

THE ROCK OF INERTIA – ST GERMAIN 5TH JANUARY 2021

INVOCATION: Mighty 'I AM' Presence, establish the Mighty Power of Agreement Within myself, Within the Living Organism I have Covenanted to Serve Within, to Transmute Emotional Patterns, to behold and embody the Agreement in action the functioning and activity Within the Group. This Divine Command Is Given Through my Beloved 'I AM' to Take Control of the lower emotional body. Divine Understanding and Divine Imagination Permeate my Cultivated and Disciplined Attention to Hold Control of my lower emotional body, lifting emotional energy upwards with the Joy of the Soul in readiness and expectation of the Descent of the Cosmic Emotional Body into me, into the Living Organism, the Nation and the World, During All Creative Activities and in Meditation. 'I AM' Giving my Life through Agreed Application to the Source and Substance of Perfection, Which Is the Light, the Boundless Supply of Nourishment to Every Electron of Life, as 'I AM' the Full Activity of God. With Love, Joy and Wisdom, I Turn Constantly to My 'I AM' Presence, Calling Forth in this Now Moment the Power of Inner Sight, Inner Hearing, and Inner Music, Into the outer Faculties of mankind. 'I AM' Calling Upon the Ascended Host, the Angelic Host, Beloved Jesus, Beloved St. Germain, Mighty Hercules and Cyclopea, and Beloved Peace and Aloha to Render All Life the Complete and Eternal Release from all negativity and fear, for the Light to be Illumined In my feeling world so that I can be the Divine Template that allows the Flow of this Illumination into humanity's feeling World.

ST GERMAIN: Divine Plans often expand and unfold in unanticipated ways. As the conception of Adam Kadmon was expanded to Adam/Lilith Kadmon, recognizing an unexpected turn of events, the EGA Divine Plan as a Living Entity brought an expanded Understanding to bear. Understanding then, or more specifically, Divine Understanding, is a Virtue that is as relevant to a Divine Plan as it is for the Living Organism.

And it is with this stage set, with You All as the Players Cast, that I begin this Message today. It was once written that, *"To see behind the shams of men the fraud they have created, attacking Truth and Sons of Light, Whom they have oft berated. Now, I might add, this 'not so bad' assessment of our friends is bad enough through lacking Love, how have they have underrated! But we who've been a part of earth and felt the lash of tyrants bold – for freedom's sake we now do make a call to hearts of gold."*

The Call to Hearts of Gold could be interpreted in several ways. Yet, the interpretation I trust you jumped to concerns the Call from the Heart behind the heart, to the heart of your awareness. As a beating heart pumps blood around the body some 60 to 90 beats per minute, it might not surprise you to know that in Christed Awareness you could easily have 60 to 90 Thought Units of the Heart of God Beating through you every minute. It is in such embodiment that the Christ Council is Birthed.

Given the urgency of the Birthing then, that which has surfaced through the Living Organism has been fascinating to behold. To support the Revelation of a deeper Understanding I will

share another wise phrase offered in times past that, ***'Life leaps like a geyser for those who drill through the rock of inertia'***. This, Beloved Masters, is the invitation. However, to accept this invitation, to drill through the rock of inertia, you must expand agreed upon Understanding. In the interests of time, I shall leave you collectively to determine which previous Discourses have referred to the need for Understanding.

This Messenger, currently accepting the mantle of Force Attractor this minute, has Talents and life experiences that I am placing centre stage in this scene as a Teaching example in this Discourse. His conduct these past few days highlight what can happen when you take your eye off the ball, when your focus slips. While I know Carewen is ready and accepting to be the focus of this example, the purpose of this is example is to remind you all that experience tempers Understanding.

