LORD MICHAEL: Thank you for returning so quickly with such enthusiasm to try and understand what all this means, the Resetting or indeed, the Collapsing of the Time Matrices for this 3rd Dimensional Plane of Existence, so that it may Re-Unite with its Origins as a Christed Race of the Adam and Lilith Kadmon Seed Consciousness, the Second Coming of the Adamic Human Race.

Let Us return very briefly again to the Root Races. I will not go into any detail, as these have been covered within the EGA Discourses in the past, however, as an overview at this time, My Aim here is to Create a Bridge of Consciousness between the Consciousness of Humanity and the Truth of the Elemental, Devic and Angelic Host Realms. And while We are speaking historically herein, dealing with all matters of these Timelines aforementioned by Lord Melchizedek from a Space Time Continuum perspective, it is all happening Now within a single Now moment. For as many will understand, time is based on a linear Timeline that is only for the purpose of Lesson and Experience in terms of the physical form.

There are 2 Cardinal Phases of the '*Path of Pilgrimage*' for Humanity; a Descending or Involutionary one into matter and an ascending or evolutionary one out of matter. These Embodiments are known as Elemental Phases which occur upon a Descending Arc of Consciousness passing through the different '*Planes of Nature*'. These are actually At-One-Ments of the Monad within the Elemental Substances of the physical Planes, as the Monad,

or the 'I AM' Presence or Inner God Causes the Cosmic Trinity will be able to ultimately find its Full Expression of God Life.

During this Pilgrimage the Life-Waves make Seven Great Rounds about the Earth. The Arc of Involution Embraces three and one half of these Rounds, so that at the middle of the fourth Round the Life-Waves can neutralize and then begin Their Own Ascension Rounds. The second half of the 3rd Root Race of Humanity, as a whole, was increasingly enmeshed in the materialistic ownership and tenure of that period. Then due to these obsessions, addictions, dependencies and coercions to materialism the following 4th Root Race became even more deeply involved than the preceding one. And so much so, they went to great lengths to acquire it, at any cost to another. Now you are in the 5th Root Race and this obsession of materiality has flowed over into sensuality as well, not to mention bestiality, which makes them become very much like animals, savages, cruel and merciless without heart, conscience or remorse. Look around the world Dear One's and you do not have to understand much to know the devastation that follows in such activities against the True Reality of Divine Spirituality and God Life.

This lack of Divine Spirituality, evinces an amazing phenomenon of godlessness, and an astonishing increase of nullification or the lack of Human Rights or '*For the Greater Good of All Mankind*'. This Dear Ones, since the turn of the twentieth century, has played out in 2 world wars and multiple localized national conflicts against other human beings: all based upon materialistic greed and malicious intentions. And today, as we gather herein this Conclave, you have yet another war playing out, by one who thinks he has supposedly greater powers to claim what is not his as his own!

Today the world judgement is a concomitant of Crisis in Eternity and eventually which has been precipitated by the aberrations of humanity in their search for Salvation through wholly materialistic and sensual means. It has come to be so that men, seeking after material salvation, have not hesitated to use the "*Golden Vessels*" from the "*Temples of Reality*"; The Teachings of Our Beloved Christ Jesus, and the ecclesiasticism, for the purpose of substantiating their gains and purchasing therewith material salvation to the outright exclusion of any Divine Spiritual Meaning or Cosmic Law. There are governments all over the world secretly stealing monies from the people they supposedly serve. People who believed when voting them into power, that they would serve with honesty and good faith. And there are those who hold power over those in government, who, by self-election and cannot be voted out of those more powerful positions where money and materialism, overrides any manmade laws of judgements.

Consequently Dear One's, that is why only those of the New Cosmic Christ Councils and Circles of Light, to begin with, Who Carry the Cosmic Laws within Them shall be the Ones to bring these dark forces to Justice, not physically participating and not in any human law court anywhere in the world. That is not Their Work. Their Work is to Pave The Way, make the

Calls, Giving Invocations and Hold the Love Vibration, the Agape Love to all of them, and thus let this Light and Love will do the Work that will simply return their own projections back upon themselves, so they feel and experience the effects of their own misdeeds! They will be, their own Trial and Jury, and they will serve their sentences in Accordance with Cosmic Law.

