

## PART 1 – INTRODUCTION TO RELATIONSHIP TO YOUR MOTHER AND FATHER, 14TH JANUARY 2022

Blessings Everyone, First may I open this New Topic by wishing Everyone a Happy and Prosperous New Year.

As you may be aware the World is becoming far more in disarray than ever before and will most probably get far worse before it is seen to be getting any better. Therefore we in the EGA have come together to truly assist in the Formulas of Approach, so that this recovery from the present chaos may be with as much Ease and Grace as possible. However, once again the EGA is facing some deeper issues where relationships of all natures continue to be suppressed and thus hold it to the old patterns of interactions and separation consciousness.

So while we feel somewhat uncomfortable in having to bring all this up again, we have to for the Greater Good of the EGA's Divine else the EGA is never going to make its way out of these underpinning issues of where full Group Participation as a Synthesised Ashramic Group seems impossible to overcome. It must be a disturbing matter for everyone, who can feel that we as a Group seem unable to take the next BIG step as a Group Unified Field of Soul Consciousness.

And this is something that each of us can look at again, but this time at a much deeper level and to look at this from the perspective of our own personal desires and recognition as to each of our own Divine Path and Purpose. Not necessarily as a Member of the EGA, but more importantly as a Member of any Soul Ashram, that of the One You Came from and Incarnated here on Earth Representing Your Purpose and Work in this lifetime to complete. To look from the top down may or may not help you to relate to the New EGA Ashramic Group of Synthesis with those various Master's Ashrams of Master Djwhal Khul, Master Hilarion, The Great Divine Director or any other Master Ashram of which your Soul Belongs, but at the very least it may offer each to look at your relationships with you mother and father, aunts and uncles, brothers and sisters, husband and wife, sons and daughters and working outward into your friends and colleagues, business relationships, community and nation.

As the EGA ADMIN is about to open up the many Esoteric and Exoteric Groups as part of the New Ashramic Group Life where 2 Groups, 2 Activities and 2 Functions will be developed into a more Grounded Field of Expression and Integration of the incarnate consciousness while being overshadowed by the Soul Consciousness and thus helping to find the attainment by which the Divine Consciousness or the 'I AM' Consciousness and Service to Humanity, the Earth and God, can finally become made Manifest.

But first it would be wise to Understand from a Higher Perspective of why there remains so many conflicting interests than what the 'I AM' Presence and Divine God Consciousness can offer us!

Each of you are all far enough along your Spiritual Path to understand what this Discourse is all about that is now going to be placed before you!

It is nothing new, given in 2007 by Kryon, not by Lee Carroll in the USA but from David Brown in South Africa. This Discourse is being presented to you for your own interest, review and Internal Work to do, so as always, use your own discernment as to how and what you may choose to do with it. All that can be said at this stage is the relationship with your mother and father is the basis of who and what you are in your own life. Understand this, find the resolutions you need to move forward in your personal lives and then that will reflect in ways we are sure, that will make changes in your lives that will seem unbelievable to you and why you may not have seen this before.

Should anyone wish to share any aspect of their reflections please feel comfortable in doing so as they may Serve others in these times of personal journeys as the new way of Learning!

In a couple of days we are going to then begin another Topic called,

### **Relationship to your Ashramic Group – Group Discussion 13th January 2022.**

This Group Sharing will be quite intense in the sense that the information will be far more detailed as few have had this information shared with before that they may remember, if at all!

This is about the Self Realization of where you are at upon your Journey in terms of actually knowing your own personal Path and Purpose, and if known how that will relate to any Group Path and Purpose. This is needed without further delay, for you who are reading this have now or are in the process of Giving your Pledges and Covenants to this particular Divine Shamballa Plan which will be identical in nature or similar in Service as Part of Your Overall Path and Purpose.

