LORD MELCHIZEDEK: Greetings Beloved Sons and Daughters of the Three-Fold Flame. My Intention was to come to you today and speak about the Melchizedek Cloister Emerald Order, however, this Arm of the Order of Melchizedek are Founded upon the same Principles of the Teachings of the Inner Christos, or Living God-Spirit, that is Alive within all things, including Nature, The Elementals, Devas and Angelic Host, where the 'Inner Christos' Truth is Built upon the Understanding of what is referred to as the '**Law of One**'. The Inner Christos Law of One respectfully, Acknowledges the Inter-Connection, Interdependence and Intrinsic Values of all Components that are Composed of and are within the Living Reality of Living Consciousness, the Spirit of God or the Christ Within. So let us not waste valuable time repeating Who and What the Order of Melchizedek Is.

Instead, let Us place some focus upon the Emerald Order which very few people are aware of its Origin and how it began to manifest here upon the Planet in the early 1930's through St Germain and those Working in Direct Alignment with the Order of Melchizedek. But before I begin sharing about the Emerald Order, I ask you Peter, and those within the Elemental Grace Alliance to remain cognizant of several pending matters regarding past matters that have not yet found their way to the surface for further Love In Action; *There are 5 Parts*.

i) Part 2 of your last Lion's Gate Discourse, where Lord Metatron gave you some information to remain mindful about. So, because you could not find that information you need within yourself, I Am going to refresh your Memory in this Discourse. He said, speaking of Meggado;

“Yet, these Energy Centres have remained Sensitized to the Patterns of Direct Intervention and controlled by the Order of Melchizedek, even though the forces of darkness have sought to destroy the Scriptures of Light, and to control the Incarnations of the Lords of Light so that they can gain control of the ‘high’ and ‘low’ places of the Energy Harmonics of the Earth. Which I Impress upon you Dear Brother, to be mindful that this will require some close attention to this Most Auspicious Time. I will leave this to you!” End Excerpt.

As you make your way through this Discourse you may ask yourselves why has the old Template of Sharing altered? The answer is simple if you have been Listening! For those who have been using their own Volitions throughout all of the EGA Discourses to date, this will be a Natural Progression from one Level of Engagement and Experience to the next. For those who simply read the Discourses a couple of times and nothing more to deepen their own Volition and awareness by their own Correct Application to God Life, will no longer be spoon fed!

The Masters and Lady Portia made it very clear, that they will no longer give Blanket Grants and Dispensations, Rather only those who will actually do the Inner Work and Prove that they are Worthy of these next Levels of Responsibilities. Your logic should see this reality very clearly, for while the past has been fairly superficial in terms of Local Earth Healing and Cleaning up of the Planet, you are now entering a Whole New Levels of Responsibilities, where no decision or choice will award individually or as a group more than the levels of consciousness that to ascribe to. So if those who may read on not ready to follow through, then your position will reveal itself to you very quickly, as We have all alluded to over the past Series’ of Discourses. The choice is yours!

ii) To help those within the EGA to make some new decisions, this next hint is based around the Importance of ‘Open-Source’ in today’s Inner and outer aspects for Architecturally Structuring one’s Creations. This is called ‘**Negentropy**’ and we will speak of this also in this Discourse. And I wish to discuss some relevant aspects around the cleaning up of the interred human bodies, the Elementals of the remaining Root Races that The Goddess Himalaya requested of you and The Great Divine Director who also told you of His Interdependence upon the Elemental Grace Alliance to complete all its Tasks and Activities, else He would have to postpone His 7th Root Race from entering the new Earth.

So in telling you this in advance the information based around the Emerald Order should assist you greatly to Move Forward without undue delays at this most important time upon this Beloved 3D World. And I say 3D because Dear Souls, you are all still very much tethered to this 3rd Dimensional Plane until those who continue to remain within your old physical bodies make every last effort, to complete the **Time Reset** and Activate the **Christ True Virgin** allowing it to come fully back into its Original God Alignment.

iii) Let us Acknowledge here, Our Beloved Sister 'Lisa Renee' for all her Work in bringing so much valuable information to the Earth, so that other's may use it for the Greatest Good of All Concerned. For without it, this God Work would not have the clarity to make the decisions that will fulfil this Divine God Ascension Plan! (<https://energeticsynthesis.com>) I Am therefore going to help Peter bring the relevant information to the forefront of his mind, so as not to get lost in the details and grandeur of such a historical account of the Evolution of this Earth and the people who have been living here and affecting the outer world of affairs upon Her. Thank you Lisa!