These New Children of God will become the New Governments and Authorities of the World, Who Will By Their Very Nature of God, bring Reform to all Human Societies in Every Nation Around the World and Who Will, Through the Cosmic Trinity Orders and Ray Energies of The 12 Mind Powers of Christ Consciousness, not man's laws, but by the Cosmic Law Call of Divine Justice bringing all perpetrators of crimes against humanity, the Elemental Kingdoms and Beloved Mother Terra Herself, Will Initiate and Implement Divine Accountability, where anything that is hidden or secret will be used also to Reveal the Truth and make it Known!

This New *'One World Nation'* Order will Represent and Embody a *'Tide of Power'* in All human affairs, as well as Terrestrial Affairs outside of humanities present awareness, yet that will also be reflective within the affairs of humanity. It is therefore Calculated and Qualified, that this Tidal Wave of Transformation through Divine Justice will begin to carry the whole of Humanity Upward, Onward and Back to the Unity Consciousness of the Christ and Divine Truth of Source.

However, humanity is still within the pangs and the pains that those who shall continue to try to hold onto the momentum that they have experienced on present levels of materialism and their unethical, unscrupulous and corrupt means, to gain and amass materials properties, wealth and any other dishonourable activities that destroy, kill, main, dismember human life, mentally, emotionally or physically, who extinguish, rescind, displace, damage corral or force the Elementals, Devas, Angelic Kingdoms, Animals, Plants, Minerals or any Bio-organisms to make them go against their Own Individualized Charters with God. This they do 24 hours of every day in their abominations of mis-creations. Those people who do not desire to change and reform to the Pronouncement and Divine Enforcement of the Cosmic Laws upon this Planet will be Streamed to their own consciousness and dealt with in Accordance with Cosmic Law and Divine Judgement.

This Movement was Initiated 1947, by Cosmic Decree and the Dispensations that followed. This Path will not be easy, it will take some Great Sacrifices by Humanity as One Voice! But the Dispensations which have now been Ushered in by this New One World Nation, as a very Powerful Stimuli, is Applying the Mighty Thrusts Forward and Upward, as can be Qualified by these Resetting of Christ Time Upon Earth and The Christ True Virgin Dispensations now Granted to Activate and Initiate this Divine Plan, to finally disempower or remove any life streams, no matter where they are, or where they come from, and what form they take, thus preventing them from continuing their inhumane supremacies against the Freedom of All God Life, once and for all here upon Planet Earth!

While this Divine Plan will take many generations to complete, according to today's mass consciousness beliefs and programs, it will continue to accelerate the Alignments of Time Matrices exponentially by Those Who are Ready to Accept and Fully Embody their own Authentic and Origin Divine Rights.

This expansion of Consciousness to the Cosmic Proportions is the Quality upon the Individual Soul at the Time of Inception. And Immaculate Inception by which the Divine Qualities and Virtues of the Masculine and Feminine Energies were Present in a Unity of Cosmic Consciousness in Divine Balance. It is for this reason that it is in the Province of Every Soul to achieve Cosmic Consciousness and the Endless Expansion of Being. To open up to the Channels by Means of which this result may more readily be achieved, is one of the Outstanding Purposes of the New One World Nation Order and the detergence of the errors of Humanity in connection with the Projected Renovation, Rejuvenation and Regeneration through Bio-RegenesiS of Earth and Its people.

Cosmic Consciousness, Christ Consciousness, is the inalienable Birth Right of every Human Being. This is in spite of the fact that many may not for an eternity attain the Fullness of Illumination which it Implies and Bestows.

After Cosmic or Christ Consciousness has been attained as a result of the Bestowals of an Illuminating Intuition, it will then become necessary assiduously to articulate and give Voice to the Knowledge and Wisdom perfected and to then Systematize the Experience in accordance with the Norms of the Theory of that Knowledge. Anyone who has been privileged to enjoy these Bestowals of such Intuition will most Know how utterly impractical it is to subject that Information to Cosmic apperception to epistemological analysis and scriptural records, even though a whole lifetime to be devoted to a task, so great is the minutiae of cognition involved in the revelation! This Dear Ones, goes back to what Beloved Lord Melchizedek said about the content relating the Grandeur of this Work and all it contains is but a grain of sand upon the beach, in comparison to the Bigger Picture. Even Bigger than the thousands of Cosmoses connecting to this small Planet We Call Earth. Small She may be, but vital to the Overall Divine Plan, everything depends upon Her and this is why it is so important to Keep things on track Cosmically Speaking at all costs!

Following the Lead of Lord Melchizedek, I too will Call Upon the Words of Your Sister Lisa Renee, however as some of what I will share now is a little outdated I will update the relevant information as We go!