Consider medicine's efforts to pioneer and perfect organ transplantation. A man, Alexis Carrel, who had been inspired by sewing lessons from an embroideress, in turn was inspired by medicine's failure to prevent a French President from bleeding to death. He combined an understanding from past experience and applied it to additional understanding, and so was an innovation born. I do not need to explain to you how this was far more than just an individual unfolding scientific understanding. And yet, had you turned around to anyone on earth before that moment, you would have faced a rock of inertia at the idea that a heart could be transplanted into the body.

Indeed, with prescience you might have responded as Jesus did to Thomas, ***'Blessed are those who have not seen and yet have believed'***. In Possessing Christed Consciousness you would not criticize, you would recognize refined Divine Understanding appreciating the need of experience to work through the emphasis upon the physical, deepen the Understanding of matter, to transcend all the temptations it has to offer, to then believe and eventually know the Workings of the Spiritual Self. In addition, such a Son of God would appreciate the blind spot of medicine, of science for that matter, that currently exists that leans almost entirely upon proof of the physical senses. Organ transplantation is now readily accepted because Science has physically proven its efficacy.

However, a Son of God has had Spiritual Proof that upon the Fusion of the Personality Ray with the Soul Ray that Cosmic Etheric, Emotional and Mental Energies descend, in response to their elevating their lower bodies, that result in a Holy Transplantation of every organ, indeed of every aspect of their physical body. But in order to have obtained that Victory they would have had to have cultivated all the Divine Virtues, including Understanding.

There is no shame in the journey of discovering the extent of the physical, and the innovations through it, to deepen the potency of physical proof. Experience is after all always Expanding the Perfection of God. What holds science and medicine back though is their reliance and magnetic attachment to physical proof. This of course comes about through the attachment born of the attraction-repulsion impulses that the ego is built upon. Medical experts are as attracted to the physical proofs and competency that results in inflated status and earning as

they are repulsed by any suggestion not supported by physical proof. Of course, there are always exceptions that break through such miasma. However, do not underestimate the Potency that comes through all those experiences that leaned into physical proof alone to build an urgency to ultimately discover that science and spirituality must come together; Understand the cause of momentum.

In turn, because there is an outer physical expression, or effect, of the inner, invisible cause, humanity is presented with proof of the existence of the Law of Cause and Effect. Obviously, most have yet to consciously make this connection. But there are some who are beginning to do so.

Some of you have already made the connection between Understanding and Imagination. Our Messenger for this Discourse has made an earthly career of educating others that learning that effect, what is presented at the surface of the physical, is associated to a cause, and by delving through the layers of cause to the root cause you can truly solve problems, come to an agreement on what must be done. In turn, once cause is understood this will inevitably open a doorway into Imagination. The twin and coupled Virtues of Understanding and Imagination are yielded through the comprehension of balanced functioning. How you function, the Agreement on the Sequence of Work, the processes you follow as a Group, become True Illumination.

Between your present disagreement and the Goal of True Illumination lays the rock of inertia. In Christ Letter 1, Jesus offers a profound Insight concerning the rock of Inertia and that which presently holds the Group back.

“Your emotional patterns can be as damaging to your overall welfare as your mindset. Your mindset together with your emotional patterns are your creative tools. These together create the necessary outlines for future possessions, events and circumstances. These CREATIVE TOOLS work in your life whether you intend them to or not. It is far more difficult to discover your deep-seated emotional attitudes either conscious or subconscious than to recognize your mental conditioning. People can be possessed by negative emotional patterns and be quite unaware of them, since they are covered by the moment-to-moment emotions arising from the daily routine.”

Emotional Patterns not only exist in the individual, but you are constantly immersed in them until the Dawn of Your Victory. We will not cease reminding Humanity of the need to stay on Guard until the Final Victory because ever will your own un-Transmuted Emotional Patterns be magnetized by that which you are immersed in and surrounded by; negativity, fear, hopelessness, the major tonal quality of the emotional miasma created by humanity being felt in the world at this time. It is yours to Transmute these fears with the Joy of the Soul in the Name of Your ‘I AM’. Why do you think the Invitation from Beloved Jesus in the Christ Letters for Groups to meditate came through to your Living Organism? I shall leave that for you to contemplate and to arrive at your own Qualified Discernment, for example to consider the manifestation of Agreement in this Living Organism as evidenced by the number of Dear

Souls in the SOEPC and the number of Souls that physically or non-physically currently participate in the Sunday Christ Meditation Circle Of Light.