The Emerald Order is the very First Emanation of the 'Primal Sound Field' which represents the First Individuation of the God Source. It is a Part of the Cosmic Trinity. The Cosmic Trinity is something that you have become very much aware of; The Threefold Flame, but more Rightfully called the Three-Fold Founder Flame.

From your present understanding, you will recognize these Flames due to the Work of St Germain in the Program of helping to Clean up the Planet and Ground the Energies of the Christ Maitreya, Manifested in the Form of the Individuation of Jesus and His Ascension

Journey upon Earth. To make quick reference and save a lot of words, I Am also going to use Images in this Discourse that hopefully will speak Volumes to you, through the Light Languages of many Races and many Dimensional Realms. I have never done this before, in any Discourse that I offered, so Peter, if you will follow My Lead please. So let us begin with this Christ Three-fold Flame.

I have chosen these two Individualizations above to show how, as Resonance of Consciousness expands, so do the Representations of the Physical depictions of the Forms Change. There is more than words in this statement Dear One's if you feel into them! Let us use Lisa's Words for these explanations. *If one wishes to study much more relative Information please copy that which is in italics to Lisa's Website and do a search in the Ascension Glossary section. <https://ascensionglossary.com/index.php/Alqol>*

“There are Three Original Primal Order Sound Fields that make up the 'Ray' Aspects of your Entire Universal Creation in the 'Universal Time Matrix'.

“The *‘Solar Rishi’* is the First Triad of Light Manifestations that make the *‘Universal Trinity’*, that are projected from the **Emerald Order and Blue Flame, Gold Order and Gold Flame, and Amethyst Order and Violet Flame** from the God Source Field, the Threefold Founder Flame or *‘Cosmic Trinity’*’.

“The First Emanation of the Primal Sound Field which Represents the First Individuation of the God Source is the *‘Emerald Order’*. A part of the *‘Cosmic Trinity’*’.

“The Second Emanation of the Primal Sound Field which Represents the Second Individuation of the God Source is the *‘Gold Order’*. A part of the *‘Cosmic Order’*’.

“The Third Emanation of the Primal Sound Field which Represents the Third Individuation of the God Source is the *‘Amethyst Order’*. A part of the *‘Cosmic Trinity’*’.

“Collectively these are also referred to as the Founders and the Threefold Flame that make up the *‘GSF’* Triad. The Threefold Founder Flame Gestalt of Sound-Light Universal Consciousness is called the *‘Guardian Host’*. *‘Aurora’* from the *‘Seven Higher Heavens’* in Andromeda answered the *‘Guardian Host’* Clarion Call and Have joined them to Protect this particular *‘Universal Time Matrix’*. The result, We also have Omniversal God Sources that are referred to as the *‘Aurora’* Host that are also connected to the Primary *‘Guardian Host’* .

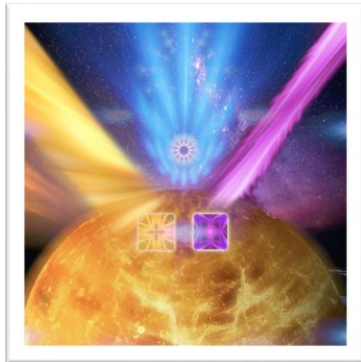

“The Three Universal Founder Rays are the *‘Universal Trinity’* and are comprised of the Blue Ray *‘Mother Arc’*, Violet-Magenta Ray *‘Father Arc’*, and the Golden Ray Sun of *‘Christos’*. The Universal Trinity is the First Light of the ONE BLUE FLAME in 13D, the Second Light of the ONE GOLD FLAME 14D, and the Third Light of the ONE VIOLET FLAME 15D. Together they make the Trinity that make up the Threefold Founder Flame of our entire *‘Universal Trinity’*.” End Excerpt.