The Pinnacle of the Ascension Cycle marks the end of the 3rd Dimensional Collective Timelines on the Earth. As the Planet is moving into Higher Frequencies that are located in a future Time-Space, it is Shifting the Planetary Consciousness into a future Dimensional Octave. This skips the entire Planetary Consciousness Field, therefore the collective human consciousness, into future Timelines that Resonate with much Higher Dimensional Frequencies. Many of you

on the Ascension Timeline have already transcended these lower Dimensional Timelines. What is important to discern is that this is a Planetary Event that is impacting everyone on the Earth and beyond, which is a Frequency Shift in the Collective Consciousness Agreement that results in the Bifurcation of Time.

This Planetary Body is now within its Shift Cycles into the Higher Frequency Band that is located in the next Harmonic Universe. This event will change the Planetary Coordinates, Planetary Timelines, thus changing where the Planet is actually located in Universal Space-Time. The Collective Consciousness in the Planet has been Shifting through Dimensional Frequency Bands quite regularly, during the Ascension Cycle since the Harmonic Convergence began. However, what portends this will be a major Collective Consciousness Shift, is that the Planet is rolling up the lowest three Frequency Bands, 1D, 2D and 3D, into the Higher Frequency Bands in the next Harmonic Universe. This means that the lower Three-Dimensional Frequency Bands will cease to exist in the planet. All that will remain is the Frequency accumulation that the collective inhabitants generate in their own consciousness, which are the energies that form from their own mental beliefs, behaviors and actions.

The people that remain in the 3rd Dimensional Consciousness after this Shift will find themselves increasingly uncomfortable, extremely pressurized and unhappy. Thus, many will feel the squeezing pressure to transform rapidly through the Alchemical Theme of Polarity Synthesis, which helps to bring completion to these old karmic patterns from the past, if you are willing to let them go. This purging process will add or subtract the required Blueprint Patterns that you may need to meet these new coordinates in the earth grid, and to help clear out the unstable or dark force influence in your lives. You are being purged deeply and the remaining content is processed into Higher Light and Consciousness, to be Stabilized and Synthesized into the body, in order to improve Energetic Coherence and Spiritual Strength. Your responsibility now is to practice Unconditional Love to all that you see, and to see everything and everyone around you as connected to the Unified Whole. At the same time, make clear then the intentions of where you all place your Consent, in Higher Authority. This Loving Intention and Compassionate practice will keep your Heart Open and Aligned to the Source Field, and will make the Transition much more comfortable.

The deep Reconfiguration that is transpiring within the Planet's Holographic geography is effecting the Operation of Stargates, Power Vortices, Ley Lines and Ray Force Transmissions. As a result, this trickles down into the Collective Consciousness of the Human Race, directly impacting the consciousness functions of the human Light Body, Spiritual Identity and Timelines. The Macrocosm Architecture is undergoing a Radical Shift, and this in turn manifests a chain reaction that profoundly alters the configuration of the human Energy Field and Light Body. Events that profoundly alter your Energy Field, produce radical changes in your life style and relationships.

Many of you have been preparing for the Planetary Alignment since the Harmonic Convergence on August 16th to 17th of 1987, ready for the next Harmonic Universe Shift that

took place in 2017, which did require the assistance of several hundred thousand people who were the Incarnated Planetary Grid Workers to help clear out Multiple Timelines, devices and implant structures that were recorded in the Collective Consciousness Fields, either from the accumulated past miasmatic Energies, or that were created with artificial intelligence. Then again with the Harmonic Concordance on November the 8th and 9th of 2003. 2012, on the 21st of December was also Highly Significant as it was the Beginning of the New Time for the New Earth!

That five-year window, from 2017, culminating on 22nd of February, 2022 was and is very important in Meeting with the Mission Upgrade Deadline, for the Planetary Anchoring into the New Collective Consciousness Timelines at the end of 2017 and progressively in 2022. Having now met this Deadline of 22nd February 2022, the Planet can now increase even Higher the Threshold Frequencies that are held within the Consciousness of the people that make up the Collective Consciousness Agreements on the Planet.

In 2017, the planet underwent a precise measurement of the Quantum Field, which directly impacted the Future Evolution Timelines for all of the inhabitants there to begin moving through the '*Consciousness Corridor*'. Effectively, the Earth Body can now be Anchored into the New Time and Space Vectors in the Future Dimension, that is located starting within the 5th Frequency Band Timelines, and some as High as the 12th and 13th Dimensional Realms. This Shift in location will directly impact the Collective Consciousness Agreement, although many of the population will be unaware consciously, that this Major Dimensional Shift has actually occurred.