An analogy to Emotional Patterns and their impact on your lower bodies can be found in Nature. A non-emotionally charged thought is like a finger running through water, with the next moment removing the groove through surface tension. Intensified emotional, magnetic energy is like the finger running through sand, with the rising tide removing the groove. A lifetime of Emotional Patterning is like the carving into a rock grooves that will take specific and applied effort to smooth out. This is the impact of being unconsciously in agreement with old Emotional Patterns. And even then, the rock will never be the same; this is Wisdom. Agreement is the Group Unity that exponentially magnetizes the Potency of all that is required to smooth out those grooves, intensifies the Violet Transmuting Flame, and widens and strengthens the hands that grasp the Opportunities that greet you every day.

The key to Understanding any realm is through the sense's native to that realm. The emails you read with your eyes and react to through your fingers brushing keys are offering you Understanding through experience. The Agreements that you do or do not make are offering the Group understanding through experience. Your Understanding of the methods of operation on the human plane of existence is preparing you for Understanding of the methods of operation on the Higher Planes of Existence.

In the Discourse Part 14 - Divine Economy – Getting to Know Rays 1, 2 & 7 - Master Rakoczy, 15th December 2019, the Great Divine Director tells Us that,

“the Third Ray is the Expression of the Third Aspect of Deity, that of Intelligent Activity. Prior to this transition between an old and a New Age, civilization was predominantly a Third Ray Expression, an Expression of Intelligent Activity within the form nature. The Seventh Ray found expression in primitive culture, primitive race, in their ceremonies, in their attitudes, and so on, but was never built up into the Higher Forms of Civilization, the Higher Cultures, until this period into which humanity is now transiting...The differentiation between the Third Ray and the Seventh Ray is at first very hard to find, very hard to perceive.”

Through experiences, yours is the task to reveal that differentiation between the Third and the Seventh Ray. He continues.

“The Seventh Ray expresses without regard to time and space, and this is the basic difference between the expression of these two Rays within the civilization. The Third Ray demands that the working out from the subjective into the objective must follow specific, defined steps that make their appearance, each one, in the physical Plane of affairs. The Seventh Ray Expresses Itself without regard for this sequential manifestation of each step or each sequence which results in a final appearance.”

The Reminder of the *Living Framework for a Living Organism Study and Guide* to the Administrative Circle was made in Divine Economy. The preceding call to **‘Pay It Forward’** and to come to Agreement on how your function as a Group is founded in the Third Ray in

Preparation for the Seventh ray. Upon this Foundation of the Agreements of how you function as a Group through the Living Framework, you are invited in this phase of Revising these Agreements to express without regard to time and space, to find the Magic that allows for these Agreements to result in outcomes without regard for the sequential manifestation of each step which results in the outcome; to be aware that the Seventh Ray follows its own logic, even as it is governed by several Cosmic Laws working in relationship with one another. Your Agreement in the physical will lead to the outcome of a deeper Understanding, which in turn will reveal through your Imagination the drawing down of that which does not account for the physical.

The motive for the Call for Agreement can be found in these words from the Great Divine Director.

“In other words, through its Synthesizing action, the individual breaks through his or her ring-pass-not to achieve an at-one-ment with others at his or her own particular level of development, so a True Group Consciousness can be known. This is one of the immediate steps in the evolutionary process.”

It is imperative for the individuals of this Group to keep a more concentrated and Focused Control over the thoughts, emotions/feelings, written and spoken words. This includes the words not spoken, that then erupt later on in an explosive reaction, brief or sustained. This Focused Control must walk hand in hand with Cohesion.