So by Divine Spiritual Progression of the Expansion of Consciousness, rather than working with the older versions visualizations of the Three-Fold Flames above, you can now begin to Implement new perspectives that shall Ensure Higher Resonances and Light Quotients for you and your Invocational Applications.

The Three Universal Founder Rays are the *‘Universal Trinity’* and are comprised of the Blue Ray *‘Mother Arc’*, Violet-Magenta Ray *‘Father Arc’*, and the Golden Ray Sun of *‘Christos’*. And when these have Merged Together in a Unified Consciousness that Illustrates the Emerald Ray as The First Individuated Expression of *‘God’* Consciousness in Your Universe which is referred to as the Cosmic Monad or *‘Monad Wave’*’.

The Emerald Ray then, Sources from the Cosmic Monad which exists as the First Cause of Sound that further Generates a Resonating Tone Principle for the Theme of your Entire Universal Time Matrix which is the First Primal Sound Tone in the Blue Flame which exists from within the Body of God Consciousness.

When the *'Emerald Crystal'* is Activated with the Emerald Ray Transmission, this begins to grow into Extensive Sophianic plasma Flowering Chakras that are Interwoven into the Diamond Heart Crystalline Grids which are Designed to Function as the Cosmic Founder God Source Interdimensional Communication Crystalline Network within the Planet. The *'Emerald Crystal Heart'* within the Planet Itself, has its own complex Multi-Dimensional Layered Super Etheric Internet Highway that Reconnects and Communicates Directly with the *'Cosmic Emerald Heart'* Principle in Your Universe.

Universal Trinity

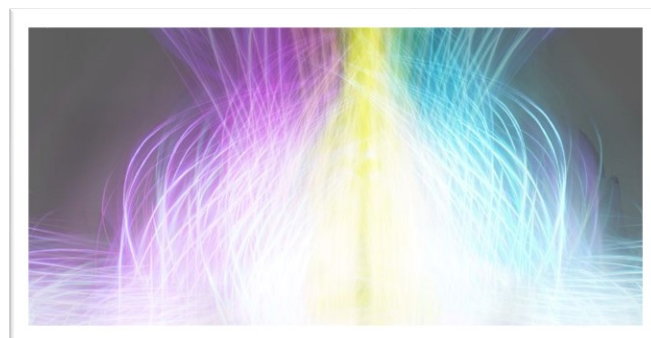

Unification of the Law of One

Emerald Crystal

Within the Energy Matrix God Source Expresses First as Sound in the Form of the *'Kunda-Ray'* Living Sound Field Current. From within the Kunda-Ray the Living Light Rays of the Universal Trinity are formed, what is referred to as the Threefold Flame of the Solar Rishi.

I Am Giving you all this information in this way, so that you can see how you may be able to proceed in your Invocations and Activations and how to cover all aspects that shall require your Greater Due Diligence. We cannot Tell you how to Service These Activations, but We can Inform you of that which will provide, all that you MUST Facilitate to help Achieve the Overall Goal of the Emerald Order and the *'Interdimensional Free World Councils'*.

The Emerald Order are the Founders of the Interdimensional Free World Councils, as the result of the '*Paliadorian Covenant*', that all souls lost in the fallen or '*Phantom Mix*' are returned back to the God Source. This is the '*Reclamation of the Christos Missions*' on the Earth that goes back to the '*Covenant of Paliador*' when higher guardian races devised a plan to recover the lost Souls after the Planet '*Tara*' exploded. So follow this link to Divine the Truth from what is shared and this will hopefully begin to fill in so many voids of Consciousness from within your present perceived lack of awareness. There is no point repeating everything in these Discourses, as We Are Aware that there will be many who can only integrate a certain amount and level of Truth as to the Incredibly Diverse and Interdimensional Engagements of Manifested Worlds that the Earth Is, in Truth, Part of as defined within the Law of One.

