delicate chemical matrices begin to spontaneously form within your physiology.'

'There is a hidden wormhole in the DNA - a shortcut to the Divine. This is where pure unconditional Love can break all the Laws of the Cosmos, including all genetic laws. It is allowing human beings to take charge of their own evolution and outwit the global genetic programme. When the Siddhi of Boundlessness enters the world, it allows consciousness to penetrate right into the heart of matter, which bends the Laws of Matter. Such a Siddhic Being represents a shortcut through evolution itself and many people can experience huge awakenings and miracles around such a Being.'

As the Intensified Light of Sirius enfolds the Earth Plane it will be activating all of these potentials according to each one's level of Consciousness, but ultimately it is Grace that decides when, where and to whom a Consciousness shift will happen or a miracle will occur.

Just over eight hours after Sirius comes over the horizon at Giza there will be a New Moon - both of these moments in time are powerful connections. Throughout this time you will see that the six pointed Star pattern is still held within the sky, but now we are going to look at Mercury, the Planet of the lower mind, which connects to our thoughts, our speech and also into our Central Nervous System which is the focal point of a Yod (Finger of God) which is connecting to Pluto and to Neptune and Pallas Athena (green dotted lines). This Yod has been underpinning the Star formation throughout the day.

In simple terms this Yod is clearly showing that the focus of intent is on how our personal thoughts (Mercury) have to be transformed (Pluto), beyond personal will and come to rest within the focus of Pallas Athena's Wisdom, balanced by Unconditional Love (Neptune) if the potential held within the Star is to come to fruition.

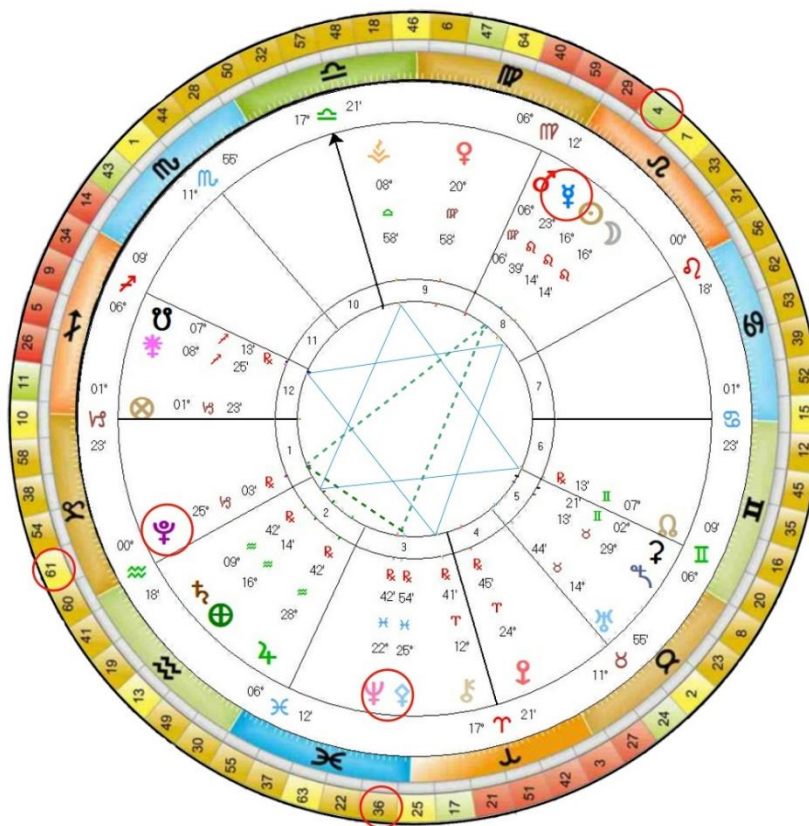

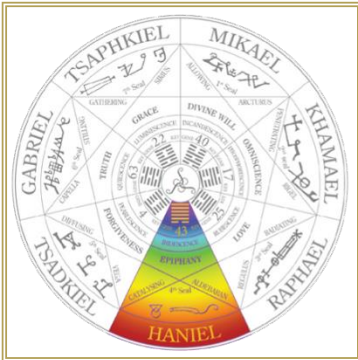

Chart for the Leo New Moon on 8.8.2021 at 15:55 EET Giza Egypt
<https://www.timeanddate.com/moon/phases>

We are being required to come to a state of inner mental peace and neutrality, no fixed, rigid thoughts – a tall order and how fitting that so much should be occurring on the plane right now, which creates such division and duality – no easy task to simply become the compassionate Observer of all, but Mercury, on Gene Key 4, known as **A Universal Panacea**, is guiding us beyond **Intolerance** to **Understanding** and ultimately to **Forgiveness** – so individually we need to become aware of and release and let go of any and all intolerant thoughts that do not serve or assist Higher Purpose and that hinder Soul embodiment.

'The Gift of Understanding has nothing whatsoever to do with knowledge. Knowledge is what your mind thinks it needs in order to take away its permanent feeling of unease. But knowledge can never bring a sense of peacefulness. Only true Understanding can bring peace along with it, because true Understanding lies outside of the domain of the mind. Understanding is of the whole Being.'

'The 4th Gift is the launch pad for an even more refined frequency – the Siddhi of Forgiveness. Forgiveness is born out of Understanding, but it occurs when a being makes a leap beyond Understanding. Understanding leads to the urge to serve the totality through instigating some kind of social reform. Forgiveness has no sense of needing to do, it is a pure Siddhic state and as such it has no sense of restlessness at all.'

