Send Forth the Rays of Your Mighty Light and Exhaustless Energy, Light and Intelligent Love Into Our Hearts So We May Pay Them Forward to ALL Life. And So It Is, As Above, So Below.

**ST GERMAIN:** Greetings Dear Ones, to keep all this fresh in your minds, I have asked that We continue upon this segment, so as to reach a Group Consensus as to Group Participation and Group Cohesion for the Purpose and Function that was Highlighted in My last Discourse.

What I wish to establish before we dive any deeper into this Training, is to Create no Illusions as to the Core of what is being undertaken herein. I cannot keep on going over the points which have kept this Class to date, in limitation! This does not Serve you, or the Service to Humanity, the Elementals, Devas, Angelic Hosts, the Animal, Plant and Mineral Kingdoms.

After the last Discourse you now have the Full ‘**Understanding**’ that Qualifies finally, those who are here that are not fully cognizant of their own Soul Purpose and Function and who are not prepared or indeed able at this time to ‘Give’ to this Class here through the Elemental Grace Alliance Divine Plan, within the construct of this Ashramic Group Synthesis as a Living Organism, from within their Soul Presence within their human physicality at this time, the required Effort and concentration.

The time has come that those of you who Know that you are not yet ready must be Honest with Your Self and Stand in your Own Divine Integrity and remove yourself from this Class. There is absolutely no failure in this, rather this is all part of this Training to date; that Part that becomes cognizant of what your strengths and weaknesses are, what your Abilities, Gifts and Talents are, and where they can be used in the Service you have come to Give to Humanity, and now within this choice of the Divine Plan. In the Discourse from Beloved Djwhal Khul, ‘*Series 1 Part 12 - Divine Economy - Two Groups - Two Activities - Two Functions - Master Djwhal Khul, 11th December 2019*’, He states,

*“All Initiates must and eventually Express Dynamic, Creative Will, a Focused Purpose which expresses only the will-to-good and also that Sustained Effort which brings fulfilment. There has been a wonderful explanation in your previous Discourse about Seeds of Group Consciousness, but I would remind you here, **that Sustained Effort is the Seed of Synthesis,***

***the Cause of Achievement and that which finally overcomes Death.*** Do not misunderstand Death in this context! Death is really the deterioration in time and space and is due to the tendency of matter-Spirit to isolate itself, whilst in manifestation (from the standpoint of Consciousness). This Sustained Effort of the Logos is what keeps all forms in manifestation and preserves even the Life Aspect as the Integrating and Implantation Factors in form building and, which is equally an Act of the Sustaining Will, that can Abstract or withdraw a lifestream of consciousness that remains Intact at the close of a cycle of manifestation.

*“Death and limitation are synonymous terms. When the consciousness is focused in form and identified entirely with the principle of limitation, it regards freedom from form life as death; but, as evolution proceeds, the consciousness shifts increasingly into awareness of that which is not form and into the Realm of that which is Transcendent or into the World of the Abstract, i.e. into that which is Abstracted from form and Focused in Itself. This, by the way, is a definition of meditation from the angle of goal and achievement.*

*“A man or woman can truly meditate when they begin to use the mind, the reflection of the Will Aspect, and employ it in its three aspects: as Initiating his or her entrance into the World of Souls, as conditioning his or her personality life and as enforcing and eventually bringing about a Full Expression of Soul Purpose. This can be understood in its entirety once an individual, or now as a Group Unit has reached the levels of Higher Consciousness within the Cave of Creation. This results in the complete overcoming of Death. I Am bringing this whole concept down into terms of the microcosm, even though it will be obvious that only the Pledged Disciple or Initiate in preparation for Initiation can begin to grasp some of the significant Higher Implications.”* End Excerpt.

And I Am bringing the concepts down into terms of the Macrocosm! One must, **‘Know’**, their limitations and not continue down a Path that they have not yet attained requisite Levels of Understanding. In My Book *‘Alchemy – Formulas for Self-Transformation’* I said,

*“Now we approach with Reverent Hush, with the awe of Sacred Awareness, the great Spiritual Laws Governing all outer manifestation. The Purposes of God become more near to each one as they become more dear to him. Realize what folly it is to submit to the false tenets of any Educational System. Yet it is equally foolish to deny the inherent truth and the tested precepts of academic knowledge.*

*“To Know Nature, Know Thyself; but Master the Art of Sacred Synthesis. Thereby the Justice of Truth shall serve to integrate within the field of knowing that inner relativity and cosmic measurement between nature and the Self whose precise mathematical action indicates that as God geometrizes, so man is able systematically to perceive and demonstrate a correlated understanding of the wondrous works of God's Hands, minus the fallacious wizardry of the carnal mind. By stripping human thought and feeling vibrations from the Creative Grace enfolded within each atom of the creation, the whole substance of life gleams, Purified by eternal hands. Now this is as it should be!*