iv) So here, if you follow the Leads, will help you discover all that you need to know about the True Reality of the Root Races and what you are being asked to Evaluate and then Formulate your Templates of Approach to not only return all interred Energy bodies back to the God Source, but make the provisions for any future bodily destructions that have in the past and the future times within the Timelines and Time Matrices of the Earth's Evolution, but these that are taking place daily right now as we speak, those annulations of so many life forms, including the Elementals, Devas and other God Intelligences, due to fierce weaponry explosions in this Russian war being imposed upon Ukraine. And why you must now immediately Set Invocations to **STOP** any nuclear interference, else the loss of God Life will be extremely detrimental to the Future plans of (the 7th Dimensional Plane of) Mother Gaia. Hence the requests of the Great Divine Director who said He may have to postpone He Entry of the 7th Root Race, which shall be upon the 7th Dimensional Plane of the 3rd Dimensional Earth or Terra.

v) I want to Introduce the Application of Negentropy or the Use of Open-Source now, but first allow Me to share this, for this application of Negentropy is interconnected and interrelated to the different stages of Evolution in the Multiple Timelines. Within the creational mechanics of the holographic structure which manifests the Harmonic Universes which are two timelines per dimensional octave. So, within our Harmonic Universe, (see the '*Universal Time Matrix*'), making up the reality of 3D earth, within the three dimensions (1-3D), we have six timelines.

When we energetically evolve and move up in octave, being Initiated into Higher Frequencies, we are exposed to more Dimensional Octaves, therefore more potential Timelines. Within these dimensions of future Timelines are '*stations of identity*', commonly called '*soul*', '*oversoul*', '*higher self*', which comprise body parts or whole Spiritual Bodies of our forgotten selves. These are Spiritual Energetic bodies that hold our Consciousness Intelligence Matrices, your Mind Matrices, that make up our Spiritual Identity, and of which we are Designed to Reclaim these Spiritual-Energetic pieces during these Timeline collapses which transpire during the '*Ascension*' Cycle. **This is why those on the Spiritual Ascension Path**

continually experience their Energetic Healing by meeting the Cellular Memories that surface at different stages of Evolution in the Multiple Timelines. Being able to tune into these various Timelines and Sense Events or Identities that exist in those Timelines, is one definition of becoming Multi-Dimensional.

We shall once again use Lisa's words to refine the Definitions of Negentropy and Open-Source.

In science, Negentropy (or Syntropy is the opposite of Entropy. It is defining the open-source architecture of free energy made available to replenish any loss of energy that may occur in the Management of a System, in order to retain its balanced functioning in all of its component parts. Negentropy is increasing energy over time within any kind of system, and making more energy available to be circulated for the overall benefit of the whole (humanity). This makes the tendency of those Systems increasingly organized and more efficient, due to gradual energy increases made available to those Systems in order to achieve sustainable levels of functioning. In human bodily Systems, Negentropy increases the available energy to more efficiently run the internal Systems, which manifest externally, as a balanced, clear and healthy person. Negentropy, or growing the available energy access given to that System, improves or maintains the higher capacity and efficiency of the Whole System.

Negentropy can be thought of in terms that are synonymous with Free Energy Circulation with the Infinite and Internal Energy Source, Cosmic Order, Synchronous Alignment, and the Sustainability of Open-Source Systems. Entropy can be thought of in terms that are synonymous with energetic debt and enslavement, disorder, chaotic forces and traumatic alignment, and the parasitism of closed source systems.