'Forgiveness is the thunderbolt that is released when a being attains Christ Consciousness - it melts the boundaries and borders of form. It is a Divine quality that descends into the world of form, releasing and dissolving the karma held within ancestral bloodlines. As one of the Seven Seals, the 4th Siddhi is a primary agent of Divine Grace. The Siddhi of Forgiveness is often credited with being capable of creating miracles, because it can release the bonds that have held generations tethered within karmic debt. Pure Forgiveness is a Universal Panacea that radiates in every direction throughout time and space. It really is a miracle.'

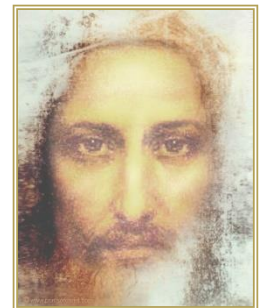

Neptune and Pallas Athena are on Gene Key 36 known as ***Becoming Human*** stepping beyond the Shadow of ***Turbulence*** into the Gift of ***Humanity*** to the Siddhi of ***Compassion***.

It is clear to see that we are passing through Turbulent times right now – we are witnessing extremes of opinion and extremes of fear – so we are here to anchor and share ***'The 36th Gift, as a Living Transmission, which carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them.'***

'It conveys the image of Christ descending into hell and absorbing its frequencies fully into your own being. The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'

'This is the Siddhi that spans the chasm between Man and God, between being a victim and being Enlightened. In every mythic journey there must always be a final trial. A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings. This has the effect of annihilating all fear from the system so that true Peace emanates from within.'

'The simple Presence of such people and the look in their eyes can trigger all manner of so called miracles in those whom they meet. These are the most heart melting people ever to walk the face of the Earth. Beings like Jesus, who attain final liberation through this Siddhi, are salt of the earth people. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts. Even the darkest of natures can be instantaneously brought to tears through the presence of this 36th Siddhi.'

And Pluto, which is the planetary energy that is the gateway into Galactic consciousness, activates constructively when we defer to Divine will. Pluto which brings to the surface all that is hidden within the Shadow that needs to be transformed into higher states of frequency, is on Gene Key 61 – ***The Holy of Holies*** activating the Shadow of ***Psychosis*** so that it may be transmuted to the Gift of ***Inspiration*** and ultimately to the Siddhi of ***Sanctity***.

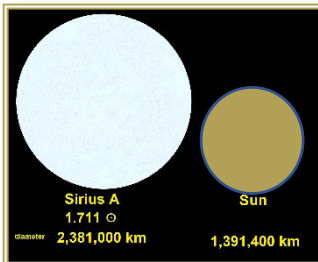

'The issue of the true nature of reality is all about frequency. Only when the frequency passing through your individual genetic coding rises to a sufficient level can you begin to perceive reality, or as William Blake put it: 'If the doors of perception were cleansed, everything would appear as it is, Infinite.'

'Inspiration involves a powerful dismantling of the inner realities that have been built by your mind. Inspiration comes when you place yourself directly in the firing line of the inner question that lies deep within each human being. Who Am I? At first you may seek answers outside yourself, but eventually you will have to turn deep inside to unfold the Hidden Truth that is awaiting your discovery. By its very nature the Gift of Inspiration is spiritual because it serves to loosen the hold of your mental constructs, opening and expanding your capacity for love.

'This Gene Key represents a mystery hiding inside every single unit of matter within the Universe. The mystery is the mystery of Christ Consciousness, that quintessence of Inner Light that holds all things together. This codon ring shows that evolution is a force that is breaking out from inside of us and that to unlock its secrets we have only to look inside.'

'The inspiration pouring through the higher reaches of the 61st Gift is a stream of sparks from a great transformation occurring within every human being who approaches the inner door. As you enter the field of the 61st Siddhi a huge pregnant silence descends and all your mental activity abruptly ceases. Here inner Truth resides. In western mythic traditions, this is a place called by many names – the Covenant, the Grail, the Holy of Holies. In the East it is generally described as a state – enlightenment, nirvana or samadhi. The 61st Siddhi is neither a place nor a state - it is the inner experience of Sanctity – of being one with the Divine.'

'A human being who is embodying the 61st Siddhi is nothing but a human vehicle manifesting pure Universal Consciousness. This state of Sanctity is the underlying nature of reality and until you come to rest within it you are asleep. In the future the 61st Siddhi will become far more common place, because humanity is in the process of making a quantum leap. The children who will begin to arrive on this planet will carry this Siddhi of Sanctity in their bones. They will be the living embodiment of life's potential in form.'

As you ingest and contemplate all that is occurring during this period you will sense and feel that this is a truly powerful time, as the intensified Light of the 8:8 Lion's Gate flows through these different levels of Consciousness it is likely to bring all to the forefront of awareness – remaining Flexible, Heart Centred and Peaceful will allow for the greatest integration of energies at this time.

Remember that this period of time stretches from the 26th of July to the 12th of August, during this time use your discernment to navigate the heightened frequencies. Discernment is not the same as Judgment as it carries no emotional charge or projection.

May we hold each other and All Life in Empathy, Compassion and Forgiveness as we release the ancestral karmic past and enter this new Cycle, stepping into the Clear Light of Boundlessness, that unites all Beings within Christ Consciousness.

Love and Blessings