*“The grossest error, the most intense suffering, all are caused by an erroneous approach to pure reason. Do you realize, Blessed children of mankind, that few there be upon earth who*

*would knowingly persist in wrongdoing were they convinced with certainty that they were so engaged? It is up to the Master Alchemists of the race, then, to Serve God and man to the ultimate by removing every trace of malice and ignorance from the screen of the human consciousness, commencing with each one's own personal concepts." End Excerpt.*

I explained the other day, that Our Role here is 'very specific' and is not part of the Group Soul Conscious Expression from within the exoteric education of the masses. Therefore as Part of the Core Group, there is much that will be expected of those who will continue, to not only 'Understand' the Greater Applications of Cosmic Law, but to be able to 'USE' them in your daily life, Now! Why do I highlight the word 'USE', 'the fulfilling of the Great Universal Law of Service'? Because I want you to 'SEE' this word for its True Meaning every time you place your eyes upon it, every time it comes into your mind, every time it comes out of your mouth; to Know its Truth and why you are 'USING' it! To distinguish instantaneously the reason you are using it for, self or Self, personality, or Impersonality! I gave the Higher Definition of 'USE' in My 3 Steps in the previous exercise for a reason of Great Import. An 'exercise' which you are going to be 'Tested Upon'; to clarify the position that each of you are in right now, as to its practical, mental, and emotional Application within the stability of your 4 lower bodies in Harmony and Balance of Heart and Mind. Here no doubt can exist, any longer within this Nucleus of Group Synthesis; within the Creation of the Christ Councils; within the 'USE' of Cosmic Law!

Yesterday, Dear Sister Jeannette, offered an excerpt that I would like to share with all today! It comes from the Book 'Cosmic Law Chapter of Perfection by Nada Yolanda'.

*"The way to restore the Divine Pattern is by dwelling on the Divine Pattern, by knowing in your heart and feeling most earnestly that that Divine Pattern is your natural heritage. This would apply to want on the physical, supply or substance. This would apply to health, the pattern you are expressing in your body. This would apply to all your relationships with all LIFE whether it be other people or the harmony you would feel in life itself, in your expression itself.*

*"It is True that the true child of God lives in a paradise or and Eden. In order to manifest that Condition of Perfection, one must recognize that he or she is Truly a Child of God and all is Perfect in that Image."*

*"Therefore, with this concentration of the Light and Love of our Father Mother God, we are drawn together and become a whole aspect, a whole demonstration, a whole race returning in Perfection, in love and in service; being one with one another, thereby loving one another, showing and demonstrating the Love of God, who created us one, One, ONE."*

*'Be therefore Perfect, even as Our Father in Heaven is Perfect'! End Excerpt.*

I have therefore given you a Divine Pattern, it is NOW your responsibility to USE this 'Pattern' in your own life for the Highest Good of All Concerned. In the exercise I have given you to understand as a Group Effort individually, is to bring each consciousness a realization that you

are either in a position right 'Now', to be able to provide the disciplines needed to fulfil your own personal desires. That is, to be able to Create whatever it is you require in your life. The Truth is, if one cannot do this for oneself consciously and with full Understanding and Intention that will produce results, either instantly or in a very short period of time, how would they do this as part of a focused Group Endeavour, such as a task within a Circle of Light, be it a Living Organism or Christ Council.

The EGA is coming to the point of its Evolution to take on far more Activities which will require Sustained Effort of its Members. And I do not mean, half-hearted attempts that are engaged only when time is available for them, or where personal focus is drained away into other directions, that could with discipline easily accomplished, or where any attitude of *'I will do it when I am ready or when I deem I have nothing else I need to do for myself'*. I refer to those 28 Conditions of Engagement, not personal life priorities!

So, I wish to repeat this excerpt from Part 2, to reinforce the need for this 'exercise' to be completed now as a TEST, as a major priority if you are going to remain in this Class.

*"Until this is fully understood you cannot and never will get your manifestation; for the moment a human element enters, you are taking it out of God's Hands, and of course it cannot express because you are neutralizing it by the human qualities of time, space, place and a thousand and one other imaginary conditions which God does not recognize.*

*"No one can ever '**Know God**' as long as he or she considers a force opposed to God; for whenever he or she acknowledges that two forces can act, they have a resultant quality of neutralizing activity.*

*"When you have neutralization, you have no definite quality either way. You merely have nothing, or no thing in your manifestation. When you acknowledge '**God The One**' you have only Perfection manifesting instantly, for there is nothing to oppose or neutralize it, no element of time. So is it established unto you, for there is none to oppose what God Decrees?*