Energetic Behavior

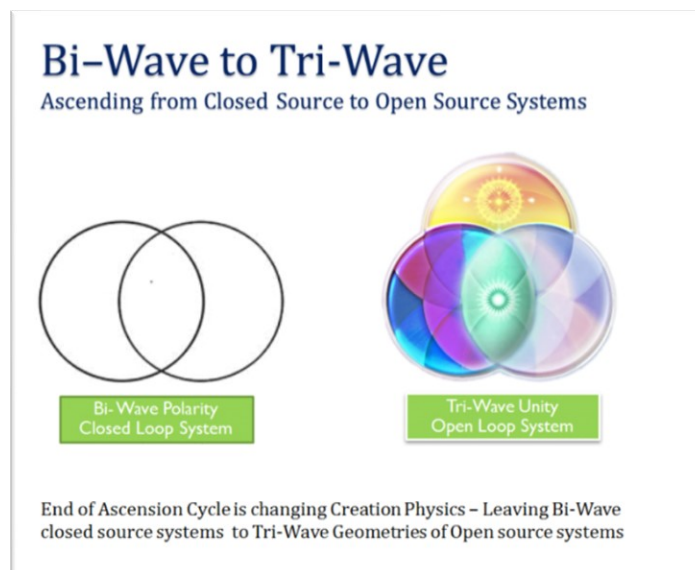

Energy behavior does not lie, and it can be measured. Energetic behavior will show from where the actual energy is being generated, revealing whether it's a closed source parasitic system of architecture or an Open-Source Self-Sustaining Architecture. An Open-Source System is able to receive New Energy from within and outside of itself. This means that Open-Source Systems will be able to continue to run internal and external energy, in order to maintain energetic balance and homeostasis throughout its Systems. An Open-Source System will be able to replenish lost energy and tend towards maintaining states of Negentropy, which keeps its overall functioning over time, Balanced and Stable. With an Open-Source System, time is on its side. Eventually, time will reveal the truth of the Source of Energy it is circulating through its ability to maintain Balance and Stability of its overall Functioning, without using parasitic means to accomplish its purpose.

Negentropic Open-Source Krystal Spirals

When the Life Force Energy is drawn back into the Source Field, through the Trinitized Geometries, the feedback loop of reciprocal Source Light is Generated and Expanded. Your Goal during the New Paradigm is to Create the Tri-Tone (Neutral) Field. This Draws the Composite Energy back into the Zero Point, through a feedback Loop of Energy, back into the Source of All Creation. The Trinity Field Creates an Eternal and Perpetual Supply of Life Force that Regenerates the Bodies by Restoring the Energy Loss, and eventually Expanding

Consciousness. (This can be achieved in human bodies, or Groups of Individuals or a planetary Body or Group of Bodies Dimensional Worlds of Solar Systems). The Krystal Spiral has the potential to Dissolve Artificial Structures that have attached or enmeshed themselves with your 'Light Body' in this or other lifetimes, due to trauma histories and alien