The Maha Chohan, as Guest Speaker to The Elemental Grace Alliance Council on 9th January 2016 in the EGA Book 1, laid the groundwork for what has been revealed through the Call to Agreement, to the establishment of Repeatable Patterns. The Call to Agreement is a Formula that yields a **‘Forcefield’**, *‘a consciously magnetized focus of Energy Created by a person or a group of persons or Beings, for the objective of Benevolent Service to a particular Principle, Facet, Function, Condition, or Area of Life and ultimately to the entire Earth Itself’*. He continues;

*“In the case of the group activity, the Director/s, Ascended Master/s, Archangel/s or Elohim/Eloah who have been Elected to Over Light the Group in cooperation with the Group, first designs within the minds of its Disciples and Members, the particular Activity, to which the group service is to be consecrated. Therefore, the actual design of the **‘Forcefield’** should be brought into a visual activity, as in an image or picture, so that all may be sure to direct their energies into the same activity. It is essential that this picture remain the same at all meetings once it has been drawn forth so that it will grow and expand its Blessings through the group into the entire declared parameters of the particular Principle, Facet, Function, Condition, or Area of Life.”*

Do you think it is coincidence that Section 1 of the Living Framework contains so many images and pictures? He continues;

*“A **‘Forcefield’** usually takes on the form or pattern of the actual activity which a group of individuals desires to Magnetize and Radiate forth for the Impersonal Blessing of All Life. I emphasize, This **‘Forcefield’** is as Powerful as the Interest, Enthusiasm, Faith and Constancy of the Endeavour of its component parts, the Disciples of unascended beings.”*

You are invited to read both these Discourses as free will moves you to deepen your Understanding.

The final element I wish to reveal at this time concerns the past effort amongst this Living Organism to come to Agreement upon Alchemy. I Am Instructing this Messenger, and Beloved Soul Partner, to bring forth the Images and pictures, once Curated, resulting from their recent studies of My Book, *‘Alchemy – Formulas for Self-Transformation’*. Even as you are invited to anticipate these sharings, know that you are also invited to Qualify All that is received and to come to Agreement as a Group on what you will do with them. It is time for your collective embodiment to come to Agreement upon how you shall, as Alchemists, as Sacred Scientists, Take Dominion over the Earth, how you will collectively Induce Change by the Sovereign Will of the ‘I AM’ Presence, how as a Group you will establish the **‘Group Patterns’** that will invoke the Will of God, and to Qualify as a Group Your Pursuit of the Purity of Purpose.

I shall bring this to a close by inviting you all to Qualify the Emphasis upon Agreement of the Sequence of Steps taken by the Living Organism, the Call for the Living Framework Circle Of Light, the Patterns that will Call Forth the Understanding in the Third that will Herald in the Seventh, that through Ritualized Agreements in EVERYTHING you do will allow Imagination to harness the inputs that flow into your processes, the activities that you agree upon and the outcomes that, without regard for the sequential manifestation of each step, will Reveal the Magic of Synthesis through you all. Know that through Qualified Agreement in Group Thought, Group Word, and Group Deed will the Living Organism come to be the Christ Council.

BENEDICTION: Beloved ‘I AM’ Presence, ‘I AM’ Grateful for the Agreement now Manifesting through this Living Organism, for our Mastery and Manifestation of the ‘Forcefields’ of Potency Birthed through this Living Organism. ‘I AM’ Grateful for the Partnership between the Cosmic Beings Giving their Boundless Blessings and the Living Organisms being Prepared to take their Seats upon Christ Councils. May Peace and Divine Love Go Forth, Stilling the Turmoil of the World Wherever ‘I AM’. Our Radiant Circle of Light Expresses the Outpouring Love and Gratefulness for the Strength of the Light Within and In All, as ‘I AM’ One With the Manifestations of Beauty and the Creation of the Great Cosmic Beings.