*"Conditions can never improve for anyone until he or she desires Perfection and stops acknowledging a power opposed to God, or that there is something either in or outside of them that can prevent God's Perfection from Expressing. One's very acknowledgment of a condition that is less than all of God is his or her deliberate free will choice of an imperfection, and that kind of choice is the fall of man or woman. This is deliberate and intentional because he or she is free every moment to think what so ever he or she chooses to think. Incidentally, it takes no more energy to think a thought or picture of Perfection than it does one of imperfection." End Excerpt.*

We CANNOT, therefore, under any circumstance, continue herein, with neutralization through the lack of '**God the One**' for what is being Created here. So unless you '**Know Thyself**' First, then how can one '**Know God**'? I have given a whole Discourse to this very aspect. *Part 5 – Introduction - IAMEGA SOEPC Class – Know Thyself First - Alchemy and The*

*Application to God Life - St Germain 27th January 2020.* Revisit this Discourse, because therein lays some very profound ‘*Understanding*’ that qualifies the difference between either still seeing oneself in an incomplete state of Unity Consciousness or one standing upon a threshold of KNOWING themselves beyond the constraints of daily lives and outer world conditions, For no Master Alchemist remains connected to anything of the outer appearance, has no opinions about anything, only walks toward that which They see is the world they wish to live in! In Our Case here, this is the New Human Race of the Second Coming of The Christ Ones!

I wish to close for now by sharing what Our Dear Sister Sue brought to Light last night that many have just stepped into or are just about to step into a ‘**Bubble of Life**’ that will assist in the removal of oneself away from the outer world activities and world affairs. This morning, as Peter and I were closing off on this Discourse, Sue came into the office and shared the New Discourse from Beloved Archangel Michael through Ronna Herman which sums up His Discourse in this excerpt!

*“As you actively seek en-Lighten-ment and strive to return to balance and harmony within, it is important that you become aware of certain karmic limitations which your Soul has accepted as a learning experience in this lifetime. There are specific limitations and conditions that cannot be changed, and the lesson is to accept them gracefully and to strive for excellence within the framework of the boundaries that have been imposed upon you; not as a punishment, but as an opportunity to balance discordant energy and thought patterns.*

*“However, we wish to emphasize, this lifetime is unique for every Soul on Earth, and no matter what circumstances you were born into, there is an opportunity for greatness and a reservoir of knowledge and talents needed to attain Self-mastery. You were designed to be a master of manifestation, a cocreator with God-given abilities. The first step is realizing that you have programmed within your DNA, Genius Potential and a broad spectrum of talents and abilities. You chose, before you incarnated, a set of circumstances with specific abilities which are more readily available than others. However, even though the full range of your gifts and talents is held in reserve, you have the ability to bring them to the fore so that you may begin to actualize, integrate, and use them.*

*“You must have access to the higher Dimensional levels of the brain in order to make contact with your Soul-Self and the Beings of the Higher Realms. Your brain is composed of multiple levels of consciousness. The lower brain and the three lower chakras are the realm of humanity’s animal-human consciousness. It is mostly instinctive, drawing much of its information from the collective consciousness of the astral plane as well as from the Earth’s consciousness. Survival and the ego desire body are in control of the masses’ thoughts and desires, and thus form the prevalent picture of reality. The focus is on the external, material world and on service to Self. As your consciousness moves into the mid-level brain activity, you begin the process of becoming a Spiritual-human Being, and your feeling nature will gradually move upward to incorporate the heart and the throat chakra. A gradual awakening*

*process begins as your Soul nudges you onto the path of awareness, and the journey of Ascension begins.” End Excerpt.*

The whole Discourse is well worth the read, that may fill in a few gaps for those who are not yet completely up to speed as to what is transpiring here within the Elemental Grace Alliance or Class of Alchemical Transformation.

Finally I say to you all, I wish to open this Class once again to a Group Effort in dialogue exchange, so if anyone wishes to share or ask questions then please do so, for interaction is a Primary Activity in discovering the Understandings needed to step outside of the New ***‘Bubble of Life’*** in a Mastery of your Entire Inner and Outer World!!!

Regarding the Exercise, begin now! You know what to do, and what to Create! We will discuss this again within the framework of the Discourses, however, know the aim is to assist you to rise above your own limitations no matter what level you may be within your present manifestations or not. But it is time to be Honest with Your Self, as to the continuation herein or to step back and continue your Soul Designed Experiences for this Lifetime. This is the most important thing you can do right Now! This must be a self-Realization, if you are going to raise yourself into the ***‘higher Dimensional levels of the brain in order to make contact with your Soul-Self and the Beings of the Higher Realms’***.

**To Know God First Know Yourself!**

**Take the Path of Least Resistance!**

**No Longer Seek Further That Which Is Seen,**

**Rather Seek ONLY Now That Which Is Unseen!**

**May You Pass Every Test.**