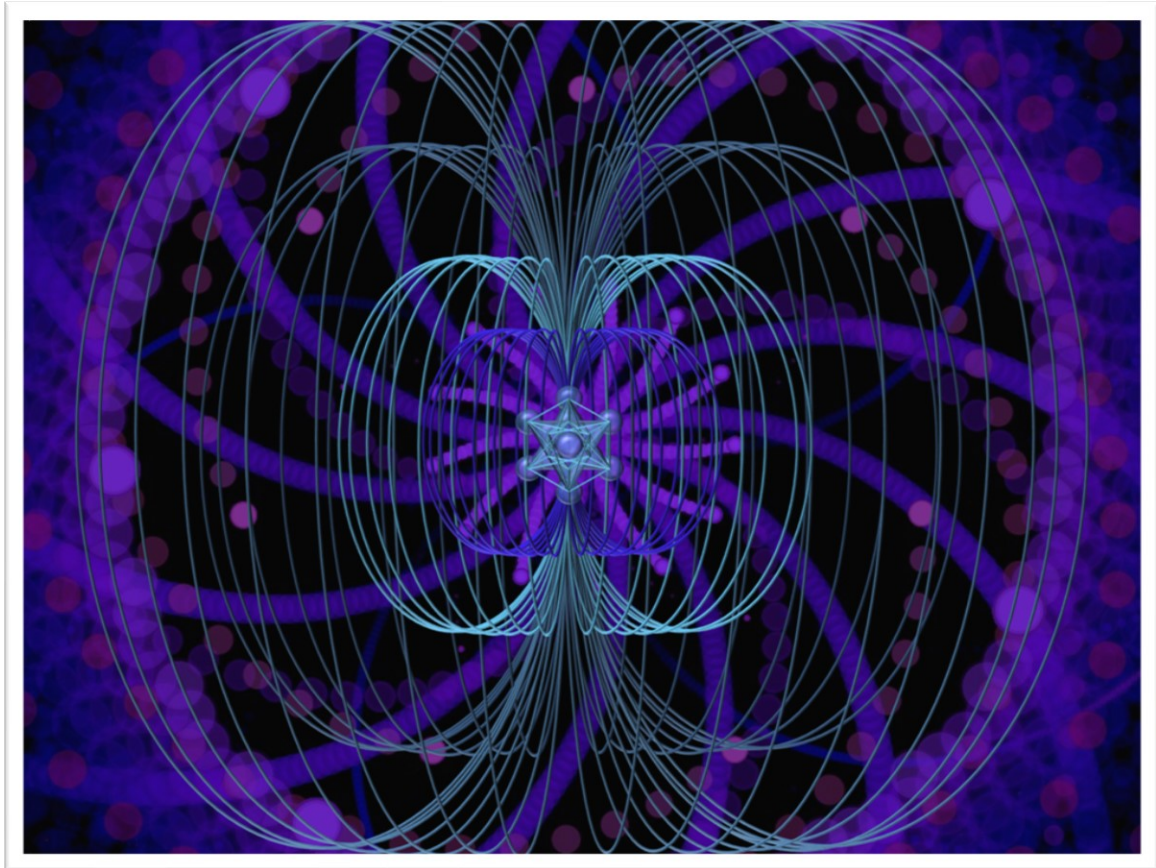

hybridization coding. It Re-Collects and Re-Organizes Spiritual Body Parts, while returning obsolete energies back to be Re-Absorbed in the Cosmic Mother's Womb. (The same as the Etherealization of Earth bodies within the Solar Sun, just this is now for the Multi-Dimensional Bodies in All of God's Creations.)

So while those who will continue their Spiritual Work to the Earth alone, they shall continue to use the Closed Source Bi-Wave polarity Loop System albeit from a God Source perspective, or not if they remain unaware of the differences. For those who are now going to Expanding Their Conscious Awareness to the Multi-Universes they must now move in Higher Resonances of using the Tri-Wave Unity Open Loop Systems.

Dear Brothers and Sisters, while this delivery of information has been quite different from previous times, it does Appropriate the Use of the Energetics of Consciousness that now must be Employed by those who will now step forward to Engage such Work that far outweighs anything been done upon Earth or anything anywhere in the Multi-Verses Ever before. You have been Training Millions of Years for this Grand Demonstration of the Powers of Light, Love, Power and Wisdom. The Wisdom and Love of the Light in All Realms, Worlds and Dimensions are Listening, Watching and ready to go into Love In Action upon Your Commands! So do not sit upon your humanness contemplating any of this for much longer;

THE TIME IS NOW!

CALL TO YOUR BROTHERS AND SISTERS, PARTNERS AND COUNCILS ON HIGH AND BE READY TO SHAKE THEIR HANDS AS THEY MAKE THEMSELVES KNOWN TO YOU!

Your Intergalactic Inter-Communications are closer than you think!

I Am asking that the *Discourse 'Cosmic Clock Reuche Initiation' 19th February, 2022* from Lisa Renee now be placed here in Sequence so that you may feel into all this with Greater Awareness of how this Earth could be in such chaos right now. It is not pretty, but you have to know it you have be amongst it, else for interaction and abilities to Resolve these problems will only be partially attended to and that We cannot accept! Remember what Jesus went through and depth that He had to go within the Astral Realms to Face all aspects of Fear and the manifestations of Fear. You cannot Know The Heights of Love, until you Know the Depths of Fear! Lord Michael will come next to share some Words with your all!

I Am Lord Melchizedek Standing By for Further Developments.

BENEDICTION: We Are Blessed to Carry the Guarding Presence of the Indestructible Hearts' Flame, the Master's Presence of All Creation. We Are Grateful, We Are Grateful, We Are So, Very Grateful!