During the Bifurcation Cycle, the Planetary Body has gradually undergone sub-atomic shifting in the lower fields of the Particle Structure, which forces collapse in lower dimensions and rolls them up, as the entities are transited out and the leftover energies merge with the next Octave of Higher Harmonic Frequencies. As a result, the Point in Time and Space where the Planetary Body is located, and the Time Continuum in which you exist as a Collective Consciousness, is being moved into the next Harmonic Universe. Therefore, the Collective Consciousness will be subjected to the Cosmic and Universal Laws Governing the Energetic Fields in that New Space-Time.

Those of you on the Ascending Path have already made this Consciousness Shift beforehand, while you are coexisting on the Planet with many people that are still maintaining the lower energies of the Negative Ego Bi-Wave Consciousness that descend with the 3rd Dimensional Timelines. So the split in the Timelines and Frequency Schism are existing in parallel to each other, yet each person that represents either the upward or downward momentum of the Energetic Spiral, is actually located at a different Point in the Timeline. Their Station of Identity is located at a different Point in the Time-Space Continuum.

The Collective Fields of Planet are scheduled to move into the Soul Timelines of the 4th, 5th and 6th Dimensional Fields of the next Harmonic Universe. For people on the Earth that have not yet Evolved to the Point where they have dissolved their Chakra Membranes, the 4th, 5th

and 6th Dimensional Wave Spectrum will gradually replace and become connected into the lower Energy Centers where the 1st, 2nd and 3rd Chakra previously existed. The position of the Soul Matrix will Fully Embody in the Core of the human body, eliminating the barriers between the Solar Plexus and Heart. Many of you don't have the lower Chakra configurations anymore, while you are existing on the Earth Plane. This Planetary Event changes the Chakra Energy Centre Configuration in the Earth and in individual people, based upon their Divine Spiritual Integration and unique Genetic Arrangement.

In the Creational Structure of Harmonic Universes, there are two Timelines per Dimensional Frequency Band. As the Planet is moving into the next Scale of the Higher Harmonic Structure, the six Timelines that existed within the lower three Dimensions, are rolling up into the next Harmonic, so they cease to exist in the same Frequency Band. This poses a variety of New Consciousness Experiences for people on Earth that will impact memories, other Identity Lifetimes, and other historical recordings that were made to the past or future Timelines.

As many different people on the Earth are existing at different levels on the Scale of Divine Spiritual Evolution, where their base Frequency Stabilizes in their Light Body, determines their Timeline and Future Spiritual Direction, whether they are consciously involved in that decision or not. People who are not yet on the Ascension Path, but are in Spiritual Agreement with the Collective Consciousness Shift, if they stay incarnated on the Earth, the move into the next Harmonic Universe will deepen their Soul Bond within their physical body, therefore, placing them on their Soul Timeline. This will be True for the majority of the current Collective Consciousness Field. However, the Metamorphosis that occurs at the earliest Soul Initiation to Open the Heart, when there is unresolved pain recorded there, can be very confusing for people that do not have emotional Healing tools or Spiritual Ascension Context. This will thrust many Earth inhabitants into experiencing the dark night of the Soul and the Planetary landscape in the earlier stages of this shift, may feel quite chaotic and dark. As many people will be unexpectedly plunged into Communing with the Higher Frequencies, in order to Purify themselves of painful lower vibrations.

For those people that are already Soul Integrated, the New Foundation to draw upon, will allow much easier access into Higher Monadic Frequencies, making it much easier to accomplish. The move will deepen the Monadic Bond within their physical body, therefore placing them on their Monadic Identity Timeline. At the Time of Full Monadic Body Integration, the Chakra Membranes dissolve, and the Light Body Structure begins to change into an Orb Body that Accretes the Source Field or Light Ineffable.

Dears Souls, There is once again a lot of information to digest, however, all this is not as difficult to work through as long as you do not try to engage any of this from the personality ego mind! If you can remain in the Great Silence and through Your Communications from your Own Higher Self and The Masters this will all unfold with Ease and Grace. For those preparing to become the New One World Nation your 'I AM' Presence Knows Everything you need to know to follow His or Her Lead. If that was not True, you would not be here reading this!!