To finally come to these Levels of Knowledge it may then help to show why half-heartedness continues to be expressed in one's daily lives and affairs and thus flows out into many other areas of Path and Purpose. It may also offer new insight as to why the Ashramic Groups now beginning to form around the planet today continue to function on the old paradigms of human consciousness and lack of commitment and participations as single individuals within a Supposed Unified Group of Ashramic Synthesis, where the Symbiosis of the Group is not based upon the Greater Good For All Concerned, beginning with immediate family and then extending outward into the Ashramic Group Family and outward still into the Whole of the Human Race, Earth and Solar System.

The Membership of the EGA MUST begin to achieve this else the Whole Group cannot move forward any further than it is today! The consciousness of the EGA Membership needs some serious analysis before we open the New Circles and Spheres of Influence and the 2nd Part will hopefully offer some Guidance in how we as a Group, through Knowing Ourselves First, Healer Heal Thyself First, The Christ Within Come Forth within the Self First: Else the Work of the EGA, which has not yet begun will not be possible within this Gathering of Dear Souls as we are right now, as a supposed Unified Group Effort.

The message being shared today is One of Urgency! Not in time as such as Master John the Baptist told us recently, but Rightful Application to God Life by following the Cosmic Laws with Precision. You have heard much within the EGA Discourse about Creations from a Place of Immaculate Conception. If this is your Path and Purpose, then now may be your last opportunity here within the EGA to get this absolutely clear in your minds and then walk the talk!! This is not personal, it is simply Cosmic Law playing out through the Soul Personas who remain within the incarnational consciousness, without the connection to their Soul Consciousness.

There will be no obligation to participate in any of these Open Communications, and while choices are made in whatever way one may choose, the creations of those choices will find their way into the EGA's next Stages of Development and Growth.

Master Rakoczy shared this;

“Contrary to all of the interpretations that have been made throughout the group and that various disciples have come to, regardless of these decisions, regardless of these evaluations, and while it is brought into a sharp focus through him, his problem is not his problem alone. It is a twofold problem. First, it is the problem of the overshadowing soul consciousness of the entire group, of the Ashram within which he is affiliated. Second, it is a problem of that group, that humanity, that he is serving in this two-way focal point. It is the problem of all of the consciousness within which he is related, both in the higher and the lower sense. He cannot, he will never solve the problem by himself. The same thing is true of the group as it endeavours to serve its similar function. The entire Ashramic consciousness within which it finds its human relationships, these are responsible for the working out of the problem itself. The problem belongs to the totality of the consciousness and not to that focal point which is giving it such a sharp emphasis.

“Therefore, regardless of how many brave, noble, or not-so-noble, or not-so-brave decisions that might be made by any individual attempting to serve this function, ... the problem will not be solved in order to free the function itself until the entire group comes to grips with it.

“The world that humanity has created has become a prison, and it claims humanity and humanity's efforts. It claims humanity's resources, it takes everything that humanity is and has to give at this time unto itself. This is the primary problem. Until that civilization, until that material world within which each one of you find yourselves has been rendered impotent in its demands upon you, then you will not be free. You will not find yourselves free to serve this function or whatever your particular function might be. This is the first major problem of the group. It is an economic problem. I do not mean it the way you interpret this concept, but in its overall sense it is an economic problem.”

End Excerpt

We can elaborate upon this, but for now, suffice is to say, if this Ashramic Group you wish to Serve within, then this is now your problem, not just yours alone but the Group's Problem which the Group must find the resolution, one way or another!

And so for the Greater Good of All Concern we enter into this problem for the final time before other decisions for this EGA Ashramic Group will be needed to be made!

To the Point of Urgency, if anyone feels they do not wish to place their focus upon this situation, or help seek to find the solution, please let us know, so we can make other arrangements where the main body of the Ashramic can continue with its Intended Foci for the Creation of the Christ Councils with St Germain's and Jesus's Strict Guidance.

If anyone has any questions, please feel free to ask.

So first let us get started by sharing the First Discourse.

In Love and Joy We Share.
